FTCC
College Catalog
2013-2014
THE PRESIDENT’S MESSAGE

Welcome to Fayetteville Technical Community College!

On behalf of the faculty, staff, and board of trustees, I take pride in welcoming you and in extending thanks to you for choosing Fayetteville Tech to serve your educational needs. We find the reasons vary for our students’ selection of Fayetteville Tech as their college of choice: some are here to prepare for entering the workforce; others use Fayetteville Tech as a firm foundation for obtaining a two-year degree and transfer to a four-year college or university after graduation; some students seek a diploma or certificate program to quickly obtain knowledge and expertise in specialized areas where courses provide transfer credits to other colleges. Whatever your goals are or whatever your personal reasons are for choosing Fayetteville Tech, we want you to know that it is our privilege to serve you.

In addition to offering over 189 programs of study leading to the award of associate degree, certificate, or diploma (with many programs offered 100 percent online), Fayetteville Tech offers extensive support services to help you achieve your academic goals. I encourage you to stay focused, work hard, and take advantage of the many opportunities that await you at Fayetteville Tech.

Fayetteville Tech is honored to serve the men and women who protect our country as service members of our Armed Forces and their families. We invite you to learn more about the unique, flexible learning options available for soldiers by visiting our website and clicking on the heading “Military Students.”

A good education is the avenue that leads to new hope and fulfillment of dreams through successful careers in the workforce. Many jobs require an associate degree. Fayetteville Tech will help you be on your way to achieving your goals through educational opportunities that can be obtained conveniently, expeditiously, and affordably.

With over fifty years of excellence in serving students, Fayetteville Technical Community College is positioned well to serve you. Thank you for choosing Fayetteville Tech, welcome to our beautiful campus, and always do your best to make the most of your learning journey.

Sincerely,

J. Larry Keen
President
# FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE
## BOARD OF TRUSTEES

Dr. Dallas Freeman, Board Chair  
Mr. Charles E. Koonce, Vice Chair  
Mrs. Sheryl J. Lewis, Secretary

PURPOSE OF THE CATALOG

Fayetteville Technical Community College provides this catalog with information about the College and its programs. The information provided is up-to-date as of June 2013. Changes subsequent to publication of this catalog are posted to the catalog on our website. For current information, visit our website at www.faytechcc.edu.

The provisions of this catalog are not to be regarded as an irrevocable contract between students and Fayetteville Technical Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes create for students.

Students having questions not answered by this catalog may receive additional information from their Department Chair or academic advisor. Applicants are encouraged to contact the Admissions Office, Fayetteville Technical Community College, PO Box 35236, Fayetteville, NC 28303-0236; telephone (910) 678-8473 or E-mail to: prospect@faytechcc.edu.

NONDISCRIMINATION STATEMENT

The Board of Trustees and the administration of Fayetteville Technical Community College are fully committed to the principles and practice of equal employment and educational opportunities. Accordingly, Fayetteville Technical Community College does not practice or condone discrimination, in any form, against students, employees, or applicants on the grounds of race, color, national origin, religion, sex, age, disability or political affiliation. Fayetteville Technical Community College commits itself to positive action to secure equal opportunity regardless of those characteristics.

Fayetteville Technical Community College supports the protection available to members of its community under all applicable Federal Laws, including Title VI and VII of the Civil Rights Act, Title IX of the Education Amendments, Sections 799A and 845 of the Public Health Service Act, the Equal Pay and Age Discrimination Acts, the Rehabilitation Act, the Americans with Disabilities Act, Executive Order 11375, and their amendments.

For information concerning these provisions, contact: Vice President for Human Resources, Workforce Development and Institutional Effectiveness

GENERAL INFORMATION

Fayetteville Technical Community College, as a comprehensive community college, adheres to an “Open Door” admissions policy. High school graduates, persons achieving a North Carolina equivalency certificate (GED), and adults who show potential for post high school education may be admitted to courses which are appropriate to their educational potential. Successful implementation of an “Open Door” admissions policy requires an emphasis on admissions counseling services. As part of the admissions counseling process, Fayetteville Technical Community College utilizes an initial placement assessment and an evaluation of the applicant’s prior school record to determine potential for success. When the admissions counseling process indicates that an applicant lacks sufficient academic background to pursue credit courses, he or she will be directed to the Developmental Studies program prior to entry into a diploma or degree curriculum. If the applicant lacks a high school diploma, he or she will be given the opportunity to pursue studies to achieve an Adult High School Diploma or a North Carolina equivalency certificate (GED) prior to entering a regular curriculum. Admissions to curricula are open to applicants without regard to race, color, national origin, religion, age, sex, disability, or political affiliation.

HISTORY OF FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

Fayetteville Technical Community College (FTCC) enjoys a rich history that started through the vision of concerned business leaders in Cumberland County who recognized the need for a local institution to provide job training for area industries and educational opportunities for high school graduates and adult learners. From that vision and through the perseverance and dedication of those initial leaders, the Fayetteville Area Industrial Education Center (IEC) was established in 1961 at the old Central Elementary School, with John Standridge serving as director. The IEC became an immediate success, attracting industry and providing technical education not only to Cumberland County but also six surrounding counties (Bladen, Harnett, Hoke, Robeson, Sampson, and Scotland) as well as Fort Bragg and Pope Air Force Base.

In 1963, the North Carolina General Assembly passed a bill creating the statewide Community College System. From this opportunity, the Fayetteville Area Industrial Education Center became known as Fayetteville Technical Institute (FTI) in July 1963. Mr. Howard Boudreau became the first president of FTI, leading the school with an enrollment of 2,500 students. During President Boudreau’s leadership, the Southern Association of Colleges and Schools (SACS) awarded accreditation to FTI in 1967. Through this important credentialing, FTI was provided federal government assistance along with the opportunity for reciprocal course credits with other accredited institutions. Throughout President Boudreau’s 20-year reign, the school’s enrollment continuously grew to over 30,000 students. President Boudreau retired in 1983 and was succeeded by Dr. Craig Allen. President Boudreau passed away on March 11, 2008.

Dr. Robert Craig Allen became the second president of FTI in 1983 following the retirement of Howard Boudreau. Before arriving at FTI, Dr. Allen served for eighteen years as president of Robeson Technical Institute (Lumberton, NC). An interesting side note is that Dr. Allen began his teaching career in the community college environment at FTI, the school that he would later represent as its president. During the reign of Dr. Allen and with the direction of the North Carolina Department of Community Colleges and the North Carolina General Assembly, the name of the college changed from Fayetteville Technical Institute to Fayetteville Technical Community College (January 1988). The purpose of the name change was to broaden and enhance the public image of technical and vocational institutions by increasing awareness of the capability of the school in providing postsecondary education and job training opportunities to new and expanding industries. Dr. Allen retired as president of FTCC in 1996 and was succeeded by interim president Dr. Linwood Powell who served from 1996 to 1997.

Dr. Larry B. Norris was named president of FTCC in 1997. Dr. Norris progressed to president of FTCC after having served the college for 28 years in various teaching and administrative positions including professor of English and English department chair as well as Associate Dean of Instruction for General Education, Dean of Curriculum Instruction, and Vice President for Academic Affairs. Dr. Norris served as president for 10 years and continued the ongoing efforts to improve the quality of education and expand the physical facilities of the college to better serve students’ needs. In 2004, FTCC expanded its campus to Spring Lake, providing convenient access to military and civilian citizens in the northern area of Cumberland County. In 2006, FTCC established the Horticulture Educational Center built alongside the prominent Cape Fear River and adjacent to the Cape Fear Botanical Garden in the eastern area of the county. After completing 38 years of service to FTCC, Dr. Norris retired as president on August 1, 2007.

Dr. J. Larry Keen serves as the fourth and current president of FTCC (installed in August 2007). Dr. Keen previously served as vice president for economic and workforce development at the North Carolina Community College System. Dr. Keen brings to the college not only the continued devotion to achieving the mission of FTCC but also an enthusiastic and passionate understanding of the educational needs of Cumberland County.
through the perspective of workforce development and a strong commitment to providing excellent educational opportunities.

FTCC grew quickly from its humble beginnings of two buildings (LaFayette Hall and Horace Sisk) to a position as the third largest out of 58 community colleges in North Carolina with a 150-acre main campus. Today, FTCC students are not only served through the continued use of the original buildings on the main campus (LaFayette Hall and Horace Sisk, which have been meticulously maintained throughout the years) but are also privileged to be served through expanded physical facilities including Cumberland Hall, the Paul H. Thompson Library, the Tony Rand Student Center, and the Advanced Technology Center as well as more recent expansions including the Health Technologies Center, the Early Childhood Educational Center, the Criminal Justice Center, the Harry F. Shaw Virtual College Center, and the Salon and Spa Services Education Center. In April 2008, FTCC purchased additional property (0.57 acre) located on Fort Bragg Road. This property will be incorporated into the landscape of renovations currently under way with the Service Merchandise building and property (located immediately adjacent to the main campus) with plans to convert the Service Merchandise building into additional classrooms and bookstore accommodations. FTCC is a proud partner with the North Carolina Military Business Center, which is housed on the main campus, and is pleased to have been named a military friendly school with services and operations at Fort Bragg specifically designed to serve the educational needs of our military men, women, and families.

FTCC also serves the community through its Continuing Education program, the largest program in the state. FTCC’s Center for Business and Industry falls under the umbrella of the Continuing Education program and provides specialized training to area businesses and industries.

The ongoing quest for excellence in service and education for students continues through the leadership of Dr. Larry Keen, with an additional 60 acres of land located off Old Raeford Road. FTCC purchased the land in December 2008 to accommodate a western campus for the citizens of Cumberland County.

FTCC was selected for the Military Friendly Schools List in the 2010 Guide to Military Friendly Schools, GI Jobs. The list honors the top 15 percent of colleges, universities, and trade schools that are doing the most to assist America’s veterans as students.

Governor Beverly Perdue visited FTCC’s Spring Lake Campus in February 2010, to visit students in the “12 to 6” workforce development initiative under the umbrella of Governor Perdue’s JobsNow.

During March 2010, twenty-four FTCC students were extended internship offers through the Disney College Program for the upcoming academic year (August 2010 - May 2011.) With 340 colleges and universities participating in the Disney College Program, FTCC ranks second in terms of student internship opportunities being offered.

In October of 2010, FTCC established a partnership with the United States Army Special Warfare Center and School to enable soldiers to earn an Associate Degree while attending the Civil Affairs Military Information Support Operations, and Special Forces qualification courses.

FTCC kicked-off a series of planned 50th Anniversary Celebration events with the Fall Convocation in September 2011. Ms. Hilda Pinnix-Ragland, board chair for the North Carolina Community Colleges, was the guest speaker. The 50th Anniversary Celebrations concludes with the 2012 Commencement.

In December 2011, FTCC was officially notified by the Board of Trustees of the Southern Association of Colleges and Schools Commission on Colleges (SACS/COC) of its reaffirmation of accreditation with no further monitoring, for the next ten years.

What began as a vision nearly fifty years ago by a group of concerned Cumberland County businessmen has evolved into an establishment that represents a pillar of the community, a mainstay providing community support and a wide range of high-quality, affordable services and educational opportunities to meet the ever-changing, ever-demanding needs of a complex and diverse growing community (Fact Book, 2012).

**FTCC MISSION STATEMENT**

“Serve our community as a learning-centered institution to build a globally competitive workforce supporting economic development.”

Approved by the FTCC Board of Trustees February 16, 2009

Reaffirmed: February 20, 2012

**FTCC PURPOSE STATEMENT**

The purpose of Fayetteville Technical Community College is to provide affordable vocational-technical, business and industry, general education, college transfer, and continuing education programs, which meet the needs and desires of its diverse students and economic development needs for the community. To improve the educational base of society, FTCC encourages life-long learning and strives to prepare students for further workforce and educational experiences.

FTCC identifies the educational needs of applicants and assists students in satisfying these needs at a minimal expense. Each adult who applies will be admitted to a program appropriate to his/her abilities and interests. The College is in partnership with the public school system through College Technical Education and other programs. Further, agreements with four-year colleges and universities support the educational continuum from high school through the baccalaureate degree.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Curricular programs reflect the changing technical, commercial, industrial, and health needs of Fayetteville, Cumberland County, and surrounding areas. Various curricula offer certificates, diplomas, and associate degrees. As a learning-centered college, FTCC offers courses and programs at times and places convenient to students in a variety of delivery modes. Courses are also available for high school graduates who need additional academic preparation before attempting college work.

FTCC provides instruction in the basic life skills needed to contribute effectively to society. Continuing Education programs are designed to meet specific needs in basic educational competencies, high school completion, upgrading occupational skills, and other avocational or practical skills required for the rapidly changing technological advances in the community.

INSTITUTIONAL CHARTER AND ACCREDITATIONS

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
Fayetteville Technical Community College is chartered by the North Carolina State Department of Community Colleges, as specified in Chapter 115D of the General Statutes of North Carolina.

NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION
Fayetteville Technical Community College’s High School Diploma Program meets the standards required by the North Carolina Department of Public Instruction for the purpose of awarding high school diplomas.

SERVICE MEMBERS OPPORTUNITY COLLEGES (SOC)
Created in 1972 to provide educational opportunities to servicemembers who, because they frequently moved from place to place, had trouble completing college degrees. SOC functions in cooperation with 15 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. SOC is funded by the Department of Defense (DoD) through a contract with the American Association of State Colleges and Universities (AASCU). The contract is managed for DoD by the Defense Activity for Non-Traditional Education Support (DANTES).

SOC CONSORIUM
Consists of approximately 1,900 institutional members that enroll hundreds of thousands of servicemembers, their family members, and veterans annually in associate, bachelor’s, and graduate-level degree programs on school campuses, armories, and military installations within the United States and overseas, and through a variety of distance learning methods.

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, telephone 404-679-4500) to award associate degrees, diplomas, and certificates.

UNITED STATES DEPARTMENT OF EDUCATION
Fayetteville Technical Community College is recognized by the U.S. Department of Education as an institution of higher learning and is qualified to receive federal assistance in its higher education programs.

PROGRAM ACCREDITATIONS AND ASSOCIATIONS

AMERICAN BAR ASSOCIATION
Fayetteville Technical Community College’s Paralegal Technology program is approved by the American Bar Association.

AMERICAN BOARD OF FUNERAL SERVICE EDUCATION
Fayetteville Technical Community College’s Funeral Service Associate Degree program is accredited by the American Board of Funeral Service Education, 3432 Ashland Avenue, Suite G, St. Joseph, MO 64506. (816) 233-3747.

AMERICAN DENTAL ASSOCIATION COMMISSION ON ACCREDITATION
The programs in Dental Assisting and Dental Hygiene are accredited by the Commission on Dental Accreditation and have been granted the accreditation of approval. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago IL, 60611-2678.

COMMISSION ON ACCREDITATION IN PHYSICAL THERAPY EDUCATION, AMERICAN PHYSICAL THERAPY ASSOCIATION
The Physical Therapist Assistant Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314, (703) 684-2782 or 1-800-999-2782.

COMMISSION ON ACCREDITATION FOR RESPIRATORY CARE (CoARC)
Fayetteville Technical Community College’s Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), 1248 Hardwood Road, Bedford, TX 76021, Phone (817) 283-2835, Fax (817) 354-8519.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
JOINT REVIEW COMMITTEE ON ACCREDITATION OF ALLIED HEALTH EDUCATION PROGRAMS (CAAHEP)
The Surgical Technology Program at Fayetteville Technical Community College is accredited by the commission on Accreditation of Allied Health Education Programs (CAAHEP), 1361 Park Street, Clearwater, FL 33756 (727) 210-2350. This accreditation decision was made upon the recommendation of the Accreditation Review Committee on Education for the Surgical Technologist (ARC-ST), 6 West Dry Creek Circle, Suite 110, Littleton, CO 80120 (313) 694-9262, which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

JOINT REVIEW COMMITTEE ON EDUCATION IN RADIOLOGIC TECHNOLOGY
Fayetteville Technical Community College’s Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, (312) 704-5300, E-mail: jrcert@mail.idt.net.

NATIONAL ACCREDITING AGENCY FOR CLINICAL LABORATORY SCIENCES (NAACLS)
Fayetteville Technical Community College’s Phlebotomy Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Road, Suite 720, Rosemont, IL 60018-5119, (733) 714-8880

NATIONAL ASSOCIATION FOR THE EDUCATION OF YOUNG CHILDREN (NAEYC)
The Early Childhood Education Department of Fayetteville Technical Community College received accreditation from the National Association for the Education of Young Children (NAEYC), 1313 L Street NW, Suite 500, Washington, DC 2005-4101. NAEYC is the world’s largest organization working on behalf of young children with nearly 80,000 members, a national network of more than 300 state and local Affiliates, and a growing global alliance of like-minded organizations. The NAEYC Academy sets and monitors standards for high-quality early childhood education programs and accredits programs that meet these standards.

NATIONAL AUTOMOTIVE TECHNICIANS EDUCATION FOUNDATION
Fayetteville Technical Community College’s Automotive Systems Technology program is accredited by National Automotive Technicians Education Foundation (NATEF) 101 Blue Seal Drive, Suite 101 • Leesburg, Virginia 20175. NATEF was founded as an independent, non-profit organization with a single mission: To evaluate technician training programs against standards developed by the automotive industry and recommend qualifying programs for certification (accreditation) by ASE, the National Institute for Automotive Service Excellence.

NATIONAL LEAGUE FOR NURSING ACCREDITING COMMISSION (NLNAC)
The Associate Degree Nursing Program of Fayetteville Technical Community College is accredited by the National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 500, Atlanta, Georgia 30326. This type of approval is national in scope and voluntary rather than required by law. The standards set by the accrediting body are uniform throughout the United States. The achievement of NLN accreditation by a program signifies that it has met the national standards of excellence for programs in nursing of its type.

NORTH CAROLINA BOARD OF NURSING
Fayetteville Technical Community College is approved by the Board of Nursing to offer a two-year associate degree program with a major in nursing and a one-year diploma practical nursing program. Both programs qualify the graduates to write the National Council Licensure Examination for the respective levels of preparation. Candidates who successfully complete these examinations are licensed to practice nursing.

NORTH CAROLINA DEPARTMENT OF JUSTICE, CRIMINAL JUSTICE STANDARDS DIVISION
The North Carolina Criminal Justice Education and Training Standards Commission, through N.C.G.S. Chapter 17C, establishes minimum employment, training and retention standards for the State’s criminal justice officers. To ensure a consistent level of competency and professionalism among law enforcement officials, the Criminal Justice Standards Division administers the Commission’s mandatory certification and training programs. Those programs cover all sworn police officers, correctional officers, probation/parole officers, juvenile justice officers and juvenile court counselors. The NC Department of Justice Training Standards Division can be contacted at NC Department of Justice, P.O. Drawer 149, Raleigh, NC 27602-0149 or (919) 716-6470.

NORTH CAROLINA OFFICE OF EMERGENCY MEDICAL SERVICES
Fayetteville Technical Community College’s Emergency Medical Science Program is accredited by the North Carolina Office of Emergency Medical Services, 701 Barbour Drive, Raleigh, North Carolina, 27603-2008, Phone (919) 855-3935, Fax (919) 733-7071.

NORTH CAROLINA STATE BOARD OF FUNERAL SERVICE
Fayetteville Technical Community College’s Funeral Service and NC Funeral Directors programs are approved by the North Carolina Board of Funeral Service.

NORTH CAROLINA STATE BOARD OF CERTIFIED PUBLIC ACCOUNTANT EXAMINERS
Fayetteville Technical Community College is approved by the North Carolina State Board of Certified Public Accountant Examiners for the purpose of mandatory Certified Professional Education credits (Fact Book 2011/Administrative Procedures Manual).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
THE NCCCS’ ACCOUNTABILITY MEASURES

End-of-Year Report
NCCCS Critical Success Factors
Performance Measures and Standards (2013)

A. Basic Skills Student Progress: Percentage of students who progress as defined by an educational functioning level.
FTCC exceeded North Carolina Community College System (NCCCS) Baseline.
NCCCS Standard: At least 20.6% (System Baseline) of Basic Skills students will progress by an educational functioning level. (College Mean: 41.0%/System Goal 51.2%)

B. GED Diploma Passing Rate: Percentage of students taking at least one GED test during a program year who receives a GED diploma during that year.
FTCC exceeded the NCCCS Goal.
NCCCS Standard: Students taking at least one GED test during a program year, 49.3% (System Baseline) will receive a GED diploma during that year. (College Mean: 71.1%/System Goal 82.0%)

C. Developmental Student Success Rate in College-Level English Courses: Percentage of previous developmental English and/or reading students who successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt.
FTCC MET exceeded the NCCCS College Mean.
NCCCS Standard: Forty-five point two percent (45.2%/Baseline) of previous developmental English and/or reading students will successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt. (College Mean: 63.7%/System Goal 74.9%)

D. Developmental Student Success Rate in College-Level Math Courses: Percentage of previous developmental math students who successfully complete a credit math course with a “C” or better upon the first attempt.
FTCC exceeded the NCCCS Baseline, nearing College Mean.
NCCCS Standard: Forty-seven point five percent (47.5%/Baseline) of previous developmental math students will successfully complete a credit math course with a grade of “C” or better upon the first attempt. (College Mean: 64.8%/System Goal 75.4%)

E. First Year Progression: Percentage of first-time fall credential-seeking students attempting at least twelve hours within their first academic year who successfully complete (“P”, “C” or better) at least twelve of those hours.
FTCC exceeded the NCCCS Baseline.
NCCCS Standard: At least 53.2% (Baseline) of first-time fall credential-seeking students who attempt at least twelve hours within their first academic year will successfully complete (“P”, “C” or better) at least twelve of those hours. (College Mean: 67.7%/System Goal 74.6%)

F. Curriculum Completion: Percentage of first-time fall credential-seeking students who graduate, transfer, or are still enrolled with 36 hours after six years.
FTCC exceeded the NCCCS Baseline, nearing NCCCS College Mean.
NCCCS Standard: Twenty-eight point six percent (28.6%/Baseline) of first-time fall credential-seeking students will graduate, transfer, or still be enrolled with 36 hours after six years. (College Mean: 41.6%/System Goal 45.6%)

G. Licensure and Certification Passing Rate: Aggregate institutional passing rate of first time test-takers on licensure and certification exams. Exams included in this measure are state mandated exams which candidates must pass before becoming active practitioners.
FTCC exceeded the NCCCS College Mean, nearing NCCCS Goal.
NCCCS Standard: The aggregate passing rate of first time test-takers on licensure and certification exams will be at least 71.0% (Baseline). (College Mean: 85.0%/System Goal 91.7%)

H. College Transfer Performance: Among community college associate degree completers and those who have completed 30 or more credit hours who transfer to a four-year university or college, the percentage who earn a GPA of 2.0 or better after two consecutive semesters within the academic year at the transfer institution.
FTCC exceeded the NCCCS College Mean.
NCCCS Standard: Seventy-one point two percent (71.2%/Baseline) of associate degree completers and students who have completed 30 or more credit hours and transferred to a four-year university or college will earn a GPA of 2.0 after two consecutive semesters. (College Mean: 86.7%/System Goal 93.6%)

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
ADMISSIONS POLICIES
AND PROCEDURES

Fayetteville Technical Community College adheres to an “Open Door” admissions policy. Applicants who are high school graduates or 18 years of age, may take courses as a special credit student providing they meet course pre-requisites. Curriculum degrees, diplomas and certificates may have specific requirements for admission beyond the regular requirements to enter FTCC.

Associate Degree, Diploma, and Certificate Admissions Requirements

1. Applicants must be high school graduates as indicated on an official high school transcript or meet high school requirements as is evidenced by one of the conditions below.
   a. A state equivalency certificate or GED test results which meet North Carolina equivalency standards are acceptable in lieu of a high school diploma.
   b. An official college/university transcript showing the award of associate’s degree or higher from a regionally accredited institution(s). Exception: For applicants who are seeking admission into programs having prerequisites at the high school level and the prerequisite is not met with collegiate courses, an official high school transcript is required.

The College accepts only official transcripts, which are received by the Admissions Office in a sealed unopened envelope and bear the sender’s raised seal or printed imbedded watermarks. Official transcripts verifying secondary school completion must be sent to the:

Admissions Office
FTCC
P.O. Box 35236
Fayetteville, NC 28303

2. Applicants must submit an application form, including a residency statement.

3. Each applicant is scheduled for the FTCC placement assessment. Previous school records and placement test results will be used in conjunction with the student’s personal aspirations to help plan a workable educational program.

4. Certain programs have prerequisite course requirements. In addition to published program requirements, the College reserves the right to identify and require specific prerequisites before allowing students into certain courses.

5. Students requesting approval for certification of VA Educational Benefits must provide copies of DD/Form(s) 214 for evaluation of military experience.

Current High School Students Admissions Requirements

Current High School students participating in programs that involve curriculum courses must submit an official, yet partial, high school transcript in lieu of the final high school transcript. Upon graduation, if the student chooses to enroll in a FTCC degree, diploma or certificate, an official final high school transcript is required.

Other Reasons for the Submission of Transcripts

Official high school, college/university transcripts are required if an applicant wishes to:
- Apply for veteran’s benefits
- Have previous college/university credit(s) evaluated for transfer credit to FTCC
- Be exempt from the College’s mathematics, English, and reading placement exam.
- Apply for a health program
- Apply for financial aid benefits

Health Division Admissions Requirements

Priority in consideration for admission to Health Programs will be given to individuals completing the following by January 30. Applications and related materials received after this date will be considered based on program space availability.

- Submit a completed "Application for Admissions" to FTCC online.
- Submit official transcripts from high school and each college/university from which you plan to transfer potential credit.
- Submit an application on WebAdvisor by January 30 to the specific Health Program that you wish to enter.
- Complete all program prerequisites.
- Complete the entrance assessment with the required minimum scores, or achieve a grade of “C” or better in all recommended pre-curriculum courses. Pre-curriculum courses may be attempted only twice to satisfy the prerequisite requirements. An attempt includes grades of A, B, C, D, F, W, and I and includes courses with similar content even if named differently (for example, MAT 50 and DMA 10, 20, or 30). Exceptions may be approved by the appropriate health program Dean/Chairperson.
• Science courses must have been satisfactorily completed with a grade of “C” or better within five years of entry into a health program. These courses may be attempted only twice. (An attempt includes grades of A, B, C, D, F, W, and I.) The appropriate health Dean/Chairperson may approve exceptions.

• A minimum GPA of 2.5 is required on previously completed related classes for degree programs. A minimum GPA of 2.0 is required on previously completed related classes for diploma and certificate programs. Related courses are courses in the program of study that do not have the program prefix.

• A cumulative GPA of 2.0 is required for all health programs.

• Individual programs may have further pre-requisites. Prerequisites are noted at the top of each program of study sequencing sheet.

• The Nursing Assistant, Funeral Service Education, and Health and Fitness Science programs do not require separate health admission. Students are accepted on a first come, first serve basis.

• Mammography students are accepted on a first come, first served basis after verification of the student having a current American Registry of Radiologic Technologists certification in Radiography.

Selection Criteria

Applicants who meet eligibility requirements will be ranked and selected on a competitive basis.

Grades in designated related courses will be used to determine ranking.

In addition, participation in a departmental information session is required. Sessions will be scheduled by the College. A maximum of 15 additional competitive points may be awarded at that time based on departmental criteria.

Advanced Placement into Health Programs

Certain health programs may accept students who have transfer credit or approved credit for prior learning for program specific courses outside of the published admission cycle on a space available basis and upon Department Chair approval. Students should contact appropriate Department Chairs for specific program requirements.

Licensed Practical Nurses may be granted placement into the Associate Degree Nursing (ADN) program on a space available basis. Criteria for advanced placement include:

a. Have a current unrestricted LPN license and have completed 3,600 hours of work experience as a LPN within the last four (4) years
b. Meet the requirements for admission into the FTCC ADN program
c. Have a minimum overall GPA of 2.0 and a minimum GPA 2.5 on all related courses
d. Have satisfactorily completed any developmental course or related science course in no more than two attempts
e. Have satisfactorily completed related science course within 5 years of entry into the program
f. Have taken the TEAS test and scored at the level required of ADN students admitted at the beginning of the program
g. Have completed all related courses within the ADN Program of Study that are noted on the course sequencing sheet prior to the point of advanced placement

Special Credit (Non-matriculating) Student Admission

Special credit status for (non-matriculating) students: This student status is designed to allow any qualified and interested individual to enroll in college credit courses with appropriate documentation without declaring a major or seeking a degree, diploma, or certificate. The appropriate documentation is required to determine that the course prerequisites have been met. When a student wishes to become a matriculated student, they must follow the current admission requirements for academic program approval.

Special credit students are not eligible for financial aid assistance, i.e., federal financial aid, vocational rehabilitation, veteran services. If you are unsure about aid eligibility and the program you are considering, contact the Financial Aid Office for clarification.

ADMISSION OF INTERNATIONAL STUDENTS

International applicants who apply from outside the United States and have not previously attended an American college or university will be processed as entering freshman. If you are a qualified applicant who wishes to attend the College, please apply by sending your request to:

Admissions Office
Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236 USA

Applicants are responsible for requesting that the school principal or headmaster send official copies of high school (secondary) transcripts directly to FTCC. If applicants have attended an American or Foreign college/university, applicants must have an official transcript sent directly from that college or university.

Student Visa Applicants

International applicants holding an F-1 or M-1 Visa are ONLY admitted to begin their studies for the fall semester. All paper work must be completed no later than March 1 of the year you plan to begin classes at Fayetteville Technical Community College. Applications will not be considered until all of the following items have been received:

1. FTCC Application
2. Preliminary Application (Form A)
3. Completed financial certificate (Form B)
4. Test of English as a Foreign Language (TOEFL) results (Only official scores sent from Princeton, New Jersey are acceptable.)

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
(5) Official high school (secondary) transcript
(6) Official college or university transcripts, if applicable
(7) Completed Pre-entrance Medical Record

Student Visa (F-1 or M-1)

In order to apply for an F-1 or M-1 (student visa), applicants must first apply and be admitted to a school in the U.S. After admission to Fayetteville Technical Community College (FTCC), a Form I-20, which authorizes the applicant’s study period, will be issued. A $100.00 Student and Exchange Visitor Information System (SEVIS) I-20 fee must be paid. The Form I-20 must be submitted to the U.S. Consulate in the applicant’s country to apply for a visa. To obtain a non-immigrant, student visa, applicants must be able to prove the following:

1. That they have strong ties to their home country demonstrating their intention to return home (In other words, applicants do not plan to immigrate permanently to the U.S.)
2. That they have sufficient funds to pay for their financial needs while studying in the U.S., including tuition, health insurance, housing, travel expenses, etc.
3. That they have legitimate intentions to study full-time and gain education and training which will be useful in their home country. After receiving an F-1 or M-1 Visa from the U.S. consulate, applicants are eligible to come to the U.S. and “apply” for entry. An Immigration Inspector at the border (usually the airport) will decide if applicants may enter by looking for proof of the above criteria once again. Therefore, applicants may be asked to show financial documentation again, or to prove study plans. Applicants must show their I-20.

English Proficiency

Proficiency in the use of the English Language and past academic record will be important factors in the admission decision. The Test of English as a Foreign Language (TOEFL) is required of all foreign applicants. To obtain materials and information regarding the TOEFL, write to:

Test of English as a Foreign Language
Box 899
Princeton, New Jersey 08540 USA

Please specify code number 5208 when requesting TOEFL scores to be reported to Fayetteville Technical Community College.

Financial Information

As part of the admission process to Fayetteville Technical Community College and before F-1 or M-1 Visa approval is granted, applicants must show evidence of official financial support (Form B) for each year of study in the United States. The college cannot provide financial aid to students applying from other nations. Applicants must certify their financial support.

Many international students receive financial help from sources outside the United States. Therefore, it is suggest that applicants consult the excellent publications about study abroad, which may be available through local educational institutions or the United States Consulate. Applicants should also investigate financial assistance that may be available through their government or home university.

Fayetteville Technical Community College is tax supported by the people of North Carolina. Legal residents of North Carolina and the United States are given preference in the admission process. Therefore, applications of international students are accepted only on a space availability basis. Unless some exception applies, international students are assessed tuition at the out-of-state rate.

Employment

1. On-campus. F-1 and M-1 students are allowed to work part-time on the campus of the school they are attending (and whose I-20 they have). They may work up to 20 hours per week while attending full-time classes. They can work full-time during summer vacations and between terms, provided they continue at that school the following term.

2. Off-campus. Students holding F-1 or M-1 Visas are not authorized to work except under extraordinary circumstances. There are two ways to get permission for off-campus work: practical training and severe economic hardship. The United States Immigration Services must grant permission.

Period of Authorized Stay

Admission to the U.S. on an F-1 or M-1 Visa is for “duration of status” (D/S). This is the time estimated for program completion. During that time, students are required to make satisfactory progress each term, keep a current passport that is valid for at least six months into the future, and maintain a valid I-20.

Housing

Fayetteville Technical Community College serves entirely a commuting student body. Housing is not available on campus. International students must seek housing in the community and commute daily by public transportation. Arrangements for housing must be made between the landlord and the student.

Transportation

International students must provide their own transportation or use public transportation to travel between the campus and their housing accommodations.

Full-time Requirement

International students holding an F-1 or M-1 Visa must enroll as
a full-time student. College students must pass a minimum of 12 credits per term. The student should make satisfactory progress in their approved program each term. Otherwise, the continuation of study on a student visa may be jeopardized and the Form I-20 rescinded.

Non-Student Visa and Resident Alien Applicants

Foreign applicants holding either (a) a visa other than an F-1 or M-1 or (b) a Resident Alien card may be admitted on a rolling basis. Your application will not be considered until all of the following items have been received:

1. FTCC Application
2. Presentation of either a valid Passport & Visa or a Resident Alien Card
3. FTCC Entrance Assessment Results
4. Official high school (secondary) transcript
5. Official college or university transcripts, if applicable

NOTE: People who hold a visitor’s Visa (B-1) are NOT eligible to enroll in FTCC’s college-level classes.

H-1B Visas

Spouse and unmarried children under 21 years of age may seek admission in the H-4 nonimmigrant classification. Family members in the H-4 nonimmigrant classification may not engage in employment in the United States.

ADMISSION OF TRANSFER STUDENTS

Students who have completed course work at other colleges and universities should submit official transcripts of all post-secondary work. Transcripts will be reviewed during the admissions interview and transfer credit awarded according to the following criteria:

1. Prior course work must correspond in instructional hours and content must be substantially similar to FTCC courses required in the degree or diploma being sought.
2. Course work must have been completed at a regionally accredited college (i.e., Southern Association of Colleges and Schools or regional counterpart) OR the student may submit the following documentation to be evaluated and a recommendation made by the related department chair:
   a. Official transcript from the institution attended.
   b. Statement from the institution regarding any professional accreditations or associations.
   c. Statement from the institution regarding scheduling system (i.e., semester or quarters).
   d. Statement from the institution indicating the faculty who taught the course and the academic/professional credentials of that faculty member.
   e. Course description to include number of class, lab, and/or clinical hours, and course content statement.
   f. Course syllabus.
   g. Reference statement indicating the textbook(s).
3. Course work must have been completed with a grade of “C” or better.
4. Major courses with a technical/skill content have time limitations in terms of their relevance to the curriculum program and to the occupational field. Courses in the technical or major area taken more than seven years prior to the current semester, either at other institutions or at FTCC, may not be considered for transfer purposes. Some technology-based programs may have stricter limitations on the transfer of grades, depending on changes in technology and competencies required for jobs in the field. Based on the recommendation of the related Department Chairperson, the final decision of the acceptance of transfer credit for major courses will be made by the Associate Vice President for Curriculum Programs.
5. Transfer students must complete a minimum of 25 percent of resident credit at FTCC to be eligible to receive an associate degree. (Note: The American Bar Association requires all paralegal students to complete a minimum of 18 semester hours in legal specialty courses at FTCC.)
6. Official FTCC transcripts will not be provided until the student has completed the first term of enrollment at the college.

TRANSFER CREDIT APPEAL PROCESS

The Testing/Evaluation Center provides credit evaluation of coursework based on official transcripts from all institutions a student has attended. Also included in the evaluation process are documents that pertain to Credit for Prior Learning. A student may appeal a course transfer decision and request a re-evaluation of any transfer credit by following these steps:

1. Review all transfer credit awarded by FTCC via WebAdvisor account, or with a counselor or advisor.
2. Complete the online Transfer Credit Appeal Form or obtain a copy in the Testing Office.
3. Obtain a copy of the course syllabus, course description, and any documentation that will support your appeal from the originating institution(s).
4. Submit the completed Transfer Credit Appeal form and all supporting documentation to the Testing Office. Retain a copy for your records.

The Testing/Evaluation Center will reevaluate the requested course(s) for reconsideration through consultation with the appropriate dean, division, or department chair. Once the re-evaluation is complete the decision will be email to the student’s FTCC email account within 30 business days of the receipt of the appeal form, excluding holidays and college closures.

If additional documentation is required from the student for the evaluator or the department chair to make the decision, the student has 2 weeks from the date of the request to supply documentation. Further appeals will be forwarded to the Associate Vice President for Curriculum Programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
INTERCURRICULAR TRANSFER OF CREDITS

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean. 

INTERCURRICULAR TRANSFER OF CREDITS

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean.

CREDIT FOR NONTRADITIONAL LEARNING

FTCC will evaluate nontraditional educational records for the possible transfer of credits. Full documentation must be provided before an evaluation can be made. Transfer of credit for non-traditional work is limited to no more than 75 percent of the AAS degree or diploma requirements. (See Handbook on FTCC website.)

Advanced Placement Examinations

Applicants to the college may request transfer credit for subjects covered under advanced placement examinations. CLEP and DANTES General Exams and Subject Area Exams are evaluated for transfer credit. Test scores must meet ACE (American Council on Education) recommendations. Advanced credit awarded at prior colleges must be supported by official test score reports to be considered for transfer credit.

Military Service Training

Military service school records may be submitted for transfer credit evaluations. The service member is encouraged to submit a “Request for Evaluation of Military Experience” (form DD295) or the JST Transcripts (Army/ACE Registry System) transcripts for evaluation purposes. Service school diplomas and MOS (Military Occupational Specialty) Evaluation Score Reports are acceptable in lieu of the JST Transcript. Military service experiences are evaluated using ACE Guide recommendations.

Industrial and Professional Training

FTCC will consider the evaluation of credit for documented professional training and certification. Transfer of credits is considered using The National Guide to Educational Credit for Training Programs.

Experiential Learning

FTCC does not consider experiential or life experiences for transfer credit evaluation.

Proficiency Tests

FTCC students who plan to challenge a curriculum-level course must contact the department chairperson of the appropriate department to request a proficiency examination. Proficiency tests may be taken only during the first four class days of the term and are offered only if each of the following conditions are:

a. Students must pass a preliminary screening test given by the department chairperson.
b. Students must be registered for the course in order to take a proficiency exam.
c. Students who pass a proficiency exam at the “C” grade level or above will be assigned a “P” grade and will not be required to attend further class sessions.
d. Veteran students and other third party recipients may not use courses passed by proficiency for the purposes of educational entitlement. Students who pass a proficiency test are encouraged to add additional curriculum courses in order to maintain full-time status.

*CLEP examinations will be the required proficiency test where available. Students will be referred to area CLEP examination sites for testing when appropriate.

Tech Prep Advanced Placement

Cumberland County high school graduates who participated in the Career Technical Education Program may be awarded proficiency credit based upon the recommendations of the Cumberland County Career Technical Education Curriculum Development Committee.

SOCAD

Fayetteville Technical Community College is a Servicemembers Opportunity College (SOC). SOC functions in cooperation with 15 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. FTCC participates in the SOCAD-2 network with eleven degree programs available. For more information contact the FTCC Ft. Bragg Office at 678-1050.

READMISSION OF FORMER STUDENTS

Any student who withdraws from the College and wishes to return must contact the Admissions Office to reactivate his/her application for admission.

1. A student who withdrew for unavoidable reasons may be eligible for readmission at the beginning of the next term.

2. A student who was dismissed from the College by disciplinary action may re-enter only upon approval by the Program Area Dean.

3. A student who withdraws from the institution and re-enters at a later term, including students who have completed at least one or more terms, will be subject to curricular requirements in effect at the time of reentry.

4. Any student indebted to the College is ineligible to re-enter until all financial obligations to the institution have been satisfied.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
REQUIRED PLACEMENT TEST

ASSESSMENT AND EVALUATION OF STUDENTS
Fayetteville Technical Community College wants each student to be successful in meeting his or her educational goals. To evaluate the level of preparation and to place students in appropriate courses, the College requires assessment in the skill areas of English, reading, and mathematics. To satisfy assessment requirements for most programs, the student needs to take the ACCUPLACER (or other North Carolina Community College System approved assessments) unless eligible for a waiver. Assessment scores will be used for course level placement. Each of the three skill areas of English, reading and mathematics is independent of each other. A student may place at the college level in one or more areas and at the college preparatory level in other areas(s). The College may limit the student to college preparatory courses and any other instruction for which he or she is adequately prepared.

REQUIREMENTS FOR TAKING ASSESSMENT
Whether the student is seeking full-time or part-time enrollment, unless he or she is qualified for an exception, the student must complete a state approved assessment as indicated:

1. Prior to participating in registration if the student is seeking degree.
2. Prior to registration for any course which has a specific assessment score as a prerequisite.

Assessment scores may not be more than three years old.

ASSESSMENT EXEMPTIONS
Students will be exempt from taking the assessment for registration in courses for which they are qualified if they provide an official transcript or other written documentation for one of the following exceptions:

1. The student has attended a regionally accredited institution (RAI) in which English was the language of instruction and has successfully completed with a grade of “C” or higher a transferable college-level English and/or mathematics course.
2. The student holds an associate’s or bachelor’s degree from a RAI in which English was the language of instruction and has successfully completed with a grade of “C” or higher a transferable college-level English and/or mathematics course.
3. The student’s official college transcript is evaluated for select courses to substantiate completion of prerequisites when the student is enrolled in another college or university and has applied to Fayetteville Tech for “special credit” status.
4. The student’s official FTCC record indicates that he or she is enrolled for job improvement or in selected courses with no intent for an FTCC degree.
5. The student has taken the SAT with verbal and math scores at or above 500 each or ACT composite score of 20 or higher within the last five years. Based on the score of each SAT or ACT section, specific sections of the Accuplacer may be waived.

Placement Assessment SAT & ACT Waivers

SAT Section Score waived: • Math 500 Arithmetic & Algebra • Verbal 500 Reading • Writing 500 Sentence Skills

ACT Section Score waived: • Math 20 Arithmetic & Algebra • Reading 20 Reading • English 20 Sentence Skills

6. The student chooses to begin with the most basic college preparatory courses: Integrated Reading and Writing DRE-096 and Operations with Integers DMA-010.

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM APPROVED ASSESSMENTS

ACCUPLACER: FTCC administers the ACCUPLACER Computerized Placement Tests from the College Board. The assessments are Reading Comprehension, Sentence Skills, Computation/Arithmetic and Elementary Algebra.

There is no charge for the ACCUPLACER. The assessment takes approximately two to two and one-half hours and is available days and evenings.

Other Assessments: Other tests approved by the North Carolina Community College System are the ASSET and COMPASS.

Retest Policy: A student who requests to retest on all or parts of the ACCUPLACER, must demonstrate completion of a pre-curriculum course, completion of a practice test, attendance to IPASS workshop, or Success Center.

Students may not retest while enrolled in a DMA or DRE course until after the 90% point of the class.

Students who plan to challenge a curriculum level course must contact the Department Chairperson of the appropriate department to request a Proficiency Exam. Proficiency Exams are given under the following conditions:
• Student passes preliminary screening given by the Department Chairperson
• Student registers for the course in order to take the proficiency exam
• Student completes Proficiency Exam within the first four class days of the semester

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
ACADEMIC INFORMATION

CURRICULUM GRADING PROCEDURES

FTCC grades are based on a 4.0 grading system. Each grade is assigned a "grade-point equivalent" in quality points for each term credit hour scheduled. The grade point average (GPA) is determined by dividing the total of quality points earned by the number of term hours scheduled.

Letter grades are used to indicate the quality of a student’s work.

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
<th>Grade Point Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>93-100</td>
<td>A-Excellent</td>
<td>4 points per credit hour</td>
</tr>
<tr>
<td>85-92</td>
<td>B-Good</td>
<td>3 points per credit hour</td>
</tr>
<tr>
<td>77-84</td>
<td>C-Average</td>
<td>2 points per credit hour</td>
</tr>
<tr>
<td>70-76</td>
<td>D-Below Average</td>
<td>1 point per credit hour</td>
</tr>
<tr>
<td>0-69</td>
<td>F-Failure</td>
<td>0 grade point</td>
</tr>
<tr>
<td>I-Incomplete</td>
<td></td>
<td>After eight (8) weeks for 16 week classes and 4 weeks for 8-week classes, the grade becomes an “F”</td>
</tr>
</tbody>
</table>

AU.... Audit (No Credit) – No effect on grade point average
NS .... No Show – No effect on grade point average
P....... Proficiency – No effect on grade point average
T ...... Transfer – No effect on grade point average
W..... Withdraw from Class(es) - the grade given when a student drops a class after the 10% point in time through the 90% point in time. The grade is not factored into the student’s grade point average.
I (Incomplete) may be given at the discretion of the instructor when all course requirements have not been met. After eight weeks from the beginning of the next term, an incomplete grade in a sixteen-week class becomes an “F.” After four weeks from the beginning of the next term, an incomplete grade in an eight-week class becomes an “F.”

AU (Audit) requests must be made at the first class session. The intent of the AU is to allow students to take courses for no credit. Forms must be obtained from the Registrar’s Office and be signed by both student and instructor during the first two days of the sixteen-week course and the first day of an eight-week course. Developmental classes may not be audited. To receive the AU, the student must meet all course requirements. This grade is permanent and can not be converted to a letter grade.

NS (No Show) is administered when a student registers, but fails to attend class(es) prior to the 10% point of the term.

P (Proficiency) by examination may be given after the student has registered for the course and after a preliminary screening test is given by the department chairperson. The grade equates to a “C” or better. This process must be completed within the first four class days of the term.

T (Transfer) credit is granted for courses completed at other regionally accredited community colleges, colleges, and universities.

All final course grades will be letter grades in accordance with the adopted grading system. Grade reports are posted via Web Advisor.

All students must have at least a 2.0 grade point average (major and cumulative GPA) and have passed all curricular subjects as listed in the course outline under which they entered to be eligible for graduation. They must also meet the grade level needed in major subjects required to take licensure examinations.

Health occupations curricula, Funeral Service Education, and Paralegal Technology require course grades of C or better in order to progress to the next course/term. Each department area will issue to the student in written form the necessary information to cover such grading policies. Students who request transfers to other degree curricula are expected to have maintained a 2.0 GPA on all courses completed including prerequisite courses.

Pre-Curriculum Developmental Course Grading System

Courses numbered below 100 are pre-curriculum developmental courses and are graded on a ten-point grading scale. The following numerical and letter grades are assigned for pre-curriculum developmental courses:

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100</td>
<td>A - Excellent</td>
</tr>
<tr>
<td>80-89</td>
<td>B - Good</td>
</tr>
<tr>
<td>70-79</td>
<td>C - Average</td>
</tr>
<tr>
<td>0-69</td>
<td>F - Failure*</td>
</tr>
</tbody>
</table>

*Students who receive a grade of “F” (Failure) on those courses will be required to re-take the course.

Pre-curriculum developmental course grades are not counted as credit towards graduation, and they are not calculated into the student’s cumulative Grade Point Average (GPA).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
COURSE REPEAT POLICY AND PROCEDURE

Course Repeat

A student may repeat for credit or audit any curriculum course one time in an effort to earn a higher grade and/or to add to his/her mastery of course content. If a student petitions for another attempt through the appropriate Dean, a third and final attempt may be granted based on documented major extenuating circumstances. When a course is repeated, the last grade earned (A, B, C, D, F, or WF) will be counted in determining the hours earned and in determining the GPA at the College. However, all grades will be recorded on the student’s official transcript. Grades of withdrawal passing (WP) and audit (AU) are not calculated in the GPA, but they will be considered as a repeat grade.

A student’s (GPA) is based on the number of credits earned and the grades received. Cumulative GPA reflects all courses taken; major GPA reflects courses in the major.

Specific program requirements for academic progress are outlined in this College Catalog (i.e., health programs curricula, Funeral Service Education, and Paralegal Technology).

The University of North Carolina System and other colleges or universities require that a student earn a grade of “C” or better in each transfer course completed. A student planning to transfer should realize that receiving institutions do not have consistent policies regarding course repeats. Admissions personnel will review the transcripts of transfer applicants and may recompute grade point averages to include the grade originally assigned, or compute all grades assigned at Fayetteville Technical Community College.

Note to students receiving VA assistance: Two attempts will be the maximum allowed for counting a course as part of a student’s credit hour load for determining eligibility. Veterans who wish to repeat courses, for which a passing grade (D or higher) has been earned, will not receive educational benefits for repeating those courses.

Note to students receiving financial aid: All attempted classes will be counted toward academic progress. (Attempted includes a grade of A, B, C, D, F, W, U, I)

Note to students interested in a health program: Previously completed science courses must have been satisfactorily completed with a grade of “C” or better within five years of entry in a health program. These courses may be attempted only twice. The appropriate health department chairperson through the Dean of Health Programs may approve exceptions.

Course Repeat Procedures

The request for course repeat must be initiated by the student and directed to the Registrar. All requests must be initiated prior to the final term of enrollment (i.e., at the end of fall term if graduating at the end of the spring term). Students applying for health programs must make the request prior to the January 30 deadline. The “Course Repeat Request” form is available in the Registrar’s office. Note to students taking Developmental Courses (courses designated less than the 100 level, i.e., MAT 070): Developmental Courses may be attempted only twice.

Grade Forgiveness Procedures

A student may petition in writing to the Dean of Enrollment Management and Financial Aid to have grades which are at least four years of old forgiven. In order for the request to be considered, the course in question must not have been under a previously granted certificate, diploma, or degree. Prior to making this request, it is the student’s responsibility to review the change with a counselor to make sure that there are no potential program conflicts, Financial Aid issues, Veteran’s Aid issues or third party payment issues. The forgiven grade will remain on the student transcript; however, will no longer be counted in the calculation of the GPA. A forgiven grade will still be counted in the calculation of the Financial Aid GPA.

The Vice President for Academic and Student Services must approve exceptions to this policy.

Schedule Adjustments and Withdrawals

Withdrawal from Class(es)

Student Withdrawal from Class after the 10 Percent Date.

• A student may withdraw from a class as late as the 90 percent date of the term without penalty. The transcript will indicate a “W”. A “W” grade does not negatively impact the student’s GPA, but will count as an attempt for purposes of veteran’s benefits or financial aid.

• Failure to withdraw properly may result in a failing grade for the course and may jeopardize a student’s right to reenroll at a later date.

• A student who withdraws or drops from any portion of a course (classroom, lab, clinic or shop) will be dropped from the entire course (class and lab).

• A student who receives Financial Aid or VA Educational benefits should confer with personnel in those offices before dropping classes or withdrawing from the College to determine the impact of a withdrawal on those benefits.

• In order to withdraw from class(es) a student must submit the Student Online Withdrawal Form found under Registration info on the FTCC website. If the student does not complete the withdrawal process, he/ she will remain enrolled in the course and will receive the grade assigned by the Instructor. The instructor will

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
note the last day of contact with the student, which will affect financial aid owed for repayment.

- Faculty will not process withdrawals, except in the case of Administrative Withdrawals described below.

**Administrative Withdrawal by Faculty or Administration**

- For Curriculum Courses (numbered 100 or higher): Students who are absent for more than 20 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- For Developmental Courses (numbered below 100): Students who are absent for more than 10 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- A student who registers for a class and never attends the class within the first 10% of class meetings is a “No Show.” A “No Show” student will be dropped from the class and a grade of “NS” will be assigned to the student’s record. An “NS” will not count in the student’s GPA or as an attempt for veteran’s benefits or financial aid. Awarded financial aid will be removed from students who withdrew from all classes as a “no show”. Students who have mitigating circumstances explaining their absence need to communicate these to the instructor prior to the 10 percent date.

- If a student is suspended from the College during the term, a grade of “W” will be assigned for each class in which the student was enrolled that term.

**Course Prerequisite and Co-requisite Guidelines**

A prerequisite is a course that must be taken prior to another course. A co-requisite is a course that must be taken at the same time as another course or prior to the course to be taken. The college may mandate prerequisites and co-requisites to ensure students are prepared to meet the requirements of the course material. Students who do not have confirmed prior credit, equivalency via placement test scores, or transfer equivalency that satisfies the stated prerequisites and co-requisites may be administratively dropped from the course. Course prerequisites and co-requisites may be found by using WebAdvisor. Academic Deans, Division Chairs, Department Chairs, and Program Coordinators have the authority to waive a prerequisite or co-requisite based upon verified evidence that the student has the necessary prerequisite or co-requisite experience to meet the demands of the higher level course. A **Prerequisite Waiver Approval Form** will be completed for each waiver granted when the evidence of the prerequisite or co-requisite is not identified in Datatel. *The form is located under the Faculty/Staff link on the homepage and a username and password is required to submit the form.

**TUITION REFUNDS**

1. Before classes begin. A 100 percent refund shall be made if the student officially withdraws prior to the first day of class (es) of the academic semester or term as noted in the college calendar. Also, a student is eligible for a 100 percent refund if the class in which the student is officially registered is cancelled due to insufficient enrollment.

2. After classes begin. A 75 percent refund shall be made if the student officially withdraws from the class (es) prior to or on the official 10 percent point of the semester.

3. For classes beginning at times other than the first week (seven calendar days) of the semester or term, a 100 percent refund shall be made if the student officially withdraws from the class prior to the first class meeting. A 75 percent refund shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class.

4. To comply with applicable federal regulations regarding refunds, federal regulations supersede the state refund regulations stated in this Rule.

5. Military Students. A full refund of tuition and fees shall be granted to military reserve and National Guard personnel called to active duty or active duty personnel who have received temporary or permanent reassignments as a result of military operations then taking place outside the state of North Carolina that make it impossible for them to complete their course requirements.

6. Death of Student. When a student, having paid the required tuition for a semester, dies during that semester, all tuition and fees paid for that semester will be refunded to the deceased student’s estate, when requested by the estate within ninety days after the student’s death.

**Tuition/Fee Refund Appeals**

Students are responsible for charges and payments to their student tuition/fee account. Appeals for the current and/or immediate prior term only will be considered and reviewed. All other appeals will not be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
• Death of an immediate family member. A copy of the death certificate is required.
• Medical emergency which results in the inability to attend class. Medical documentation is required. Medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor is required.
• Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is required.

For any other mitigating circumstances, documentation and explanation must be submitted with the appeal form.

Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed monthly on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting indicating the decision of the Appeals Committee.

Financial Aid Students: A dropped class will result in a change in enrollment credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office at 910-678-8242 or finaid@faytechcc.edu with any questions regarding your financial aid prior to submitting this form.

FEDERAL RETURN OF TITLE IV FUNDS FOR COMPLETE WITHDRAWALS

Students receiving Title IV funding (Federal Pell Grant, Supplemental Educational Opportunity Grant or William D. Ford Federal Direct Loans) who completely withdraw from classes are required to have earned aid evaluated through a federal formula. Unearned aid is returned to the federal financial aid programs. The amount of federal funds returned to the federal programs will be determined based on the date the withdrawal process begins or the last date of attendance. If the date the withdrawal process begins or last date of attendance is not available or known, the federal refund will be based on the 50 percent point of the semester. Return of Title IV funds will not be computed after the 60 percent point of the semester.

BOOKSTORE REFUNDS

Bookstore refunds are made under the following conditions:

• Students are allowed ten (10) calendar days beginning with the first day of the term to return textbooks for refund or credit.
• Books which have not been used, damaged, or marked in will be accepted for 100 percent refund or credit toward the purchase of additional items. Proof of purchase (cash register receipt) must be shown.
• All refunds will be made by check mailed to the individual student. No cash refunds will be made.

• Military Students: The College shall buy back textbooks through the colleges’ bookstore operations to the extent possible. The College will use distance learning technologies and other educational methodologies to help these students, under the guidance of faculty and administrative staff, complete their course requirements.

TUITION WAIVERS
(Subject to change)

(1) High school juniors and seniors participating in High School Connections and taking eligible course are exempt from tuition unless the course is self-supporting. In addition, students are exempt from the CAPS fee.

(2) When an employer, other than the armed services, pays tuition for an employee to attend a community college and when the employee works at a North Carolina business location, the employer is charged the in-state tuition rate.

(3) Certain out-of-state students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the military, for employment may be eligible for tuition payment at the in-state rate.

(4) Out-of-state service members and their dependents stationed at a North Carolina base are eligible to be charged the in-state tuition rate. The waiver is for the academic year. Continuing students may re-apply each fall term.

(5) Members of the armed forces that register through the GoArmyEd website are exempt from the activity fee, technology fee, and CAPS fee based on the agreement between the College and contractual agency.

(6) Students enrolled in Internet courses only (taking no traditional face-to-face courses) may request a waiver of the student activity fee and CAPS fee.

(7) Volunteer fireman, local fire department personnel, volunteer rescue and lifesaving department personnel, local law enforcement officers enrolled in training course are exempt from tuition and registration fees.

(8) Students enrolled in Health and Human Services Development programs are exempt from continuing education registration fees.

(9) Elementary and secondary school employees enrolled in courses in first aid or cardiopulmonary resuscitation (CPR) are exempt from continuing education registration fees.

(10) Full-time college staff members are exempt from tuition and registration fees for one curriculum or continuing education course per semester.
ATTENDANCE POLICY

Because of the nature of the vast majority of the courses at Fayetteville Technical Community College, the administration has established the following policy. The policy has been established for the benefit of the students who are forced, because of reasons beyond their control, to miss classes as well as those who do not miss any classes (both groups of students are involved). Attendance may be taken separately in each portion of a course (i.e., class, lab, clinic, shop). Missing 20% of any portion of a course may result in administrative withdrawal. When enrolled in developmental studies courses missing 10 percent or any portion of the course may result in administrative withdrawal.

1. Instructors will make every effort to advise students who have missed more than 10% of a course that their standing in class is in jeopardy. Students who add a course after the first day of the class are responsible for all materials covered from the beginning. Instructors are encouraged to refer students with excessive absences to the Counseling Office.

2. If absences exceed 20% (10% for developmental studies courses), at any point during the term, the faculty member may: drop the student from the course, or allow the student to continue in the course under conditions set by the instructor.

3. Tardy students interrupt the beginning of a class meeting. If a student enters the class after the instructor has started the class, the student shall be recorded as being tardy. Three tardies shall be counted as one absence.

4. No absence, for any reason, shall excuse a student from an announced test, examination, or other assigned activities. Except in the instance of an excused absence for Religious or solemn observances, make-up of any tests or work missed shall be at the discretion of the faculty member. Students shall be permitted to make-up tests or work missed as the result of a religious or solemn observance, so long as notice of the observance was given to the college in writing within two weeks of the first meeting of the class. The make-up of any test or examination shall be scheduled on the earliest possible date after the student returns to class.

5. Special attendance policies are in effect for the following programs: Associate Degree Nursing, BLET, Dental Assisting, Dental Hygiene, Central Sterile Processing, Early Childhood Education Credential Certificates, Emergency Medical Science, EMT classes, Fire Academy (Continuing Education), Mammography, Nuclear Medicine Technology, Nursing Assistant, Pharmacy Technology, Physical Therapist Assistant, Practical Nursing, Radiography, Respiratory Care, Speech Language Pathology Assistant, and Surgical Technology. No department may impose a different attendance policy unless specifically required for licensure purposes. Requests for a more stringent policy must be submitted in writing to, and approved by, the appropriate Program Area Dean.

6. Special permission must be obtained from the Registrar/Curriculum and the faculty member before a friend can sit in on a class. Students are responsible for their guest’s behavior while on campus.

7. Children are not to be left unattended anywhere on campus. Small children of students are not permitted to sit in classes or labs.

ACADEMIC STANDARDS FOR GRADUATION

The College requires that students maintain a cumulative and major GPA 2.0 or higher in order to meet institutional standards of progress and to be eligible for graduation.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)

To remain eligible for state and federal financial aid programs, students need to make Satisfactory Academic Progress (SAP) toward achieving a degree, diploma, or certificate. Standards of Satisfactory Academic Progress are applied to all students who wish to establish or maintain financial aid eligibility at FTCC, regardless if they have received financial aid funds in the past. The standards are established to encourage students to progress toward an educational objective and complete a degree within a reasonable time frame and with the least amount of loan debt. If the standards are not met, students are not eligible for federal and state financial aid.

ACADEMIC PROGRESS STANDARDS FOR ALL STUDENTS

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by both the Registrar’s Office (for all students) and by the Financial Aid Office (for student’s receiving financial aid).

Maintain a Minimum Cumulative GPA

- Maintain a cumulative grade point average of at least a 2.0.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Maintain a Minimum of Completed Credit Hours for Credits Attempted

- Complete a minimum of 67% of cumulative credit hours attempted.

- Attempted credits include courses with grades of "A", "B", "C", "D", and "F". "I", "W", or "F" grades are not considered a completed credit and will not count towards your attempted credit calculation and GPA.

- All transfer credits accepted by FTCC will count toward the calculation of attempted credits.

- Credit hours taken for a grade of "audit" (AU) do not apply toward an associate degree, diploma, or certificate program. Therefore, credit hours with this designation are not included in determining enrollment status for financial aid disbursements or Satisfactory Academic Progress. Students with changes in grade type of an "audit" (AU) after the disbursement of financial aid will be reviewed for an enrollment status change. This change may result in a reduction of financial aid eligibility and a balance owed to the College.

- Courses with grades of "I" (Incomplete) will be considered as credit hours attempted and not completed. Students who have made arrangements with the instructor to complete required course work are not required to re-register for the same class during a subsequent semester to complete the work. Any course carried forward to the next semester for completion will not be counted as part of the next enrollment status. If the "incomplete" grade was instrumental in placing a student on financial aid probation or suspension, once completed, the student may appeal for a re-evaluation of Satisfactory Academic Progress by submitting the Satisfactory Academic Progress Appeal form to the Financial Aid office at FTCC.

- Repeated courses will be counted as hours attempted and also toward maximum credits allowable for each type of program for financial aid.

Complete A Degree, Diploma or Certificate Program in no More Than 150% of the Average Length of the Program:

- Cumulative credit hours attempted are defined as all credit hours attempted at FTCC, and all credit hours transferred to FTCC from other institutions.

- Students will not be eligible to receive financial aid once they have attempted 150 percent of the normal credits required for their approved program of study, i.e., degree, diploma or certificate.

- All attempted credits are counted, including credit for prior learning, and developmental courses; whether or not financial aid was received, or the course work was successfully completed.

- A student who completes an associate degree at FTCC is considered to have reached their maximum program length and is not eligible for financial aid for other programs. Students who have completed a diploma or a certificate may enroll in an associate degree. The course credits obtained toward the diploma/certificate will continue to be calculated as part of the 150% percent of the program length.

STUDENT ACADEMIC STANDING

PROCEDURES FOR ALL STUDENTS

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by the Registrar’s and Records Office. This procedure involves reviewing each student’s cumulative grade point average (GPA) to evaluate his or her academic progress and academic standing.

Student are encouraged to review the online College Catalog for details of how a student’s academic progress may affect his or her continued enrollment. Please keep in mind that Financial Aid and Veterans Services may have more restrictive academic progress and academic standing requirements as conditions of his or her continued funding.

GOOD STANDING

A student is considered to be in good academic standing when he or she earns a cumulative GPA of 2.0 or above.

ACADEMIC WARNING

A student is considered to be on academic warning when his or her cumulative GPA is below 2.0 at the end of the semester. This warning is an indication of potential academic problems and is communicated to the student and the student’s advisor and major department(s). A letter is sent via email encouraging attendance in interactive seminars facilitated by Counseling Services and an orientation of the Success Center.

ACADEMIC PROBATION

A student is considered to be on academic probation when the student is already on academic warning and his or her cumulative GPA is still below 2.0 at the end of a semester. This student is placed on academic probation, and this is noted on the student’s permanent record. A letter is sent via email requiring the student to meet with his or her academic advisor.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
HONORS AND ACHIEVEMENTS

President’s List
The President’s List is generated at the end of each semester for students with a perfect grade point average. This honor is reflected on students’ transcripts. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from the consideration.

Students must make a final grade of “A” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn a 4.00 GPA on a minimum of 12 credit hours. The formula used to calculate this 4.00 GPA excludes the following grades: AU, P, S, T, W, WP, and W*.

Students are NOT eligible for consideration until all course work is completed for the term.

Dean’s List
The Dean’s List is generated each semester for students with an outstanding grade point average. This honor is reflected on students’ transcripts.

Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.

Students must make a final grade of “A” or “B” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn at least a 3.5 GPA on a minimum of 12 credit hours. The formula used to calculate this minimum 3.5 GPA excludes the following grades: AU, P, S, T, W, WP and W*. Students are NOT eligible for consideration until all course work is completed for the term.

The President’s Award
The President’s Award is presented to a deserving student at graduation selected by a faculty-staff committee. To be eligible for this award, a student must have a minimum 3.0 GPA and must have been enrolled on a full-time basis during the year of nomination. The student must exhibit and promote good student morale and demonstrate a genuine concern for FTCC and its role in the community.

Who’s Who
Students nominated for Who’s Who are made by faculty members. Students must have at least a 3.0 GPA and have exhibited leadership abilities, moral character, and commitment to their educational goals.

Ambassadors
Each year, Fayetteville Technical Community College chooses eight outstanding students to serve as Ambassadors. The Ambassadors act as official hosts and hostesses for various campus events. Ambassador candidates must have completed 12 semester hours at FTCC, have a minimum 2.5 GPA, and be recommended by three members of the College community.

Graduating With Honors
Any student who has earned a GPA of 4.0 in his/her program of study at FTCC will be granted a diploma or degree with highest honors. Any student who has earned a GPA of 3.5 in his/her program of study will be granted a diploma or degree with honors. The student’s transcript will be noted to reflect this achievement.

REQUIREMENTS FOR GRADUATION
To be eligible for graduation, the student must:

1. Successfully complete the curricular requirements in effect at the time the student entered the curriculum. Students who enter a curriculum after the fall term are subject to the curricular requirements in effect at the time of reentry. A student who withdraws from the College and reenters at a later semester, including students who have completed at least one or more semesters, will be subject to curricular requirements in effect at the time of reentry. In cases where students reenter at the beginning of fall semester, they are subject to the requirements for the curriculum at the fall semester re-entry.

2. Have met all admissions requirements for the program in which the student will graduate, including receipt of high school transcript/GED and transcripts from all colleges/universities that course credit for the certificate, diploma or degree requirements were derived.

3. Have sufficient grade points to average 2.0 major and cumulative GPA.

4. Have passing grades in all required courses (certain curricula, especially in the health area, require that a student make at least a “C” on major subject areas for the student to be eligible to take state and national examinations for licensure.)

5. Must have taken care of ALL financial indebtedness to Fayetteville Technical Community College, including a graduation fee.

6. Applications for degrees or diplomas must be completed by the student and returned no later than the end of the fall semester for the spring graduation and the end of the spring semester for summer graduation from those programs that are completed in sequence during the summer (i.e., Emergency Medical Science, Radiography, and certain vocational curricula). The College assumes no responsibility for making special adjustments for students who fail to file applications by the designated
time. A candidate who fails to file an application for graduation or meet graduation requirements by the designated date for each automaticallyvoids his/her candidacy for that particular graduation.

A WORD OF ADVICE: It is important to review your program requirements and your Student Educational Plan two semesters before graduation to be sure you are meeting all requirements. Check with your faculty advisor.

Progress Standards for Select Programs

The following programs require that a student complete the stated course work with a grade of “C” or better in order to progress to the next course/term:

**Associate Degree Nursing** – A “C” or better in all NUR and science courses and a satisfactory grade in clinical

**Central Sterile Processing** – A “C” or better in all STP and science courses

**Dental Assisting** – A “C” or better in all DEN and science courses and a satisfactory grade in clinical

**Dental Hygiene** – A “C” or better in all DEN and science courses and a satisfactory grade in clinical

**Emergency Medical Science** – A “C” or better in all EMS and science courses and a satisfactory grade in clinical

**Funeral Service Education** – A “C” or better in all FSE courses and ACC 111, BUS 115, and PSY 141

**Healthcare Management Technology** – A “C” or better in all HMT courses

**Mammography** – A “C” or better in all MAM courses

**Nuclear Medicine Technology** – A “C” or better in all NMT and science courses

**Nursing Assistant** – A “C” or better in all NAS courses

**Paralegal Technology** – A “C” or better in all LEX courses

**Pharmacy Technology** – A “C” or better in all PHM and science courses

**Physical Therapist Assistant** – A “C” or better in all PTA and science courses

**Practical Nursing** – A “C” or better in all NUR and science courses

**Radiography** – A “C” or better in all RAD and science courses

**Respiratory Care Technology** – A “C” or better in all RCP and science courses

**Speech-Language Pathology Assistant** – A “C” or better in all SLP and science courses

**Surgical Technology (Degree or Diploma)** – A “C” or better in all SUR and science courses

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

STUDENT RECORDS

Fayetteville Technical Community College is committed to the concern for and protection of students’ rights and privacy of information. The College complies with the provisions of the Federal Family Rights and Privacy Act (FERPA), which is a federal law that governs the maintenance of students’ records. Under law, students have the right to inspect their educational records, correct inaccuracies in the records if warranted, and the records are protected from release of information without written consent. Most student records are open for inspection and review by the student. The parent(s) of a dependent student as defined in Title 26 U.S. C.s152 of the Internal Revenue Code also has this right to inspect records that are maintained by the College on behalf of the student.

The Registrar is responsible for student records. All students are provided rights under the Family Education Rights and Privacy Act (FERPA).

1. After submitting a written request and within two working days, a student may receive an unofficial copy of his or her transcript. Requests received during the registration period will require 5-10 working days. There is a $5.00 fee for each official transcript. Order transcripts online.

2. State of Rights – Operating under the premise that the educational process is a cooperative venture between the student and FTCC, this policy emphasizes the following rights of students:
   a. to inspect and review their educational records
   b. to exercise limited control over other people’s access to their educational records
   c. to seek to correct their educational records in a hearing if necessary
   d. to report violations of FERPA to the Family Education Rights and Privacy Act Office—Department of Education
   e. to be informed about their FERPA rights

3. We cannot provide any contact information for our students, as that information is confidential under FERPA because of a change the Trustees of FTCC made last year. Specifically, the Board’s policy says that directory information is now limited to the following:
   1. Name
   2. Curriculum
   3. Enrollment Status
   4. Dates of Enrollment
   5. Degree Received

Students who object to the release of directory information must notify the Registrar/Curriculum in writing within five (5) school days from the first day of the term of the items that the student does not want disclosed. If no objection is received by that date, the information will be classified as directory information until the beginning of the next school year.

4. Students may petition the Registrar to amend or correct any part of the educational record which the student believes is inaccurate, misleading, or in violation of student rights. This includes the right to a hearing to present evidence that the record should be changed if FTCC decides not to alter it according to the student’s requests.

5. Students may file a complaint with the FERPA Office, Department of Education, 330 Independence Avenue, SW, Washington, DC 20201, if FTCC violates the FERPA or this policy.

7. FTCC reserves the right to deny official transcripts or copies of records not required by FERPA in any of the following situations:
   a. The student has any unpaid financial or other obligations to the College, including, without limitation, unresolved parking violations, overdue books, or unpaid library fines.
   b. There is unresolved disciplinary action against the student or unresolved litigation between the student and FTCC.

Note: When a student has a name change, the student is responsible for contacting the Registrar’s Office in person, with the necessary documentation, to revise the information (i.e., a social security card). Out-of-town and/or distance learning students may fax or send a copy of the document to the Registrar’s Office.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

Student Rights

Students enrolled at FTCC are encouraged to develop the capacity for critical judgment and to engage in both an instructor led and an independent search for knowledge. Free inquiry and free expression are essential to developing these skills; however, students should exercise this academic freedom with responsibility. Students are required to follow all College guidelines, including the Student Code of Conduct, and to obey all laws when on any FTCC campus or when participating in any campus sponsored or supported event.

1. Every student has the right to a learning environment that is free from unreasonable distractions. If a student’s behavior interferes with the educational process, that student will be directed to end the activity causing the disruption. A student who continues to disrupt can be removed immediately from class and/or campus. Within a reasonable time after being removed, the student will be advised of his/her options, which are more fully described under the section on Disciplinary Action.

2. Students have the right to be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

3. Students have the right to freedom of expression, inquiry and assembly so long as it is not disruptive to a learning environment.

4. Students have the right to inquire about and propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees, and College officers.

5. Students and former students have the right to review their official records. No records shall be made available to unauthorized personnel or groups outside the College without the written consent of the student involved, except under legal compulsion or in accordance with federal law and the announced policies/procedures of the College. Student rights in this area are more fully described in the following section.

Student Code of Conduct

The following regulations set forth rules of conduct that prohibit certain types of student behavior. Students are expected to act and dress appropriately for a college environment. Neither actions nor dress should distract others from concentrating on their course of study. The College has established the following Code of Conduct to ensure that an appropriate college environment is maintained. Violation of one or more of these regulations may result in disciplinary sanctions. Students are not permitted to engage in any of the following activities while participating in any college course, while on campus, while participating in a College-sponsored event, or while in a College owned vehicle.

1. Academic dishonesty, including, but not limited to:
   a. Obtaining test information, research papers, notes and other academic material without authorization;
   b. Receiving or giving help on tests, projects, or assignments submitted for a grade unless specifically authorized by the instructor; and,
   c. Plagiarism, which is taking credit for another’s ideas or works as if they were your own.

2. Theft, vandalism, or misuse of College property wherever it is located.

3. Possession, use, or distribution of alcohol or any illegal drug. In addition, students shall not be under the influence of any such substance while on campus, at College events, or in College owned vehicles.

4. Using, recording, or disseminating anything which is lewd, offensive, obscene, profane, or vulgar, including, but not limited to, the use of profane or vulgar language.

5. Physical violence against another person or threatening physical violence against another person.

6. Harassment or intimidation of any other person, including but not limited to, sexual harassment or intimidation.

7. Participation in gatherings or demonstrations that interfere with another’s ability to freely access College facilities or property. Students shall not disrupt or interfere with the College’s educational processes or College functions. Student shall comply with any instruction of a College employee to leave the scene of a disruptive gathering or demonstration.

8. Violation of any state law prohibiting the possession of weapons on the campus. Generally, explosives, guns, knives, razors, other sharp instruments, leaded canes, brass knuckles and stun guns are not permitted on campus unless the possession of the weapon is a necessary part of a class in which the student is enrolled and the possession of the weapon is authorized by the student’s instructor.

9. Tampering with a fire alarm or other safety equipment belonging to the College.

10. Gambling.

11. Smoking or using other forms of tobacco in any unauthorized area including but not limited to classrooms,
shops and labs. For areas of the campus where smoking is permitted, refer to the College’s policy on Smoking on Campus which is described more fully later in this section.

(12) Altering or misusing College documents, records or instruments of identification with intent to deceive.

(13) Financial irresponsibility including, but not limited to, failure to pay College fines, failure to repay College funded loans or passing worthless checks to College officials.

(14) Violating the terms of any disciplinary probation or any College regulation during the period of probation.

(15) Failing to follow instructions of College employees.

(16) Participating in conduct that disturbs peace and order of the College. This includes, but is not limited to, yelling, screaming, or talking in an unnecessary or unreasonably loud voice, or using of any device which produces loud and/or disruptive noises.

(17) Unauthorized use of any electronic device, such as cell phones, recorders, cameras, I-pods, MP3 players, computers, and the like, in a virtual or physical classroom, shop, or lab.

(18) Permitting any person who is under the age of sixteen (16) and who is not an FTCC student to enter any instructional area without prior authorization. Instructional areas include virtual or face-to-face classrooms, labs, libraries, the Success Center, clinical sites, or shops. However, students under the age of sixteen (16) shall be permitted to enter into any instructional area for purposes related to their own education.

(19) Violating any College rule, regulation, policy and/or procedure.

(20) Violating any local, state or federal law or regulation.

(21) This Student Code of Conduct is not all inclusive. Any conduct which is disruptive to the educational environment of the College is prohibited.

Disciplinary Action

Students who violate College regulations are subject to the disciplinary penalties of the College. If the student’s behavior violates both the law and College regulations, the College may take disciplinary action independent of that taken by legal authorities.

(1) If an act of misconduct threatens the health or safety of any member of the academic community or seriously disrupts the function and good order of the College, an instructor or administrative officer may direct the student(s) involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. The instructor may suspend the student(s) from the class until further notice. An administrative officer may suspend the student(s) from either the class or the College until a resolution of the matter can be made. Disruptive behavior may include, but is not be limited to, obscene and/or disruptive language, threatening actions, and blocking or restricting access to college classes, offices, and programs. The instructor or administrative officer invoking such suspension shall notify the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) in writing of the individual(s) involved and the nature of the infractions as soon as possible but no more than two days following the incident. The Academic Dean or Designee shall resolve the matter in a timely fashion.

(2) A violation, or possible violation, of the Weapons on Campus policy shall be reported to campus security immediately by phone, 678-8433, Emergency Call-box, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990. The Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Academic Dean or Designee or Associate Vice President for Continuing Education, the next available Dean/administrator/director/supervisor should be notified.

Upon notification by the Director of Public Safety and Security, the Academic Dean or Designee or the Associate Vice President for Continuing Education shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

Upon completion of the inquiry, the Academic Dean or Designee or the Associate Vice President for Continuing Education shall determine whether a violation of this policy occurred. If the Dean or Designee or Associate Vice President determines a student did violate this policy, the Dean or Designee or Associate Vice President shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
(3) Any administrative official, faculty/staff member, or student may file charges with the FTCC Security Office against any student or student organization for violations of College regulations. The individual(s) making the charge must complete a charge form stating:

a. name(s) of the student(s) involved
b. the alleged violation of the specific Code of Conduct
c. the time, place, and date of the incident
d. name(s) of the person(s) directly involved or witnesses to the infractions
e. any action taken that relates to the matter, and
f. desired solution(s)

The completed charge form should be forwarded directly to the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students).

Within five (5) working days after the charge is filed, Security shall complete a preliminary investigation of the charge, and the Dean or Designee or Associate Vice President shall schedule a meeting with the student. After discussing the alleged infraction with the student, the Dean or Designee or Associate Vice President may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment or where the student refuses to cooperate, the Dean/Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the Dean/Associate Vice President’s decision, and instructions governing the appeal process.

(4) Violations of the Code of Conduct related to academic issues, for example, cheating, plagiarism or classroom disruption will be addressed through the chain of command within the academic area.

The penalty for academic offenses is imposed or recommended by the instructor teaching the course. Ignorance of the rules or carelessness about plagiarism or cheating is no excuse.

Penalties for plagiarism and cheating that may be imposed by the instructor include but are not limited to the following:

- re-writing the assignment
- receiving a “0” on the assignment
- failing the course in which the assignment was submitted

Penalties for plagiarism and cheating that may be recommended include but are not limited to the following:

- academic suspension
- expulsion from the college

When probation, suspension, or expulsion is recommended, the recommendation must be submitted to the appropriate Academic Dean within five (5) working days of the discovery of the incident. Within five (5) working days after the recommendation is made, the appropriate Dean/Associate Vice President shall complete a preliminary investigation of the charge and shall schedule a meeting with the student. After discussing the alleged infraction with the student, the administrative official may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision of the Dean/Associate Vice President shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Associate Vice President, or where the student refuses to cooperate, the Dean/Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the Dean/Associate Vice President’s decision, and instructions governing the appeal process.

(5) Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student’s prerogative.

Sanctions
The following sanctions are examples of those that may be imposed for discipline:

(1) Reprimand: A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

(2) General Probation: An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.

(3) Restrictive Probation: Restrictive Probation results in loss of good standing and becomes a matter of record.
Restrictive conditions may limit activity in the College community. Generally, the individual will not be eligible for initiation into any local or national organization and may not receive any College award or honorary recognition. The individual may not occupy a position of leadership with any College or student organization or activity. This probation will be in effect for not less than two (2) terms. Any violation of Restrictive Probation may result in immediate SUSPENSION.

(4) Restitution: Paying for the damage, misuse, destruction, or loss of property belonging to the College, College personnel, or students.

(5) Interim Suspension: Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

(6) Loss of Academic Credit or Grade: Imposed as a result of academic dishonesty.

(7) Withholding grade reports, diplomas, or right to register or participate in graduation ceremonies: imposed when financial obligations are not met. (Will not be allowed to register until all financial obligations are met).

(8) Suspension: Exclusion from class (es) and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific written permission from the Vice President for Administrative Services before returning to the campus.

(9) Expulsion: Dismissing a student from campus for an indefinite period losing student status. The student may be readmitted to the College only with the approval of the Vice President for Academic and Student Affairs.

(10) Group Probation: This is given to a College club or other organized group for a specific period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

(11) Group Restriction: Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

(12) Group Charter Revocation: Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Re-charter after that time must be approved by the President.

Student Dress Code
The Trustees of Fayetteville Technical Community College recognize the importance of maintaining an education environment which promotes rigorous academic studies, encourages critical thinking, and teaches students skills necessary to be successful in the workplace. The Trustees authorize individual educational programs to implement and enforce dress codes when required to protect the health and safety of students. Additionally, the Trustees hereby determine that all students not in such a program should be encouraged to dress, while on campus, in a manner appropriate for an educational environment.

Effective June 1, 2011

Appeals and Due Process
Students subject to administrative decisions affecting their right to attend classes are entitled to due process. Due process includes, but is not limited to, the following considerations:

(1) The student must be informed of any charges made against him/her that may result in administrative action.

(2) The student must be advised in writing of the administrative action taken.

(3) The student will be advised of corrective action required.

(4) The student is entitled to an appeal as herein provided. The appeals process described in the following paragraphs must be followed.

(5) The student is entitled to appear and present testimony at any committee meeting scheduled to hear an appeal from said student.

Appeal of Disciplinary Sanction
The Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) investigates charges of misconduct and determines the action to be taken. The decision of the Dean or Designee or Associate Vice President is presented to the student in writing within five (5) working days after the charge is filed. If the student is notified that a disciplinary sanction will be imposed, he or she may appeal the decision.

(1) If a student wished to appeal the decision, he or she must submit the appeal in writing within five (5) working days of receipt of the Dean’s or Vice President’s decision to the Student Appeals Committee through the Director of Counseling.

(2) The decisions of the FTCC Student Appeals Committee are referred to the Associate for Student Services as recommendations. The Associate for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting
decision as soon as possible, but no later than three (3) days working days from the receipt of the recommendation of the Student Appeals Committee.

(3) If the student wished to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

Appeal of Attendance Problems
The instructor, according to guidelines published in the Student Handbook, may drop students who have excessive absences.

(1) Appeals of attendance decisions should be made first to the department chairperson and then to the program area Dean. Further appeals of administrative withdrawal from class for attendance will be made in writing no later than five (5) college days to the FTCC Student Appeals Committee through the Director of Counseling.

(2) The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) College days from the receipt of the recommendation of the Student Appeals Committee.

(3) If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

(4) Students dropped for attendance problems may be allowed to continue attending class until the appeal has been resolved.

Appeal of Grades
Grading is the prerogative of the faculty member. Appeals concerning grades given for a course must be directed to the faculty member assigning the grade and must be in writing. The faculty member assigning the grade and the student appealing the grade shall discuss the circumstances and attempt to resolve the appeal. Failing to reach a satisfactory resolution, the student may appeal in accordance with the specific procedures described below. The appeal of a grade must be initiated no later than the last day of the fourth full month after the course grade was assigned.

(1) The student shall present the appeal in writing to the chairperson or coordinator of the department within which the protested grade was earned. The chairperson or coordinator shall, by conferring with the student and the faculty member, seek resolution by mutual agreement. If applicable, the student should continue to attend classes throughout the appeals process.

(2) If the student wishes to appeal the final decision of the chairperson or coordinator, the student must appeal in writing to the appropriate Academic Dean or Director. If, after conferring with the student, the Instructor, and the Department Chairperson, the matter remains unresolved, the Dean shall convene the Academic Review Committee.

(3) The Academic Review Committee will consist of the convening Dean or Director and four FTCC faculty members, at least one of whom, if possible, shall be qualified to teach the course. The committee will be appointed by the Dean or Director. The faculty member assigning the grade shall not be appointed to the Academic Review Committee. During the appeal process, the appropriate Department Chairperson and/or faculty member will provide all relevant information to the appeal. The student’s written appeal will be provided to the committee and, if requested by the student, the student shall be afforded the right to personally appear and provide testimony to the committee and to ask questions of anyone providing evidence to the committee. Upon receiving all relevant evidence presented, the committee shall determine whether the grade assigned by the instructor shall be upheld. If the grade is not upheld, the committee shall make a decision as to how a grade shall be assigned to the student. The Dean will notify, in writing, the faculty member, the student, and the Department Chairperson of the committee’s decision within five working days. The resulting grade must be submitted within College guidelines and may not be further appealed.

Appeal of Financial Obligations
Initial telephone contacts and certified letters of advisement from the Business Office at FTCC regarding delinquent loans and returned checks are mailed to the student. Unpaid indebtedness to the College will result in suspension from the class(es). A student will not be allowed to register for the next term until the debt is cleared with the Business Office.

For returned checks, students are given 5 days from the date of the certified letter to clear the debt with FTCC. If after 15 days the debt is not cleared, the debt is submitted to the Cumberland County District Attorney’s Office Worthless Check Program, the North Carolina Attorney General’s Office and the North Carolina Debt Set-Off Program for collection.

For student loans, the promissory note states that payment in full becomes due immediately upon default of any installment or termination of at least half-time study. If payment is not made, the student’s account is submitted to the Attorney General’s Office for collection. Upon notification of disposition by the

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Medical emergency which results in the inability to attend
Associate Vice President for Student Services. The Associate
be initially appealed in writing no later than ten (10) College
of Admissions. Decisions of the Director of Admissions may
made by the counselor conducting the admissions interview.
Initial decisions to approve a student or potential student
Admissions Decisions
• Death of an immediate family member. A copy of the
documentATION is required.
• Medical emergency which results in the inability to attend
class. Medical documentation is required. Please attach
medical documentation including the dates of illness or
admission to the hospital and/or a signed letter from the
docto.
• Unanticipated military service, including TDY, training,
activation for deployment and unanticipated reassignment.
Proof of orders is required.

For mitigating circumstances, students should complete and
submit the Student Tuition/Fee Appeal form with all supporting
documentation. Requests for a tuition refund will be reviewed
by the Student Tuition/Fee Appeal committee. Appeals are
reviewed on the third week of every month. A letter will be
mailed within a week after the Appeals Committee meeting.

Appeals for the current and/or immediate prior term only will be
considered and reviewed. No other appeals will be considered.
Decisions of the Appeal Committee are final. Book charges
may not be appealed.

Admissions Decisions
Initial decisions to approve a student or potential student
to enter a program or a student re-entering a program are
made by the counselor conducting the admissions interview.
Appeals of admissions decisions are referred to the Director
of Admissions. Decisions of the Director of Admissions may
be initially appealed in writing no later than ten (10) College
days after the date of the Director of Admissions’ letter to the
Associate Vice President for Student Services. The Associate
Vice President for Student Services will confer with the
Department Chairperson and respond to the student within five
(5) working days. Decisions of the Associate Vice President for
Student Services are final.

Financial Aid Students
A dropped class will result in a change in enrolled credit
hours, which could generate a refund or a requirement to repay
financial aid. Please contact the Financial Aid Office with any
questions regarding your financial aid prior to submitting this a
drop for a class or withdrawal from all classes.

Dismissal
Fayetteville Technical Community College reserves the right to
dismiss any student when it believes such action is in the best
interest of the College, the students, the faculty, the staff, or the
student him/herself. In all cases, the right of due process is the
student’s prerogative.

Student Grievance Policy and Procedure
Fayetteville Technical community College encourages the prompt
and fair settlement of grievances. A student may present a griev-
ance without fear of coercion, restraint, interference, penalty, or
reprisal.

The purpose of the student grievance policy and procedure is to
provide a system to resolve student complaints against faculty,
staff, or other students concerning alleged discrimination on the
basis of age, sex, race, disability, or other conditions.

Academic Appeals
Appeal of admissions decisions, individual grades, academic
probation and/or suspensions, attendance problems, disciplin-
ary sanctions, and dismissal shall not be considered under this
policy, unless illegal discrimination is alleged. Such appeals
shall be considered according to the guidelines set forth in the
Catalog.

Sexual Harassment Complaints
Sexual harassment complaints shall be directed to the Associ-
ate Vice President for Student Services, unless the alleged ha-
rasser is the Associate Vice President. In that case, the
complaint shall be directed to the Vice President for Academic and
Student Services or to the President. Upon receiving the com-
plaint, the Associate Vice President for Student Services shall
refer the sexual harassment complaint to the Vice President for
Human Resources, Workforce Development and Institutional
Effectiveness, who will investigate the complaint following the
procedures outlined in the College’s Sexual Harassment Policy
and Procedures.

If the student is not satisfied with the outcome of the investiga-
tion, he or she may, within ten (10) working days, file the griev-
ance in writing with the President. The chain of appeal goes
then from the President to the Board of Trustees. Decisions of
the Board of Trustees are final.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
WEAPONS ON CAMPUS POLICY

Possession of Weapons on Campus
Illegal possession of weapons on campus or at any FTCC class, site, activity, or program is a violation of College policy.

1. It shall be a violation of college policy for any person to illegally possess, whether openly or concealed, any of the following items while on FTCC campus or at the site of any FTCC class, activity or program:
   a. Any gun or firearm, including, but not limited to a rifle, pistol, BB gun, air pistol, or air rifle;
   b. Any powerful explosive device, including, but not limited to, dynamite cartridge, bomb, grenade, or mine;
   c. Any knife or other sharp-pointed or edged instrument, such as, but not limited to, a bowie knife, dirk, dagger, switchblade knife, razor, or razor blade; or
   d. Any slingshot, leaded cane, blackjack, or metallic knuckles.

2. The possession of any item listed above shall not be in violation of College policy if the possession is permitted by law. Current law permits those who have valid concealed weapon permits and those exempt from obtaining such permits to have handguns secured, as described by law, in their vehicles. The law also permits weapons on campus solely for uses associated with approved educational programs.

3. Instructional supplies, unaltered nail files and clips and tools used solely for preparation of food, instruction, and maintenance on campus are exempted from this policy.

4. Any person, other than an FTCC student, found to violate this policy shall be removed from campus and shall not be permitted to return to campus for 120 calendar days.

5. Students in violation of this policy shall be suspended for a minimum of 120 days and shall not be permitted on any property owned or used by the College. A student is identified as any person currently enrolled in continuing education class(es) or curriculum class(es), whether the person is an adult or minor.

6. Students in violation of this policy may be placed on a permanent expulsion when one of the following occurs:
   a. Illegal possession of a firearm on campus;
   b. Repeat offense on campus or any FTCC class site, activity or program;
   c. Subsequent conviction of a violation of the law; or,
   d. Use of weapon to harm or threaten another individual.

Grievance Procedure
This procedure applies to all students of FTCC.

Step 1:
The student is encouraged to go to the instructor or staff member where the alleged problem originated. An attempt will be made to resolve the matter equitably and informally at this level. The conference must take place within five (5) working days of the incident which generated the complaint.

Step 2:
If the grievance is not resolved, the student may file a written grievance. The student must present the written grievance to the appropriate Associate Vice President within thirty (30) days of the incident giving rise to the grievance. The student and the Associate Vice President will meet within three (3) working days following the presentation of the grievance to discuss the grievance fully, and to attempt informal resolution. The Associate Vice President will investigate the grievance and will ask the employee against whom the grievance was filed to respond in writing to the allegation. The Associate Vice President will provide a written decision on the grievance not later than ten (10) working days following this meeting.

Step 3:
If the student is not satisfied with the decision, he or she may, within five (5) working days, file the grievance in writing with the Vice President for Academic and Student Services. The Vice President for Academic and Student Services will notify the President. Depending on the nature of the allegation, the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, may be asked to investigate. After reviewing the facts of the case, the Vice President for Academic and Student Services and/or the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, will make a recommendation to the President. The student will receive written notification within ten (10) working days of filing the complaint with the Vice President.

Further Appeal Procedure
If the student is not satisfied with the decision, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final. There is an expanding reliance on electronic communication among students, faculty, staff, and administration at Fayetteville Technical Community College (FTCC). This is motivated by the convenience, speed, cost-effectiveness, and environmental advantages of using Email rather than printed communication. Because of this increasing reliance and acceptance of electronic communication, Email is considered an official form of communication between the College and its applicants and students. Students should maintain the confidentiality of their email account as the college sends confidential information to students by email. Implementation of these procedures ensures that students have access to this critical form of communication. All applicants or students are assigned an Email account hosted by Google.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Procedures
A violation of this policy or possible violations shall be reported to campus security immediately by phone, 678-8433, Emergency Callbox, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990.

1. The appropriate Associate Vice President or Dean shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Associate Vice President or Dean, the next available Dean/administrator/director/supervisor should be notified.

2. Upon notification by the Director of Public Safety and Security, the Associate Vice President or Dean shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

3. Upon completion of the inquiry, the Associate Vice President or Dean shall determine whether a violation of this policy occurred. If the Associate Vice President or Dean determines a student did violate this policy, the Associate Vice President or Dean shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

Precautions
If a violation is observed, the following actions should be taken:
1. Do not approach the individual. Stay calm.
2. Either notify campus security or have someone else do it.
3. Monitor individual from a safe distance or take cover if necessary.
4. Notify other persons in the area.
5. If possible, get a good description of the individual, vehicle, or weapon.
7. If necessary, get away from the affected area.
8. Do not take chances.

SMOKING ON CAMPUS
All buildings on the FTCC campus are smoke-free. In addition, smoking adjacent to buildings will only be permitted at outdoor areas that have been designated by the President as smoking areas. This policy is implemented to reduce secondhand smoke at building entrances. The designated smoking areas are listed below:

STUDENT EMAIL STANDARDS

College Use of Email
Email is an official form of communication within FTCC. Therefore, the College has the right to send communications to applicants and students via Email and the College has a right to expect that those communications will be received and read in a timely manner.

Appropriate Use of Student Email
Students should not use their student Email account for personal use. Student Email is not appropriate for transmitting sensitive or confidential information unless its use for such purposes is matched by an appropriate level of security. Email shall not be the sole method for notification of any legal action.

Redirection of Email
A student may have their Email electronically redirected to another email address. If a student wishes to have Email redirected from their official Address to another Email address (e.g., @aol.com, @hotmail.com, or an address on a departmental server), they may do so, but at their own risk. FTCC will not be responsible for the handling of Email by outside vendors. Having email redirected does not release a student from the responsibilities associated with communications sent to their official email address.

Educational Uses of Email
Faculty may determine how Email will be used in their classes. It is highly recommended that if faculty have Email requirements and expectations, they specify these requirements in their course syllabi. Faculty may expect that student’s official Email addresses are being accessed, and faculty may use Email for their courses accordingly.

MANAGEMENT INFORMATION SERVICES
Management Information Services (MIS) maintains the campus local area network. MIS is responsible for the management, administration, and upgrades of the local area network, computer labs, shared applications, and systems.

The Fayetteville Technical Community College (FTCC) network consists of both a wired and wireless local area network. FTCC has guidelines that define roles, responsibilities and acceptable use of the College’s LAN. Users are expected to abide by the following guidelines.

GENERAL USAGE GUIDELINES
College-owned or -operated computing resources are for the use of faculty, students, staff, and other authorized individuals. Users must exercise responsible, ethical behavior when using these resources. Responsible behavior should also be exercised when using one’s own personal computing device connected to the FTCC wireless network. The College does not attempt to articulate all required or unacceptable behavior by its users. To assist in such judgment, the following guidelines have been developed:

1. Computing resources and access accounts are to be used only for the purpose for which they are assigned and are not to be used for commercial purposes or non-college related activities.

2. Users of the network are responsible for any actions taken that cause damages or affect other computers or portable computing devices. Users should not engage in activities/actions which damage or disrupt hardware or communications such as virus creation and propagation, and overloading networks with excessive data.

3. Individuals will not use College computer resources to engage in any illegal activities. Users of the FTCC network must comply with all federal, state, and local laws that apply.

4. All computer software is protected by federal copyright law and most is proprietary and protected by legal licensing agreements in addition to the copyright law. The user is responsible for being aware of the licensing restrictions for the software used on any system. Users must respect the legal protection applied to programs, data, photographs, music, written documents and other material as provided by copyright, trademark, patent, licensure and other proprietary rights mechanisms.

5. Users shall not create, display, advocate, or transmit threatening, racist, sexist, pornographic, obscene, offensive, annoying or harassing language and/or material, including broadcasting unsolicited messages, sending unwanted mail, or accessing websites for these purposes.

6. Users shall not use the FTCC network to intentionally gain unauthorized access to any systems or sensitive information. Users will not gain, or attempt to gain, unauthorized access to other’s files, folders, or storage areas of any kind.

7. Use of content management systems (e.g. BlackBoard) should be for the purposes of communicating and documenting class or educational related activities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
8. Users are discouraged from conducting confidential transactions (e.g. online banking) over FTCC network.

9. Individuals are responsible for the proper use of their accounts, including proper password protection and appropriate use of Internet resources. An access account assigned to an individual must not be used by others. Users are responsible for notifying MIS Help Desk (678-8502) if they find that their account login information has been compromised in any way.

10. Users will refrain from monopolizing systems and services, such as overloading resources, putting excessive demands on disk space, printer paper and supplies.

11. The College’s website, www.faytechcc.edu, will serve as the only official website representing FTCC. Users are not permitted to use the College’s name or any association with the College in web sites that are not owned, created, and/or maintained by FTCC.

12. Fayetteville Technical Community College is in no way liable for any damage, undesired resource usage, or detrimental effects that may occur to the user’s computer or any portable computing device while attached to the wireless network.

13. Individuals connecting to the wireless network are responsible for having current operating system updates and up-to-date antivirus software installed on their computer and any portable electronic devices.

Failure to follow the FTCC General Use Guidelines can result in the suspension of access rights and disciplinary action as deemed appropriate by the College.

Management Information Services office reserves the right to make revisions/updates to these guidelines at any time.

MIS has the responsibility to monitor, filter, log, and block network activities and locations, to include email, as required to ensure that all computer resources perform optimally and are safe from technology threats. MIS reserves the right to restrict access to the FTCC network as deemed necessary to protect the integrity of the network infrastructure, systems, and information.
Fayetteville Technical Community College recognizes and supports the rights of free speech. This policy informs members of the College community and the public of the manner in which they may engage in constitutionally protected speech and expression at Fayetteville Technical Community College. It is intended to ensure the primary educational purpose of the College.

The College will protect the rights of freedom of speech, petition, and peaceful assembly. The right to regulate reasonable time, location, and restrictions concerning acts of expression and dissent will be maintained by the College. Any acts that are disruptive to normal operations of the College including but not limited to classes, College business, or invades the rights of others will not be tolerated. Faculty, staff, and students engaging in disruptive activity may be subject to disciplinary action. Any participant in a disruptive activity may face criminal charges.

Guidelines for Speech and Public Assembly

(1) Amplification Systems: Public address and amplification systems may not be used. This includes megaphones and PA systems.

(2) The Right to Dissent: The right to dissent is the complement of the right to speak, but these rights need not occupy the same forum at the same time. The speaker is entitled to communicate his or her message to the audience during their allotted time, and the audience is entitled to hear the message and see the speaker during that time. A dissenter must not substantially interfere with the speaker’s ability to communicate or the audience ability to hear and see the speaker. Likewise the audience must respect the right to dissent.

(3) Picketing and Distribution of Literature: Picketing in an orderly manner or distributing literature within the free speech area is acceptable when approved during the request process as coordinated and approved by the Director of Student Activities. Picketing is not permitted inside College buildings.

(4) Symbolic Protest: During a presentation, displaying a sign, gesturing, wearing symbolic clothing, or otherwise protesting silently is permissible unless it is a disruptive activity or impedes access, such as acts that block the audiences view or prevents the audience from being able to pay attention.

(5) Marches: Campus marches are permitted on campus only with the approval of the Director of Student Activities per Requests for Free Speech.

In order to ensure the safety of participants and bystanders and to minimize the disruption upon College classes and daily operations, this request must specify the desired march route and total/maximum number of participants.

Pickets/marchers must march in single file, not abreast, and may not march closer together than 15 feet, except in passing one another. Pickets not marching shall remain at least 15 feet apart. Minor children, six years of age or younger, may walk abreast or be carried by their parent or guardian.

Pickets shall be restricted to the use of the outermost half of the sidewalk or other public way nearest the street and shall not at any time nor in any way obstruct, interfere with, or block persons entering or existing vehicles; persons crossing streets or otherwise using the public way; the entrance or exit to any building or access to property abutting the street or sidewalk; or pedestrian or vehicular traffic.

Registration and Use of Designated Free Speech Area

A. Requests for Free Speech. Individuals or groups wishing to exercise their free speech should submit a written request to the Director of Student Activities at least three working days prior to the desired date. The following information must be included in this written request.

• Name of the person or organization submitting the request
• Purpose of speech requested
• Date and times requested
• List of planned activities
  (i.e., speech, signs, distribution of literature)
• Anticipated number of participants and attendance

Approvals are for one day only for a maximum of three continuous hours, between 8:00 a.m. and 10:00 p.m.

B. Designated Free Speech Area. College designated areas for free speech are listed below:

  Main Campus - Student Center Gazebo
  Spring Lake Campus - TBA
  Horticulture Education Center - TBA

College sponsored events have first priority on the use of campus facilities. Requests for the Gazebo will be assigned to the person or organization that requests the area first. The College reserves the right to relocate any assembly to ensure that the activity does not interfere with the normal operation of the College or interfere with the rights of others.
Conduct and Manner

(1) Those who exercise free speech as a part of this policy must not
   - Threaten passers-by
   - Interfere with, impede, or cause blockage of the flow of vehicular or pedestrian traffic.
   - Interfere with or disrupt any other lawful activity in the same general location at the same time.
   - Commit any act likely to create an imminent safety or health hazard.
   - Post materials on any walls, windows, doors, sidewalks, trees, light poles, etc., or any other College equipment except as approved by the Director of Student Activities.
   - Carry signs or placards that exceed two feet by two feet promoting the objective of the activity. They must not contain profane language or words that would tend to incite violence.

(2) Public speech or activities that are likely to incite or produce imminent lawless action or that is, under current legal standards, either defamatory or obscene is prohibited. Violations of the FTCC Student Code of Conduct are prohibited.

(3) Participants in College free speech activities cannot refuse to identify him or herself to College officials when such activities are on College property. A person may identify him/herself by presenting a student/faculty/staff ID card, driver’s license, or some other form of government issued identification.

(4) Individuals who damage or destroy College property shall be held responsible for such damage or destruction. This includes lawns, shrubs, trees, etc.

(5) A request for use of free speech areas may be denied if determined that the proposed speech/activity will constitute a clear and present danger to the orderly operation of the College.

(6) All applicable College regulations, state, and federal laws and municipal ordinances apply when engaging in activities on College property. Failure to do so may result in immediate removal from College property and other appropriate action by College officials and/or police.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
individual as a direct result of the individual’s affiliation with the College, and which would not be available to a non-College individual on the same basis. An employee and/or student who claims that Intellectual Property is made on personal time has the responsibility to demonstrate that the Property so claimed is created on personal time.

(7) An employee and/or student who anticipates or has already produced Intellectual Property using both his or her own resources and time and the resources and time of the College, will meet with the College President or his Designee to discuss his or her efforts and to agree on a possible division of the value of the rights produced.

(8) The College may release its rights of ownership of Intellectual Property to the individual, if the institution is convinced that no College facilities, time, or materials were used in the development of the Intellectual Property and that it was made on personal time.

(9) The College retains the rights to all Intellectual Property, which would be owned by the College under this policy created by employees who leave employment with the College. The College may grant the individual non-exclusive use of the Intellectual Property for a specified period of time at another nonprofit educational institution.

(10) Prior to entering any consulting agreement involving Intellectual Property Rights with any third party, where any College time, facilities, materials or other resources are involved, College employees and/or students, must present the proposed agreement to the College President or his designee for review and approval.

(11) The College owns all rights to its logo, seal, and other related materials.

(12) Exceptions to the above policies are authorized if approved by the President of the College following a favorable review and recommendation by the Intellectual Property Committee.

**DRUG AND ALCOHOL POLICY**

**Drug and Alcohol Prevention Program**

The use and abuse of drugs and alcohol are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users and/or abusers of drugs or alcohol may impair the well-being of all employees, students, the public at large, and result in damage to College property. Therefore, in compliance with the Federal Drug-Free Workplace and Drug-Free Schools and Campuses Regulations, it is the policy of this College that the unlawful use, possession, manufacture, distribution, or dispensation of a controlled substance or alcohol, is prohibited while in the College workplace, on College premises, or as part of any college-sponsored activities. Any employee or student violating this policy will be subject to disciplinary action up to and including termination or expulsion and referral for prosecution. The specifics of this policy are as follows:

I-27.1 FTCC does not differentiate among unlawful users, pushers or sellers of drugs or alcohol. Any employee or student who unlawfully possesses, uses, sells, gives or transfers a controlled substance or alcoholic beverage to another person while in the College workplace, on College premises, or as part of any college-sponsored activity, or as part of any college-sponsored activity, will be subject to disciplinary action up to and including termination or expulsion, and referral for prosecution. Any employee or student violating this policy will be subject to disciplinary action up to and including termination or expulsion, and referral for prosecution.

I-27.2 The term “controlled substance” means any drug listed in 21 CFR part 1308 and other federal regulations, as well as those listed in Article V, Chapter 90 of North Carolina General Statutes. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to: heroin, PCP, cocaine, “crack”, and marijuana. They also include “legal drugs” which are not prescribed by a licensed physician. The term alcoholic beverage includes beer, wine, whiskey and any other beverage listed in Chapter 18B of the General Statutes of North Carolina.

I-27.3 If any employee or student is convicted of violating any criminal drug or alcoholic beverage control statute while in the College workplace, on college premises, or as part of any college-sponsored activity, he or she will be subject to disciplinary action up to and including termination or expulsion. Specifically, any such person who is convicted of a felony, or of a misdemeanor which results in an active prison sentence will, if a student, be expelled, or if an employee, be terminated from employment (subject to existing disciplinary policies applicable to employees and State or Federal law which may apply). Other misdemeanor convictions will be evaluated on a case-by-case basis, and the penalties to be imposed may range from written warnings or mandatory counseling or rehabilitation to expulsion from enrollment or discharge from employment. Any such person charged with a violation of these policies concerning illegal drugs may be suspended from enrollment or employment before initiation or completion of disciplinary proceedings if the Office of Human Resources determines that the continued presence of such person within the College community would constitute a clear and immediate danger to the health or welfare of other members of the community after an appropriate predetermination inquiry. All employees and students of the College are currently eligible and are encouraged to participate without cost in an employee assistance program which offers among its many services, drug and alcohol abuse counseling.

I-27.4 Each employee or student is required to inform the Office of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, at the College, in writing, within five (5) days after he or she is convicted of violation of any federal, state, or local criminal drug or alcoholic beverage control statute where such violation occurred while in the College workplace, on College premises, or as part of any College-sponsored activity. A conviction means a plea of or a finding of guilt (including a plea of nolo contendere) and the imposition of a judgment by a judge sitting with or without a jury in any federal or state court. As a condition of further employment on any federal government grant, the law requires all employees to abide by this policy.

I-27.5 The Office of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, must notify the U.S. governmental agency from which a grant was made within ten (10) days after receiving notice from the grant employee or otherwise receiving actual notice of a drug conviction. Disciplinary action against the convicted employee must be undertaken by the College within 30 days.

I-27.6 A description of applicable state sanctions and the health risks associated with the use of both illicit drugs and alcohol is available in the offices of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, and the Vice President for Legal Services and Risk Management.

(Excerpt taken from FTCC Administrative Procedures Manual, February 16, 2009)

\.*/swallowed | **Also, for psilocybin—nervousness; paranoia; panic** |

### Other Compounds

<table>
<thead>
<tr>
<th>Compound Type</th>
<th>Common Names</th>
<th>Route(s)</th>
<th>Effects</th>
</tr>
</thead>
</table>
| Anabolic Steroids        | Anadrol, Oxandrin, Durabolin, Depo-Testosterone, Equipoise: roids, juice, gym candy, pumpers | I /^
\.*/injected, swallowed, applied to skin | **Steroids—no intoxication effects/hypertension; blood clotting and cholesterol changes; liver cysts; hostility and aggression; acne; in adolescents—premature stoppage of growth; in males—prostate cancer; reduced sperm production, shrunk-en testicles, breast enlargement; in females—menstrual irregularities, development of beard and other masculine characteristics** |
| Inhalants                | Solvents (paint thinners, gasoline, line, glues); gases (butane, propane, aerosol propellants, nitrous oxide); nitriles (isoamyl, isobutyl, cyclohexyl): laughing gas, poppers, snappers, whippets | Not scheduled/inhaled through nose or mouth | **Inhalants (varies by chemical)—stimulation; loss of inhibition; headache; nausea or vomiting; slurred speech; loss of motor coordination; wheezing/cramps; muscle weakness; depression; memory impairment; damage to cardiovascular and nervous systems; unconsciousness; sudden death** |

### Prescription Medications

- **CNS Depressants**
- **Stimulants**
- **Opioid Pain Relievers**

*For more information on prescription medications, please visit [http://www.nida.gov/DrugPages/PrescripDrugsChart.html](http://www.nida.gov/DrugPages/PrescripDrugsChart.html).*

*Schedule I and II drugs have a high potential for abuse. They require greater storage security and have a quota on manufacturing, among other restrictions. Schedule I drugs are available for research only and have no approved medical use; Schedule II drugs are available only by prescription (unrefillable) and require a form for ordering. Schedule III and IV drugs are available by prescription, may have five refills in 6 months, and may be ordered orally. Some Schedule V drugs are available over the counter.

**Some of the health risks are directly related to the route of drug administration. For example, injection drug use can increase the risk of infection through needle contamination with staphylococci, HIV, hepatitis, and other organisms.

***Associated with sexual assaults.

Resource from National Institute on Drug Abuse, March 2011

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu](http://www.faytechcc.edu) and click on College Catalog.
Signs of Addiction

Signs that you or someone you know may have a drug or alcohol addiction include:

**Psychological signals**
- Use of drugs or alcohol as a way to forget problems or to relax
- Withdrawal or keeping secrets from family and friends
- Loss of interest in activities that used to be important
- Problems with schoolwork, such as slipping grades or absences
- Changes in friendships, such as hanging out only with friends who use drugs
- Spending a lot of time figuring out how to get drugs
- Stealing or selling belongings to be able to afford drugs
- Failed attempts to stop taking drugs or drinking
- Anxiety, anger, or depression
- Mood swings

**Physical signals**
- Changes in sleeping habits
- Feeling shaky or sick when trying to stop
- Needing to take more of the substance to get the same effect
- Changes in eating habits, including weight loss or gain

ACCOUNTING A25100

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

**Awards**

**Associate Degree:** Accounting (A25100)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma, 2 units of Algebra, Placement Test Equivalent

**Diploma:** Not Applicable
**Length of Program:**
**Prerequisite:**

**Certificate:** Not Applicable
**Length of Program:**
**Prerequisite:**

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Ron O’Brien
Telephone Number: (910) 678-8512
Office Location: Cumberland Hall, Room 377V
Email: obrienr@faytechcc.edu
Department Office: Cumberland Hall, Room 377
Telephone: (910) 678-8292
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

ADVERTISING AND GRAPHIC DESIGN  A30100

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession, which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

Awards

Associate Degree: Advertising and Graphic Design (A30100)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

A/C, HEATING AND
REFRIGERATION TECHNOLOGY  A35100
The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

Awards

Associate Degree: A/C, Heating & Refrigeration Technology (A35100)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

### A/C, HEATING & REFRIGERATION TECHNOLOGY
#### Evening/Weekend Program
**Effective: Fall 2013**
**Revised Date: 11/07/12**

This two-year evening diploma program is designed to prepare individuals for entry-level positions in the air conditioning, heating, and refrigeration field. Courses include basic hands-on training in the installation, maintenance, and repair of residential heating and air conditioning equipment.

Numerous opportunities for employment as A/C, Heating & Refrigeration assistants exist throughout the area.

Length: 6 Semesters
Prerequisites: High School Diploma, Placement Test Equivalent
Award: Diploma

ARCHITECTURAL TECHNOLOGY  

A program that prepares individuals to assist architects, engineers, and construction professionals in developing plans and related documentation for residential and commercial projects in both the private and public sectors. Includes instruction in architectural drafting, computer-assisted drafting, construction materials and methods, environmental systems, codes and standards, structural principles, cost estimation, planning, graphics, and presentation.

This curriculum is designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

Awards

### ASSOCIATE DEGREE NURSING (A45110)

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Awards

**Associate Degree:** Associate Degree Nursing (A45110)

**Length of Program:** 5 Semesters

**Prerequisite:** Must meet College Admission Criteria, current, unrestricted, and on North Carolina Registry CNA I (program must require a combination of clinical/classroom/laboratory hours) and /or LPN, TEAS Test score basic or higher. In addition for Advanced Placement, current unrestricted LPN license with 3600 hours of work experience as an LPN within the past four years. 1 Unit of Biology, Algebra & Chemistry

**Diploma:** Not Applicable

**Length of Program:**

**Prerequisite:**

**Certificate:** Not Applicable

**Length of Program:**

**Prerequisite:**

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-RN), which is required to practice as a Registered Nurse.

**Programmatic Accreditation:** Accredited by: National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, Ph# (404) 975-5000

**Approved by:** North Carolina Board of Nursing, P.O. Box 2129, Raleigh, NC 27602 Ph# (919) 782-3211

**Program Information Contact:**
Curriculum Chairperson: Carolyn Stovall
Telephone Number: (910) 678-8482
Office Location: Health Technology Center, Room 253-M
Email: stovallc@faytechcc.edu
Department Office: Health Technology Center, Room 253
Telephone: (910) 678-8392
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th for consideration of entry into the program. Specific health program admission requirements must be met before a student is eligible for admission. Advanced Placement students enter during the summer semester.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**NCLEX Pass Rate:**

2011 first time pass rate 95%. 2011 total pass rate 95%. 2012 first time pass rate 86%. 2012 total pass rate 86%

**Revised:** 02/19/13

ASSOCIATE IN ARTS

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

Awards

### ASSOCIATE IN ARTS/SOCIAL WORK A1010Q

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

ASSOCIATE IN GENERAL EDUCATION A10300

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural science and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

### ASSOCIATE IN SCIENCE/ENGINEERING A1040D

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

Upon completion of the program, the student will receive an associate in science degree.

### Awards

- **Associate Degree:** Associate in Science/Engineering (A1040D)
- **Length of Program:** 5 Semesters
- **Prerequisite:** High School Diploma, 2 Units of Algebra, Placement Test Equivalent
- **Diploma:** Not Applicable
- **Length of Program:**

### Certificate

- **Certificate:** Not Applicable
- **Length of Program:**
- **Prerequisite:**

### Cooperative Education Requirements/Opportunities

- For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

### License or Certification Information

- **None Required**

### Program Information Contact:

- **Curriculum Chairperson:** Beymer Bevill, Jr.
- **Telephone Number:** (910) 678-8216
- **Office Location:** Advanced Technology Center, Room 220D
- **Email:** bevillb@faytechcc.edu
- **Department Office:** Advanced Technology Center, Room 220D
- **Telephone:** (910) 678-8216
- **FTCC Web Site:** www.faytechcc.edu

### Application Deadlines

- **None**

### Scholarship/Title IV Financial Aid/VA Services

- **Scholarships/Title IV Financial Aid:** Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

### Child Care Financial Assistance Information

- **See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486**

**Co-op Option:** NA

*Note: The acceptance of transfer credit is ultimately up to the receiving institution. Where choices are available it is best to contact the institution you plan to attend to maximize your selection.*

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
The Automotive Systems Technology program prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenges associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

After completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

**Awards**

**Associate Degree:** Automotive Systems Technology (A60160)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Not Applicable

**Length of Program:** 

**Prerequisite:**

**Certificate:** Automotive Suspension, Brakes, & Heating/Air Conditioning Certificate (C60160C1)

BASIC LAW ENFORCEMENT TRAINING C55120
Basic Law Enforcement Training (BLET) is designed to give students essential skills required for employment as a law enforcement officer with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcoholic beverage laws, investigative, patrol, custody, and court procedures, emergency responses, ethics and community relations.

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission.

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission. Successful graduates will also receive credit for the following curriculum courses: CJC-131, CJC-132, CJC-221, CJC-225, and CJC-231.

BUILDING CONSTRUCTION TECHNOLOGY A35140
These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

Building Construction Technology:
A program that prepares individuals to apply technical knowledge and skills to residential and commercial building construction and remodeling. Includes instruction in construction equipment and safety; site preparation and layout; construction estimating; print reading; building codes; framing; masonry; heating, ventilation, and air conditioning; electrical and mechanical systems; interior and exterior finishing; and plumbing.

Awards
Associate Degree: Building Construction Technology (A35140)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: NA

BUSINESS ADMINISTRATION A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today’s global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small businesses or industries.

Awards
Associate Degree: Business Administration (A25120)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Diploma: Not Applicable
Length of Program:
Prerequisite:
Certificate: Small Business Startup (C25120C1)
Length of Program: 2 Semesters

BUSINESS ADMINISTRATION/ PUBLIC ADMINISTRATION A2512H
Public Administration is a concentration under the curriculum title of Business Administration. This curriculum prepares students for entry into management positions in state/local governments and not-for-profit organizations, provides education for current employees, and informs citizens of governmental functions.

Course work includes study and practical application to personnel administration, decision-making, ethics, organizational theories, and budgetary, and other governmental issues. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator’s role.

Through acquisition of knowledge and skills, individuals should be able to perform governmental activities. By developing personal competencies and qualities, graduates will be eligible for employment in the public administration profession.

Awards

COLLISION REPAIR AND REFINISHING TECHNOLOGY
D60130
The Collision Repair and Refinishing Technology program prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in structure analysis, damage repair, non-structural analysis, mechanical and electrical components, plastics and adhesives, painting and refinishing techniques, and damage analysis and estimating.

Curriculums in the Mobile Equipment Maintenance and Repair pathway prepare individuals for employment as entry-level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

Course work may include transportation systems theory, braking systems, climate control, design parameters, drive trains, electrical/electronic systems, engine repair, engine performance, environmental regulations, materials, product finish, safety, steering/suspension, transmission/transaxles, and sustainable transportation, depending on the program major area chosen.

Graduates of the Collision Repair and Refinishing Technology program should be qualified to take National Institute for Automotive Service Excellence (ASE) certification examinations and also for entry-level employment in automotive dealerships, independent repair shops, or through self-employment, as collision repair and refinishing technicians.
Awards

### Diploma: Collision Repair and Refinishing Technology (D60130)
- **Length of Program:** 3 semesters
- **Prerequisite:** High School Diploma, Placement Test Equivalent

### Certificate: Basic Collision Repair and Refinishing Technology Certificate (C60130C1)
- **Length of Program:** 2 Semesters
- **Prerequisite:** High School Diploma, Placement Test Equivalent

### Certificate: Basic Collision Repair and Refinishing Technology Certificate (C60130H1)
- **Length of Program:** 4 Semesters
- **Prerequisite:** Placement Test Equivalent

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
- Coordinator: David Dominie
- Telephone: (910) 678-8213
- Office Location: Autobody Shop, Room 101B
- Email: dominied@faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**Revised:** 03/11/13

### BASIC COLLISION REPAIR AND REFINISHING TECHNOLOGY CERTIFICATE (C60130C1)
- **Evening/Weekend Program**
- **Effective:** Fall 2013
- **Revised:** 03/11/13
- **Length:** 2 Semesters
- **Prerequisite:** High School Diploma, Placement Test Equivalent
- **Award:** Certificate

COMPUTER INFORMATION TECHNOLOGY  A25260
The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student’s ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

Awards
Associate Degree: Computer Information Technology (A25260)
Length of Program: 5 Semesters
Prerequisite: 2 Units of Algebra, Placement Test Equivalent

Diploma: Not Applicable
Length of Program:
Prerequisite:

Certificate: Computer Technologies (C25260C1)

### COMPUTER INFORMATION TECHNOLOGY/ COMPUTER TECHNOLOGIES CERTIFICATE (C25260C1)

Effective: Fall 2013
Revised: 01/17/13

The Computer Technologies Certificate will expose the student to a general overview of the computer area. Students will study computers, networks, operating systems and programming. Graduates from this are prepared to work as a Computer Technician, or to apply these classes to any other degree in the computer division.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

COMPUTER INFORMATION TECHNOLOGY/
MICROSOFT NETWORKING CERTIFICATE (C25260C4)

Effective: Fall 2013
Revised: 01/17/13

The Microsoft Networking Certificate will expose the student fundamentals of networking using Microsoft operating systems. This program will also cover the core exam objectives of the Microsoft Certified Professional (MCP) exam. Students are prepared to work in the field as network technicians supporting Microsoft products.

Courses in this program can be transferred directly into Computer Information Technology for an Associate in Applied Science degree.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

Effective: Fall 2013
Revised: 01/17/13

COMPUTER- INTEGRATED MACHINING A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

Awards

Associate Degree: Computer-Integrated Machining (A50210)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Manual Machining (D50210)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Computer-Integrated Machining Certificate (C50210C1)
Length of Program: 4 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Computer-Integrated Machining Certificate (C50210C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Computer-Integrated Machining Certificate (C50210H1)
Length of Program: 4 Semesters
Prerequisite: Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
**Program Information Contact:**
Program Coordinator: Gary Smith  
Telephone Number: (910) 678-8427  
Office Location: Lafayette Hall, Room 137C  
Email: smithga@faytechcc.edu  
Department Office: Lafayette Hall, Room 120  
Telephone: (910) 678-8383  
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**Revised: 01/16/13**

COMPUTER-INTEGRATED MACHINING TECHNOLOGY/BASIC COMPUTER-INTEGRATED MACHINING CERTIFICATE (C50210C1)

Evening/Weekend Program
Effective: Fall 2013
Revised: 01/16/13

This evening certificate program is designed to develop fundamental skills in the operation of machine tools including drilling, turning, milling, and grinding. Training in basic measuring, layout, and blueprint reading is also provided.

Completers will be prepared for employment as entry-level machine operators or machinist apprentices in area manufacturing firms.

Courses in this program can be transferred directly into the Machining Technology associate degree curriculum.

Length: 4 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

COMPUTER PROGRAMMING A25130

The Computer Programming curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, software developers, computer operators, systems technicians, database specialist, computer specialist, software specialist, or information systems managers.

Awards

Associate Degree: Computer Programming (A25130)

Computer Programming/Visual Basic Programming (Certificate) (C25130C4)
Effective: Fall 2013
Revised: 02/19/13

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

The Visual BASIC programming certificate is designed to prepare individuals for employment as programmers in Visual BASIC through study and applications in computer concepts, logic, and programming procedures using the Visual BASIC programming language.

Students will solve business computer problems through programming techniques and procedures using the Visual BASIC language.

Upon completion of this program, a student will have the necessary Visual BASIC skills for an entry level Visual BASIC programming position in business, industry, and government organizations.

### COMPUTER PROGRAMMING/
DATABASE PROGRAMMING (Certificate) (C25130C6)

**Effective:** Fall 2013  
**Revised:** 02/19/13

The Database Programming certificate is designed to prepare individuals for employment in designing databases, determining information requirements of users; using technology systems and processes to devise means through which to gather and sort needed information; and implementing effective solutions for reporting necessary information using industry-standard database tools. Certificate holders may qualify for entry level/hands-on positions in this or a related area.

Students will solve business computer problems through database programming techniques and procedures.

Upon completion of this program, a student will have the necessary database skills for an entry-level database programming position in business, industry, and government organizations.

**Length:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### COMPUTER PROGRAMMING/
C# PROGRAMMING (Certificate) (C25130C7)

**Effective:** Fall 2013  
**Revised:** 02/19/13

The C# Programming certificate is designed to prepare individuals for employment programmers in C# through study and applications in computer concepts, logic, and programming procedures using the C# programming language.

Students will solve business computer problems through programming techniques and procedures using the C# language.

Upon completion of this program, a student will have the necessary C# skills for an entry-level programming position in business, industry, and government organizations.

**Length:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

COSMETOLOGY A55140  
The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.  
Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.  
Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.  

Awards  
Associate Degree: Cosmetology (A55140)  
Length of Program: 5 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Diploma: Cosmetology (D55140)  
Length of Program: 4 Semesters (day program); 6 Semesters (night program)  
Prerequisite: High School Diploma, Placement Test Equivalent  
Certificate: Not Applicable  
Length of Program: Prerequisite:  

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.  
License or Certification Information: Graduates are eligible to take the North Carolina State Board of Cosmetic Arts exam.  
Program Information Contact:

*ENG-101 and PSY-101 will not transfer to Associate Degree programs.

**CRIMINAL JUSTICE TECHNOLOGY**  
**A55180**

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial process, corrections, and security services. The criminal justice system’s role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

**Awards**

**Associate Degree:** Associate in Applied Science  
Criminal Justice Technology (A55180)

Criminal Justice Technology (A55180A)

CULINARY ARTS
A55150

This curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

Awards

Associate Degree: Culinary Arts (A55150)

CULINARY ARTS/
DEMI-CHEF CERTIFICATE (C55150C3)
Effective: Fall 2013
Revised: 02/01/13

The Demi-Chef Certificate is designed to prepare students for an entry-level position in the culinary field. The program will give the students the basic culinary skills necessary to be an assistant to a chef otherwise known in the Classical Brigade as a Demi-Chef. Students will learn to prepare both hot and cold foods including but not limited to salads, dressings, canapés, hör d’oeuvres, cold and hot sauces, garnishes, vegetables, meats and other food items using a variety of cooking methods. Students will learn to operate commercial kitchen equipment, use correct sanitation and safety procedures in the kitchen, and correct purchasing procedures.

The program will enhance the student’s food preparation, presentation and display skills.

Length: 2 Semesters
Other Requirements: 2 Chef Uniforms, Textbook
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

**DENTAL ASSISTING**  
D45240

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair side and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

As a Dental Assistant II, defined by the Dental Law of North Carolina, graduates work in dental offices and other related areas.

**Prerequisite:**

**Certificate:** Not Applicable

**Length of Program:**

**Prerequisite:**

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

**License or Certification Information:** Students are eligible to sit for both the National Dental Hygiene Board and the NC State Dental Hygiene Board or applicable state or regional boards.

**Programmatic Accreditation:** Commission on Dental Accreditation

American Dental Association, 211 East Chicago Avenue, Chicago, IL 60611

**Program Information Contact:**

Department Chair: Susan S. Ellis
Telephone Number: (910) 678-8575
Office Location: Health Technology Center, Room 101D
Email: elliss@faytechcc.edu
Department Office: Health Technology Center, Room 101
Telephone: (910) 678-9859
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8422. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**Revised:** 11/06/12

**DENTAL HYGIENE (A45260)**

Effective: Fall 2013

Revised: 11/06/12

**Length:** 5 Semesters

**Prerequisites:** 1 Unit Biology, Algebra & Chemistry, Placement Test Credit Equivalent

**Award:** Associate in Applied Science

**TOTAL REQUIRED CREDITS:**... 75

**Co-Op Option:** NA

Students with a felony conviction may have limited licensure and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

Dental hygiene students will not discriminate against patients on the grounds of...
race, color, national origin, religion, sex, age, disability, or political affiliation. No student will be allowed to deliver patient services in any setting until s/he has been instructed in infection control (as per OSHA guidelines) and has mastered material on safety/universal precautions with satisfactory accuracy. Following mastery of infection control skills and under faculty supervision, each student will be expected to provide services for Patients with health deviations, including patients with HIV/HBV and other blood borne/infectious diseases, as part of routine Clinical/lab curriculum experiences.

EARLY CHILDHOOD ASSOCIATE

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs to children; care and guidance of children; and communications skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Awards

Associate Degree: Associate in Applied Science Early Childhood Associate (A55220)

Length of Program: 5 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Certificate in Child Care Administration (C55220C1)

Length of Program: 2 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Certificate in Child Care Development (C55220C2)

Length of Program: 2 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Certificate in Child Care Professional (C55220C3)

Length of Program: 2 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Lateral Entry Teacher Certificate (C55220C6)

Length of Program: 2 Semesters

Prerequisite: Bachelor Degree, Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

### EARLY CHILDHOOD ASSOCIATE/ CERTIFICATE IN CHILD CARE ADMINISTRATION (C55220C1)

**Effective:** Fall 2013  
**Revised:** 02/12/13

This certificate will provide courses needed by the child care professional to obtain the North Carolina Early Childhood Administration Certificate (NCECA). The courses offered in this program prepare the childcare professional to be successful as an administrator in a childcare setting. Students will learn skills such as program development, rules and regulations for the state of North Carolina, staff and organizational management, public relations and community outreach, financial management, and leadership. This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

ELECTRICAL SYSTEMS TECHNOLOGY A35130
This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

**Awards**

**Associate Degree:** Electrical Systems Technology (A35130)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma & 1 Unit of Algebra, Placement Test Equivalent

**Diploma:** Electrical Systems Technology (D35130)
**Length of Program:** 3 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130C1)
**Length of Program:** 2 Semesters
**Prerequisite:** Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130H1)
**Length of Program:** 2 Semesters
**Prerequisite:** Placement Test Equivalent

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: John Philliggin
Telephone Number: (910) 678-8326
Office Location: Cumberland Hall Room 334
Email: philligj@faytechcc.edu
Department Office: Cumberland Hall Room 334
Telephone: (910) 678-8357
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall or spring semesters. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**TOTAL REQUIRED CREDITS... 67**

**Co-op Option:** Qualified students may elect to take up to three (3) credit hours of Cooperative Education in lieu of 3 credit hours of electives provided they obtain approval from the Co-op Director and the Department Chairperson.

**Note:** Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

**Revised:** 11/19/12
ELECTRICAL SYSTEMS TECHNOLOGY (D35130)
Effective: Fall 2013
Revised: 11/19/12

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Diploma

Co-op Option: Qualified students may elect to take up to three (3) credit hours of Cooperative Education in lieu of 3 credit hours of electives provided they obtain approval from the Co-op Director and the Department Chairperson.

*ENG-101 will not transfer to Associate Degree program.
Accuplacer testing is required to take ENG-111.

ELECTRONICS ENGINEERING TECHNOLOGY (A40200)

A course of study that prepares the students to apply basic engineering principles and technical skills to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems. Includes instruction in mathematics, basic electricity, solid-state fundamentals, digital concepts, and microprocessors or programmable logic controllers.

Graduates should qualify for employment as electronics engineering technician, field service technician, instrumentation technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

Awards

Associate Degree: Electronics Engineering Technology (A40200)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Electronics Engineering Technology (D40200)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Electronics Engineering Technology Certificate (C40200C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

### EMERGENCY MANAGEMENT (A55460)

The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

#### Awards

**Associate Degree:** Emergency Management (A55460)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma & Algebra I, Placement Test Equivalent

Students with a felony conviction may have limited Emergency Preparedness employment opportunities.

Co-op Option:  Qualified students may elect to take up to three (3) credit hours of Cooperative Education provided they acquire approval from the Co-op director and the Department Chairperson.

*Meets the elements of NFPA 1021 for Fire Officer I & II.
Up to 30 hours of this curriculum may be accepted as transfer credit from Fire Protection Technology.

**NFA Chemistry of Haz Mat course credit

Note:  Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

EMERGENCY MANAGEMENT CERTIFICATE (C55460C1)
Effective: Fall 2013
Revised: 03/07/13

The Emergency Management Certificate program provides students with a foundation to build upon within emergency services delivery programs.

Topics include Sociology of Disaster, Mitigation & Preparedness, Response & Recovery, and Terrorism and Emergency Management.

This program will prepare students for entry level knowledge required for employment in the Emergency Management Industry.

EMERGENCY MEDICAL SCIENCE  A45340

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Student progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and governmental agencies.

Awards

Associate Degree:  Emergency Medical Science (A45340)
Length of Program:  5 Semesters
Prerequisite:  High School Diploma or GED, MAT-060 & 1 Unit of Biology, Placement Test Equivalent

Diploma:  Not Applicable

**ESTHETICS TECHNOLOGY C55230**

The Esthetics Technology curriculum provides competency-based knowledge, scientific/artistic principles and hands-on fundamentals associated with the art of skin care. The curriculum provides a simulated salon environment, which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional Esthetics Technology, business/human relations, product knowledge and other selected topics.

Graduates should be prepared to take the North Carolina Cosmetology State Board Licensing Exam and upon passing be licensed and qualify for employment in beauty and cosmetic/skin care salons, as a platform artist, and in related businesses.

**Awards**

Associate Degree: Not Applicable

Length of Program: Prerequisite:

Diploma: Not Applicable

Length of Program: Prerequisite: Certificate: Esthetics Technology Certificate (C55230)

Length of Program: 2 Semesters (day or evening program)

Prerequisite: High School Diploma, Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Graduates are eligible to take the North Carolina State Board of Cosmetic Arts exam

FIRE PROTECTION TECHNOLOGY (A55240)
The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

Awards

Associate Degree: Fire Protection Technology (A55240)

FUNERAL SERVICE EDUCATION  A55260
The Funeral Service Education curriculum provides students with the opportunity to become proficient in basic funeral service skills.

In addition to the general education courses offered in the curriculum, technical courses such as human anatomy, embalming theory and practice, embalming chemistry, restorative arts, funeral law, and funeral home operations are taught.

Graduates of the curriculum, upon passing the state or national exam and completing an internship in a funeral home, will be qualified for employment as embalmers and/or funeral directors.

The specific aims and purposes of the Department of Funeral Service Education are:
1. To give students the knowledge, principles, techniques and skills which are the basis of the funeral service profession.
2. To provide for education and professional advancement of student whether they choose to follow the funeral service profession or whether they decide to use their specialized education in other general or technical fields.
3. To educate and prepare individuals to contribute to the service and welfare of the community.
4. To become a major provider of continuing education programs meeting mandatory re-licensure requirements for the licensed funeral service personnel in the state, and to encourage research in the field of funeral service.

Awards

Associate Degree: Associate in Applied Science Funeral Service Education (A55260)
Length of Program: 6 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Diploma: N. C. Funeral Director (D55260)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Not Applicable
Length of Program: Prerequisite:

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

Note: Cooperative Education not available in diploma program.

License or Certification Information for Associate Degree: Students who complete the AAS degree program are required to take the National Board Exam for Funeral Service as a condition for graduation.

Programmatic Accreditation: Accredited By: American Board of Funeral Service Education, 3414 Ashland Avenue, Suite G, St. Joseph, MO 64506, Telephone (816) 223-3747

License or Certification Information for N.C. Funeral Director Diploma: Graduates are eligible to take the North Carolina State Board Exam for Funeral Directing. This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education. Students graduating from this program are not eligible to take the National Board Examination or any State board examination for which graduation from an ABFSE program is required.

**Note:** ACA 118 is for Developmental students only.

---

**GEOMATICS TECHNOLOGY**

A course of study that prepares students to use mathematical and scientific principles for the delineation, determination, planning and positioning of land tracts, boundaries, contours and features applying principles of route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other kinds of property description and measurement to create related maps, charts and reports. Includes instruction in applied geodesy, computer graphics, photointerpretation, plane and geodetic surveying, mensuration, traversing, survey equipment operation and maintenance, instrument calibration, and basic cartography.

Graduates should qualify for jobs as survey party chief, instrument person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.

HEALTH AND FITNESS SCIENCE  

A45630

The Health and Fitness Science program is designed to provide students with the knowledge and skills necessary for employment in the fitness and exercise industry.

Students will be trained in exercise science and be able to administer basic fitness tests and health risk appraisals, teach specific exercise and fitness classes and provide instruction in the proper use of exercise equipment and facilities.

Graduates should qualify for employment opportunities in commercial fitness clubs, YMCA’s/YWCA’s, wellness programs in business and industry, Parks & Recreation Departments and other organizations implementing exercise & fitness programs.

Awards

Associate Degree: Health and Fitness Science  (A45630)

Length of Program: 4 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable

Length of Program: 

Prerequisite: 

Certificate: Not Applicable

Length of Program: 

Prerequisite: 

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Program prepares students to sit for national certification exams in the various fitness fields of study. Students with a felony conviction may have limited certification and employment opportunities.

Program Information Contact:
Curriculum Chairperson: Heather Gardner
Telephone Number: (910) 678-9836
Office Location: Horace Sisk Building, Room 811
Email: gardnerh@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

HEALTH AND FITNESS SCIENCE A45630  

Effective: Fall 2013  

Revised: 12/14/12
HEALTHCARE MANAGEMENT TECHNOLOGY A25200

The Healthcare Management Technology curriculum is designed to prepare students for employment in healthcare business and financial operations. Students will gain a comprehensive understanding of the application of management principles in the healthcare environment.

The curriculum places emphasis on planning, organizing, directing, and controlling tasks related to healthcare organizational objectives including the legal and ethical environment. Emphasis is placed on the development of effective communication, managerial, and supervisory skills.

Graduates may find employment in healthcare settings including hospitals, medical offices, clinics, long-term care facilities, and insurance companies. Graduates are eligible to sit for the Certified Patient Account Manager (CPAM) and the Certified Manager of Patient Accounts (CMPA) examinations.

Awards

Associate Degree: Healthcare Management Technology (A25200)

Co-op Option: One (1) hour of Co-op is mandatory. Co-op can be taken during the Fall and Spring semester.

HORTICULTURE TECHNOLOGY (A15240)
These curricula are designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator’s Examination and/or the North Carolina Certified Plant Professional Examination.

Horticulture Technology is a program that focuses on the general production and management of cultivated plants, shrubs, flowers, foliage, trees, groundcovers, and related plant materials; the management of technical and business operations connected with horticultural services; and the basic scientific principles needed to understand plants and their management and care.

The Hotel and Restaurant Management certificate is designed to prepare students to understand the daily management concept of supervising hotels and restaurants.

This certificate program covers basic management supervision, hotel front office procedures, restaurant management procedures, tourism law, and food and beverage controls.

Upon completion of this program, students should be prepared for entry-level management positions in hotels and restaurants or transfer the course credits to the Hotel and Restaurant Management program for an Associate of Applied Science degree.

### Certificate: Hotel and Restaurant Management (C25110C1)

**INFANT/TODDLER CARE**  C55290

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development; physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design an implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

NETWORKING TECHNOLOGY

The Networking Technology curriculum prepares students to install and support networks and develops strong analytical skills and extensive computer knowledge.

Course work includes extensive hands-on experience with networks. Classes cover media types, topologies, and protocols with installation and support of hardware and software, troubleshooting network and computer problems, and administrative responsibilities.

Graduates should qualify for positions such as: LAN/PC administrator, microcomputer support specialist, networks control operator, communications technician/analyst, network/computer consultant, and information systems specialist. Graduates should be prepared to sit for certification exams, which can result in industry-recognized credentials.

NETWORKING TECHNOLOGY/ CISCO NETWORKING CERTIFICATE (C25340C3)
Effective: Fall 2013
Revised: 01/28/13

The Cisco Networking Certificate will expose the student to fundamentals of networking and will give them the tools to deploy, operate, and troubleshoot Cisco products and solutions. This program will also cover the core exam objectives of the Cisco Certified Network Administrator (CCNA) exam. Students are prepared to work in the field as network technicians supporting Cisco products.

Courses in this program can be transferred directly into Networking Technology for an Associate in Applied Science degree.

Length: 2 Semesters

NUCLEAR MEDICINE TECHNOLOGY A45460
The Nuclear Medicine Technology curriculum provides the clinical and didactic experience necessary to prepare students to qualify as entry-level Nuclear Medicine Technologists.

Students will acquire the knowledge and skills necessary to properly perform clinical procedures. These skills include patient care, use of radioactive materials, operation of imaging and counting instrumentation and laboratory procedures.

Graduates may be eligible to apply for certification/registration examinations given by the Nuclear Medicine Technology Certification Board and the American Registry of Radiologic Technologists.

Awards

Associate Degree: Nuclear Medicine Technology (A45460)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra, 1 Unit of Biology, 1 Unit of Chemistry, CNA-1 (required effective Fall 2012) and/or AAS or Higher in an Allied Health Field *

Diploma: Not Applicable
Length of Program: Not Applicable
Prerequisite: Not Applicable

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Graduates are eligible to take the Nuclear Medicine Technology Certification Exam.

NURSING ASSISTANT C45480

The Nursing Assistant curriculum prepares individuals to work under the supervision of licensed health care professionals in performing nursing care and services for persons of all ages.

Course work emphasizes personal care, vital signs, communication, nutrition, medical asepsis, safety, catheterization, tracheostomy care, dressing changes, oxygen therapy, and legal scope of practice of the Nursing Assistants.

Graduates of this curriculum may be eligible to be listed on the registry as a Nursing Assistant I and Nursing Assistant II. They may be employed in home health agencies, hospitals, clinics, nursing homes, extended care facilities, and doctors' offices.

Awards

Certificate: Nursing Assistant (C45480)
Length of Program: 2 Semesters
Prerequisite: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class

Certificate: Nursing Assistant (C45480H1)
Length of Program: 2 Semesters
Prerequisite: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Students completing NAS 101 successfully are eligible for certification through the N.C. Division of Facility Services as a Nursing Assistant I. Those completing NAS 102 are eligible for Nursing Assistant II Certification through the North Carolina Board of Nursing.

OFFICE ADMINISTRATION/
OFFICE FINANCE SPECIALIST CERTIFICATE (C25370C2)
Effective: Fall 2013
Revised: 01/28/13

The Office Finance Specialist certificate is designed to give individuals the opportunity to acquire basic calculation and accounting software skills necessary for entry-level employment in today's modern office.

This certificate program covers office computations, records management, spreadsheets, and database software applications.

Upon completion of this program, students should be able to use these basic skills for entry-level employment or transfer the course credits to the Office Administration program for an Associate of Applied Science degree.

Length: 3 Semesters

PARALEGAL TECHNOLOGY A25380

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

Awards

Associate Degree: Paralegal Technology (A25380)
Length of Program: 5 Semesters
Prerequisite: High School Diploma

Diploma: Paralegal Technology (D25380)
Length of Program: 3 semesters
Prerequisite: Bachelor’s Degree

PARALEGAL (D25380)
Effective: Fall 2013
Revised Date: 12/20/12

The Paralegal Diploma is a one-year program of study for those who already have a Bachelor’s degree. The diploma program provides intensive practical training in a variety of areas of law. Students who desire to refine the skills acquired through a Bachelor’s degree into marketable job competencies in the legal field will find this to be an excellent opportunity. A Paralegal/Legal Assistant may not practice law, give legal advice, or represent clients in a court of law.

Length: 3 Semesters
Prerequisite: BA Degree
Award: Diploma

PHARMACY TECHNOLOGY A45580
The Pharmacy Technology Program prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Students will prepare prescription medications, mix intravenous solutions and other specialized medications, update patient profiles, maintain inventories, package medications in unit-dose or med-card form, and gather data used by pharmacists to monitor drug therapy.

Employment opportunities include retail, hospitals, nursing homes, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates from the program may be eligible to take the National Certification Examination to become a certified pharmacy technician.

Awards

Associate Degree: Pharmacy Technology (A45580)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, 1 Unit Biology, 1 Unit Algebra, Diploma in Pharmacy Tech. Current Certification in good standing with the Pharmacy Technician Certification Board

Diploma: Pharmacy Technology (D45580)

### PHYSICAL THERAPIST ASSISTANT A45620

The Physical Therapist Assistant curriculum prepares graduates to work in direct patient care settings under supervision of physical therapists. Assistants work to improve or restore function by alleviation or prevention of physical impairment and perform other essential activities in a physical therapy department.

Course work includes normal human anatomy and physiology, the consequences of disease or injury, and physical therapy treatment of a variety of patient conditions affecting humans throughout the life span.

The Fayetteville Technical Community College Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association. Upon receiving your Associate of Applied Science degree from the college, the graduate may be eligible to sit for the Physical Therapist Assistant licensure examination. Successfully meeting licensure requirements allows the graduate to work as a Physical Therapist Assistant. Employment is available in general hospitals, rehabilitation centers, extended care facilities, specialty hospitals, home health agencies, private clinics, and public school systems.

**Awards**

**Associate Degree:** Physical Therapist Assistant (A45620)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma: satisfactory completion of 2 units of Algebra, 1 unit of Biology and Chemistry

PLUMBING D35300

The Plumbing curriculum is designed to give individuals the opportunity to acquire basic skills to assist with the installation and repair of plumbing systems in residential and small buildings.

Course work includes sketching diagrams, interpretation of blueprints, and practices in plumbing assembly. Students will gain knowledge of state codes and requirements.

Graduates should qualify for employment at parts supply houses, maintenance companies, and plumbing contractors to assist with various plumbing applications.
Awards

Diploma: Plumbing (D35300)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Plumbing Certificate (C35300C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Plumbing Certificate (C35300H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

This evening certificate program is designed to prepare individuals for entry-level positions in plumbing. Course work includes fundamental practices in plumbing assembly and repair and in basic plumbing codes.

Opportunities for employment as plumbing assistants and as parts supply clerks exist throughout the area.

Courses in this program can be transferred directly into the Plumbing diploma curriculum.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
PRACTICAL NURSING  
**D45660**
The Practical Nursing curriculum prepares individuals with the knowledge and skills to provide nursing care to children and adults. Students will participate in assessment, planning, implementing, and evaluating nursing care.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN), which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/home health facilities, clinics, and physicians' offices.

**Awards**

**Associate Degree:** Not Applicable  
**Length of Program:**  
**Prerequisite:**

**Diploma:** Practical Nursing (D45660)  
**Length of Program:** 3 semesters  
**Prerequisite:** High School Diploma, 1 Unit of Biology, 1 Unit of Algebra, & 1 Unit of Chemistry

**Certificate:** Not Applicable  
**Length of Program:**  
**Prerequisite:**

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** Graduates are eligible to take the National Council Licensure Examination. (NCLEX–PN)

**Programmatic Accreditation:** Approved by: North Carolina Board of Nursing, P.O. Box 2129, Raleigh, NC 27602, 1(919) 782-3211

**Program Information Contact:**  
Department Chair: Sandra Monroe

**RESPIRATORY THERAPY**  
**A45720**

The Respiratory Therapy curriculum prepares individuals to function as Respiratory Care Technicians and/or Respiratory Care Therapists. In these roles, individuals perform diagnostic testing, treatment, and management of patients with heart and lung diseases.

Students will master skills in patient assessment and treatment of cardiopulmonary diseases. These skills include life support, monitoring, drug administration, and treatment of patients of all ages in a variety of settings.

Graduates of accredited programs may be eligible to take entry-level examinations from the National Board of Respiratory Care. Therapy graduates may also take the Advanced Practitioner Examination.

Graduates may be employed in hospitals, clinics, nursing homes, education, industry, and home care.

**Awards**

**Associate Degree:** Respiratory Therapy (A45720)  
**Length of Program:** 5 Semesters  
**Prerequisites:** 1 Unit of Algebra, 1 Unit of Biology, 1 Unit of Chemistry and TEAS Test. For the advanced placement option, a student must have military training as a respiratory specialist or have a current unrestricted CRT certification with evidence of 3600 hours of clinical experience as a CRT within the past 4 years.

TOTAL REQUIRED CREDITS... 69

Co-Op Option: NA

Students with a felony conviction may have limited certification and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

SCHOOL-AGE EDUCATION A55440

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/ nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs, before/after-school programs, paraprofessional positions in public/private schools, recreational centers, and other programs that work with school-age populations.

Awards

Associate Degree: School-Age Education (A55440)

Length of Program: 5 Semesters

Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent

Diploma: School-Age Education Diploma (D55440)

Length of Program: 5 Semesters,

Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent

Certificate: Not Applicable

Length of Program:

Prerequisite:

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Belva Hawley-Demendoza
Telephone Number: (910) 678-8425
Office Location: Early Childhood Center, Room 203
Email: demendob@faytechcc.edu
Department Office: Early Childhood Center, Room 202
Telephone: (910) 678-8566

SIMULATION AND GAME DEVELOPMENT A25450

The Simulation and Game Development Curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management. Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games. Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

Awards

Associate Degree: Simulation and Game Development (A25450)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Simulation Modeling Technician Diploma (D25450)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: SGD Basics Certificate (C25450C1)
Length of Program: 1 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Interactive 3D Certificate (C25450C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: SG Programming Certificate (C25450H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

**SIMULATION AND GAME DEVELOPMENT/ SGD BASICS CERTIFICATE (C25450C1)**
Effective: Fall 2013
Revised: 02/19/13
Students learn the basics of simulation and game development. They are introduced to programming, 3D modeling, and game design. They are introduced to the history of game development as well as possible jobs in the industry.
Length: 1 Semester  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

SPEECH-LANGUAGE PATHOLOGY ASSISTANT

A45730

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnosis, and treats individuals with various communication disorders.

Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Supervised field experience includes working with patients of various ages and various disorders.

Graduates may be eligible for registration with the North Carolina Board of Examiners for Speech-Language Pathologist and Audiologist and must be supervised by a licensed Speech-Language Pathologist. They may be employed in healthcare or education settings.

Awards

Associate Degree: Associate in Applied Science (A45730)
Length of Program: 5 Semesters
Prerequisite: Algebra I & 1 Unit of Biology, Placement Test Equivalent

Diplomas: Not Applicable
Length of Program: 
Prerequisite: 

Certificate: Not Applicable
Length of Program: 
Prerequisite: 

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Charisse Gainey
Telephone Number: (910) 678-8492
Office Location: Early Childhood Center, Room 203
Email: gaineyc@faytechcc.edu
Department Office: Health Technology Center, Room 201
Telephone: (910) 678-0179
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran's assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

TOTAL REQUIRED CREDITS... 66

Co-Op Option: NA
Students with a felony conviction may have limited licensure and employment opportunities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
**SURGICAL TECHNOLOGY**  
A45740

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

**Awards**

**Associate Degree**: Associate in Applied Science (A45740)

**Length of Program**: 5 Semesters

**Prerequisite**: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

**Diploma**: Surgical Technology (D45740)

**Length of Program**: 3 Semesters

**Prerequisite**: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

**Diploma**: Surgical Technology AAD Bridge Program (D45740B)

**Length of Program**: 2 Semesters

**Prerequisite**: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

**TOTAL REQUIRED CREDITS... 48**

Co-Op Option: NA

Students with a felony conviction may have limited certification and employment opportunities.

It is strongly recommended that students take the ACA 111 College Student Success course either before starting the program or as an excess elective course. ACA 111 is required for the AAS in Surgical Technology.

Surgical Technologists interested in this program must fit into one of the following categories:

3. Formerly trained Surgical Technologists who completed their education from a non-Commission on Accreditation of the Allied Health Programs (CAAHEP) accredited program in Surgical Technology.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.

Length: 2 Semesters
Prerequisite: 1Unit Biology and 1 Unit of Algebra, Placement Test Equivalent Current Surgical Technologist, Documented 1000 hours working experience as a Surgical Technologist, Documentation of having independently scrubbed on 125 surgical cases, 2 Letters of Recommendation from former and/or current supervisors Award: Diploma

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

** All surgical courses (SUR) are taught online.

Must be a working Surgical Technologist or on the job training prior to March 2000 with 1000 hours or more of work experience. Documented scrub on 125 surgical cases.

Note: Need two letters of recommendation from former and/or current supervisor.

*Work experience will be applied for lab/clinical experience. (SUR123, SUR 135, and SUR 137)

Students with a felony conviction may have limited certification and employment opportunities.

WEB TECHNOLOGIES A25290

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web.

Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, websites, web services, and related areas of distributed computing.

Awards

- **Associate Degree**: Web Technologies (A25290)
  - **Length of Program**: 5 Semesters
  - **Prerequisite**: High School Diploma and Algebra I, Placement Test Equivalent

- **Diploma**: Not applicable
  - **Length of Program**: 
  - **Prerequisite**: 

Certificate

- **Certificate**: Web Basics Certificate (C25290C1)
  - **Length of Program**: 3 Semesters
  - **Prerequisite**: High School Diploma, Placement Test Equivalent

- **Certificate**: Web Programming Certificate (C25290C2)
  - **Length of Program**: 2 Semesters
  - **Prerequisite**: High School Diploma and Algebra I, Placement Test Equivalent

WELDING TECHNOLOGY D50420
The Welding Technology curriculum provides students with a sound understanding of the science, technology and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provide the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Awards

Associate Degree: Not Applicable
Length of Program: Prerequisite:

Diploma: Welding Technology (D50420)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Welding Technology Certificate (C50420C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Welding Technology Certificate (C50420H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Beymer Bevill, Jr.
Telephone Number: (910) 678-8216
Office Location: Advanced Technology Center, Room 220D
Email: bevillb@faytechcc.edu
Department Office: Lafayette Hall, Room 120
Telephone: (910) 678-8383
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

WEB TECHNOLOGIES/
SOCIAL MEDIA CERTIFICATE (C25290C9)
Effective: Fall 2013
Revised: 01/28/13

Students learn the basics of social media. Students learn marketing using social media. Students learn how to create a social media marketing campaign.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

**WELDING TECHNOLOGY/ BASIC WELDING TECHNOLOGY CERTIFICATE (C50420C1)**
**Evening/Weekend Program**  
**Effective:** Fall 2013  
**Revised:** 02/19/13

This evening certificate program is designed to give individuals the opportunity to acquire fundamental skills in welding. Coursework includes electrode welding and cutting processes and welding symbols and specifications.

Excellent employment opportunities as entry-level welding apprentices in industry, manufacturing and construction exist throughout the region.

Courses in this program can be transferred directly into the Welding Technology diploma program.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

ACC 131 Federal Income Taxes
Prerequisites: Take ACC 111 or ACC 120. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Topics include tax law, electronic research and methodologies and the use of technology for the preparation of individual and business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax laws, and prepare basic tax returns for individuals, partnerships, and corporations.

ACC 140 Payroll Accounting
Prerequisites: Take ACC 115 or ACC 120. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. This course is also available through the Virtual Learning Community (VLC).

ACC 150 Acct Software Appl
Prerequisites: Take ACC 115 or ACC 120. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. This course is also available through the Virtual Learning Community (VLC).

ACC 220 Intermediate Accounting I
Prerequisites: Take ACC 120 and ACC 121. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and an extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards. This course is also available through the Virtual Learning Community (VLC).

ACC 221 Intermediate Accounting II
Prerequisites: Take ACC 220 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 225 Cost Accounting
Prerequisites: Take ACC 121 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 226 Adv Managerial Acct
Prerequisites: Take ACC 121 and ACC 225. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to develop an appreciation for the uses of cost information in the administration and control of business organizations. Emphasis is placed on how accounting data can be interpreted and used by management in planning and controlling business activities. Upon completion, students should be able to analyze and interpret cost information and present this information in a form that is usable by management.

ACC 227 Practices in Accounting
Prerequisites: ACC 220
Corequisites: None
Component: None
This course provides an advanced in-depth study of selected topics in accounting using case studies and individual and group problem solving. Topics include cash flow, financial statement analysis, individual and group problem solving, practical approaches to dealing with clients, ethics, and critical thinking. Upon completion, students should be able to demonstrate competent analytical skills and effective communication of their analysis in written and/or oral presentations.

ACC 240 Governmental & Not-for-Profit Accounting
Prerequisites: Take ACC 121 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 250 Advanced Accounting
Prerequisites: ACC 220
Corequisites: None
Component: None
This course is designed to analyze special accounting issues, which may include business combinations, partnerships, international accounting, estates, and trusts. Emphasis is placed on analyzing transactions and preparing working papers and financial statements. Upon completion, students should be able to solve a wide variety of problems by advanced application of accounting principles and procedures.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course introduces refrigeration systems and applications. Topics will include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.

AHR 110 Intro to Refrigeration
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111 HVACR Electricity
Prerequisites: None
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology
Prerequisites: AHR 110
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 113 Comfort Cooling
Prerequisites: None
Corequisites: None
Component: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychrometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology
Prerequisites: AHR 110 or AHR 113
Corequisites: None
Component: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 115 Refrigeration Systems
Prerequisites: All courses required: AHR 110, AHR 130
Corequisites: None
Component: None
This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.

AHR 120 HVACR Maintenance
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.

AHR 130 HVAC Controls
Prerequisites: AHR 111, ELC 111, or ELC-112
Corequisites: None
Component: None
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.

AHR 133 HVAC Servicing
Prerequisites: AHR 112 or AHR 113
Corequisites: None
Component: None
The course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.

AHR 151 HVAC Duct Systems I
Prerequisites: AHR 112
Corequisites: None
Component: None
This course introduces the techniques used to lay out and fabricate duct work commonly found in HVAC systems. Emphasis is placed on the skills required to fabricate duct work. Upon completion, students should be able to lay out and fabricate simple duct work.

AHR 160 Refrigerant Certification
Prerequisites: None
Corequisites: None
Component: None
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

AHR 180 HVACR Customer Relations
Prerequisites: AHR 114
Corequisites: None
Component: None
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
AHR 210 Residential Building Code
Prerequisites: AHR 151
Corequisites: None
Component: None
This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

AHR 211 Residential System Design
Prerequisites: AHR 151
Corequisites: None
Component: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychrometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

AHR 212 Advanced Comfort Systems
Prerequisites: Take AHR 114 and AHR 115
Corequisites: None
Component: None
This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

AHR 213 HVACR Building Code
Prerequisites: None
Corequisites: None
Component: None
This course covers the North Carolina codes that are applicable to the design and installation of HVAC systems. Topics include current North Carolina codes as applied to HVACR design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of North Carolina codes that apply to specific areas of the HVACR trade.

AHR 215 Commercial HVAC Controls
Prerequisites: AHR 111, ELC 111, or ELC 112
Corequisites: None
Component: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

AHR 240 Hydronic Heating
Prerequisites: AHR 112
Corequisites: None
Component: None
This course covers the accepted procedures for proper design, installation, and balance of hydronic heating systems for residential or commercial buildings. Topics include heating equipment; pump, terminal unit, and accessory selection; piping system selection and design; and pipe sizing and troubleshooting. Upon completion, students should be able to assist with the proper design, installation, and balance of typical hydronic systems.

AHR 245 Chiller Systems
Prerequisites: AHR 110
Corequisites: None
Component: None
This course introduces the fundamentals of liquid chilling equipment. Topics include characteristics of water, principles of water chilling, the chiller, the refrigerant, water and piping circuits, freeze prevention, purging, and equipment flexibility. Upon completion, students should be able to describe the components, controls, and overall operation of liquid chilling equipment and perform basic maintenance tasks.

AHR 250 HVAC System Diagnostics
Prerequisites: AHR 112
Corequisites: AHR 212
Component: None
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers’ specifications.

ANT 210 General Anthropology
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 220 Cultural Anthropology
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 221 Comparative Cultures
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 230 Physical Anthropology
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Emphasis is placed on evolutionary theory, population genetics, biocultural adaptation and human variation, as well as non-human primate evolution, morphology, and behavior. Upon completion, students should be able to demonstrate an understanding of the biological and cultural processes which have resulted in the formation of the human species. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ANT 230A Physical Anthropology Lab**
Prerequisites: ENG-111
Corequisites: ANT 230
Component: None
This course provides laboratory work that reinforces the material presented in ANT 230. Emphasis is placed on laboratory exercises which may include fossil identification, genetic analysis, skeletal comparisons, forensics, computer simulations, and field observations. Upon completion, students should be able to demonstrate an understanding of the analytical skills employed by anthropologists in the study of primate evolution and variation. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ANT 240 Archaeology**
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ARA 111 Elementary Arabic I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the modern standard Arabic language within the cultural context of Arabic-speaking people. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Arabic and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ARA 112 Elementary Arabic II**
Prerequisites: Take ARA 111
Corequisites: None
Component: None
This course includes the basic fundamental elements of the modern standard Arabic language within the cultural context of Arabic-speaking people. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Arabic and demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ARA 181 Arabic Lab I**
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the modern standard Arabic language. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Arabic and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ARA 182 Arabic Lab II**
Prerequisites: Take ARA-181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the modern standard Arabic language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Arabic and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ARA 211 Intermediate Arabic I**
Prerequisites: Take ARA 112
Corequisites: None
Component: None
This course includes communicative competencies in speaking, listening comprehension, reading and writing at an intermediate level with attention to cultural awareness. Emphasis is placed on intermediate skills in speaking, reading, writing, and comprehension of spoken language. Upon completion, students should be able to demonstrate simple conversations and read works written in modern standard Arabic. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ARA 212 Intermediate Arabic II**
Prerequisites: Take ARA 211
Corequisites: None
Component: None
This course provides continuation of communicative competence in speaking, listening comprehension, reading and writing at an intermediate level with attention to cultural awareness. Emphasis is placed on intermediate skills in speaking, reading, writing, and comprehension of spoken language. Upon completion, students should be able to demonstrate an ability to conduct conversations and to read literary and non-fiction texts in modern standard Arabic. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ARC 211 Light Construction Technology**  
Prerequisites: ARC 111  
Corequisites: ARC 112  
Component: None  
This course covers working drawings for light construction. Topics include plans, elevations, sections, and details; schedules; and other related topics. Upon completion, students should be able to prepare a set of working drawings which are within accepted architectural standards.

**ARC 212 Design Project**  
Prerequisites: All courses required: ARC 111, ARC 112 and ARC 114  
Corequisites: None  
Component: None  
This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents.

**ARC 220 Advanced Architecture CAD**  
Prerequisites: ARC 114  
Corequisites: None  
Component: None  
This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents.

**ARC 221 Architectural 3-D CAD**  
Prerequisites: ARC 114  
Corequisites: None  
Component: None  
This course introduces architectural three-dimensional CAD applications. Topics include three-dimensional drawing, coordinate systems, viewing, rendering, modeling, and output options. Upon completion, students should be able to prepare architectural three-dimensional drawings and renderings.

**ARC 230 Environmental Systems**  
Prerequisites: ARC 111 and MAT 121, MAT 151, MAT 161, MAT 171, or MAT 175  
Corequisites: None  
Component: None  
This course introduces concepts and principles related to sustainable site development and architectural design. Topics include low impact and sustainable site development, water efficiency, energy efficiency, material and resource management, indoor environmental quality, and return on investment. Upon completion, students should be able to articulate and integrate sustainable design principles into site and architectural design.

**ARC 231 Architectural Presentations**  
Prerequisites: ARC 111  
Corequisites: None  
Component: None  
This course introduces architectural presentation techniques. Topics include perspective drawing, shadow projection, texturization, rendered plans, perspectives, and orthographic projections. Upon completion, students should be able to create prototype drawings and symbol libraries, compose sheets with multiple details, and use advanced drawing and editing commands.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

| ART 114 Art History Survey I | 03 | 00 | 00 | 03 |
| Prerequisites: None |
| Corequisites: None |
| Component: None |
| This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. |

| ART 115 Art History Survey II | 03 | 00 | 00 | 03 |
| Prerequisites: None |
| Corequisites: None |
| Component: None |
| This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC). |

| ART 116 Survey of American Art | 03 | 00 | 00 | 03 |
| Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent |
| Corequisites: None |
| Component: None |
| This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. |

| ART 117 Non-Western Art History | 03 | 00 | 00 | 03 |
| Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent |
| Corequisites: None |
| Component: None |
| This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
ART 118 Art by Women  
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 121 Two-Dimensional Design  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 122 Three-Dimensional Design  
Prerequisites: ART 121  
Corequisites: None  
Component: None  
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 131 Drawing I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 132 Drawing II  
Prerequisites: ART 131  
Corequisites: None  
Component: None  
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 135 Figure Drawing I  
Prerequisites: ART 131  
Corequisites: None  
Component: None  
This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competency in drawing the human figure. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 171 Computer Art I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the use of the computer as a tool for solving visual problems. Emphasis is placed on fundamentals of computer literacy and design through bit-mapped image manipulation. Upon completion, students should be able to demonstrate an understanding of paint programs, printers, and scanners to capture, manipulate, and output images. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 212 Gallery Assistantship I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers résumé writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to résumé writing, and interview techniques. Upon completion, students should be able to demonstrate independent decision-making and exhibition expertise. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 214 Portfolio and Résumé  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers résumé writing, interview skills, and the preparation and presentation of a portfolio. Emphasis is placed on the preparation of an original artwork, the preparation of a photographic portfolio, approaches to résumé writing, and interview techniques. Upon completion, students should be able to demonstrate independent decision-making and exhibition expertise. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 222 Wood Design I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood
forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 223 Wood Design II**
- Prerequisites: ART 222
- Corequisites: None
- Component: None
This course provides a continuation of the skills and techniques used in ART 222. Emphasis is placed on woodcarving and other processes. Upon completion, students should be able to use original designs in the creation of functional and sculptural forms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 231 Printmaking I**
- Prerequisites: None
- Corequisites: None
- Component: None
This course introduces printmaking: its history, development techniques, and processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 232 Printmaking II**
- Prerequisites: ART 231
- Corequisites: None
- Component: None
This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 235 Figure Drawing II**
- Prerequisites: ART 135
- Corequisites: None
- Component: None
This course extends the study and rendering of the draped and undraped human figure. Emphasis is placed on the exploration of materials and approaches to drawing. Upon completion, students should be able to demonstrate creativity in the representation of the figure. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 240 Painting I**
- Prerequisites: None
- Corequisites: None
- Component: None
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 241 Painting II**
- Prerequisites: ART 240
- Corequisites: None
- Component: None
This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 242 Landscape Painting**
- Prerequisites: ART 240
- Corequisites: None
- Component: None
This course introduces and practices the skills and techniques of open-air painting. Emphasis is placed on techniques of painting summer foliage, skies, and mountains, and the elements of aerial perspective. Upon completion, students should be able to complete an open-air landscape painting employing brush, knife, scumbling, and glazing techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 244 Watercolor**
- Prerequisites: None
- Corequisites: None
- Component: None
This course introduces basic methods and techniques used in watercolor. Emphasis is placed on application, materials, content, and individual expression. Upon completion, students should be able to demonstrate a variety of traditional and nontraditional concepts used in watercolor media. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 245 Metals I**
- Prerequisites: None
- Corequisites: None
- Component: None
This course introduces basic metal design in traditional and contemporary art forms using brass, copper, and silver. Emphasis is placed on designing and fabricating jewelry, small sculptures, and utilitarian objects. Upon completion, students should be able to design and produce small art objects. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**ART 246 Metals II**
- Prerequisites: ART 245
- Corequisites: None
- Component: None
This course provides a continuation of metal design utilizing basic methods of casting and other processes. Emphasis is placed on individualized design. Upon completion, students should be able to design and produce expressive forms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

This course introduces the materials and techniques used in creative layout development and manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ART 266 Videography I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces various aspects of basic video production including concept development, scripting, camera operation, and post-production. Emphasis is placed on creative expression, camera handling, storyboarding, and editing. Upon completion, students should be able to demonstrate a basic understanding of video camera operation and production techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 267 Videography II**  
Prerequisites: ART 266  
Corequisites: None  
Component: None  
This course is designed to provide a framework for the production of a long-term video project. Emphasis is placed on realization of the unique creative vision. Upon completion, students should be able to produce a thematically coherent, edited video with sound and titling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ART 271 Computer Art II**  
Prerequisites: ART 171  
Corequisites: None  
Component: None  
This course includes advanced computer imaging techniques. Emphasis is placed on creative applications of digital technology. Upon completion, students should be able to demonstrate command of computer systems and applications to express their personal vision. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 274 Lettering Design**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces a variety of lettering forms and covers the manual development of these forms using a variety of materials. Emphasis is placed on developing correct size, design, weight, and proportion in a variety of type styles. Upon completion, students should be able to demonstrate competence in the rendering of various lettering styles, and their application in effective graphic design. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 275 Intro to Commercial Art**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the materials and techniques used in creative layout design for publication. Emphasis is placed on design for advertising in a variety of techniques and media including computer graphics. Upon completion, students should be able to demonstrate competence in manual camera-ready layout design and computer graphics literacy. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 281 Sculpture I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 282 Sculpture II**  
Prerequisites: ART 281  
Corequisites: None  
Component: None  
This course builds on the visual and technical skills learned in ART 281. Emphasis is placed on developing original solutions to sculptural problems in a variety of media. Upon completion, students should be able to express individual ideas using the techniques and materials of sculpture. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ART 283 Ceramics I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 284 Ceramics II**  
Prerequisites: ART 283  
Corequisites: None  
Component: None  
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 285 Ceramics III**  
Prerequisites: ART 284  
Corequisites: None  
Component: None  
This course provides the opportunity for advanced self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of clay bodies, slips, engobes, and firing procedures necessary to fulfill the student’s artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
### ART 286 Ceramics IV

**Prerequisites:** ART 285  
**Corequisites:** None  
**Component:** None  
This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of glaze materials, glaze formulation, and firing techniques necessary to fulfill the student’s artistic goals. Upon completion, students should be able to demonstrate knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### ART 288 Studio

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides the opportunity for advanced self-determined work beyond the limits of regular studio course sequences. Emphasis is placed on creative self-expression and in-depth exploration of techniques and materials. Upon completion, students should be able to create original projects specific to media, materials, and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### ART 290 Museum Study

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces research methods in the museum setting. Emphasis is placed on the chronology, styles, periods, context, and meaning in art. Upon completion, students should be able to demonstrate the advantage of first-hand and on-site research. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### ASL 111 Elementary ASL I

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### ASL 112 Elementary ASL II

**Prerequisites:** ASL 111  
**Corequisites:** None  
**Component:** None  
This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language in a cultural context. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

### ASL 181 ASL Lab 1

**Prerequisites:** None

### ASL 182 ASL Lab 2

**Prerequisites:** ASL 181  
**Corequisites:** None  
**Component:** None  
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness.

### ASL 211 Intermediate ASL I

**Prerequisites:** ASL 112  
**Corequisites:** None  
**Component:** None  
This course provides a review and expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills, study of authentic and representative literacy and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively using American Sign Language about the past, present, and future.

### ASL 212 Intermediate ASL II

**Prerequisites:** ASL 211  
**Corequisites:** None  
**Component:** None  
This course provides a continuation of ASL 211. Emphasis is placed on the continuing development of expressive and receptive skills study of authentic and representative literacy and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

AUB 114 Special Finishes
Prerequisites: AUB 111
Corequisites: None
Component: None
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

AUB 121 Non-Structural Damage I
Prerequisites: None
Corequisites: None
Component: None
This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.

AUB 122 Non-Structural Damage II
Prerequisites: AUB 121
Corequisites: None
Component: None
This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.

AUB 131 Structural Damage I
Prerequisites: None
Corequisites: None
Component: None
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/moderate structural damage.

AUB 132 Structural Damage II
Prerequisites: AUB 131
Corequisites: None
Component: None
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.

AUB 134 Autobody MIG Welding
Prerequisites: None
Corequisites: None
Component: None
This course covers the terms and procedures for welding the various metals found in today’s autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.

AUB 136 Plastics & Adhesives
Prerequisites: None
Corequisites: None
Component: None
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/or replace automotive plastic components in accordance with industry standards.

AUB 141 Mech & Elec Components I
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic principles of automotive mechanical and electrical components. Topics include personal and environmental safety and suspension and steering, electrical, brake, heating and air-conditioning, cooling, drive train, and restraint systems. Upon completion, students should be able to identify system components and perform basic system diagnostic checks and/or repairs according to industry standards.

AUB 142 Non-Structural Damage II
Prerequisites: None
Corequisites: None
Component: None
This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report.

AUB 143 Automotive Servicing I
Prerequisites: AUB 122, AUB 162, AUB 163, AUB 183, AUB 211, AUB 231
Corequisites: None
Component: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis/repair of automotive engines using appropriate tools, equipment, procedures, and service information. This course will become obsolete Fall 2008.

AUB 146 Engine Repair
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT-116A
Component: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

This course introduces the basic knowledge and skills needed to be an effective lender. Topics include the functions of the loan interview and credit investigation, the “C”s of credit, elements of loan documentation, and warning signs of problem loans. Upon completion, students should be able to demonstrate an understanding of the credit functions and regulatory issues affecting this key banking function. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
BIO 110 Principles of Biology  
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090  
Corequisites: None  
Component: None  
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, taxonomy, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 111 General Biology I  
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090  
Corequisites: None  
Component: None  
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 112 General Biology II  
Prerequisites: BIO 110 or BIO 111  
Corequisites: None  
Component: None  
This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 120 Introductory Botany  
Prerequisites: BIO 110 or BIO 111  
Corequisites: None  
Component: None  
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 130 Introductory Zoology  
Prerequisites: BIO 110 or BIO 111  
Corequisites: None  
Component: None  
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 140 Environmental Biology  
Prerequisites: None  
Corequisites: BIO 140A  
Component: None  
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics. This course is also available through the Virtual Learning Community (VLC).

BIO 140A Environmental Biology Lab  
Prerequisites: None  
Corequisites: BIO 140  
Component: None  
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 150 Genetics in Human Affairs  
Prerequisites: BIO 110 or BIO 111  
Corequisites: None  
Component: None  
This course describes the importance of genetics in everyday life. Topics include the role of genetics in human development, birth defects, cancer and chemical exposure, and current issues including genetic engineering and fertilization methods. Upon completion, students should be able to understand the relationship of genetics to society today and its possible influence on our future. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

BIO 155 Nutrition  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person’s acceptance of food, as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 161 Intro to Human Biology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

BIO 163 Basic Anatomy and Physiology  
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090  
Corequisites: None  
Component: None  
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 165 Anatomy and Physiology I**

Prerequisites: None  
Corequisites: None  
Component: None  
This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

**BIO 166 Anatomy and Physiology II**

Prerequisites: BIO 165  
Corequisites: None  
Component: None  
This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

**BIO 168 Anatomy and Physiology I**

Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090  
Corequisites: None  
Component: None  
This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 169 Anatomy and Physiology II**

Prerequisites: BIO 168  
Corequisites: None  
Component: None  
This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
BIO 230 Entomology
Prerequisites: BIO 112
Corequisites: None
Component: None
This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BIO 232 Vertebrate Zoology
Prerequisites: BIO 112
Corequisites: None
Component: None
This course introduces the principles of animal biology of the chordate phylum. Emphasis is placed on the diversity, morphology, reproduction, development, behavior, ecology, evolution, and importance of the chordates. Upon completion, students should be able to demonstrate increased knowledge and comprehension of zoology as it applies to life. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BIO 235 Ornithology
Prerequisites: BIO-110 or BIO-111
Corequisites: None
Component: None
This course introduces the biology of birds. Emphasis is placed on the systematics, recognition, distribution, anatomy, physiology, behavior, and ecology of birds. Upon completion, students should be able to identify various avian species and demonstrate a knowledge of their biology and ecology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 240 Waste Management
Prerequisites: BIO 110 or BIO 111 or BIO 140 and BIO 140A
Corequisites: None
Component: None
This course is a study of human use of and impact on the environment. Topics include how human activities can negatively affect the land and water and how to avoid and cope with waste problems. Upon completion, students should be able to identify both hazardous and nonhazardous waste products and solutions for their management. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BIO 243 Marine Biology
Prerequisites: BIO-110 or BIO-111
Corequisites: None
Component: None
This course covers the physical and biological components of the marine environment. Topics include major habitats, the diversity of organisms, their biology and ecology, marine productivity, and the use of marine resources by humans. Upon completion, students should be able to identify various marine habitats and organisms and to demonstrate a knowledge of their biology and ecology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 250 Genetics
Prerequisites: BIO 112
Corequisites: None
Component: None
This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

BIO 252 Waste Management
Prerequisites: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168
Corequisites: None
Component: None
This course covers the principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

BIO 280 Biotechnology
Prerequisites: BIO 110 and CHM 151
Corequisites: None
Component: None
This course provides experience in selected laboratory procedures. Topics include proper laboratory techniques in biology and chemistry. Upon completion, students should be able to identify laboratory techniques and instrumentation in basic biotechnology. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BIO 285 Research & Measurement
Prerequisites: BIO 112 and CHM 132
Corequisites: None
Component: None
This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate competencies with laboratory culture methods, and identification of microorganisms. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.
BUS 110 Introduction to Business  03 00 00 03
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test

BUS 115 Business Law I  03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BUS 116 Business Law II  03 00 00 03
Prerequisites: Take BUS 115 and DRE-098 or ENG-090 and RED-090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course continues the study of ethics and business law. Emphasis is placed on bailments, sales, risk-bearing, forms of business ownership, and copyrights. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.

BUS 121 Business Math  02 02 00 03
Prerequisites: Take DMA-040 and DRE-096 or MAT 070, ENG-070 and RED-070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.

BUS 125 Personal Finance  03 00 00 03
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

BUS 135 Principles of Supervision  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechecc.edu/areas_of_study/default.asp.
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

BUS 139 Entrepreneurship I 03 00 00 03
Prerequisites: BUS-110 and DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to the principles of entrepreneurship. Topics include self-analysis of entrepreneurship readiness, the role of entrepreneur in economic development, legal problems, organizational structure, sources of financing, budgeting, and cash flow. Upon completion, students should have an understanding of the entrepreneurial process and issues faced by entrepreneurs.

BUS 153 Human Resource Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

BUS 171 Government Contracts 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to the procurement process, concepts, policies and procedures associated with government contracting. Topics include procurement requirements, work specifications, procurement requests, and acquisition work planning. Upon completion, students should be able to demonstrate an understanding of the acquisition and contract management functions.

BUS 173 Procurement Management 03 00 00 03
Prerequisites: Take DRE-098 and DMA-050 or ENG-090, RED-090 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course examines purchasing and materials management including function, organization, quality and quantity considerations, pricing policies, supplier selection and ethical and legal implications. Topics include purchasing procedures, value analysis, inventory control, logistics, capital equipment, budgets, and institutional and governmental purchasing practices. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques of purchasing and materials management.

BUS 175 Contract Negotiations 03 00 00 03
Prerequisites: Take DRE-097 or ENG-080 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers developing, conducting, and evaluating employee contract negotiation management. This course provides understanding of the concepts and techniques of contracting and methods of dealing with situations under different types of negotiations. Upon completion, students should be able to effectively negotiate contracts.

BUS 217 Employment Law and Regulations 03 00 00 03
Prerequisites: BUS 115 and DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. This course is also available through the Virtual Learning Community (VLC).

BUS 225 Business Finance 02 02 00 03
Prerequisites: ACC 120 and CIS-110, CIS-111, or OST-137
Corequisites: None
Component: None
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 228 Business Statistics 02 02 00 03
Prerequisites: Take MAT 115, MAT 140 or MAT 161, and CIS-110 or CIS-111 and DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BUS 230 Small Business Management 03 00 00 03
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

BUS 234 Training and Development 03 00 00 03
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers developing, conducting, and evaluating employee training and development programs and procedures. Upon completion, students should be able to develop and implement training programs for employees. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program. This course is also available through the Virtual Learning Community (VLC).

**BUS 236 Adv Training & Dev**

- **Prerequisites:** BUS 234
- **Corequisites:** None
- **Component:** None

This course covers the skills necessary for presenting active training programs applying the principles learned in BUS 234. Emphasis is placed on the equipment and materials employed by various media techniques. Upon completion, students should be able to make a variety of presentations based on audience, purpose of presentation, and presentation objectives.

**BUS 240 Business Ethics**

- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

**BUS 252 Labor Relations**

- **Prerequisites:** ENG-080 and RED-090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor laws and unfair labor practices, the role of the NLRB, organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists. This course is also available through the Virtual Learning Community (VLC).

**BUS 253 Leadership and Management Skills**

- **Prerequisites:** Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness.

**BUS 255 Org Behavior in Business**

- **Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course covers the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Topics include a discussion of formal and informal organizations, group dynamics, motivation, and managing conflict and change. Upon completion, students should be able to analyze different types of interpersonal situations and determine an appropriate course of action.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
CAR 111 Carpentry I  
Prerequisites: None  
Corequisites: None  
Component: CAR 111AA, CAR 111BB  
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision.

CAR 112 Carpentry II  
Prerequisites: A set of courses is required: CAR 111 or CAR111AA and CAR111BB  
Corequisites: None  
Component: CAR 112AA, CAR112BB  
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

CAR 113 Carpentry III  
Prerequisites: A set of courses is required: CAR 111 or CAR 111AA and CAR 111BB  
Corequisites: None  
Component: None  
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

CAR 114 Residential Building Codes  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

CAR 115 Residential Planning/Estimating  
Prerequisites: All Courses Required: BPR 130  
Corequisites: None  
Component: None  
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.

CCT 112 Ethics & High Technology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers ethical considerations and accepted standard practices applicable to technological investigations and computer privacy issues relative to the cyber crime investigator. Topics include illegal and unethical investigative activities, end-justifying-the-means issues, and privacy issues of massive personal database information gathered by governmental sources. Upon completion, students should be able to examine their own value system and apply ethical considerations in identifiable cyber crime investigations.

CCT 231 Technology Crimes & Law  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the applicable technological laws dealing with the regulation of cyber security and criminal activity. Topics include an examination of state, federal and international laws regarding cyber crime with an emphasis on both general and North Carolina statutes. Upon
This course introduces basic engineering principles of hydraulics, and water and wastewater technologies. Topics include fluid statics, fluid dynamics, flow measurement, the collection, treatment, and distribution of water and wastewater. Upon completion, students should be able to identify water and wastewater system elements, describe water and wastewater system processes and perform basic hydraulics and treatment computations.

CCT 240 Data Recovery Techniques  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes. Topics include hardware and software issues, recovering erased files, overcoming encryption, advanced imaging, transient data, Internet issues and testimony considerations. Upon completion, students should be able to recover digital evidence, extract information for criminal investigation and legally seize criminal evidence.

CEG 111 Intro to Gis and Gns  02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the methods and techniques used in the Geographic Information Systems (GIS) and Global Navigation Satellite Systems (GNSS) professions. Emphasis is placed on data collection and mapping using GIS software. Upon completion, students should be able to use GNSS technologies to collect field data and create GIS maps.

CEG 151 Cad for Engineering Technology  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer-aided drafting (CAD) software. Topics include file and data management, drawing, editing, dimensioning commands, plotting, and related topics. Upon completion, students should be able to create and plot basic drawings and maps using CAD software.

CEG 210 Construction Mtls & Methods  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the behavior and properties of Portland cement, asphaltic concretes, and other construction materials, including construction methods and equipment. Topics include cementing agents, aggregates, water and admixture materials with their proportions, production, placement, consolidation, curing; and their inspection. Upon completion, students should be able to proportion Portland concrete mixes to attain predetermined strengths, perform standard control tests on Portland cement concrete, identify inspection criteria for concretes, identify construction equipment and applications.

CEG 211 Hydrology & Erosion Control  02 03 00 03
Prerequisites: Take EGR-250 and MAT-161 or MAT-171
Corequisites: None
Component: None
This course introduces basic engineering principles and characteristics of hydrology, erosion and sediment control. Topics include stormwater runoff, gravity pipe flow, open channel flow, low impact development (LID), erosion control devices and practices. Upon completion, students should be able to analyze and design gravitational drainage structures, identify LID and erosion control elements, and prepare a stormwater drainage plan.

CEG 212 Intro to Environmental Tech  02 03 00 03
Prerequisites: CEG-211 and EGR-250
Corequisites: None
Component: None
This course introduces basic engineering principles of hydraulics, and water

Refer to the FTCC website for the most current information. Go to www.faytechncc.edu/areas_of_study/default.asp.
### CHI 211 Intermediate Chinese I

**Prerequisites:** Take CHI 112  
**Corequisites:** None  
**Component:** None  

This course includes communicative competencies in speaking, listening, comprehension, reading, and writing at an intermediate level with attention to cultural awareness. Emphasis is placed on intermediate skills in speaking, reading, writing, and comprehension of spoken language. Upon completion, students should demonstrate simple conversations and distinguish an appropriate range of Chinese characters, as well as read simple expressions in modern standard Chinese. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

### CHI 212 Intermediate Chinese II

**Prerequisites:** Take CHI 211  
**Corequisites:** None  
**Component:** None  

This course provides continuation of communicative competence in speaking, listening, comprehension, reading and writing at an intermediate level with attention to cultural awareness. Emphasis is placed on intermediate skills in speaking, reading, writing, and comprehension of spoken language. Upon completion, students should demonstrate simple conversations and distinguish a broad range of Chinese characters, as well as read expressions in modern standard Chinese. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

### CHM 081 Basic Chemistry I

**Prerequisites:** None  
**Corequisites:** DMA 050  
**Component:** None  

This course covers basic fundamental principles and laws of chemistry. Topics include matter, energy, atomic structure, periodic classification, nomenclature, bonding, molecular geometry, measurement, chemical reactions, stoichiometry, and gas laws. Upon completion, students should be able to explain and apply the chemical concepts and laboratory skills as needed in CHM 082.

### CHM 082 Basic Chemistry II

**Prerequisites:** CHM 081  
**Corequisites:** None  
**Component:** None  

This course provides a continuation of the study of basic fundamental principles and laws of chemistry. Topics include intermolecular forces, solutions, acids and bases, redox reactions, chemical equilibrium, with elements of organic and nuclear chemistry. Upon completion, students should be able to explain and apply basic chemical concepts and laboratory skills needed for success in college-level chemistry courses.

### CHM 090 Chemistry Concepts

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.

### CHM 092 Fundamentals of Chemistry

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers fundamentals of chemistry with laboratory applications. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts and demonstrate basic laboratory skills necessary for success in college-level science courses.

### CHM 115 Concepts in Chemistry

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces basic chemical concepts and their applications to daily life for non-science majors. Topics include air pollution, global warming, energy, world of polymers, water and its importance to a technological society, food, drugs, and nuclear chemistry. Upon completion, students should be able to discuss, apply, and appreciate the impact of chemistry on modern society. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### CHM 115A Concepts in Chemistry Lab

**Prerequisites:** None  
**Corequisites:** CHM 115  
**Component:** None  

This course is a laboratory for CHM 115. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 115. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical concepts presented in CHM 115. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### CHM 130 General, Organic, & Biochemistry

**Prerequisites:** None  
**Corequisites:** CHM 130A  
**Component:** None  

This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### CHM 130A General, Organic, & Biochemistry Lab

**Prerequisites:** None  
**Corequisites:** CHM 130  
**Component:** None  

This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

### CIS 110 Introduction to Computers
**Prerequisites:** Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

### CIS 111 Basic PC Literacy
**Prerequisites:** Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. This course is also available through the Virtual Learning Community (VLC).

### CIS 113 Computer Basics
**Prerequisites:** Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications. This course is also available through the Virtual Learning Community (VLC).

### CIS 115 Intro to Prog & Logic
**Prerequisites:** Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

### CIS 162 Multimedia Presentation Software
**Prerequisites:** Take CIS 110 or CIS 111. Take DRE-096 and DMA-010 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course is designed to integrate visual and audio resources using presentation software in a simple interactive multimedia project. Emphasis is placed upon design and audience considerations, general prototyping, and handling of media resources. Upon completion, students should be able to demonstrate an original interactive multimedia presentation implementing all of these resources in a professional manner.

### CIV 110 Statics/Strength of Materials
**Prerequisites:** MAT 121, MAT 161, MAT 171, or MAT 175  
**Corequisites:** None  
**Component:** None  
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.

### CIV 111 Soils and Foundations
**Prerequisites:** Take 1 course: EGR 250, EGR 251 or MEC 210  
**Corequisites:** None  
**Component:** None  
This course presents an overview of soil as a construction material using both analysis and testing procedures. Topics include index properties, classification, stress analysis, compressibility, compaction, dewatering, excavation, stabilization, settlement, and foundations. Upon completion, students should be able to perform basic soil tests and analyze engineering properties of soil.

### CIV 125 Civil/Surveying CAD
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces civil/surveying computer-aided drafting (CAD) software. Topics include drawing, editing, and dimensioning commands; plotting; and other related civil/surveying topics. Upon completion, students should be able to produce civil/surveying drawings using CAD software.

### CIV 210 Engineering Materials
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the behavior and properties of Portland cement and asphaltic concretes and laboratory and field testing. Topics include cementing agents and aggregates; water and admixtures; proportioning, production, placing, consolidation, and curing; and inspection methods. Upon completion, students should be able to proportion concrete mixes to attain predetermined strengths and other properties and perform standard control tests.

### CIV 211 Hydraulics and Hydrology
**Prerequisites:** CIV 110 or MEC 250  
**Corequisites:** None  
**Component:** None  
This course introduces the basic engineering principles and characteristics of hydraulics and hydrology. Topics include precipitation and runoff, fluid statics and dynamics, flow measurement, and pipe and open channel flow. Upon completion, students should be able to analyze and size drainage structures.

### CIV 212 Environmental Planning
**Prerequisites:** CIV 211  
**Corequisites:** None  
**Component:** None  
This course covers water and wastewater technology, erosion and sedimentation control, and other related topics. Topics include collection, treatment, and distribution of water and wastewater and erosion and sedimentation control law. Upon completion, students should be able to demonstrate knowledge of water and wastewater systems and prepare erosion and sedimentation control plans.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
CIV 215 Highway Technology  02 03 00 03
Prerequisites: Take 1 course: CEG 115, EGR 115, MAT 121, MAT 161, or MAT 171
Corequisites: None
Component: None
This course introduces the essential elements of roadway components and design. Topics include subgrade and pavement construction, roadway drawings and details, traffic analysis, geometric design and other related topics. Upon completion, students should be able to interpret roadway details and specifications, and produce street and highway construction drawings.

CIV 221 Steel and Timber Design  02 03 00 03
Prerequisites: Take EGR-250, EGR-251, or MEC-210
Corequisites: None
Component: None
This course introduces the basic elements of steel and timber structures. Topics include strength of materials applications, the analysis and design of steel and timber beams, columns, and connections and concepts of structural detailing. Upon completion, students should be able to analyze, design, and draw simple plans using Computer Aided Drafting and Design software (CADD).

CIV 222 Reinforced Concrete  02 03 00 03
Prerequisites: Take EGR 250, EGR 251, or MEC 210
Corequisites: None
Component: None
This course introduces the basic elements of reinforced concrete structures. Topics include analysis and design of reinforced concrete beams, slabs, columns, footings, and retaining walls. Upon completion, students should be able to analyze and design components of a structure using reinforced concrete and draw simple plans using Computer Aided Drafting and Design software (CADD).

CIV 230 Construction Estimating  02 03 00 03
Prerequisites: One course required: CIS 110, CIS 111 or ERG 115
Corequisites: None
Component: None
This course covers quantity take-offs of labor, materials, and equipment and calculation of direct and overhead costs for a construction project. Topics include the interpretation of working drawings and specifications, types of contracts and estimates, building codes, bidding techniques and procedures, and estimating software. Upon completion, students should be able to prepare a detailed cost estimate and bid documents for a construction project.

CIV 240 Project Management  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces construction planning and scheduling techniques and project management software. Topics include construction safety, operation analysis, construction scheduling, construction control systems, claims and dispute resolutions, project records, and documentation. Upon completion, students should be able to demonstrate an understanding of the roles of construction project participants, maintain construction records, and prepare construction schedules.

CIV 250 Civil Eng Technology Project  01 03 00 02
Prerequisites: Departmental approval
Corequisites: None
Component: None
This course includes an integrated team approach to civil engineering technology projects. Emphasis is placed on project proposal, site selection, analysis/design of structures, construction material selection, time and cost estimating, planning, and management of a project. Upon completion, students should be able to apply team concepts, prepare estimates, submit bid proposals, and manage projects.

CJC 100 Basic Law Enforcement Training  09 30 00 19
Prerequisites: None
Corequisites: None
Component: None
This course covers the skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in topics and areas required for the state comprehensive certification examination. This is a certificate-level course.

CJC 111 Introduction to Criminal Justice  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 112 Criminology  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 Juvenile Justice  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. This course is also available through the Virtual Learning Community (VLC).

CJC 114 Investigative Photography  01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations.

### CJC 160 Terrorism: Underlying Issues
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, students should be able to identify and discuss the methods used in terrorists’ activities and complete a threat assessment for terrorists’ incidents.

### CJC 161 Intro Homeland Security
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the historical, organizational and practical aspects of Homeland Security. Topics include a historic overview, definitions and concepts, organizational structure, communications, technology, mitigation, prevention and preparedness, response and recovery, and the future of Homeland Security. Upon completion, students should be able to explain essential characteristics of terrorism and Homeland Security, and define roles, functions and interdependency between agencies.

### CJC 162 Intel Analysis & Sec Mgmt
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course examines intelligence analysis and its relationship to the security management of terrorist attacks and other threats to national security of the United States. Topics include an historic overview, definitions and concepts, intelligence evolution-politicization-operations-strategies, surveillance, analysis perspectives, covert action, and ethics. Upon completion, students should be able to outline intelligence policies, evaluate source information, implement intelligence techniques and analysis, identify threats, and apply ethical behaviors.

### CJC 163 Trans and Border Security
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an in-depth view of modern border and transportation security including the technologies used for detecting potential threats from terrorists and weapons. Topics include an overview of security challenges, detection devices and equipment, transportation systems, facilities, threats and counter-measures, and security procedures, policies and agencies. Upon completion, students should be able to describe border security, the technologies used to enforce it, and the considerations and strategies of border security agencies.

### CJC 170 Critical Incident Mgmt Pub Saf
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course prepares the student to specialize in the direct response, operations, and management of critical incidents. Emphasis is placed upon the theoretical and applied models to understand and manage disasters, terrorism, and school/workplace violence. Upon completion, the student should be able to identify and discuss managerial techniques legal issues, and response procedures to critical incidents.

### CJC 193 Selected Topics in Criminal Justice
**Prerequisites:** None  
**Corequisites:** None

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/areas_of_study/default.asp](http://www.faytechcc.edu/areas_of_study/default.asp).
This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

This course enables students to apply the investigative skills they have learned to operating systems and networks. Topics will include security technologies for multiple platforms, encryption techniques and authentication and key distribution systems. Upon completion, students will be able to contrast competing schemes and describe mistakes made in design, which could lead to criminal activity. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify/discuss legal issues which directly affect the offender, the professional, the offender, and the community.

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.

This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.
photographic recording, casting, recognition of wear patterns and imprint identification. Upon completion, the student should be able to recognize, record, photograph, and identify footwear and tire imprints.

**CJC 245 Friction Ridge Analysis**

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology.

**CJC 249 Forensic Accounting**

**Prerequisites:** ACC 220  
**Corequisites:** None  
**Component:** None  

This course introduces students to theoretical and practical aspects of asset and cash control investigations through internal audit and fraud investigation procedure used in corporate investigation. The emphasis is placed on procedures used to identify the absence of proper controls or the existence of improper activity, which creates illegal activity. Upon completion, students will be able to conduct fraud investigations including the collection of evidence and preparation of the case for criminal prosecution. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

**CJC 250 Forensic Biology I**

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

**CJC 251 Forensic Chemistry I**

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.
CMT 120 Codes and Inspections
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

CMT 120 Codes and Inspections
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

COE 111 Co-op Work Experience I
Prerequisites: None
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. This course is also available through the Virtual Learning Community (VLC).

COE 112 Co-op Work Experience I
Prerequisites: None
Corequisites: None
Component: None
This course provides work experience with a college approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 113 Co-op Work Experience I
Prerequisites: None
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 115 Work Exp Seminar I
Prerequisites: None
Corequisites: One course required: COE 111, COE 112, COE 113 or COE 114
Component: None
This course description may be written by the individual colleges.

COE 121 Co-op Work Experience II
Prerequisites: COE 111 COE 112 or COE 113
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 122 Co-op Work Experience II
Prerequisites: COE 111 COE 112 or COE 113
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 123 Co-op Work Experience II
Prerequisites: One course required: COE 111, COE 112 or COE 113
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 125 Work Exp Seminar II
Prerequisites: None
Corequisites: COE 121, COE 122, COE 123, or COE 124
Component: None
This course description may be written by the individual colleges.

COE 131 Co-op Work Experience III
Prerequisites: One course required: COE 121, COE 122 or COE 123
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 132 Co-op Work Experience III
Prerequisites: One course required: COE 121, COE 122 or COE 123
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 133 Co-op Work Experience III
Prerequisites: One course required: COE 121, COE 122, or COE 123
Corequisites: None
Component: None
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 211 Co-op Work Experience IV
Prerequisites: One course required: COE 131 or COE 132 or COE 133

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

### COS 114 Salon II
Prerequisites: COS 111, COS 112
Corequisites: COS 113
Component: COS 114AA and COS 114BB
This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

### COS 115 Cosmetology Concepts III
Prerequisites: COS 111, COS 112
Corequisites: COS 115
Component: COS 115AA, COS 115BB
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

### COS 116 Salon III
Prerequisites: COS 111, COS 112
Corequisites: COS 116
Component: COS 116AA, COS 116BB
This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

### COS 117 Cosmetology Concepts IV
Prerequisites: COS 111, COS 112, COS 113, COS 114
Corequisites: COS 117
Component: None
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

### COS 118 Salon IV
Prerequisites: COS 114
Corequisites: COS 117
Component: None
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

### COS 119 Esthetics Concepts I
Prerequisites: None
Corequisites: None
Component: None
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

### COS 120 Esthetics Salon I
Prerequisites: None
Corequisites: None
Component: None
This course provides comprehensive experience in a simulated esthetics setting. Topics include safety, product knowledge, salon management, salesmanship, artificial applications, pedicures, massage, and other related topics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

### COS 121 Manicure/Nail Technology I
Prerequisites: None
Corequisites: None
Component: None
This course covers techniques of nail technology, hand and arm massage, and recognition of nail diseases and disorders. Topics include OSHA/safety, sanitation, bacteriology, product knowledge, salesmanship, manicures, artificial applications, pedicures, massage, and other related topics. Upon completion, students should be able to safely and competently perform nail care, including manicures, pedicures, massage, decorating, and artificial applications in a salon setting.

### COS 125 Esthetics Concepts II
Prerequisites: COS 119
Corequisites: None
Component: None
This course covers more comprehensive esthetics concepts. Topics include nutrition, business management, make-up, and color analysis. Upon completion students should be able to demonstrate an understanding of the advanced esthetics concepts and meet course requirements.

### COS 126 Esthetics Salon II
Prerequisites: COS 120
Corequisites: None
Component: None
This course provides experience in a simulated esthetics setting. Topics include machine facials, aroma therapy, massage therapy, electricity, and apparatus. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology licensing examination for Estheticians.

### COS 222 Manicure/Nail Technology II
Prerequisites: COS 121
Corequisites: None
Component: None
This course covers advanced techniques of nail technology and hand and arm massage. Topics include OSHA/safety, product knowledge, customer service, salesmanship, artificial applications, nail art, and other related topics. Upon completion, students should be able to demonstrate competence necessary for the licensing examination, including advanced nail care, artificial enhancements, and decorations.

### COS 223 Contemp Hair Coloring
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client’s color needs and safety and competently perform color applications and correct problems.

### COS 224 Trichology & Chemistry
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course covers the techniques of esthetics in a comprehensive experience in a simulated salon setting. Topics include client consultation, facials, body treatments, hair removal, make-up applications, and color analysis. Upon completion, students should be able to safely and competently demonstrate aesthetic services on clients in a salon setting.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair.

**COS 240 Contemporary Design**

**Prerequisites:** COS 111 and COS 112

**Corequisites:** None

**Component:** None

This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design.

**COS 250 Computerized Salon Ops**

**Prerequisites:** COS 111 and COS 112

**Corequisites:** None

**Component:** None

This course introduces computer and salon software. Emphasis is placed on various computer and salon software applications. Upon completion, students should be able to utilize computer skills and software applications in the salon setting.

**CSC 133 C Programming**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course introduces computer programming using the C programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

**CSC 134 C++ Programming**

**Prerequisites:** Take CIS 115 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**CSC 135 COBOL Programming**

**Prerequisites:** Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course introduces computer programming using the COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

**CSC 139 Visual BASIC Prog**

**Prerequisites:** Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**CSC 141 Visual C++ Prog**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course introduces computer programming using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at a beginning level.

**CSC 151 JAVA Programming**

**Prerequisites:** Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**CSC 153 C# Programming**

**Prerequisites:** Take CIS-115 or CSC-133. Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level.

**CSC 191S Selected Topics in Computer Programming**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
CSC 234 Advanced C++ 02 03 00 03
Prerequisites: Take CSC-134 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Advanced COBOL 02 03 00 03
Prerequisites: Take CSC 135 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 135 using the COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Advanced Visual BASIC 02 03 00 03
Prerequisites: CSC 139
Corequisites: None
Component: None
This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

CSC 251 Advanced JAVA Programming 02 03 00 03
Prerequisites: CSC 151
Corequisites: None
Component: None
This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 253 Advanced C# Programming 02 03 00 03
Prerequisites: Take CSC-153 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 153 using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 258 JAVA Enterprise Programs 02 03 00 03
Prerequisites: Take CSC-151 and DRE-096 and DMA-040 or ENG-070,
RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a continuation to CSC 151 using the Java Enterprise Edition (JEE) programming architecture. Topics include distributed network applications, database connectivity, Enterprise Java Beans, servlets, collection frameworks, JNDI, RMI, JSP, multithreading XML and multimedia development. Upon completion, students should be able to program a client/server enterprise application using the JEE framework.

CSC 289 Programming Capstone Proj 01 04 00 03
Prerequisites: Take CTS 285 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation.

CST 131 OSHA/Safety/Certification 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the concepts of work site safety. Topics include OSHA regulations, tool safety, and certifications which relate to the construction industry. Upon completion, students should be able to identify and maintain a safe working environment based on OSHA regulations and maintain proper records and certifications.

CST 211 Construction Surveying 02 03 00 03
Prerequisites: Take 1 course: MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175
Corequisites: None
Component: None
This course covers field surveying applications for residential and commercial construction. Topics include building layout and leveling, linear measurement and turning angles, plumbing vertical members, and topographic and utilities surveys. Upon completion, students should be able to properly and accurately use surveying equipment to lay out residential and commercial buildings.

CST 221 Statics/Structures 03 03 00 04
Prerequisites: MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175 and ARC 112, CAR 112, or CST 112
Corequisites: None
Component: None
This course covers the principles of statics and strength of materials as applied to structural building components. Topics include forces on columns, beams, girders, and footings and connection points when timber, steel, and concrete members are used. Upon completion, students should be able to accurately analyze load conditions present in structural members.

CST 241 Planning/Estimating I 02 02 00 03
Prerequisites: BPR 130 or MAT 120, MAT 121, MAT 161, MAT 171 OR MAT 175
Corequisites: None
Component: None
This course covers the procedures involved in planning and estimating a construction/building project. Topics include performing quantity take-offs of materials necessary for a building project. Upon completion, students should be able to accurately complete a take-off of materials and equipment needs involved in a construction project.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
basic networking on personal computers. install, configure, diagnose, perform preventive maintenance, and maintain hardware and system software. Upon completion, students should be able to diagnose and troubleshooting; as well as preventive maintenance of personal computers. Emphasis is placed on: configuring and upgrading; and operating system technologies for computer technicians to support This course provides advanced knowledge and competencies in hardware Component: None

Prerequisites: Take CTS-120 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent

Corequisites: None

CTS 100 Hardware/Software Support 02 02 00 03
Prerequisites: Take CIS 110 or CIS 111. Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 120 Spreadsheet 02 02 00 03
Prerequisites: Take CIS-110 or CIS-111 or OST-137. Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 130 Systems Analysis & Design 02 02 00 03
Prerequisites: Take CIS-110 or CIS-111 or OST-137. Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/ OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 230 Advanced Spreadsheet 02 02 00 03
Prerequisites: Take CTS-130 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CTS 260 Advanced Spreadsheet 02 02 00 03
Prerequisites: Take CTS-120 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CUL 140 Basic Culinary Skills
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: CUL 110
Component: None
This course introduces the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the foodservice industry.

CUL 150 Food Science
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Emphasis is placed on practical application of heat transfer and its effect on color/flavor/texture, emulsification, protein coagulation, leavening agents, viscosity, and gel formation. Upon completion, students should be able to demonstrate an understanding of these principles as they apply to food preparation in an experimental setting.

CUL 160 Baking I
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: CUL 110
Component: None
This course covers basic ingredients, techniques, weights and measures, baking terminology and formula calculations. Topics include yeast/chemically leavened products, laminated/pantry dough, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products.

CUL 160A Baking I Lab
Prerequisites: None
Corequisites: CUL 110 and CUL 160
Component: None
This course provides a laboratory experience for enhancing student skills in basic baking. Emphasis is placed on the practical experiences of yeast/chemically leavened products, laminated/pantry dough, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate a basic proficiency in bakeshop applications.

CUL 170 Garde Manger I
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED 070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: CUL 110
Component: None
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 170A Garde Manger I Lab
Prerequisites: None
Corequisites: CUL 110 and CUL 170
Component: None
This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on the practical experiences that include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to demonstrate proficiency in the design of a cold food display.

CUL 180 International & American Reg Cuisine
Prerequisites: CUL 140
Corequisites: None
Component: None
This course provides practical experience in the planning, preparation, and service of representative foods from different countries and regions of America. Emphasis is placed on eating habits, indigenous foods and customs, nutritional concerns, and traditional equipment. Upon completion, students should be able to research and execute international and domestic menus.

CUL 185 Nutritional Cuisine
Prerequisites: CUL 110 and CUL 140
Corequisites: None
Component: None
This course introduces students to a healthful approach to food preparation by choosing techniques, ingredients, and portion sizes that have positive health benefits. Topics include food allergens, and preparation of quality ingredients incorporating plant based foods and flavor enhancers to preserve flavor, texture, appearance and nutritional value. Upon completion, students should be able to demonstrate the integration of culinary tradition and nutritional science for healthful cooking.

CUL 214 Wine Appreciation
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to information about wine from all the major wine producing regions. Emphasis is placed on the history of wine, production, characteristics, wine list development, laws, purchasing and storing requirements. Upon completion, students should be able to evaluate varietal wines and basic wine pairings.

CUL 230 Global Cuisines
Prerequisites: CUL 110 and CUL 140
Corequisites: None
Component: None
This course provides practical experience in the planning, preparation, and presentation of representative foods from a variety of world cuisines. Emphasis is placed on indigenous ingredients and customs, nutritional concerns, and cooking techniques. Upon completion, students should be able to research and execute a variety of international and domestic menus.

CUL 230A Global Cuisines Lab
Prerequisites: CUL 110 and CUL 140
Corequisites: CUL 230
Component: None
This course provides a laboratory experience for enhancing student skills with cuisines from around the world. Emphasis is placed on production of global cuisines based on historical and geographical influences, ingredients, customs, and cooking techniques. Upon completion, students should be able to exhibit an understanding of the culinary practices and techniques of specific countries.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course is designed to further students’ knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/ fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

**CUL 240 Advanced Culinary Skills**
- Prerequisites: CUL 110 and CUL 140
- Corequisites: None
- Component: None
- This course is designed to further students’ knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

**CUL 250 Classical Cuisine**
- Prerequisites: CUL 110, CUL 140 and CUL 240
- Corequisites: None
- Component: None
- This course is designed to reinforce the classical culinary kitchen. Topics include the working Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.

**CUL 250A Classical Cuisine Lab**
- Prerequisites: CUL 110, CUL 140 and CUL 240
- Corequisites: CUL 250
- Component: None
- This course provides a laboratory experience for enhancing student skills in the classical kitchen. Emphasis is placed on practical experiences with the Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to exhibit culinary skills and techniques as they pertain to a classical/upscale restaurant or banquet settings.

**CUL 260 Baking II**
- Prerequisites: CUL 110 and CUL 160
- Corequisites: None
- Component: None
- This course is designed to further students’ knowledge of ingredients, weights and measures, baking terminology and formula calculation. Topics include classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to demonstrate pastry production, plating, and dessert buffet production skills.

**CUL 260A Baking II Lab**
- Prerequisites: CUL 110 and CUL 160
- Corequisites: CUL 260
- Component: None
- This course provides a laboratory experience for enhancing student skills in classical desserts, laminated pastry dough, cake and torte decorating. Topics include practical experiences with classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to perform cake-decorating techniques, produce pastry showpieces, and prepare and plate assorted pastries.

**CUL 270 Garde Manager II**
- Prerequisites: CUL 110, CUL 140 and CUL 170
- Corequisites: None
- Component: None
- This course is designed to further students’ knowledge in basic cold food preparation techniques and pantry production. Topics include pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering/event display to include a cold buffet with appropriate showpieces.

**CUL 270A Garde Manger II Lab**
- Prerequisites: CUL 110, CUL 140 and CUL 170
- Corequisites: CUL 270
- Component: None
- This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to demonstrate proficiency in the design/technical applications of advanced garde manger work including classical cold buffets incorporating appropriate showpieces.

**CUL 273 Career Development**
- Prerequisites: Take DRE-097 or ENG 080 and RED 080 or Placement Test
- Component: None
- Corequisites: None
- This course introduces students to career planning/management practices that serve as a foundation for success in the hospitality industry. Emphasis is placed on self assessment, goal/career pathway development and employment strategies such as résumé preparation, interviewing techniques, and developing/utilizing the portfolio as a credential. Upon completion, students should be able to develop a career path leading to an effective job search.

**CUL 275 Catering Cuisine**
- Prerequisites: CUL 110, CUL 140, and CUL 240
- Corequisites: None
- Component: None
- This course covers the sequential steps to successful catering that include sales, client needs, menu planning, purchasing, costing, event pricing, staffing and sanitation concerns. Emphasis is placed on new culinary competencies and skills specific to catering preparation, presentation, and customer service. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events.

**CUL 280 Pastry & Confections**
- Prerequisites: CUL 110, CUL 140, CUL 160, and CUL 260
- Corequisites: None
- Component: None
- This course includes confections and candy, chocolate techniques, transfer sheets, pulled and blown sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free-hand shaping. Upon completion, students should be able to design and produce centerpieces and showpieces.

**CUL 280A Pastry & Confections Lab**
- Prerequisites: CUL 110, CUL 140, CUL 160, and CUL 260
- Corequisites: CUL 280
- Component: None
- This course provides a laboratory experience for enhancing student skills in confections/candy, chocolate techniques, transfer sheets, pulled/blown sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on practical experiences with showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free-hand shaping. Upon completion, students should be able to demonstrate proficiency in the execution of plated desserts, dessert platters and showpieces.

**CUL 283 Farm-To-Table**
- Prerequisites: CUL 110 and CUL 140
- Corequisites: None
- Component: None
- This course introduces students to the cooperation between sustainable...
farmers and foodservice operations. Emphasis is placed on environmental relationships, including how foods are grown, processed, and distributed, as well as related implications on quality and sustainability. Upon completion, students should be able to demonstrate an understanding of environmental

| This course is the second in a series and provides an expansion of elementary/intermediate jazz dance. Emphasis is placed on “Cool Jazz,” theatrical jazz styles, and extended sequences of movement (routines). Upon completion, students should be able to demonstrate moderate mastery of elementary/intermediate-level jazz dance and be able to perform routines. |

| DAN 127 Dance for Musical Theatre| 00        | 04      | 00         | 02         |
| Prerequisites: None              | Corequisites: None |
| Component: None                  |           |         |            |            |
| This course is designed to teach alignment fundamentals and different styles of jazz, tap, and folk dance used in musical theatre performances. Emphasis is placed on stretching, ballet barre, jazz, tap, and folk dance fundamentals. Upon completion, students should be able to demonstrate proper posture and fundamental techniques of jazz, tap, and folk dance. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides an in-depth study of world dance from 1800 to the present. Emphasis is placed on Western theatrical dance (ballet, modern dance, tap, and jazz) and the personalities that shaped it. Upon completion, students should be able to analyze culturally diverse dance forms and their cross-pollination which have produced the “pan world dance of today”. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DAN 236 Advanced Ballet I 00 04 00 02
Prerequisites: DAN 133
Corequisites: None
Component: None
This course introduces the advanced elements of ballet technique. Emphasis is placed on refinement of all technical skills, learning advanced movements, and spatial divisions. Upon completion, students should be able to demonstrate significant progress in the execution of all movements and to demonstrate a sense of quality in them.

DAN 221 Advanced Modern Dance I 00 04 00 02
Prerequisites: DAN 143
Corequisites: None
Component: None
This course introduces the advanced elements of modern dance technique. Emphasis is placed on refinement of all technical skills, learning advanced movements, and spatial divisions. Upon completion, students should be able to demonstrate significant progress in the execution of all movements and to demonstrate a sense of quality in them.

DAN 222 Advanced Modern Dance II 00 04 00 02
Prerequisites: DAN 221
Corequisites: None
Component: None
This course introduces the advanced elements of modern dance technique. Emphasis is placed on refinement of all technical skills, learning advanced movements, and spatial divisions. Upon completion, students should be able to demonstrate significant progress in the execution of all movements and to demonstrate a sense of quality in them.

DAN 225 Choreography I 01 04 00 03
Prerequisites: DAN 140
Corequisites: None
Component: None
This course introduces the fundamental techniques of modern dance choreography. Emphasis is placed on improvisation and development of movement phrases. Upon completion, students should be able to create simple movements, improvise upon them, and develop longer movement phrases to create short dances.

DAN 237 Advanced Ballet II 00 04 00 02
Prerequisites: DAN 236
Corequisites: None
Component: None
This course is the second in a series of advanced ballet technique. Emphasis is placed on mastering all technical skills, learning advanced movements, and spatial divisions. Upon completion, students should be able to demonstrate significant progress in the execution of all movements and to demonstrate a sense of quality in them.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting. This course is intended for certificate and diploma programs.

DAN 262 Dance Performance
Prerequisites: None
Corequisites: None
Component: None
This course includes audition, casting, rehearsal, and video performance of a new ballet. Emphasis is placed on universal rehearsal techniques, improvement of dance techniques, teamwork, and performance of new choreography. Upon completion, students should be able to demonstrate through video performance a basic knowledge of the creation of a new ballet.

DAN 264 Dance Production
Prerequisites: None
Corequisites: None
Component: None
This course covers creation, rehearsal, and performance, before a live audience, of a new or reconstructed work by faculty, guest artist, or repertory. Emphasis is placed on movement, memory skills, role development, audience, of a new or reconstructed work by faculty, guest artist, or repertory. Upon completion, students should be able to demonstrate through performance a basic knowledge of the artistic and technical aspects of performing before a live audience.

DBA 110 Database Concepts
Prerequisites: Take CIS 110 or CIS 111. Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Test Equivalent
Corequisites: None
Component: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 120 Database Programming I
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Test Equivalent
Corequisites: None
Component: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Programming II
Prerequisites: Take DBA 120 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Test Equivalent
Corequisites: None
Component: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

DEN 101 Preclinical Procedures
Prerequisites: Department Approval
Corequisites: DEN 102 and DEN 111
Component: None
This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. This course is intended for certificate and diploma programs.

DEN 102 Dental Materials
Prerequisites: Department Approval
Corequisites: DEN 101
Component: None
This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. This course is intended for certificate and diploma programs.

DEN 103 Dental Sciences
Prerequisites: None
Corequisites: None
Component: None
This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies. This course is intended for certificate and diploma programs.

DEN 104 Dental Health Education
Prerequisites: A set of courses is required: DEN 101 and DEN 111
Corequisites: DEN 106
Component: None
This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings. This course is intended for certificate and diploma programs.

DEN 105 Practice Management
Prerequisites: None
Corequisites: DEN 106
Component: None
This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
DEN 106 Clinical Practice I 01 00 12 05
Prerequisites: All courses required: DEN 101, DEN 102 and DEN 111
Corequisites: All courses required: DEN 104, DEN 105 and DEN 112
Component: None
This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting. This course is intended for certificate and diploma programs.

DEN 107 Clinical Practice II 01 00 12 05
Prerequisites: DEN 106
Corequisites: None
Component: None
This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills including functions delegable to a DA II. This course is intended for certificate and diploma programs.

DEN 110 Orofacial Anatomy 02 02 00 03
Prerequisites: Requires enrollment in the Dental Assisting or Dental Hygiene program.
Corequisites: BIO 163
Component: None
This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene.

DEN 111 Infection/Hazard Control 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

DEN 112 Dental Radiography 02 03 00 03
Prerequisites: Enrollment in Dental Assisting or Dental Hygiene Program
Corequisites: DEN 100 or DEN 110 and DEN 111
Component: None
This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

DEN 120 Dental Hygiene Preclinical Lecture 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 121
Component: None
This course introduces preoperative and clinical dental hygiene concepts.

Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

DEN 121 Dental Hygiene Preclinical Lab 00 06 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 120
Component: None
This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques. Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures.

DEN 123 Nutrition/Dental Health 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220
Component: None
This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of the food pyramid, nutrient functions, Recommended Daily Allowances, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

DEN 124 Periodontology 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program and DEN 110
Corequisites: DEN 130
Component: None
This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management.

DEN 125 Dental Office Emergencies 00 02 00 01
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 140
Component: None
This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

DEN 130 Dental Hygiene Theory I 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene and DEN 120
Corequisites: DEN 131
Component: None
This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.

DEN 131 Dental Hygiene Clinic I 00 00 09 03
Prerequisites: Enrollment in Dental Hygiene Program and DEN 121
Corequisites: DEN 130
Component: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of the recall patients with gingivitis or light deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

**DEN 140 Dental Hygiene Theory II** 01 00 00 01
Prerequisites: Enrollment in Dental Hygiene and DEN 130
Corequisites: None
Component: None
This course provides a continuation of the development, theory, and practice of patient care. Topics include modification of treatment for special needs patients, advanced radiographic interpretation, and ergonomics. Upon completion, students should be able to differentiate necessary treatment modifications, effective ergonomic principles, and radiographic abnormalities.

**DEN 141 Dental Hygiene Clinic II** 00 00 06 02
Prerequisites: Enrollment in Dental Hygiene and DEN 131
Corequisites: DEN 140
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

**DEN 220 Dental Hygiene Theory III** 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene and DEN 140
Corequisites: DEN 221
Component: None
This course provides a continuation in developing the theories and practices of patient care. Topics include periodontal debridement, pain control, subgingival irrigation, air polishing, and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised patients.

**DEN 221 Dental Hygiene Clinic III** 00 00 12 04
Prerequisites: Enrollment in Dental Hygiene Program and DEN 141
Corequisites: DEN 220
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

**DEN 222 General & Oral Pathology** 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program and BIO 163 or BIO 163C and BIO 163L
Corequisites: DEN 130
Component: None
This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

**DEN 223 Dental Pharmacology** 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220 and BIO 163
Component: None
This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesia. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient’s general health or drug usage may require modification of the treatment procedures.

**DEN 224 Materials and Procedures** 01 03 00 02
Prerequisites: Enrollment in Dental Hygiene Program and DEN 111
Corequisites: DEN 231
Component: None
This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.

**DEN 230 Dental Hygiene Theory IV** 01 00 00 01
Prerequisites: Enrollment in Dental Hygiene Program and DEN 220
Corequisites: DEN 231
Component: None
This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties and completion of a case presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry and principles of case presentations.

**DEN 231 Dental Hygiene Clinic IV** 00 00 12 04
Prerequisites: Enrollment in Dental Hygiene Program and DEN 221
Corequisites: DEN 230
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on periodontal maintenance and on treating patients with moderate to advanced/refractory periodontal disease. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

**DEN 232 Community Dental Health** 02 00 03 03
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220
Component: None
This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program.

**DEN 233 Professional Development** 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 230
Component: None
This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.

**DMA 050 Graphs/Equations of Lines**
- **Prerequisites:** Take DMA 010, DMA 020, DMA 030, and DMA 040 or DMA 040 and MAT 060
- **Corequisites:** None
- **Component:** None
This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables.

**DMA 060 Polynomial/Quadratic Appl**
- **Prerequisites:** Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050 or MAT 060 and MAT 070
- **Corequisites:** None
- **Component:** None
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.

**DMA 070 Rational Express/Equation**
- **Prerequisites:** Take DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 060 or DMA 060, MAT 060 and MAT 070
- **Corequisites:** None
- **Component:** None
This course provides a conceptual study of problems involving graphic and algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications.

**DMA 080 Radical Express/Equations**
- **Prerequisites:** Take DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060 and DMA 070 or DMA 060, DMA 070, MAT 060 and MAT 070
- **Corequisites:** None
- **Component:** None
This course provides a conceptual study of the manipulation of radicals and the application of radical equations to real-world problems. Topics include simplifying and performing operations with radical expressions and rational exponents, solving equations, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.

**DMS 001 Developmental Math Shell 1**
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be one DMA module appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

**DMS 002 Developmental Math Shell 2**
- **Prerequisites:** None

Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be one DMA module appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

**DMS 003 Developmental Math Shell 3**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be one DMA module appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

**DMS 004 Developmental Math Shell 4**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be one DMA module appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

**DRA 111 Theater Appreciation**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides a study of the art, craft, and business of the theater. Emphasis is placed on the audiences appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theater terms and to recognize the contributions of various theater artists. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 112 Literature of the Theater**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 115 Theater Criticism**
- Prerequisites: DRA 111
- Corequisites: None
- Component: None

This course is designed to develop a critical appreciation of the theater from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theater performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 120 Voice for Performance**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 122 Oral Interpretation**
- Prerequisites: None
- Corequisites: None
- Component: None

This course introduces the dramatic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 124 Readers Theatre**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 126 Storytelling**
- Prerequisites: None
- Corequisites: None
- Component: None

This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 128 Children's Theatre**
- Prerequisites: None
- Corequisites: None
- Component: None

This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 131 Acting II  
Prerequisites: DRA 130  
Corequisites: None  
Component: None  
This course provides additional hands-on practice in the actor’s craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

RA 132 Stage Movement  
Prerequisites: None  
Corequisites: DRA 111  
Component: None  
This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, choreography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform mimes, fight, clown, juggle, and waltz. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 135 Acting for the Camera I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied study of the camera actor’s craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 136 Acting for the Camera II  
Prerequisites: DRA 135  
Corequisites: None  
Component: None  
This course provides additional hands-on study of the camera actor’s craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 140 Stagecraft I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, and properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 141 Stagecraft II  
Prerequisites: DRA 140  
Corequisites: None  
Component: None  
This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 142 Costuming  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the techniques of costume construction and crafts processes. Emphasis is placed on learning costuming techniques, using equipment and materials, and finishing production-appropriate costumes. Upon completion, students should be able to demonstrate an understanding of pattern drafting, construction techniques, and costume fitting procedures. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 145 Stage Make-up  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 150 Stage Management  
Prerequisites: DRA 140  
Corequisites: None  
Component: None  
This course covers the skills necessary for a stage manager of school or professional productions. Emphasis is placed on scheduling, rehearsal documentation and management, personnel, paperwork, and organization. Upon completion, students should be able to effectively stage-manage entertainment productions. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 160 Box OFFICE and Publicity  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the creation of a publicity program and the setup and operation of the theatre box office. Emphasis is placed on the use of an effective play marketing scheme and the smooth operation of the box office. Upon completion, students should be able to set up and run a marketing system and box office. This course has been approved for transfer under

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**DRA 170 Play Production I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 171 Play Production II**  
Prerequisites: DRA 170  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 175 Teleplay Production I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in production of a dramatic television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing dramatic television programming. Upon completion, students should be able to participate in an assigned position with a college dramatic television production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 176 Teleplay Production II**  
Prerequisites: DRA 175  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in production of a sit-com television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing sit-com television programming. Upon completion, students should be able to participate in an assigned position with a college sit-com television production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 211 Theatre History I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of theater from its origin to the closing of the British theater in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 212 Theatre History II**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of theater from 1660 through the diverse influences which shaped the theater of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 240 Lighting for the Theatre**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is an applied study of theatre lighting and is designed to train theatre technicians. Emphasis is placed on lighting technology including the mechanics of lighting and light control equipment by practical work with lighting equipment. Upon completion, students should be able to demonstrate competence with lighting equipment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**DRA 243 Scene Design**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the analysis, research, design, and problem solving related to scene design. Emphasis is placed on director/designer communication, concepting, researching, rendering, and modeling of designs. Upon completion, students should be able to demonstrate skills in communication, design process, rendering, and modeling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 250 Theatre Management**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the organization and operation of a theatre. Emphasis is placed on organization, communication, networking with other organizations, and grant writing. Upon completion, students should be able to demonstrate an understanding of the structure and operation of a theatre organization. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**DRA 260 Directing**  
Prerequisites: DRA 130  
Corequisites: DRA 140  
Component: None  
This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
are taught using texts primarily in the Lexile® range of 1185 to 1385.

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement.

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement.

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are primarily taught at the introductory level using texts primarily in a Lexile® range of 960 to 1115. Upon completion, students should be able to apply those skills toward understanding a variety of academic and career-related texts and composing effective paragraphs.

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught using texts primarily in the Lexile® range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay.

This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to setup a working e-commerce Internet web site. This course is also available through the Virtual Learning Community (VLC).

This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of Electronic Commerce. Upon completion, students should be able to define Electronic Commerce and demonstrate an understanding of the benefits of Electronic Commerce as a foundation for developing plans leading to electronic business implementation. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup and implement an electronic commerce business. This course is also available through the Virtual Learning Community (VLC).

This course is also available through the Virtual Learning Community (VLC).

This course is designed to develop proficiency in specific integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught using texts primarily in a Lexile® range of 1070 to 1220. Upon completion, students should be able to demonstrate effective paragraphs. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

This course, for those who have not received credit for ECO 251 or 252, introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems.
faced by private and government sectors. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ECO 251 Principles of Microeconomics**

Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ECO 252 Principles of Macroeconomics**

Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**EDU 118 Princ & Prac of Inst Asst**

Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers the instructional assistant’s role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optimal learning environment. Upon completion, students should be able to describe the supporting role of the instructional assistant, demonstrate positive communication skills, and discuss educational philosophy.

**EDU 119 Intro to Early Childhood Education**

Prerequisites: None
Corequisites: None
Component: None
This course covers the foundations of the education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. This course is also available through the Virtual Learning Community (VLC).

**EDU 131 Child, Family, & Communications**

Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. This course is also available through the Virtual Learning Community (VLC).

**EDU 144 Child Development I**

Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**EDU 145 Child Development II**

Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**EDU 146 Child Guidance**

Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
EDU 147 Behavior Disorders
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 148 Learning Disabilities
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 151 Creative Activities
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers planning, creation and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging and engaging developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences and environments. This course is also available through the Virtual Learning Community (VLC).

EDU 151A Creative Activities Lab
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: EDU 151
Component: None
This course provides a laboratory component to complement EDU 151. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate creative activities.

EDU 153 Health, Safety, & Nutrition
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations. This course is also available through the Virtual Learning Community (VLC).

EDU 157 Active Play
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course introduces the use of indoor and outdoor physical activities to promote the physical, cognitive, and social/emotional development of children. Topics include the role of active play, development of play skills, playground design, selection of safe equipment, and materials and surfaces for active play. Upon completion, students should be able to discuss the stages of play, the role of teachers in play, and the design of appropriate active play areas and activities.

EDU 162 Observ & Assess in ECE
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course introduces the research, benefits, goals, and ethical considerations associated with observation and assessment in Early Childhood environments. Emphasis is placed on the implementation of multiple observation/assessment strategies including anecdotal records, event samples, rating scales, and portfolios to create appropriate learning experiences. Upon completion, students should be able to practice responsible assessment and use assessments to enhance programming and collaboration for children and families.

EDU 163 Classroom Mgt & Instruct
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers management and instructional techniques with school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and instructional strategies that enhance the teaching/learning process and promote students’ academic success.

EDU 184 Early Child Intro Pract
Prerequisites: Take EDU-119 and DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course introduces students to early childhood settings and applying skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 186 Reading & Writing Methods
Prerequisites: None
Corequisites: None
Component: None
This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences.

EDU 186 is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
EDU 188 Issues in Early Childhood Education
Prerequisites: Take DRE-097 or ENG 080 and RED 080
Corequisites: None
Component: None
This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education.

EDU 216 Foundations of Education
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement at select institutions only. This course is also available through the Virtual Learning Community (VLC).

EDU 220 Prog Poli in Early Interv
Prerequisites: Take EDU-144 and DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers program policies, issues, legislation, and service delivery models included in early intervention. Emphasis is placed on trends and policies in early intervention relating to programs for infants and young children with disabilities, family roles, and research outcomes. Upon completion, students should be able to identify roles and responsibilities, describe the referral and placement options and explain the different service delivery models.

EDU 221 Children with Exceptional
Prerequisites: EDU 144, EDU 145, ENG 090, and RED 090
Corequisites: None
Component: None
This course introduces children with exceptionalities, their families, support services, inclusive/diverse settings, and educational/family plans based on the foundations of child development. Emphasis is placed on the characteristics of exceptionalities, observation and assessment of children, strategies for adapting the learning environment, and identification of community resources. Upon completion, students should be able to recognize diverse abilities, describe the referral process, and depict collaboration with families/professionals to plan/implement, and promote best practice. This course is also available through the Virtual Learning Community (VLC).

EDU 222 Learn w/ Behav Disord
Prerequisites: Take EDU-144, EDU-145 and DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course provides a comprehensive study of learners with behavioral disorders encompassing characteristics, assessments, placement alternatives, inclusion and family interventions. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize positive behavior support systems.

EDU 223 Specific Learning Disab
Prerequisites: Take EDU-144, EDU-145, and DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course provides a comprehensive study of characteristics, alternative assessments, teaching strategies, placement options, inclusion, and family intervention for children with specific learning disabilities. Topics include causes, assessment instruments, learning strategies, and collaborative/inclusion methods for children with specific learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with specific learning disabilities and their families.

EDU 234 Infants, Toddlers, & Twos
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families.

EDU 234A Infants/Toddlers/Twos Lab
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: EDU 234
Component: None
This course focuses on practical applications that support the healthy development of very young children by applying principles of quality inclusive early care and education. Emphasis is placed on recognizing the interrelated factors that impact children's development through planning, evaluating and adapting quality environments, including activities and adult/child interactions. Upon completion, students should be able to demonstrate the ability to engage in respectful, responsive care that meets the unique needs of individual children/families.

EDU 235 School-Age Development & Program
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities.

EDU 243 Learning Theory
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
### EDU 245 Policies and Procedures
Prerequisites: Take DRE-098 or ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.

### EDU 247 Sensory & Physical Disabilities
Prerequisites: Take EDU-144, EDU-145 and DRE-098 or ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities.

### EDU 248 Developmental Delays
Prerequisites: Take EDU-144, EDU-145 and DRE-098 or ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families.

### EDU 250 PRAXIS I Preparation
Prerequisites: Take DRE-098 or ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

### EDU 256 Inst Strat/Social Studies
Prerequisites: Take DRE-098 or ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs. This course is also available through the Virtual Learning Community (VLC).

### EDU 257 Inst Strat/Math
Prerequisites: Take DRE-098 and DMA-030 or ENG 090, RED 090 and MAT 060  
Corequisites: None  
This course introduces the methods and procedures for development and

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
EDU 271 Educational Technology 02 02 00 03
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. This course is also available through the Virtual Learning Community (VLC).

EDU 275 Effective Teacher Training 02 00 00 02
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students’ time-on-task.

EDU 280 Language & Literacy Exp 03 00 00 03
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course is designed to expand students’ understanding of children’s language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences. This course is also available through the Virtual Learning Community (VLC).

EDU 281 Instruct Strat/Read & Writ 02 02 00 03
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study. This course is also available through the Virtual Learning Community (VLC).

EDU 282 Early Childhood Literature 03 00 00 03
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children’s literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.

EDU 284 Early Child Capstone Prac 01 09 00 04
Prerequisites: Take EDU 119, EDU 144, EDU 145, EDU 146, EDU 151 and DRE-098 or ENG-090 and RED-090
Corequisites: None
Component: None
This course is designed to allow students to apply skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 285 Internship Exp-School Age 01 09 00 04
Prerequisites: Take EDU-118, EDU-144, EDU-145, EDU-163 and DRE-098 or ENG-090 and REC-090
Corequisites: None
Component: None
This course is designed to allow students to apply skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 289 Adv Issues/School Age 02 00 00 02
Prerequisites: Take DRE-098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.

EDU 298 Seminar in Early Childhood 03 00 00 03
Prerequisites: Enrollment in program
Corequisites: None
Component: None
This course provides an opportunity to explore topics of current interest. Emphasis is placed on the development of critical listening skills and the presentation of seminar topics. Upon completion, students should be able to critically analyze issues and establish informed opinions.

EFL 083 Grammar III 05 00 00 05
Prerequisites: EFL 082
Corequisites: None
Component: None
This course is designed to provide high-intermediate non-native speakers of English with a knowledge of grammatical structures that improves academic communication. Emphasis is placed on using high-intermediate grammatical structures in meaningful contexts through exercised integrating the use of newly acquired structures with previously learned structures. Upon completion, students should be able to demonstrate improved proficiency, comprehension, and grammatical accuracy.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
EFL 084 Grammar IV
Prerequisites: EFL 083
Corequisites: None
Component: None
This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.

EFL 091 Composition I
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic sentence structure and writing paragraphs. Emphasis is placed on word order, verb tense-aspect system, auxiliaries, word forms, and simple organization and basic transitions in writing paragraphs. Upon completion, students should be able to demonstrate a basic understanding of grammar and ability to write English paragraphs using appropriate vocabulary, organization, and transitions.

EFL 092 Composition II
Prerequisites: EFL 091
Corequisites: None
Component: None
This course provides preparation in low-intermediate academic and general-purpose writing. Emphasis is placed on writing as a process, paragraph development, and basic essay organization. Upon completion, students should be able to write and independently edit and understand the major elements of the writing process, sentence, paragraph, and essay.

EFL 093 Composition III
Prerequisites: EFL 092
Corequisites: None
Component: None
This course covers intermediate-level academic and general-purpose writing. Emphasis is placed on the writing process, content, organization, and language use in formal academic compositions in differing rhetorical modes. Upon completion, students should be able to effectively use the writing process in a variety of rhetorical modes.

EFL 094 Composition IV
Prerequisites: EFL 093
Corequisites: None
Component: None
This course prepares low-advanced non-native speakers of English to determine the purpose of their writing and to write paragraphs and essays to fulfill that purpose. Emphasis is placed on unity, coherence, completeness, audience, and the writing process; and the grammatical forms and punctuation appropriate for each kind of writing. Upon completion, students should be able to write unified, coherent, and complete paragraphs and essays which are grammatical and appropriate for the intended audience.

EFL 095 Composition V
Prerequisites: EFL 094
Corequisites: None
Component: None
This course is designed to prepare advanced non-native speakers of English for college-level composition courses. Emphasis is placed on the study and process of writing formal essays and research papers and the analysis of literary, expository, and descriptive writings. Upon completion, students should be able to write and analyze professional and peer compositions and apply basic research principles.

EGR 115 Introduction to Technology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator.

EGR 120 Eng and Design Graphics
Prerequisites: None
Corequisites: None
Component: None
This course introduces the graphical tools for engineering and design communications. Emphasis is placed on selecting the appropriate methods and tools and conveying ideas using sketches, orthographic views and projections, and computer graphics applications. Upon completion, students should be able to communicate essential features or two-dimensional and three-dimensional objects using the proper tools and methods.

EGR 131 Intro to Electronics Tech
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.

EGR 150 Intro to Engineering
Prerequisites: None
Corequisites: None
Component: None
This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EGR 210 Intro to Elec/Comp Eng Lab
Prerequisites: MAT 271 and PHY 251
Corequisites: None
Component: None
This course provides an overview of electrical and computer engineering, through a lecture and laboratory setting. Topics include fundamental concepts, electronic circuits, digital circuits, communication systems, and signal processing. Upon completion, students should be able to discuss the wide range of fields available to the electrical or computer engineer. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EGR 213 Electric Circuits
Prerequisites: EGR 210, MAT 271, and PHY 251
Corequisites: None
This course provides preparation in low-intermediate academic and general-purpose writing. Emphasis is placed on word order, verb tense-aspect system, auxiliaries, word forms, and simple organization and basic transitions in writing paragraphs. Upon completion, students should be able to demonstrate a basic understanding of grammar and ability to write English paragraphs using appropriate vocabulary, organization, and transitions.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides an introduction to theory, analysis and design of electric circuits. Topics include voltage, current, power, resistance, capacitance, inductance, Kirchhoff’s laws, nodal and mesh analysis, Thevenin’s theorem, Norton’s theorem, steady state and transient analysis, and operational amplifiers. Upon completion, students should be able to explain voltage, current, and power; to analyze electric circuits; and to design circuits using operational amplifiers. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ELC 117 Motors and Controls**

Prerequisites: None
Corequisites: None
Component: None

This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

**ELC 118 National Electrical Code**

Prerequisites: None
Corequisites: None
Component: None

This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

**ELC 119 NEC Calculations**

Prerequisites: None
Corequisites: None
Component: None

This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

**ELC 121 Electrical Estimating**

Prerequisites: None
Corequisites: None
Component: None

This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

**ELC 122 Intro to PLC**

Prerequisites: Take DMA-080, MAT 080, or MAT 161 or Placement Test Credit Equivalent.
Corequisites: None
Component: None

This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to understand basic PLC systems and create simple programs.

**ELC 123 Circuit Analysis I**

Prerequisites: Take DMA-080, MAT 080, or MAT 161 or Placement Test Credit Equivalent.
Corequisites: None
Component: None

This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

**ELC 124 Circuit Analysis I Lab**

Prerequisites: None
Corequisites: ELC 131
Component: None

This course provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.

Prerequisites: ELN 131 and ELN 133  
Corequisites: None  
Component: None  
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

Component: None  
This course provides a detailed study of PLC applications, with a focus on design of industrial controls using the PLC. Topics include PLC components, memory organization, math instructions, documentation, input/output devices, and applying PLCs in industrial control systems. Upon completion, students should be able to select and program a PLC system to perform a wide variety of industrial control functions.

**ELN 275 Troubleshooting**

Prerequisites: ELN 131 and ELN 133  
Corequisites: ELN 232  
Component: None  
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers’ specifications.

**EMS 110 EMT-Basic**

Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course is designed to provide tactics that can be used for self-protection in dangerous and violent situations. Emphasis is placed on prediction, recognition, and response to dangerous and violent situations. Upon completion, students should be able to recognize potentially hostile situations and protect themselves during a confrontation.

**EMS 120 Intermediate Interventions**

</table>

Prerequisites: EMS 110  
Corequisites: EMS 121, EMS 130 and EMS 131  
Component: None  
This course is designed to provide the necessary information for interventions appropriate to the EMT-Intermediate and is required for intermediate certification. Topics include automated external defibrillation, basic cardiac electrophysiology, intravenous therapy, venipuncture, acid-base balance, and fluids and electrolytes. Upon completion, students should be able to properly establish an IV line, obtain venous blood, utilize AEDs, and correctly interpret arterial blood gases.

Prerequisites: EMS 110  
Corequisites: EMS 120 and EMS 131  
Component: None  
This course introduces the fundamental principles of pharmacology and medication administration and is required for intermediate and paramedic certification. Topics include terminology, pharmacokinetics, pharmacodynamics, weights, measures, drug calculations, legislation, and administration routes. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
integrating case presentation and emphasizing pharmacotherapeutics. Upon completion, students should be able to recognize and manage frequently encountered medical conditions based upon initial patient impression.

EMS 260 Advanced Trauma Emergencies 01 03 00 02
Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131
Corequisites: None
Component: None
This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include hemorrhage control, shock, burns, and trauma to head, spine, soft tissue, thoracic, abdominal, and musculoskeletal areas with case presentations utilized for special problems situations. Upon completion, students should be able to recognize and manage trauma situations based upon patient impressions and should meet requirements of BTLS or PHTLS courses.

EMS 270 Life Span Emergencies 02 02 00 03
Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131
Corequisites: None
Component: None
This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Topics include patient assessment, documentation, twelve-lead ECG analysis, thrombolytic agents, cardiac pacing, and advanced pharmacology. Upon completion, students should be able to recognize and treat age-specific emergencies and certify at the Pediatric Advanced Life Support Provider level.

EMS 280 EMS Bridging Course 02 02 00 03
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides the opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

EMS 285 EMS Capstone 01 03 00 02
Prerequisites: All courses required: EMS 220, EMS 250 and EMS 260
Corequisites: None
Component: None
This course introduces the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.

ENG 070 Basic Language Skills 02 02 00 03
Prerequisites: Placement
Corequisites: No Corequisites
Component: None
This course introduces the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.

ENG 080 Writing Foundations 03 02 00 04
Prerequisites: ENG 070 or Placement Test Credit Equivalent.
Corequisites: RED 080 Placement Test Credit Equivalent.
Component: None
This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph.

ENG 090 Composition Strategies 03 00 00 03
Prerequisites: ENG 080 or Placement Test Credit Equivalent.
Corequisites: ENG 090A and RED 90 or Placement Test Credit Equivalent.
Component: None
This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. This course satisfies the developmental writing requirement for ENG 111 and ENG 111A.

ENG 090A Composition Strategies Lab 00 02 00 01
Prerequisites: None
Corequisites: ENG 090
Component: None
This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.

ENG 095 Reading & Comp Strategies 05 00 00 05
Prerequisites: ENG 085 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: ENG 095A
Component: None
This course uses whole language to strengthen proficiency in reading and writing for college. Emphasis is placed on applying critical reading skills to narrative and expository texts and on using the writing process. Upon completion, students should be able to comprehend, analyze, and evaluate college texts and to compose essays in preparation for college writing.

ENG 095A Reading & Comp Strat Lab 00 02 00 01
Prerequisites: ENG 085 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: ENG 095
Component: None
This laboratory provides the opportunity to practice the skills introduced in ENG 095. Emphasis is placed on practical skills for applying critical reading skills to narrative and expository texts and on the writing process. Upon completion, students should be able to apply those skills in the production of effective essays in preparation for college writing.

ENG 101 Applied Communications I 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
ENG 102 Applied Communications II  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. This course is intended for certificate and diploma programs.

ENG 111 Expository Writing  
Prerequisites: Take DRE-098 or ENG-090 and RED 090 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 112 Argument-Based Research  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 113 Literature-Based Research  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 114 Professional Research & Reporting  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 115 Oral Communication  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 125 Creative Writing I  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 126 Creative Writing II  
Prerequisites: ENG 125  
Corequisites: None  
Component: None  
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 131 Introduction to Literature  
Prerequisites: ENG 111  
Corequisites: One course required: ENG 112, ENG 113, or ENG 114  
Component: None  
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 132 Introduction to Drama  
Prerequisites: ENG 111  
Corequisites: One course required: ENG 112, ENG 113, or ENG 114  
Component: None  
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 133 Introduction to the Novel  
Prerequisites: ENG 111  
Corequisites: One course required: ENG 112, ENG 113, or ENG 114  
Component: None  
This course provides intensive study of the novel as a literary form, based on close reading of representative texts. Emphasis is placed on the development
and analysis of the novel. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of the novel. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ENG 134 Introduction to Poetry**

**Prerequisites:** ENG 111

**Corequisites:** One course required: ENG 112, ENG 113, or ENG 114

**Component:** None

This course provides intensive study of the poem as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of poetry. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of poetry. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ENG 155 Introduction to Short Fiction**

**Prerequisites:** ENG 111

**Corequisites:** One course required: ENG 112, ENG 113, or ENG 114

**Component:** None

This course provides intensive study of short fiction as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of short fiction. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of short fiction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ENG 231 American Literature I**

**Prerequisites:** One course required: ENG 112, ENG 113, ENG 114

**Corequisites:** None

**Component:** None

This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 232 American Literature II**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 233 Major American Writers**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 234 Modern American Poets**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course covers the works of selected major modern American poets. Topics include each poet's theory and practice of poetry and the historical and literary traditions which influenced or were influenced by the poets. Upon completion, students should be able to read poetry with more comprehension and explicate selected poems in light of technique, theory, and poetic traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ENG 241 British Literature I**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 242 British Literature II**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 243 Major British Writers**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 251 Western World Literature I**

**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114

**Corequisites:** None

**Component:** None

This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
ENG 252 Western World Literature II 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 253 The Bible as Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible’s literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 261 World Literature I 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 262 World Literature II 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 271 Contemporary Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 272 Southern Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 273 African-American Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ENG 274 Literature by Women 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 275 Science Fiction 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

EPT 120 Sociology of Disaster 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long term disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

EPT 124 EM Services Law & Ethics 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers federal and state laws that affect emergency service personnel in the event of a natural disaster or terrorist incident. Topics include initial response and long-term management strategies, with an emphasis on legal and ethical considerations and coordination between local, state, and federal agencies. Upon completion, students should have an understanding of the role of private industry, government agencies, public policies, and federal/state declarations of disasters in emergency situations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course introduces the mitigation and preparation techniques and methods necessary to minimize the impact of natural, technological, and man-made disasters. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion students should be able to develop a mitigation and preparedness plan.

EPT 150 EMS Incident Management  02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fully integrated incident management system for EMS response to high impact incidents. Topics include mass casualty incidents, terrorists events, communications, training, triage, law and fire incident command. Upon completion, students should be able to implement and operate within the National Incident Management System.

EPT 220 Terrorism and Emer. Mgt.  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topics include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

EPT 275 Emergency OPS Center Mgt  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

ETR 220 Innovation and Creativity  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include that innovation needs to be applied to products, services, and processes to increase competitive advantages and add value to businesses. Upon completion, students should be able to apply innovation and creativity principles in the work place.

ETR 240 Funding for Entrepreneurs  03 00 00 03
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO’s, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture.

FIP 124 Fire Prevention & Public Ed  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces fire prevention concepts as they relate to community and industrial operations. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group, meeting NFPA 1021. This course is also available through the Virtual Learning Community (VLC).

FIP 128 Detection & Investigation  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers procedures for determining the origin and cause of accidental and incendiary fires. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent, meeting NFPA 1021. This course is also available through the Virtual Learning Community (VLC).

FIP 132 Building Construction  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and practices related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction as related to fire conditions meeting NFPA 1021.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
FIP 136 Inspections & Codes  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the fundamentals of fire and building codes and procedures to conduct an inspection. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report, meeting NFPA 1021.

FIP 140 Industrial Fire Protect  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers fire protection systems in industrial facilities. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon completion, students should be able to plan, organize, and evaluate an industrial facility’s fire protection, which meet elements of NFPA 1021 for Fire Officer I and II.

FIP 152 Fire Protection Law  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers fire protection law. Topics include torts, legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to comprehend the importance of laws, codes, and ordinances as they relate to fire protection. This course is also available through the Virtual Learning Community (VLC).

FIP 164 OSHA Standards  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers public and private sector OSHA work site requirements. Emphasis is placed on accident prevention and reporting, personal safety, machine operation, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

FIP 180 Wildland Fire Behavior  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the principles of wildland fire behavior and meteorology. Emphasis is placed on fire calculations, fuels, and related weather effects. Upon completion, students should be able to demonstrate and apply fire behavior theories through written and performance evaluations.

FIP 184 Wildland Fire Safety  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers safety principles used when working in the wildland fire environment. Emphasis is placed on personal safety and working with equipment, aircraft, and fire-ground operations. Upon completion, students should be able to demonstrate wildland fire safety procedures through written and performance evaluations.

FIP 220 Fire Fighting Strategies  
**Prerequisites:** None  
**Corequisites:** None  
Component: None  
This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system related to operations involving various emergencies in fire/non-fire situations, meeting NFPA 1021.

FIP 221 Adv Fire Fighting Strat  
**Prerequisites:** FIP 220  
**Corequisites:** None  
**Component:** None  
This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced ICS, advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

FIP 224 Instructional Methodology  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet all requirements of NFPA 1041 and NFPA 1021.

FIP 228 Local Govt Finance  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, taxation, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finances as it applies to the operation of a department.

FIP 229 Fire Dynamics and Combust  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

FIP 230 Chem of Hazardous Mat I  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the evaluation of hazardous materials. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

FIP 232 Hydraulics & Water Dist  
**Prerequisites:** MAT 115, MAT 120, MAT 121, MAT 140, MAT 151, MAT
This course covers the flow of fluids through fire hoses, nozzles, appliances, pumps, standpipes, water mains, and other devices. Emphasis is placed on supply and delivery systems, fire flow testing, hydraulic calculations, and other related topics. Upon completion, students should be able to perform hydraulic calculations, conduct water availability tests, and demonstrate knowledge of water distribution systems.

**FIP 236 Emergency Management**  
**Prerequisites:** None  
**Component:** None  
This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate a knowledge of comprehensive emergency management and the integrated emergency management system.

**FIP 240 Fire Service Supervision**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor’s job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of the effective fire service supervisor, meeting elements of NFPA 1021.

**FIP 248 Fire Svc Personnel Adm**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the basics of setting up and administering the personnel functions of fire protection organizations. Emphasis is placed on human resource planning, classification and job analysis, equal opportunity employment, affirmative action, recruitment, retention, development, performance evaluation, and assessment centers. Upon completion, students should be able to demonstrate knowledge of the personnel function as it relates to managing fire protection.

**FIP 256 Munic Public Relations**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course is a general survey of municipal public relations and their effect on the governmental process. Topics include principles of public relations, press releases, press conferences, public information officers, image surveys, and the effects of perceived service on fire protection delivery. Upon completion, students should be able to manage the public relations functions of a fire service organization, which meet elements of NFPA 1021 for Fire Officer I and II.

**FIP 276 Managing Fire Services**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an overview of fire department operative services. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles, meeting NFPA 1021.

**FIP 277 Fire and Social Behavior**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers fire-related aspects of human behavior, with an emphasis on research and a systems approach to human-behavior analysis. Topics include identification of populations and structures at high risk, evaluation of systems models, and use of computer models to predict human behavior during fires. Upon completion, students should be able to identify and anticipate human behavior in response to various residential, commercial, board-and-care facility, and wildland/rural fire events.

**FLO 189 Basic Floral Design**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides general knowledge of floral design on a non-commercial level. Topics include simple corsage work, vase arrangements, and holiday novelty items. Upon completion, students should be able to tie a bow and construct simple corsages, bud vases, and holiday items.

**FRE 111 Elementary French I**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**FRE 112 Elementary French II**  
**Prerequisites:** FRE 111  
**Corequisites:** None  
**Component:** None  
This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**FRE 181 French Lab I**  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 182 French Lab 2  
Prerequisites: FRE 181  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 211 Intermediate French I  
Prerequisites: FRE 112  
Corequisites: None  
Component: None  
This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 212 Intermediate French II  
Prerequisites: FRE 211  
Corequisites: None  
Component: None  
This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 221 French Conversation  
Prerequisites: FRE 212  
Corequisites: None  
Component: None  
This course provides an opportunity for intensive communication in spoken French. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 281 French Lab 3  
Prerequisites: FRE 182  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance the review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 282 French Lab 4  
Prerequisites: FRE 281  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance the review and expansion of the essential skills of the French language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FSE 112 Principles of Funeral Service  
Prerequisites: None  
Corequisites: ENG 111  
Component: None  
This course covers the principles of funeral service and various religious and cultural customs of funeral service in the US. Emphasis is placed on Protestant, Catholic, Jewish, and other religious groups and the professional and ethical obligations of the profession. Upon completion, students should be able to demonstrate an understanding of religious and cultural traditions and how various funeral services are conducted.

FSE 114 Embalming Chemistry  
Prerequisites: Take CHM-135 or CHM-151 or CHM-152 and DRE-098 or ENG-090 and RED-090  
Corequisites: None  
Component: None  
This course covers the fundamentals of organic chemistry and biochemistry as related to the funeral service profession. Emphasis is placed on chemical changes in the human body during life, after death, and during chemical preservation. Upon completion, students should be able to use various embalming chemicals and mix embalming solutions for laboratory use.

FSE 116 Funeral Law and Ethics  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Equivalent  
Corequisites: None  
Component: None  
This course covers fundamentals of mortuary law and ethical considerations relevant to the funeral profession. Emphasis is placed on North Carolina Mortuary Law, OSHA requirements, anatomical donations, vital statistics, and general law relative to mortuary law. Upon completion, students should be able to demonstrate an understanding of the legal and ethical aspects of funeral service.

FSE 118 Embalming Anatomy  
Prerequisites: Take BIO 092 or BIO 110 or BIO 111 and ENG 111  
Corequisites: None  
Component: None  
This course covers the general anatomy needed in funeral service. Emphasis is placed on medical terminology and the normal structure and function of the human body with special consideration of the circulatory system. Upon completion, students should be able to understand the normal structure and function of the human body and how it relates to the embalming process.

FSE 120 Embalming Microbiology  
Prerequisites: FSE 118  
Corequisites: None  
Component: None  
This course is a survey of the basic principles of microbiology and related funeral service considerations. Emphasis is placed on sanitation, disinfection, public health, and embalming practices as it relates to various microorganisms. Upon completion, students should be able to characterize various microbial agents and discuss topical, chemical, and biological methods of control.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
FSE 210 Embalming Theory I  
Prerequisites: FSE 118  
Corequisites: FSE 211 or COE 112F  
Component: None  
This course introduces various embalming procedures and the purpose, history, and need for embalming. Emphasis is placed on laboratory equipment, post mortem changes, and the proper use of embalming chemicals. Upon completion, students should be able to identify various instruments and relate theoretical case analysis to embalming procedures used in the funeral home.

FSE 211 Embalming Lab I  
Prerequisites: None  
Corequisites: FSE 210  
Component: None  
This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to utilize sanitation and disinfection procedures correctly and properly prepare human remains for burial.

FSE 212 Embalming Theory II  
Prerequisites: A course from each set: FSE 210 and FSE 211 or COE112F  
Corequisites: FSE 213 or COE 122F  
Component: None  
This course is a continuation of FSE 210 and covers more detailed embalming procedures. Topics include anatomical consideration for embalming, case analysis, positioning features, arterial injection, cavity treatment, autopsies, and other post mortem conditions. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.

FSE 213 Embalming Lab II  
Prerequisites: FSE 210 and FSE 211 or COE 111  
Corequisites: FSE 212  
Component: None  
This course provides hands-on experience in more advanced embalming skills. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to determine the proper techniques to be utilized in each particular embalming situation.

FSE 214 Pathology  
Prerequisites: Take BIO-092 or BIO-110 or BIO-111 and ENG-111  
Corequisites: None  
Component: None  
This course is a general survey of the disease process. Topics include pathological terminology, basic body functions, trauma, disease process, and etiology. Upon completion, students should be able to recognize medical terminology used in completing death certificates and understand the disease process.

FSE 215 Funeral Home Operations  
Prerequisites: Take BUS 110 and BUS 230  
Corequisites: None  
Component: None  
This course covers funeral home operations, including business techniques and effective counseling skills. Topics include establishing a funeral home, choosing and financing a location, building, merchandising, caskets, vaults, planning, and counseling techniques and philosophies. Upon completion, students should be able to understand the proper procedures for operating a funeral home and relate more effectively to those experiencing grief.

FSE 216 Restorative Arts  
Prerequisites: FSE 118  
Corequisites: None  
Component: None  
This course covers the terminology used and pathological conditions observed during the restoration process. Topics include basic restoration, anatomical modeling, expression, use of photographs, legal aspects, pathological discoloration, cosmetics, and solvents. Upon completion, students should be able to utilize materials and techniques in the restoration of human remains.

FSE 217 Funeral Service Projects  
Prerequisites: FSE 212, FSE 216 and Department Chairperson approval  
Corequisites: None  
Component: None  
This course provides an overview of funeral service practices and procedures, including computer software used in the funeral service profession. Emphasis is placed on utilizing funeral service software and on topics required for licensure. Upon completion, students should be able to enter information, generate documents, and demonstrate knowledge of the topics covered on state or national licensure exams.

GEL 111 Introductory Geology  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent  
Corequisites: None  
Component: None  
This course covers the geological history of the earth and its life forms. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEL 113 Historical Geology  
Prerequisites: GEL 111 or GEL 120  
Corequisites: None  
Component: None  
This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEL 120 Physical Geology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a study of the structure and composition of the earth’s crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth’s crust. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GER 111 Elementary German I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 112 Elementary German II
Prerequisites: GER 111
Corequisites: None
Component: None
This course is a continuation of GER 111 focusing on the fundamental elements of the German language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 181 German Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 182 German Lab 2
Prerequisites: GER 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 211 Intermediate German I
Prerequisites: GER 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 212 Intermediate German II
Prerequisites: GER 211
Corequisites: None
Component: None
This course provides a continuation of GER 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 212 German Conversation
Prerequisites: GER 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken German. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 281 German Lab 3
Prerequisites: GER 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 282 German Lab 4
Prerequisites: GER 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the German language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GIS 111 Introduction to GIS
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the hardware and software components of a Geographic Information System and reviews GIS applications. Topics include data structures and basic functions, methods of data capture and sources of data, and the nature and characteristics of spatial data and objects. Upon completion, students should be able to identify GIS hardware components, typical operations, products/applications, and differences between database models and between raster and vector systems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
GIS 112 Introduction to GPS
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of Global Positioning Systems (GPS). Topics include the theory, implementation, and operations of GPS, as well as alternate data source remote sensing. Upon completion, students should be able to demonstrate an understanding of the fundamentals of GPS.

GIS 161 Intro to Comp/BASIC & C++
Prerequisites: None
Corequisites: None
Component: None
This course introduces the electronic computer and includes a general description of computer design and operation, associated vocabulary, and most widely used applications. Emphasis is placed on hands-on experience with software. Upon completion, students should be able to utilize and interpret calculations, decision-making and branching and looping functions processing, and top-down programming methodology.

GRD 110 Typography I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

GRD 117 Design Career Exploration
Prerequisites: None
Corequisites: None
Component: None
This course covers opportunities in the graphic design field and employment requirements. Topics include evaluation of career choices, operations, structure of advertising and graphic design businesses, and related business issues. Upon completion, students should be able to demonstrate an understanding of the graphic design field and consider an appropriate personal direction of career specialization.

GRD 121 Drawing Fundamentals I
Prerequisites: None
Corequisites: None
Component: None
This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.

GRD 131 Illustration I
Prerequisites: ART 131, DES 125, or GRD 121
Corequisites: None
Component: None
This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

GRD 132 Illustration II
Prerequisites: GRD 131
Corequisites: None
Component: None
This course is a continuation of GRD 131. Topics include editorial, product, fashion, and advertising illustrations. Upon completion, students should be able to demonstrate increased proficiency in creating quality illustrations from conceptualization through finished artwork.

GRD 141 Graphic Design I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

GRD 142 Graphic Design II
Prerequisites: ART 121 or GRD 141, and GRD 110, GRD 151
Corequisites: None
Component: None
This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.

GRD 151 Computer Design Basics
Prerequisites: None
Corequisites: None
Component: None
This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

GRD 152 Computer Design Tech I
Prerequisites: GRD 151
Corequisites: None
Component: None
This course covers complex design problems utilizing various design and drawing software applications. Topics include the expressive use of typography, image, and organization to communicate a message. Upon completion, students should be able to use appropriate computer software to professionally present their work.

GRD 153 Computer Design Tech II
Prerequisites: GRD 152
Corequisites: None
Component: None
This course covers advanced theories and practices in the field of computer design. Emphasis is placed on advanced use of color palettes, layers, and paths. Upon completion, students should be able to creatively produce designs and articulate their rationale.

GRD 167 Photographic Imaging I
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic camera operations and photographic production. Topics include subject composition, depth of field, shutter control, light control, color, photo-finishing, and digital imaging, correction and output. Upon completion, students should be able to produce traditional and/or digital photographic prints with acceptable technical and compositional quality.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

| Corequisites: GRD 242                   |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course is designed to provide additional hands-on training in graphic design. Emphasis is placed on producing sophisticated design projects utilizing concepts and techniques covered in GRD 242. Upon completion, students should be able to solve complex design problems by producing projects to meet client specifications for reproduction. |           |         |            |            |

| **GRD 263 Illustrative Imaging**        | 01        | 04      | 00         | 03         |
| Prerequisites: GRD 151 and GRD 152      |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course covers the creative manipulation of images utilizing digital techniques of masking, layering, airbrushing, and painting. Topics include the aesthetic analysis of visual imagery as well as the legalities of manipulating images. Upon completion, students should be able to utilize software applications to creatively manipulate and illustratively build digital images which accomplish design objectives. |           |         |            |            |

| **GRD 265 Digital Print Production**    | 01        | 04      | 00         | 03         |
| Prerequisites: GRD 151 or GRA 151       |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course covers preparation of digital files for output and reproduction. |           |         |            |            |

| **GRD 271 Multimedia Design I**         | 01        | 03      | 00         | 02         |
| Prerequisites: GRD 151 and GRD 152      |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboarding, scripting, simple animation, graphics, digital audiovideo, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations. |           |         |            |            |

| **GRD 272 Multimedia Design II**        | 01        | 03      | 00         | 02         |
| Prerequisites: GRD 271                  |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course is a continuation of GRD 271. Emphasis is placed on advanced animation, specialized software, quality control, and cross-platform delivery, as well as problems associated with delivery media and interactivity. Upon completion, students should be able to produce multimedia presentations and determine and adapt to technical specifications for delivery. |           |         |            |            |

| **GRD 280 Portfolio Design**            | 02        | 04      | 00         | 04         |
| Prerequisites: COM 231 or ENG 115, and GRD 142, GRD 241, and GRD 152 or GRA 152 |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials. |           |         |            |            |

| **GRD 282 Advertising Copywriting**     | 01        | 02      | 00         | 02         |
| Prerequisites: ENG 111                  |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of advertising. Upon completion, students should be able to write and articulate advertising proposals and understand the ethical and regulatory environment for advertising. |           |         |            |            |

| **GRD 285 Client/Media Relations**      | 01        | 02      | 00         | 02         |
| Prerequisites: ENG 111, GRD 142, and GRA 121 or GRA 152 or GRD 152 |           |         |            |            |
| Corequisites: None                      |           |         |            |            |
| Component: None                         |           |         |            |            |
| This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients’ advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships. |           |         |            |            |

HEA 110 Personal Health/Wellness 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HEA 112 First Aid & CPR 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HEA 120 Community Health 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today's community health problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HET 115 Electronic Engines 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of electronically controlled diesel engines. Emphasis is placed on testing and adjusting diesel engines in accordance with manufacturers' specifications. Upon completion, students should be able to diagnose, test, and calibrate electronically controlled diesel engines.

HET 125 Preventive Maintenance 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Topics include preventive maintenance schedules, services, DOT rules and regulations, and roadability. Upon completion, students should be able to set up and follow a preventive maintenance schedule as directed by manufacturers.

HET 232 Med/Heavy Duty Brake Sys Lab 00 03 00 01
Prerequisites: None
Corequisites: None
Component: HET 231
This course provides a laboratory setting to enhance the skills for troubleshooting, adjusting, and repairing brake systems on medium and heavy duty vehicles. Emphasis is placed on practical experiences that enhance the topics presented in HET 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 231.

HET 233 Suspension and Steering 02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and principles of medium and heavy duty steering and suspension systems. Topics include wheel and tire problems, frame members, fifth wheel, bearings, and coupling systems. Upon completion, students should be able to troubleshoot, adjust, and repair suspension and steering components on medium and heavy duty vehicles.

HIS 111 World Civilizations I 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 112 World Civilizations II 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 114 Comparative World History 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a comparison of western and non-western cultures.
Emphasis is placed on historical developments and their impact on the modern world through religion, politics, economics, and social developments. Upon completion, students should be able to compare and contrast western and non-western cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**HIS 115 Introduction to Global History**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course introduces the study of global history. Emphasis is placed on topics such as colonialism, industrialism, and nationalism. Upon completion, students should be able to analyze significant global historical issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**HIS 116 Current World Problems**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course covers current world events from an historical perspective. Topics include regional problems as well as international concerns. Upon completion, students should be able to analyze significant current world problems from an historical perspective. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HIS 121 Western Civilization I**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**HIS 122 Western Civilization II**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course introduces western civilization form the modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**HIS 131 American History I**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**HIS 132 American History II**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**HIS 141 Genealogy & Local History**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course explores the role of the local or family historian. Emphasis is placed on historical or genealogical research techniques including a survey of local, state, and national archival resources. Upon completion, students should be able to conduct genealogical research and do a major research project on local or family history. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**HIS 162 Women and History**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course surveys the experience of women in historical perspective. Topics include the experiences and contributions of women in culture, politics, economics, science, and religion. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural contributions of women in history. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HIS 167 The Vietnam War**  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test  
Credit Equivalent:  
Component: None  
This course covers the American political and military involvement in Vietnam from 1944 to 1975. Topics include the French colonial policy, Vietnamese nationalism, the war with France, American involvement, and resolution of the conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments that influenced the Vietnam War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

governmental structures in Africa. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in Africa. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferrability as a pre-major and/or elective course requirement.

**HIS 271 The French Revolution Era**  
Prerequisites: ENG-111  
Corequisites: None  
Component: None  
This course traces the causes and effects of the French Revolution. Topics include the Enlightenment; Jacobins; Reign of Terror; Napoleon’s republic, empire, and wars; and the French Revolution’s impact upon world history. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments during the French revolutionary era. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HIT 211 ICD Coding**  
Prerequisites: MED 116 and DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers ICD diagnostics and procedural coding conventions and guidelines for inpatient, outpatient and ambulatory care. Emphasis is placed on a comprehensive application of anatomy, physiology and interrelationships among organ systems. Upon completion, students should be able to accurately assign and sequence diagnostic and procedural codes for patient outcomes, statistical and reimbursement purposes.

**HIT 212 ICD-9-CM Coding**  
Prerequisites: MED 116 and DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers ICD-9-CM diagnostic and procedural coding according to the guidelines of the Cooperating Parties. Emphasis is placed on coding conventions and rules, methodology and sequencing, data sets, documentation requirements, data retrieval, quality control, and use of coding resources. Upon completion, students should be able to apply coding principles to correctly assign ICD-9-CM diagnostic and surgical codes.

**HIT 214 CPT/Other Coding Systems**  
Prerequisites: HIT 211 and DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers application of principles and guidelines of CPT/HCPCS coding. Topics include clinical classification/nomenclature systems such as SNOMED, DSM, ICD-O and the use of encoders. Upon completion, students should be able to apply coding principles to correctly assign CPT/HCPCS codes. This course will concentrate more specifically in the area of inpatient coding.

**HIT 215 Reimbursement Methodology**  
Prerequisites: HIT 211 and DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers reimbursement methodologies used in all healthcare settings as they relate to national billing, compliance, and reporting requirements. Topics include prospective payment systems, billing process and procedures, chargemaster maintenance, regulatory guidelines, reimbursement monitoring, and compliance strategies and reporting. Upon completion, students should be able to perform data quality reviews to validate code assignment and comply with reimbursement and reporting requirements. In addition, a review of the hospital coding exam will be administered in preparation to sit for the AAPC CPC-H certification exam.

**HMT 110 Intro to Healthcare Mgt**  
Prerequisites: Take DRE-096 or ENG 070 and RED-070, or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

**HMT 210 Medical Insurance**  
Prerequisites: Take OST 142. Take DMA-020 and DRE-096 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the concepts of medical insurance. Topics include types and characteristics of third-party payers, coding concepts, payment systems, and manual/electronic claims form preparation. Upon completion, students should be able to process third-party claims forms.

**HMT 211 Long-Term Care Admin**  
Prerequisites: HMT 110  
Corequisites: None  
Component: None  
This course introduces the administration of long-term care facilities and services. Emphasis is placed on nursing home care, home health care, hospice, skilled nursing facilities, and other long-term care services. Upon completion, students should be able to administer state and national standards and regulations as they apply to long-term care. None

**HMT 212 Mgt of Healthcare Org**  
Prerequisites: HMT 110  
Corequisites: None  
Component: None  
This course examines current issues affecting the management of healthcare delivery systems. Topics include current problems, changes, and challenges in the healthcare environment. Upon completion, students should be able to identify current health care issues and their impact on healthcare management.

**HMT 220 Healthcare Financial Mgmt**  
Prerequisites: HMT 110 and ACC 121  
Corequisites: None  
Component: None  
This course covers the methods and techniques utilized in the financial management of healthcare programs. Topics include cost determination, pricing of services, financial statement analysis, forecasting/projections, third-party billing, reimbursement, Medicare, Medicaid, and budgeting. Upon completion, students should be able to interpret and apply the principles of financial management in a healthcare environment.

**HOR 110 Introduction to Landscaping**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic skills and concepts of drafting and surveying necessary to complete landscape site analysis and topographical drawings. Emphasis is placed on proper use of drafting and survey equipment. Upon completion, students should be able to draw a site analysis drawing with topographical lines.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.

This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation, classification, physical and chemical properties, testing, fertilizer application, and other management. Upon completion, students should be able to meet the requirements for North Carolina Commercial regulations, safety, and pesticide application. Upon completion, students should be able to apply the basic principles of botany to horticulture. Students should be able to apply the basic principles of botany to horticulture.

This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.

This course covers the proper operation and maintenance of selected equipment used in horticulture. Emphasis is placed on the maintenance, minor repairs, safety devices, and actual operation of selected equipment. Upon completion, students should be able to design a maintenance schedule, service equipment, and demonstrate safe operation of selected equipment.

This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops.

This course introduces the principles and techniques of growing fruits and field-grown vegetables. Topics include site selection, proper varietal selection, nutritional values, cultural techniques, harvesting, and marketing, and insect and disease control. Upon completion, students should be able to demonstrate an understanding of the principles related to the production of selected fruits and vegetables.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

**HOR 170 Horticultural Computer Apps**
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programs as they apply to the horticulture industry. Emphasis is placed on applications of software for plant identification, design, and irrigation. Upon completion, students should be able to use computer programs in horticultural situations.

**HOR 213 Landscape Design II**
Prerequisites: HOR-112
Corequisites: None
Component: None
This course covers residential and commercial landscape design, cost analysis, and installation. Emphasis is placed on job cost estimates, installation of the landscape design, and maintenance techniques. Upon completion, students should be able to design and install basic landscape irrigation systems.

**HOR 215 Landscape Irrigation**
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic irrigation design, layout, and installation. Topics include site analysis, components of irrigation systems, safety, types of irrigation systems, and installation techniques. Upon completion, students should be able to design and install basic landscape irrigation systems.

**HOR 251 Insects & Diseases**
Prerequisites: None
Corequisites: None
Component: None
This course introduces insects and diseases of economic importance to horticultural crops. Topics include insect life cycles and identifying characteristics; plant diseases, including their signs and symptoms; control methods; and insect scouting for IPM. Upon completion, students should be able to demonstrate an understanding of insect and disease identification, collection, and control.

**HOR 253 Horticulture Turfgrass**
Prerequisites: HOR-162 or HOR-166
Corequisites: None
Component: None
This course covers information and skill development necessary to establish and manage landscape turfgrasses. Topics include grass identification, establishment, cultural requirements, application of control products, fertilization, and overseeding techniques. Upon completion, students should be able to design and select plants that are suitable for use in turfgrasses.

**HOR 255 Interiorscapes**
Prerequisites: None
Corequisites: None
Component: None
This course covers plant selection, design, and management for interior settings. Topics include tropical plant identification, cultural requirements, insect and disease identification and control, and design and management requirements for interior plants. Upon completion, students should be able to design, install, and manage plants in interior settings.

**HOR 257 Arboriculture Practices**
Prerequisites: HOR-160 or LSG-111
Corequisites: None
Component: None
This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices.

**HOR 260 Plant Materials II**
Prerequisites: HOR-160
Corequisites: None
Component: None
This course is a continuation of HOR-160 and covers additional plants. Emphasis is placed on reinforcement of skills and the introduction of additional plants. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials.

**HOR 275 Horticulture Production Management**
Prerequisites: None
Corequisites: None
Component: None
This course introduces starting and/or managing a horticulture production operation. Emphasis is placed on types of horticulture production businesses, production management practices and skills, and appropriate safety measures for equipment, personnel, and facilities. Upon completion, students should be able to identify various types of production businesses, prepare appropriate schedules and inventories, and manage personnel/ facilities for safe crop production.

**HOR 277 Horticulture Sales & Services**
Prerequisites: None
Corequisites: None
Component: None
This course introduces various strategies for marketing horticulture products and services. Topics include wholesale, retail, and consignment sales; advertising media; costing products and services; preparing estimates, bids, and proposals; and consumer relations. Upon completion, students should be able to develop a marketing strategy for various horticulture products and services.

**HOR 278 Horticulture Business Entrepreneurship**
Prerequisites: None
Corequisites: None
Component: None
This course introduces starting and/or managing a horticulture business operation. Emphasis is placed on types of business ownership, legal aspects of licenses, worker safety and facility criteria, and creating inventories, schedules, and financial statements. Upon completion, students should be able to prepare appropriate schedules and financial statements and demonstrate knowledge of legal standards for equipment and personnel.

**HRM 110 Intro to Hosp & Tourism**
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the growth and progress of the hospitality industry. Topics include tourism, lodging, resorts, gaming, restaurants, foodservice and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist within the hospitality industry.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
HRM 120 Front Office Procedures 03 00 00 03
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT 060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces a systematic approach to lodging front office procedures. Topics include reservations, registration, guest satisfaction, occupancy and revenue management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic understanding of current front office operating systems, including efficient and courteous guest services.

HRM 124 Guest Service Management 02 02 00 03
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to provide an introduction to the culture of dining room service management. Emphasis is placed on the dignity and psychology of service work, dining room organization/infrastructure, service delivery, and modeling management roles in a dining room environment. Upon completion, students should be able to demonstrate an understanding of the guest/server dynamic and apply these principles in a dining room setting.

HRM 125 Etiquette for Hospitality 01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers social skills needed to effectively interact within organizational and customer situations. Topics include general social manners, personal appearance, table manners, restaurant and meeting etiquette, and business interaction. Upon completion, students should be able to function with confidence in various social, cultural, and professional situations.

HRM 140 Legal Issues-Hospitality 03 00 00 03
Prerequisites: Take DRE-097 or ENG-080 and RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the rights and responsibilities that the law grants to or imposes upon the hospitality industry. Topics include federal and state regulations, historical and current practices, safety and security, risk management, loss prevention, relevant torts, and contracts. Upon completion, students should be able to demonstrate an understanding of the legal system and the concepts necessary to prevent or minimize organizational liability.

HRM 145 Hospitality Supervision 03 00 00 03
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers principles of supervision as they apply to the hospitality industry. Topics include recruitment, selection, orientation, training, evaluation, and leadership skills. Upon completion, students should be able to understand and apply basic supervisory skills unique to the hospitality and service industry, supervisory skills unique to the hospitality and service industry.

HRM 210 Meetings & Event Planning 03 00 00 03
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers planning, organizing, directing, and analyzing the results of marketing programs for the hospitality industry. Emphasis is placed on target marketing, marketing mix, analysis, product and image development, use of current media, sales planning, advertising, public relations, and

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

This course considers the role of social class in historical and contemporary contexts. Upon completion, students should be able to analyze the roles of women as reflected in various cultural forms. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
HUM 160 Introduction to Film  
Prerequisites: TAKE DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/ fine arts. This course is also available through the Virtual Learning Community (VLC).

HUM 161 Advanced Film Studies  
Prerequisites: HUM 160  
Corequisites: None  
Component: None  
This course provides an advanced study of film art and production, building on skills learned in HUM 160. Topics include film production techniques, film genres, examination of master directors’ styles, and the relation of film to culture. Upon completion, students should be able to recognize and critically analyze advanced elements of film production. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 170 The Holocaust  
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides a survey of the destruction of European Jewry by the Nazis during World War II. Topics include the anti-Semitic ideology, bureaucratic structures, and varying conditions of European occupation and domination under the Third Reich. Upon completion, students should be able to demonstrate an understanding of the historical, social, religious, political, and economic factors which cumulatively resulted in the Holocaust. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HUM 210 Humanities I  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 212 Humanities II  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from early modern times to the present. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 220 Human Values and Meaning  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society; and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/ fine arts.

HUM 230 Leadership Development  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. (TAC 11/16/05)

INT 110 International Business  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.

ISC 112 Industrial Safety  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance.

ISC 115 Construction Safety  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic concepts of construction site safety. Topics include ladders, lifting, lock-out/tag-out, personal protective devices, scaffolds, and above/below ground work based on OSHA regulations. Upon completion, students should be able to demonstrate knowledge of applicable safety regulations and safely participate in construction projects.

ISC 121 Envr Health & Safety  
Prerequisites: Take DRE-097 or ENG-080 and RED 080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers workplace environmental, health, and safety issues.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental, health, and safety issues.

Prerequisites: ITA 182

Corequisites: None

Component: None

This course provides an opportunity to enhance the review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

be able to demonstrate an increased proficiency in reading and writing Latin and
demonstrate an understanding of Roman social structures and thoughts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

LAT 181 Latin Lab I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of Latin. Emphasis is placed on the progressive development of basic reading and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to written Latin and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

LAT 182 Latin Lab II
Prerequisites: LAT 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of Latin. Emphasis is placed on the progressive development of basic reading and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to demonstrate increasing proficiency in reading and writing Latin and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

LAT 211 Intermediate Latin I
Prerequisites: LAT 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of Latin. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to accurately read and comprehend Latin. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

LAT 212 Intermediate Latin II
Prerequisites: LAT 211
Corequisites: None
Component: None
This course provides a continuation of LAT 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to demonstrate increased accuracy in reading and comprehension of Latin. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

LAT 231 Reading and Composition
Prerequisites: LAT 142
Corequisites: None
Component: None
This course provides an opportunity for intensive reading and composition in Latin with emphasis on original authors to enhance and expand Latin reading and writing skills. Topics include original works such as selected Eclogues and Georgics from Vergil. Upon completion, students should be able to demonstrate in writing an in-depth understanding of the reading. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

LAT 232 Imperial Literature
Prerequisites: LAT 231
Corequisites: None
Component: None
This course provides an opportunity to refine and expand additional skills in Latin with emphasis on the study of selected books from the Aeneid by Vergil. Emphasis is placed on a critical appreciation of the Aeneid as poetry by demonstrating the ability to translate literally, to analyze and interpret, and to understand dactylic hexameter, scanion and figures of speech in Vergil’s verse. Upon completion, students should be able to demonstrate an increased proficiency in reading and writing Latin and demonstrate an understanding of Imperial religious beliefs, history, institutions and laws. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

LEX 110 Introduction to Paralegal Study
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces the paralegal profession and the legal system. Topics include regulations and concepts, ethics, case analysis, legal reasoning, career opportunities, certification, professional organizations, and other related topics. Upon completion, students should be able to understand the role of a paralegal and identify the skills, knowledge, and ethics required of paralegals. This course is also available through the Virtual Learning Community (VLC).

LEX 120 Legal Research/Writing I
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
LEX 121 Legal Research/Writing II  
Prerequisites: Take LEX 120 and DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent 
Corequisites: None 
Component: None 
This course covers advanced topics in legal research and writing. Topics include more complex legal issues and assignments involving preparation of legal memos, briefs, and other documents and the advanced use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.

LEX 130 Civil Injuries  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent 
Corequisites: None 
Component: None 
This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to recognize, explain, and evaluate elements of civil injuries and related defenses. This course is also available through the Virtual Learning Community (VLC).

LEX 140 Civil Litigation I  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent 
Corequisites: None 
Component: None 
This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction and the state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions. This course is also available through the Virtual Learning Community (VLC).

LEX 141 Civil Litigation II  
Prerequisites: LEX 140 and DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent 
Corequisites: None 
Component: None 
This course covers advanced topics in the civil litigation process. Topics include motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing and organizing documents for trial, settlement and post-trial practice.

LEX 150 Commercial Law I  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent 
Corequisites: None 
Component: None 
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper. This course is also available through the Virtual Learning Community (VLC).

LEX 160 Criminal Law & Procedure  
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent 
Corequisites: None 
Component: None 
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts. This course is also available through the Virtual Learning Community (VLC).

**LEX 260 Bankruptcy & Collections**
- **Prerequisites:** Take DRE-098 and DMA-030 or ENG-090, RED-090 or MAT-060 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

**LEX 270 Law Office Management/ Technology**
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

**LEX 283 Investigation**
- **Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
This course covers various aspects of civil and criminal investigation. Topics include locating witnesses, interviewing techniques, obtaining records, sketching and photographing accident scenes, collecting and preserving evidence, and preparation of exhibits for trial. Upon completion, students should be able to locate witnesses, prepare questionnaires, interview witnesses, obtain criminal/motor vehicle/medical/ accident records, sketch scenes, and prepare exhibits.

**LEX 285 Workers’ Comp Law**
- **Prerequisites:** Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
This course covers the process of initiating and handling workers’ compensation claims. Emphasis is placed on reviewing and drafting relevant Industrial Commission forms. Upon completion, students should be able to interview clients, gather information, and draft documents related to workers’ compensation claims.

**LOG 110 Introduction to Logistics**
- **Prerequisites:** Take DRE-098 and DMA-050 or ENG-090, RED-090 and MAT 070 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course is a comprehensive study of digital mammography. Topics include producing digital mammograms, understanding image processing, display, archive, and communication techniques, and determining proper image quality, radiation dose, and quality control procedures. Upon completion, students should be able to demonstrate the concepts of digital imaging, the process to produce digital mammograms, and the establishment of QC procedures.

MAC 228 Advanced CNC Processes
Prerequisites: MAC 121
Corequisites: None
Component: None
This course covers advanced programming, setup, and operation of CNC turning centers and CNC milling centers. Topics include advanced programming formats, control functions, program editing, and part production and inspection. Upon completion, students should be able to manufacture complex parts using CNC turning and milling centers.

MAC 233 Appl in CNC Machining
Prerequisites: MAC 228
Corequisites: None
Component: None
This capstone course provides students the opportunity to apply skills learned throughout the curriculum. Emphasis is placed on production of parts and assemblies using modern CNC machine tools. Upon completion, students should be able to manufacture complex parts using a variety of CNC machine tools.

MAC 241 Jigs & Fixtures I
Prerequisites: MAC 112, MAC 132, and MAC 152
Corequisites: None
Component: None
This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

MAC 243 Die Making I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles and applications of die making. Topics include types, construction, and application of dies. Upon completion, students should be able to design and build simple dies.

MAM 101 Mam Proc & Image Analysis
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of mammography positioning, patient care, and image analysis. Topics include breast anatomy/physiology, pathology and treatment of breast disease, patient preparation/education, mammographic procedures, and interventional procedures. Upon completion, students should be able to demonstrate competence in these areas.

MAM 102 Mam Instrumentation & Qa
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of physics, instrumentation, quality assurance, and quality control for analog and digital mammography imaging systems. Topics include system components, imaging principles, and guidelines for selecting exposure factors. Upon completion, students should be able to demonstrate an understanding of mammographic equipment, quality assurance, and quality control.

MAM 103 Digital Mammography
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of digital mammography. Topics include producing digital mammograms, understanding image processing, display, archive, and communication techniques, and determining proper image quality, radiation dose, and quality control procedures. Upon completion, students should be able to demonstrate the concepts of digital imaging, the process to produce digital mammograms, and the establishment of QC procedures.

MAM 105 Mammography Clinical Ed
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity to apply knowledge gained from classroom instruction to the mammography clinical setting. Emphasis is placed on patient care and positioning, mammographic procedures, interventional/special examinations, image analysis, and quality control testing. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

MAM 109 Mammography Capstone
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of mammographic topics as practiced in the didactic and clinical settings. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the comprehensive knowledge required of an entry-level mammographer.

MAT 050 Basic Math Skills
Prerequisites: Placement
Corequisites: None
Component: None
This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.

MAT 060 Essential Mathematics
Prerequisites: MAT 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.

MAT 070 Introductory Algebra
Prerequisites: MAT 060 or Placement Test Credit Equivalent.
Corequisites: RED 080 or Placement Test Credit Equivalent.
Component: None
This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

| MAT 090 Accelerated Algebra | 03 | 02 | 00 | 04 |
| Prerequisites: HS Alg I and Alg II or Placement Test Credit Equivalent. |
| Corequisites: RED 080 or Placement Test Credit Equivalent. |
| Component: None |
| This course covers algebraic concepts with emphasis on applications. Topics include those covered in MAT 070 and MAT 080. Upon completion, students should be able to apply algebraic concepts in problem solving using appropriate technology. |

| MAT 095 Algebraic Concepts | 03 | 00 | 00 | 03 |
| Prerequisites: None |
| Corequisites: None |
| Component: None |
| This course covers algebraic concepts with an emphasis on applications. Topics include linear, quadratic, absolute value, rational and radical equations, sets, real and complex numbers, exponents, graphing, formulas, polynomials, systems of equations, inequalities, and functions. Upon completion, students should be able to apply the above topics in problem solving using appropriate technology. |

| MAT 101 Applied Mathematics I | 02 | 02 | 00 | 03 |
| Prerequisites: MAT 060 or DMA 030 or Placement Test Credit Equivalent |
| Corequisites: None |
| Component: None |
| This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for diploma programs. |

| MAT 115 Mathematical Models | 02 | 02 | 00 | 03 |
| Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent. |
| Corequisites: None |
| Component: None |
| This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include application to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently. |

| MAT 120 Geometry and Trigonometry | 02 | 02 | 00 | 03 |
| Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent. |
| Corequisites: None |
| Component: None |
| This course introduces the concepts of plane trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, right triangle trigonometry, and oblique triangles. Upon completion, students should be able to solve applied problems both independently and collaboratively using technology. |

| MAT 121 Algebra/Trigonometry I | 02 | 02 | 00 | 03 |
| Prerequisites: One course required: MAT 070 or DMA 050 or Placement Test Credit Equivalent. |
| Corequisites: None |
| Component: None |
| This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic and radical functions; complex numbers; right triangle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results. |

| MAT 122 Algebra/Trigonometry II | 02 | 02 | 00 | 03 |
| Prerequisites: One Course Required: MAT 121, MAT 161, MAT 171 OR MAT 175 |
| Corequisites: None |
| Component: None |
| This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, translation and scaling of functions, Sine Law, Cosine Law, vectors and statistics. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results. |

| MAT 140 Survey of Mathematics | 03 | 00 | 00 | 03 |
| Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent. |
| Corequisites: None |
| Component: None |
| This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics. |

| MAT 140A Survey of Mathematics Lab | 00 | 02 | 00 | 01 |
| Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent. |
| Corequisites: MAT 140 |
| Component: None |
| This course is a laboratory for MAT 140. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. |

| MAT 141 Mathematical Concepts I | 03 | 00 | 00 | 03 |
| Prerequisites: MAT 080 or DMA 080 or One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent. |
| Corequisites: None |
| Component: None |
| This course is the first of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number theory, introductory algebra, measurement including metrics, and problem solving. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**MAT 142 Mathematical Concepts II**  
Prerequisites: MAT-141  
Corequisites: None  
Component: None  
This course is the second of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts and utilize technology as a mathematical tool. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**MAT 151 Statistics I**  
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Equivalent.  
Corequisites: None  
Component: None  
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

**MAT 151A Statistics I Lab**  
Prerequisites: One Course Required: MAT 080 or DMA 080 or Placement Test Equivalent.  
Corequisites: MAT 151  
Component: None  
This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 155 Statistical Analysis**  
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course is an introduction to descriptive and inferential statistics. Topics include sampling, distributions, plotting data, central tendency, dispersion, Central Limits Theorem, confidence intervals, hypothesis testing, correlations, regressions, and multinomial experiments. Upon completion, students should be able to describe data and test inferences about populations using sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

**MAT 155A Statistics Analysis Lab**  
Prerequisites: MAT 080 or DMA 080 or Placement Test Credit Equivalent.  
Corequisites: MAT 155  
Component: None  
This course is a laboratory for MAT 155. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 161 College Algebra**  
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Credit Equivalent.  
Corequisites: MAT 161A  
Component: None  
This course provides an integrated technological approach to algebraic topics used in problem solving. Emphasis is placed on applications involving equations and inequalities; polynomial, rational, exponential and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be able to choose an appropriate model to fit a data set and use the model for analysis and prediction. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree. This course is also available through the Virtual Learning Community (VLC).

**MAT 161A College Algebra Lab**  
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Credit Equivalent.  
Corequisites: MAT 161  
Component: None  
This course is a laboratory for MAT 161. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 162 College Trigonometry**  
Prerequisites: MAT 161  
Corequisites: None  
Component: None  
This course provides an integrated technological approach to trigonometric applications used in problem solving. Emphasis is placed on applications involving trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree.

**MAT 162A College Trig Lab**  
Prerequisites: MAT 161  
Corequisites: MAT 162  
Component: None  
This course is a laboratory for MAT 162. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Venn diagrams, and translational exercises. Upon completion, students should be able to analyze data based on formal logic or ordinary language discourse. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 210A Logic Lab**
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Corequisites: MAT 210
Component: None
This course is a laboratory for MAT 210. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 223 Applied Calculus**
Prerequisites: MAT 122
Corequisites: None
Component: None
This course provides an introduction to the calculus concepts of differentiation and integration by way of application and is designed for engineering technology students. Topics include limits, slope, derivatives, related rates, areas, integrals, and applications. Upon completion, students should be able to demonstrate an understanding of the use of calculus and technology to solve problems and to analyze and communicate results.

**MAT 252 Statistics II**
Prerequisites: A set of courses required: MAT 151 and either MAT 121 or MAT 161
Corequisites: None
Component: None
This course provides a technology-based treatment of multiple sample inferential statistics. Emphasis is placed on two sample hypothesis tests and confidence intervals, linear and multiple regression, analysis of variance, experimental design, and non-parametric techniques. Upon completion, students should be able to draw statistical inferences on multiple sample data taken from business and health, and social, natural, and applied sciences. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 252A Statistics II Lab**
Prerequisites: A set of courses required: MAT 151 and either MAT 121 or MAT 161
Corequisites: MAT 252
Component: None
This course is a laboratory for MAT 252. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 263 Brief Calculus**
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Corequisites: None
Component: None
This course is designed for students needing only one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**MAT 263A Brief Calculus Lab**
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Corequisites: MAT 263
Component: None
This course is a laboratory for MAT 263. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MAT 271 Calculus I**
Prerequisites: One course required: MAT 172, MAT 175 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**MAT 272 Calculus II**
Prerequisites: MAT 271
Corequisites: None
Component: None
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**MAT 273 Calculus III**
Prerequisites: MAT 272
Corequisites: None
Component: None
This course covers the calculus of several variables and is the third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
MKT 121 Retailing  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  
This course introduces principles in organizational decision making. Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MKT 120 Principles of Marketing  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  
This course provides a study of linear algebra topics with emphasis on the development of both abstract concepts and applications. Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MKT 122 Visual Merchandising  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  
This course introduces basic layout design and commercial display in retail and service organizations. Topics include an analysis of display as a visual merchandising medium and an examination of the principles and applications of display and design. Upon completion, students should be able to plan, build, and evaluate designs and displays. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 123 Fundamentals of Selling  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 220 Advertising and Sales Promotion  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 221 Customer Service  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
MKT 225 Marketing Research
Prerequisites: Take MKT 120 and DRE-098 and DMA-050 or ENG 090, RED-090 and MAT-070 Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides information for decision making by providing guidance in developing, analyzing, and using data. Emphasis is placed on marketing research as a tool in decision making. Upon completion, students should be able to design and conduct a marketing research project and interpret the results. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

MKT 227 Marketing Applications
Prerequisites: Take DRE-098 and DMA-050 or ENG 090, RED-090 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course extends the study of diverse marketing strategies. Emphasis is place on case studies and small-group projects involving research or planning. Upon completion, students should be able to effectively participate in the formulation a marketing study. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 230 Public Relations
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces public relations as it affects communications, strategic planning, and management of the organization. Topics include basic principles and functions of management that guide public relations activities as applied to businesses, services, institutions, and associations. Upon completion, students should be able to perform the communications, evaluation, planning, and research activities of the public relations professional.

MUS 110 Music Appreciation
Prerequisites: None
Corequisites: None
Component: None
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 112 Introduction to Jazz
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 113 American Music
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 114 Non-Western Music
Prerequisites: None
Corequisites: None
Component: None
This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 115 Orchestral Music
Prerequisites: None
Corequisites: None
Component: None
This course covers representational orchestral and chamber works from the Baroque period to the present. Emphasis is placed on the characteristics of important orchestral forms and styles. Upon completion, students should be able to demonstrate skills in listening to and analyzing orchestral music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 121 Music Theory I
Prerequisites: None
Corequisites: MUS 121
Component: None
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 122 Music Theory II
Prerequisites: MUS 121
Corequisites: None
Component: None
This course is a continuation of studies begun in MUS 121. Emphasis is placed on advanced melodic, rhythmic, and harmonic analysis and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 151 Class Music I
Prerequisites: None
Corequisites: None
Component: None

MUS 152 Class Music II
Prerequisites: MUS 151
Corequisites: None
Component: None

This course provides individual instruction in the skills and techniques of the particular instrument or voice. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 161 Applied Music I
Prerequisites: None
Corequisites: None
Component: None

MUS 162 Applied Music II
Prerequisites: MUS 161
Corequisites: None
Component: None

This course is a continuation of MUS 161. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 181 Show Choir I
Prerequisites: None
Corequisites: None
Component: None

This course provides students the initial training in basic competencies of dance/voice-based performances and to the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on the introduction to, and subsequent development of, basic performance skills necessary for choreographed performance. Upon completion, students should be able to demonstrate the foundational competencies necessary to perform the assigned literature in various venues and under various professional conditions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 182 Show Choir II
Prerequisites: MUS-181
Corequisites: None
Component: None

This course provides intermediate training in dance/voice-based performances and in the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on continued development of skills necessary for professional group choral preparation and performance, as well as effective social interaction with a performance troupe. Upon completion, students should be able to demonstrate the intermediate competencies necessary to perform the assigned literature in various venues and under various professional conditions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 201 History of Rock Music
Prerequisites: None
Corequisites: None
Component: None

This course is a survey of Rock music from the early 1950’s to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 210 History of Country Music
Prerequisites: None
Corequisites: None
Component: None

This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and to explain the influence of pop culture on the development of country music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 211 History of Country Music
Prerequisites: None
Corequisites: None
Component: None

This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 212 American Musical Theatre
Prerequisites: None
Corequisites: None
Component: None

This course covers the origins and development of opera and musical theater from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals effect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
MUS 221 Music Theory III  
Prerequisites: MUS 122  
Corequisites: None  
Component: None
This course is a continuation of MUS 122. Emphasis is placed on altered and chromatic harmony, common practice era compositional techniques and forms, and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 222 Music Theory IV  
Prerequisites: MUS 221  
Corequisites: None  
Component: None
This course is a continuation of studies begun in MUS 221. Emphasis is placed on continued study of common practice era compositional techniques and forms, 20th century practices, ear-training, and sight-singing. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 231 Chorus III  
Prerequisites: MUS 132  
Corequisites: None  
Component: None
This course is a continuation of MUS 132. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 232 Chorus IV  
Prerequisites: MUS 231  
Corequisites: None  
Component: None
This course is a continuation of MUS 231. Emphasis is placed on vocal techniques and the study of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 233 Band III  
Prerequisites: MUS 134  
Corequisites: None  
Component: None
This course is a continuation of MUS 134. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 234 Band IV  
Prerequisites: MUS 233  
Corequisites: None  
Component: None
This course is a continuation of MUS 233. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 235 Jazz Ensemble III  
Prerequisites: MUS 136  
Corequisites: None  
Component: None
This course is a continuation of MUS 136. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 236 Jazz Ensemble IV  
Prerequisites: MUS 235  
Corequisites: None  
Component: None
This course is a continuation of MUS 235. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 237 Orchestra III  
Prerequisites: MUS 138  
Corequisites: None  
Component: None
This course is a continuation of MUS 138. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 238 Orchestra IV  
Prerequisites: MUS 237  
Corequisites: None  
Component: None
This course is a continuation of MUS 237. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
### MUS 241 Ensemble III
Prerequisites: MUS 142
Corequisites: None
Component: None
This course is a continuation of MUS 142. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### MUS 253 Big Band
Prerequisites: None
Corequisites: None
Component: None
This course includes the Big Band instrumentation of five saxes, four trumpets, four trombones, and four-piece rhythm section (bass, piano, drums, and guitar). Emphasis is placed on learning the repertoire specifically written for Big Band instrumentation. Upon completion, students should be able to demonstrate skills needed to participate in performance of Big Band music. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### MUS 261 Applied Music III
Prerequisites: MUS 162
Corequisites: None
Component: None
This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### NAS 101 Nursing Assistant I
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic nursing skills required to provide personal care for patients, residents, or clients in a health care setting. Topics include communications, safety, patients’ rights, personal care, vital signs, elimination, nutrition, emergencies, rehabilitation, and mental health. Upon completion, students should be able to demonstrate skills necessary to qualify as Nursing Assistant I with the North Carolina Nurse Aide I Registry.

### NAS 102 Nursing Assistant II
Prerequisites: NAS 101
Corequisites: None
Component: None
This course provides training in selected advanced nursing assistant procedures. Emphasis is placed on sterile techniques, respiratory procedures, catheterizations, wound and trach care, irrigations, and ostomy care. Upon completion, students should be able to demonstrate skills necessary to qualify as a Nursing Assistant II with the North Carolina Board of Nursing.

### NAS 103 Home Health Care
Prerequisites: None
Corequisites: None
Component: None
This course covers basic health issues that affect clients in the home setting. Emphasis is placed on home safety, recognizing significant changes in the client’s condition, family dynamics, and use of home health care equipment. Upon completion, students should be able to identify care for clients at home.

### NET 110 Networking Concepts
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. This course is also available through the Virtual Learning Community (VLC).

### NET 125 Networking Basics
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED 070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
NET 126 Routing Basics
Prerequisites: Take NET 125 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

NET 175 Wireless Technology
Prerequisites: Take NET 110 or NET 125, Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the student to wireless technology and interoperability with different communication protocols. Topics include Wireless Application Protocol (WAP), Wireless Mark-up language (WML), link manager, service discovery protocol, transport layer and frequency band. Upon completion, students should be able to discuss in written and oral form protocols and procedures required for different wireless applications.

NET 191 Selected Topics in Networking Technology
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

NET 225 Routing & Switching I
Prerequisites: Take NET 126 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing & Switching II
Prerequisites: Take NET 225 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 260 Internet Dev & Support
Prerequisites: NET 110
Corequisites: None
Component: None
This course covers issues relating to the development and implementation of Internet related tools and services. Topics include Internet organization, site registration, e-mail servers, Web servers, Web page development, legal issues, firewalls, multimedia, TCP/IP, service providers, FTP, list servers, and gateways. Upon completion, students should be able to develop and support the Internet services needed within an organization.

NET 289 Networking Project
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: NET 226
Component: None
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NMT 110 Introduction to Nuclear Medicine
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an introduction to the field of nuclear medicine. Topics include overview of school, program, and profession; medical terminology and ethics; medical legal issues; general patient care and radiation safety practices; and departmental organization. Upon completion, students should be able to utilize various learning resources and demonstrate understanding of radiation safety standards and ethical, professional conduct.

NMT 126 Nuclear Physics
Prerequisites: NMT 110
Corequisites: None
Component: None
This course introduces the fundamental principles of the physics that underlie nuclear medicine. Topics include atomic structure, electromagnetic and particulate radiation, decay schemes, production of radionuclides with emphasis on radionuclide generators, and decay calculations. Upon completion, students should be able to demonstrate an understanding of the physical concepts covered in the course.

NMT 132 Overview-Clinical Nuc Med
Prerequisites: NMT 110
Corequisites: NMT 212
Component: None
This course is designed to familiarize students with the clinical practice of nuclear medicine. Emphasis is placed on the routine clinical procedures, radiopharmaceuticals and dosage, equipment manipulation, and basic patient care. Upon completion, students should be able to demonstrate integration of the principles covered in the classroom with the clinical experience.

NMT 134 Nuclear Pharmacy
Prerequisites: NMT 110
Corequisites: None
Component: None
This course covers the formulation and application of radiopharmaceuticals. Topics include the preparation, handling, disposition, and quality control of clinically useful radiopharmaceuticals. Upon completion, students should be able to discuss the appropriate use and disposition of radiopharmaceuticals currently used in clinical nuclear medicine.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radiopharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclides. Upon completion, students should be able to demonstrate performance of the procedures covered in the course.

NMT 212 Proc for Nuclear Med I
Prerequisites: NMT 132
Corequisites: None
Component: None
This course begins the in-depth study of clinical procedures performed by nuclear medicine technologists. Emphasis is placed on principles related to the procedures presented in the course. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures presented in the course.

NMT 215 Non-Imaging Instrumentation
Prerequisites: NMT 132
Corequisites: None
Component: None
This course covers the proper operation of various types of non-imaging equipment used in nuclear medicine. Emphasis is placed on principles of radiation detection, quality control procedures, various counting problems, and machine-specific operating procedures. Upon completion, students should be able to demonstrate the proper use of the devices discussed in the course.

NMT 217 Radiobiology and Protection
Prerequisites: NMT 132
Corequisites: None
Component: None
This course is designed to provide a comprehensive understanding of the principles related to the procedures presented in the course. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures presented in the course.

NMT 221 NMT Clinical Practice II
Prerequisites: NMT 132
Corequisites: None
Component: None
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include the methods of dose administration, data acquisition parameters, computer use, and data patterns consistent with normal and abnormal pathological states. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures discussed in the course.

NMT 222 Proc for Nuclear Med II
Prerequisites: NMT 132
Corequisites: None
Component: None
This course concludes the in-depth study of clinical procedures performed in nuclear medicine. Topics include method of dose administration, data acquisition parameters, computer use, and data patterns consistent with normal and abnormal pathological states. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures discussed in the course.

Class Lab Clinic Credit

NMT 289 Nuc Med Tech Topics  02 03 00 03
NOS 110 Operating System Concepts  02 03 00 03
NOS 120 Linux/UNIX Single User  02 02 00 03
NOS 130 Windows Single User  02 02 00 03
NOS 210 Linux/UNIX Admin I  02 02 00 03

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment.

NOS 240 Novell Admin I 02 02 00 03
Prerequisites: NOS 110
Corequisites: None
Component: None
This course will introduce students to the Novell network operating system. Topics include installing and using NetWare, managing printing, storage space, implementing internet services, and managing security. Upon completion, students should have basic knowledge about implementing NetWare and using its management tools.

NPO 110 Intro to Nonprofit Mgmt 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the nonprofit sector and its role in society. Topics include growth and development, organizational structure, and working with diverse communities. Upon completion, students should be able to demonstrate an understanding of the nonprofit sector and its impact on communities.

NPO 111 Governance & Leadership 03 00 00 03
Prerequisites: Take NPO 110 and DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces leadership roles and their relation to governance issues in nonprofit organizations. Topics include board interactions with staff, shared governance, and stewardship. Upon completion, students should be able to identify and assess the leader’s role in bringing about significant organizational and societal changes through non-profit organizations.

NPO 120 Fundraising/Stewardship 03 00 00 03
Prerequisites: Take DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the principles, strategies, and practice of fundraising and stewardship in nonprofit organizations. Topics include private/public donor cultivation and research, donor database management, special events, planned giving, annual and capital campaigns and software and tracking mechanisms. Upon completion, students should be able to assist in the development of relationship-building strategies and funding plans.

NUR 101 Practical Nursing I 07 06 06 11
Prerequisites: Departmental Approval
Corequisites: BIO 163 and NUR 102AA
Component: None
This course introduces concepts as related to the practical nurse’s caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. This course must be completed satisfactorily to progress to Nursing 102B and Nursing 103A. This course is intended for certificate and diploma programs.

NUR 102AA Practical Nursing II 02 00 00 02
Prerequisites: Departmental Approval
Corequisites: BIO 163 and NUR 101
Component: None
This course includes more advanced concepts as related to the practical nurse’s caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on vocational and personal adjustments inherent in the development of practical nurses which must be completed satisfactorily to progress to Nursing 102B and Nursing 103A. This course is intended for certificate and diploma programs.

NUR 102BB Practical Nursing II 06 00 12 10
Prerequisites: NUR 101 and NUR 102AA
Corequisites: CIS 113, NUR 103AA and PSY 110
Component: None
This course includes more advanced concepts as related to the practical nurse’s caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on nursing care of patients with illnesses and disorders of various body systems, child-bearing family and the pediatric patient which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

NUR 103AA Practical Nursing III 02 00 03 03
Prerequisites: NUR 101 and NUR 102AA
Corequisites: CIS 113, NUR 102BB and PSY 110
Component: None
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on reproductive diseases, mental health disorders and parenteral medication administration which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

NUR 103BB Practical Nursing III 04 00 09 07
Prerequisites: NUR 102BB and NUR 103AA
Corequisites: ENG 111
Component: None
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on nursing care of patients with disorders involving various body systems which must be completed satisfactorily to successfully complete the program. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
NUR 110 Nursing I  
Prerequisites: Departmental Approval  
Corequisites: BIO 168, PSY 150 and ACA 111  
Component: None  
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on introducing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations in health.

NUR 111 Intro to Health Concepts  
Prerequisites: None  
Corequisites: BIO 168, ENG 111, PSY 150 & ACA 111 or ACA 115  
Component: None  
This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112 Health-Illness Concepts  
Prerequisites: NUR 111  
Corequisites: BIO-169 and PSY-241  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113 Family Health Concepts  
Prerequisites: NUR 111, NUR-112, & NUR-114  
Corequisites: CIS 110 or CIS 113  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114 Holistic Health Concepts  
Prerequisites: NUR 111  
Corequisites: BIO-169 and PSY-241  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 120 Nursing II  
Prerequisites: NUR 110  
Corequisites: BIO 169 and PSY 241  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on developing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to participate in the delivery of nursing care for individuals with common alterations in health. The focus will be on integumentary, immune, musculoskeletal, gastrointestinal and endocrine functioning.

NUR 130 Nursing III  
Prerequisites: NUR 120  
Corequisites: CIS 113  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on expanding the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to deliver nursing care to individuals with common alterations in health. The focus will be on reproductive health, intrapartal, newborn, and postpartal nursing.

NUR 189 Nursing Transition  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course is designed to assist the licensed practical nurse in transition to the role of the associate degree nurse. Topics include the role of the registered nurse, nursing process, homeostasis, and validation of selected nursing skills and physical assessment. Upon completion, students should be able to articulate into the ADN program at the level of the generic student.

NUR 210 Nursing IV  
Prerequisites: NUR 130  
Corequisites: BIO 275 and ENG 111  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on using collaboration as a provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to modify nursing care for individuals with common alterations in health. The focus will be on psychiatric concepts, community based approaches, renal, cardiovascular, and respiratory functioning.

NUR 211 Health Care Concepts  
Prerequisites: NUR-111, NUR-112, NUR-113 and NUR-114  
Corequisites: None  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 212 Health System Concepts  
Prerequisites: NUR-111  
Corequisites: NUR-211  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
### NUR 213 Complex Health Concepts

**Prerequisites:** NUR 111, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212  
**Corequisites:** COM-231 or ENG-115  
**Component:** None

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

### NUR 214 Nsg Transition Concepts

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None

This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

### NUR 220 Nursing V

**Prerequisites:** NUR 210  
**Corequisites:** ENG 115 or COM 231 and Humanities/Fine Arts Elective  
**Component:** None

This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on the nurse’s role as an independent provider and manager of care for a group of individuals and member of a multi-disciplinary team. Upon completion, students should be able to provide comprehensive nursing care to a group of individuals with common complex health alterations. The focus will be on neurologic and neurosensory functioning, mental health, multisystem trauma and leadership skills.

### NUR 221 LPN to ADN Concepts I

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None

This course is designed for the LPN to ADN student to explore the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, thermoregulation, oxygenation, tissue integrity, infection, perfusion, mobility, reproduction, sexuality, health-wellness-illness, professional behaviors, accountability, advocacy, and collaboration. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

### NUR 222 LPN to ADN Concepts II

**Prerequisites:** Take NUR 221  
**Corequisites:** None  
**Component:** None

This course is designed for the LPN to ADN student to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, thermoregulation, oxygenation, tissue integrity, infection, perfusion, mobility, reproduction, sexuality, health-wellness-illness, professional behaviors, accountability, advocacy, and collaboration. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

### OMT 110 Nutrition

**Prerequisites:** Take DMA-030 and DRE-097 or ENG-080, MAT 060 and RED-080 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. This course is also available through the Virtual Learning Community (VLC).

### OMT 112 Materials Management

**Prerequisites:** Take DMA 050 and DRE 098 or ENG 090, MAT 070 and RED 090 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course covers the basic principles of materials management. Emphasis is placed on the planning, procurement, movement, and storage of materials. Upon completion, students should be able to demonstrate an understanding of the operations management functions.

### OMT 114 Introduction to Operations Management

**Prerequisites:** Take DMA 050 and DRE 098 or ENG 090, MAT 070, and RED 090 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course provides an overview of the operations management field. Topics include production and operations planning, materials management, environmental health and safety, and quality management. Upon completion, students should be able to demonstrate an understanding of the operations management functions.

### OMT 135 Motivation and Evaluation

**Prerequisites:** Take DRE 097 or ENG 080 and RED 080 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course covers basic principles of nutrition and their relationship to health and well-being. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
### OST 141 Medical Terms I-Medical Office

**Prerequisites:** Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

### OST 142 Medical Terms II-Medical Office

**Prerequisites:** Take OST 141 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

### OST 143 Dental Office Terminology

**Prerequisites:** Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces prefixes, suffixes, and word roots used in the dental office. Topics include dental anatomy and oral structures, tooth origin and formation, examination and prevention, tooth restorations, radiography, pain management and pharmacology. Upon completion, students should be able to pronounce, spell, and define dental terms as related to a dental practice.

### OST 147 Dental Billing and Coding

**Prerequisites:** Take OST 143 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces Current Procedural Terminology, International Classification of Diseases, and Healthcare Common Procedural Coding System coding as they apply to dental insurance and billing. Topics include Current Dental Terminology-2 Dental Codes, office collections, American Dental Association Dental Claim Form, and insurance coverage. Upon completion, students should be able to describe the steps of the total billing/collections cycle for a dental office.

### OST 148 Medical Coding Billing & Insurance

**Prerequisites:** Take OST 141 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. This course is also available through the Virtual Learning Community (VLC).

### OST 149 Medical Legal Issues

**Prerequisites:** Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. This course is also available through the Virtual Learning Community (VLC).

### OST 153 Office Finance Solutions

**Prerequisites:** OST 122  
**Corequisites:** None  
**Component:** None  
This course introduces basic bookkeeping concepts. Topics include entering data in accounts payable and receivable, keeping petty cash records, maintaining inventory, reconciling bank statements, running payroll, and generating simple financial reports. Upon completion, students should be able to demonstrate competence in the entry and manipulation of data to provide financial solutions for the office.

### OST 162 Executive Terminology

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course is designed to increase and improve proficiency in word usage. Topics include root words, prefixes, suffixes, homonyms, synonyms, and specialized vocabularies. Upon completion, students should be able to use acquired vocabulary skills in the global workplace.

### OST 164 Text Editing Applications

**Prerequisites:** ENG 111  
**Corequisites:** None  
**Component:** None  
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. This course is also available through the Virtual Learning Community (VLC).

### OST 165 Adv Text Editing Apps

**Prerequisites:** OST 134 and OST 164  
**Corequisites:** None  
**Component:** None  
This course is designed to develop proficiency in advanced editing skills needed in the office environment. Emphasis is placed on the application of creating effective electronic office documents. Upon completion, students should be able to apply advanced editing skills to compose text. This course emphasizes the development of skills in composing and editing business communications that will exemplify the students ability to communicate effectively in an office environment.

### OST 181 Introduction to Office Systems

**Prerequisites:** OST 130  
**Corequisites:** None  
**Component:** None  
This course introduces the skills and abilities needed in today’s office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today’s offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/areas_of_study/default.asp](http://www.faytechcc.edu/areas_of_study/default.asp).
OST 184 Records Management  02 02 00 03
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).

OST 223 Admin Office Transcript I  02 02 00 03
Prerequisites: OST 164 and OST 134 or OST 136
Corequisites: None
Component: None
This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents.

OST 224 Admin. Ofc Transcript II  01 02 00 02
Prerequisites: OST 223
Corequisites: None
Component: None
This course provides instruction and practice in advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents.

OST 233 Office Publications Design  02 02 00 03
Prerequisites: OST 134, OST 136, and OST 137
Corequisites: None
Component: None
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

OST 236 Advanced Word/ Information Processing  02 02 00 03
Prerequisites: OST 136
Corequisites: None
Component: None
This course develops proficiency in the utilization of advanced word/information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. This course is also available through the Virtual Learning Community (VLC).

OST 241 Medical Office Transcription I  01 02 00 02
Prerequisites: OST 142, OST 164 and MED 121 or OST 141
Corequisites: None
Component: None
This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.

OST 242 Medical Office Transcription II  01 02 00 02
Prerequisites: Take OST 241 and DRE 096 or ENG 070 and RED 070 or Placement Test Equivalent
Corequisites: None
Component: None
This course continues building transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription and text editing, efficient use of reference materials, increasing transcription speed and accuracy, and improving understanding of medical terminology. Upon completion, students should be able to display competency in accurately transcribing medical documents.

OST 243 Medical Office Simulation  02 02 00 03
Prerequisites: Take OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: OST 285
Component: None
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.

OST 244 Medical Document Production  01 02 00 02
Prerequisites: Take OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides production-level skill development in processing medical documents. Emphasis is placed on producing mailable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.

OST 245 Dental Office Management  02 02 00 03
Prerequisites: Take OST 147 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the organizational structures, professional issues, and major functions of management in a dental office. Topics include communication skills, telephone techniques, patient relations, clinical records, bookkeeping procedures, office equipment, and inventory management. Upon completion, students should be able to apply the concepts of management within a dental office.

OST 246 Dental Office Simulation  02 02 00 03
Prerequisites: Take OST 147 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces dental software systems used to process information in the dental office. Topics include electronic information entering, storing, and retrieving in the dental office billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections in a dental office software system.

OST 247 Procedure Coding  01 02 00 02
Prerequisites: Take OST 141 AND OST 148 OR HMT 210. Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility.

Refer to the FTCC website for the most current information. Go to www.faytechec.edu/areas_of_study/default.asp.
OST 248 Diagnostic Coding  01 02 00 02
Prerequisites: OST 141 AND OST 148 OR HMT 210. Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility.

OST 249 CPC Certification  03 02 00 04
Prerequisites: Take OST 247, OST 248, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides instruction that will prepare students to sit for the American Association of Professional Coders (AAPC) CPC Exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for the AAPC CPC Exam.

OST 281 Emerg Issues in Med Ofc  03 00 00 03
Prerequisites: Take OST 130, OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a comprehensive discussion of topics familiar to the health care setting. Topics include emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of current medical office procedures and treatments.

OST 284 Emerging Technologies  01 02 00 02
Prerequisites: OST 134, OST 137, and OST 164
Corequisites: None
Component: None
This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional.

OST 285 Adv Emerg Issu in Med Ofc  03 00 00 03
Prerequisites: Take OST 281 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an advanced comprehensive discussion of topics familiar to the healthcare setting. Topics include advanced emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of advanced medical office procedures and treatments.

OST 286 Professional Development  03 00 00 03
Prerequisites: Take OST 134 and DRE 097 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

OST 289 Office Systems Management  02 02 00 03
Prerequisites: OST 134, OST 136, OST 137, and OST 164
Corequisites: None

Component: None
This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment.

PAD 151 Introduction to Public Administration  03 00 00 03
Prerequisites: Take DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course includes an overview of the role of the public administrator in government and an examination of the development and implementation of public policy. Topics include public personnel administration and management, decision making, public affairs, ethics, organizational theories, budgetary functions within governmental agencies, and other governmental issues. Upon completion, students should be able to explain the functions of government in society and in the lives of people composing that society. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 152 Ethics in Government  03 00 00 03
Prerequisites: RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the ethical issues and problems within the public administration field. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator's role. Upon completion, students should be able to understand the moral dimensions of public administrative decision making. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 251 Public Finance & Budgeting  03 00 00 03
Prerequisites: Take DMA 030 and DRE 098 or ENG 090, MAT 060, and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the public finance and budgeting processes used in the allocation of public resources to meet differing public interests. Topics include the political environment, government expenditure policies and understand the role of budgeting in executing governmental policy. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 252 Public Policy Analysis  03 00 00 03
Prerequisites: Take DRE 098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a study of methods and techniques used to determine the effectiveness of public programs. Emphasis is placed on the concept of ecology and environmental impact, informal groups and information networks, and the relationship between public and private sectors. Upon completion, students should be able to analyze case studies with the use of political analysis techniques. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.
This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 115 Step Aerobics I**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the fundamentals of step aerobics. Emphasis is placed on a wide variety of choreographed step patterns; cardiovascular fitness; and upper body, floor, and abdominal exercises. Upon completion, students should be able to participate in basic step aerobics. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 116 Step Aerobics II**
- Prerequisites: PED 115
- Corequisites: None
- Component: None
- This course provides a continuation of step aerobics. Emphasis is placed on a wide variety of choreographed step patterns; cardiovascular fitness; and upper body, abdominal, and floor exercises. Upon completion, students should be able to participate in and design a step aerobics routine. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 117 Weight Training I**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 118 Weight Training II**
- Prerequisites: PED 117
- Corequisites: None
- Component: None
- This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 119 Circuit Training**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 133 Racquetball-Intermediate**
Prerequisites: PED 132
Corequisites: None
Component: None

This course covers more advanced racquetball techniques. Emphasis is placed on refining basic skills, performing advanced shots, and playing strategies for singles and doubles. Upon completion, students should be able to play competitive racquetball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 135 Fencing-Beginning**
Prerequisites: None
Corequisites: None
Component: None

This course introduces the fundamentals of fencing. Emphasis is placed on grip, stance, and establishment of good techniques for attacks and parries. Upon completion, students should be able to perform elementary foil techniques and demonstrate the basic skills of fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 136 Fencing-Intermediate**
Prerequisites: PED 135
Corequisites: None
Component: None

This course covers more advanced fencing techniques. Topics include advanced foil techniques and elementary sabre techniques. Upon completion, students should be able to participate in competitive fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 137 Badminton**
Prerequisites: None
Corequisites: None
Component: None

This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 138 Archery**
Prerequisites: None
Corequisites: None
Component: None

This course introduces basic archery safety and skills. Topics include proper techniques of stance, bracing, drawing, and releasing as well as terminology and scoring. Upon completion, students should be able to participate safely in target archery. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 139 Bowling-Beginning**
Prerequisites: None
Corequisites: None
Component: None

This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 140 Bowling-Intermediate**
Prerequisites: PED 139
Corequisites: None
Component: None

This course covers more advanced bowling techniques. Emphasis is placed on refining basic skills and performing advanced shots, spins, pace, and strategy. Upon completion, students should be able to participate in competitive bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 141 Tumbling and Gymnastics**
Prerequisites: None
Corequisites: None
Component: None

This course introduces basic tumbling and gymnastic techniques. Topics include the safe use of gymnastic apparatus such as uneven bars, parallel bars, pommel horse, and balance beam. Upon completion, students should be able to demonstrate skills on selected pieces of apparatus. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 142 Lifetime Sports**
Prerequisites: None
Corequisites: None
Component: None

This course is designed to give an overview of a variety of sports activities. Emphasis is placed on the skills and rules necessary to participate in a variety of lifetime sports. Upon completion, students should be able to demonstrate an awareness of the importance of participating in lifetime sports activities. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 143 Volleyball-Beginning**
Prerequisites: None
Corequisites: None
Component: None

This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to play competitive volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 144 Volleyball-Intermediate**
Prerequisites: PED 143
Corequisites: None
Component: None

This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 145 Basketball-Beginning**
Prerequisites: None
Corequisites: None
Component: None

This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
PED 146 Basketball-Intermediate
Prerequisites: PED 145
Corequisites: None
Component: None
This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 147 Soccer
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of soccer. Emphasis is placed on rules, strategies, and fundamental skills. Upon completion, students should be able to participate in recreational soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 148 Softball
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 149 Flag Football
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals and rules of flag football. Emphasis is placed on proper techniques and strategies for playing flag football. Upon completion, students should be able to participate in recreational flag football. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 150 Baseball/Beginning
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of baseball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 151 Baseball/Intermediate
Prerequisites: PED 150
Corequisites: None
Component: None
This course covers more advanced baseball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play baseball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 152 Swimming-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 153 Swimming-Intermediate
Prerequisites: PED 152
Corequisites: None
Component: None
This course is designed for those who have mastered basic swimming skills. Emphasis is placed on refining basic skills and learning new swim strokes. Upon completion, students should be able to demonstrate the four basic strokes, the scissors kick, the underwater swim, and other related skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 154 Swimming for Fitness
Prerequisites: PED 152
Corequisites: None
Component: None
This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 155 Water Aerobics
Prerequisites: None
Corequisites: None
Component: None
This course introduces rhythmic aerobic activities performed in water. Emphasis is placed on increasing cardiovascular fitness levels, muscular strength, muscular endurance, and flexibility. Upon completion, students should be able to participate in an individually-paced exercise program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 156 Scuba Diving
Prerequisites: PED 153
Corequisites: None
Component: None
This course provides basic instruction in fundamental skills and safety procedures for scuba diving. Emphasis is placed on the history, theory, and principles of diving; development of diving skills; safety; and care and maintenance of equipment. Upon completion, students should be able to demonstrate skills, knowledge, and techniques of scuba diving in preparation for diver certification. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 158 Whitewater Rafting
Prerequisites: PED 152
Corequisites: None
Component: None
This course covers the skills necessary to safely participate in whitewater rafting. Topics include raft guiding, paddling skills, scouting rapids, and rigging boats. Upon completion, students should be able to successfully complete a whitewater rafting experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 170 Backpacking
Prerequisites: None
Corequisites: None
Component: None
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 171 Nature Hiking
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 172 Outdoor Living
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction on how to equip and care for oneself in the outdoors. Topics include clothing, hygiene, trail ethics, and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 173 Rock Climbing
Prerequisites: None
Corequisites: None
Component: None
This course teaches the fundamental skills and safety of rock climbing. Topics include rock climbing, bouldering, rappelling, the correct method of belaying for climbing and rappelling, and knowledge of equipment. Upon completion, students should be able to demonstrate strong and skillful techniques in climbing and rappelling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 175 Horseback Riding I
Prerequisites: None
Corequisites: None
Component: None
This course introduces beginning and non-riders to recreational horseback riding. Topics include riding skills, equipment, handling of horses, mounting, care of the horse, and coordinated horse-rider balance. Upon completion, students should be able to demonstrate riding, safety, and horse management skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course includes additional variations and forms of square dancing. Component: None

Prerequisites: PED 184
PED 185 Square Dancing II
This course includes additional variations and forms of square dancing. Topics include such routines as turns, grand swing, triple trades, wheel and deal, T-cup chain, and arkly change. Upon completion, students should be able to demonstrate and perform country and western square dance routines. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 186 Dancing for Fitness
This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 187 Social Dance-Beginning
This course introduces the fundamentals of popular social dances. Topics include rhythm, appearance, and routine sequence. Upon completion, students should be able to perform more difficult steps and types of dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 188 Social Dance-Intermediate
This course covers advanced fundamentals of social dancing. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 189 New Games
This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 210 Team Sports
This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on playing for pleasure rather than for competitive purposes. Upon completion, students should be able to participate and lead others in participating in non-competitive games. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 211 Pilates I
This course provides an introduction to the pilates method of body

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
conditioning exercise. Topics include instruction in beginning and intermediate pilates exercises using a mat or equipment, history of the pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body's core muscles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

PED 218 Pilates II 00 02 00 01
Prerequisites: PED 217
Corequisites: None
Component: None
This course provides continued instruction in the pilates method of body conditioning exercise. Topics include instruction in intermediate and advanced pilates exercises using a mat or equipment, relevant anatomy and physiology, and further discussion of related concepts. Upon completion, students should be able to perform intermediate and advanced exercises, and possess the autonomy to maintain their own personal pilates practice. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

PED 220 Exercise for Physically Challenged 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course is designed to improve physical strength, endurance, and range of motion while focusing on individual needs. Emphasis is placed on exercises which are designed and adapted to serve those with special needs. Upon completion, students should be able to show improved physical fitness, body awareness, and an appreciation for their physical well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 240 Advanced PE Skills 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides those who have mastered skills in a particular physical education area the opportunity to assist with instruction. Emphasis is placed on methods of instruction, class organization, and progressive skill development. Upon completion, students should be able to design, develop, and implement a unit lesson plan for a skill they have mastered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 250 Officiating/Basketball/Volleyball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in basketball and volleyball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in basketball and volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 251 Officiating/Football/Soccer 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in football and soccer. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in football and soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 252 Officiating/Baseball/Softball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 254 Coaching Basketball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 255 Coaching Football 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching football. Emphasis is placed on rules, game strategies, and selected techniques of coaching football. Upon completion, students should be able to demonstrate competent coaching skills in football. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 256 Coaching Baseball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 257 Coaching Soccer 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching soccer. Emphasis is placed on rules, game strategies, and selected techniques of coaching soccer. Upon completion, students should be able to demonstrate competent coaching skills in soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.

<td>PED 259 Prevention &amp; Care of Athletic Injuries</td>
<td>This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.</td>
<td>01</td>
<td>02</td>
<td>00</td>
<td>02</td>
</tr>
<tr>
<td>PED 260 Lifeguard Training</td>
<td>This course covers the skills, knowledge, and techniques of lifesaving and lifeguarding. Topics include identifying and minimizing aquatic hazards, recognizing and effectively rescuing people in distress, and developing safety skills. Upon completion, students should be able to demonstrate skills, knowledge, and techniques of lifesaving and lifeguarding to pass American Red Cross lifeguarding certification. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.</td>
<td>01</td>
<td>02</td>
<td>00</td>
<td>02</td>
</tr>
<tr>
<td>PET 110 Introduction to PET</td>
<td>This course introduces the students to the Positron Emission Tomography profession. Topics include the history of the profession and the role of the PET technologist, medical ethics and legal issues, and department organizations. Upon completion, students should be able to demonstrate a basic understanding of the PET profession through computerized exams and projects.</td>
<td>02</td>
<td>00</td>
<td>00</td>
<td>02</td>
</tr>
<tr>
<td>PET 112 PET Procedures</td>
<td>This course covers the procedures of Positron Emission Tomography. Topics include all relevant procedures related to PET imaging with an emphasis placed on oncology, neurology and cardiology. Upon completion, students should be able to demonstrate competence in PET procedures through computerized exams and projects.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHI 210 History of Philosophy</td>
<td>This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHI 215 Philosophical Issues</td>
<td>This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHI 220 Western Philosophy I</td>
<td>This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHI 221 Western Philosophy II</td>
<td>This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHI 230 Introduction to Logic</td>
<td>This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHI 240 Introduction to Ethics</td>
<td>This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>
</tr>
<tr>
<td>PHM 110 Introduction to Pharmacy</td>
<td>This course introduces fundamental issues in pharmacy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</td>
<td>03</td>
<td>00</td>
<td>00</td>
<td>03</td>

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course introduces pharmacy practice and the technician's role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, drug delivery systems, law and ethics, prescription and medication orders, and the health care system. Upon completion, students should be able to explain the role of pharmacy technicians, read and interpret drug orders, describe quality assurance, and utilize pharmacy references.

**PHM 111 Pharmacy Practice I**  
Prerequisites: Departmental Approval  
Corequisites: PHM 110 and PHM 115  
Component: None  
This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, out-patient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.

**PHM 115 Pharmacy Calculations**  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course provides an introduction to the metric, apothecary, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order.

**PHM 115A Pharmacy Calculations Lab**  
Prerequisites: Department Approval  
Corequisites: None  
Component: None  
This course provides an opportunity to practice and perform calculations encountered in pharmacy practice. Emphasis is placed on ratio and proportion, dosage calculations, percentage, reduction/enlargement formulas, aliquots, flow rates, and specific gravity/density. Upon completion, students should be able to perform the calculations required to properly prepare a medication order.

**PHM 118 Sterile Products**  
Prerequisites: PHM 110, PHM 111 and PHM 115  
Corequisites: PHM 120, PHM 136, and PHM 155  
Component: None  
This course provides an introduction to intravenous admixture preparation and other sterile products, including total parenteral nutrition and chemotherapy. Topics include aseptic techniques; facilities, equipment, and supplies utilized in admixture preparation; incompatibility and stability; laminar flow hoods; immunizations and irrigation solutions; and quality assurance. Upon completion, students should be able to describe and demonstrate the steps involved in preparation of intermittent and continuous infusions, total parenteral nutrition, and chemotherapy.

**PHM 120 Pharmacology I**  
Prerequisites: Corequisites: None  
Component: None  
This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include nutritional products, blood modifiers, hormones, diuretics, cardiovascular agents, respiratory drugs, and gastrointestinal agents. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

**PHM 125 Pharmacology II**  
Prerequisites: PHM 120  
Corequisites: Component: None  
This course provides a continuation of the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include autonomic and central nervous system agents, anti-inflammatory agents, and anti-infective drugs. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

**PHM 136 Pharmacy Clinical**  
Prerequisites: PHM 110, PHM 111 and PHM 115  
Corequisites: PHM 118, PHM 120 and PHM 155  
Component: None  
This course provides an opportunity to work in pharmacy setting under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 138 Pharmacy Clinical**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to work in pharmacy setting under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 140 Trends in Pharmacy**  
Prerequisites: PHM 136  
Corequisites: PHM 125  
Component: None  
This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

**PHM 150 Hospital Pharmacy**  
Prerequisites: None  
Corequisites: PHM-118  
Component: None  
This course provides an in-depth study of hospital pharmacy practice. Topics include hospital organizational structure, committee functions, utilization of reference works, purchasing and inventory control, drug delivery systems, and intravenous admixture preparation. Upon completion, students should be able to explain hospital organization/committee functions, interpret and enter patient orders, fill unit-dose cassettes, and prepare intravenous admixtures.

**PHM 155 Community Pharmacy**  
Prerequisites: PHM 110, PHM 111 and PHM 115  
Corequisites: PHM 118, PHM 120, and PHM 136  
Component: None  
This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

This course is a survey of the forces that impact the earth. Topics include geology, oceanography, and meteorology. Upon completion, students should be able to explain and identify the forces within, on, and around the earth as they influence the earth’s dynamics. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

PHS 140 Weather and Climate
Prerequisites: None
Corequisites: None
Component: None
This course introduces the nature, origin, processes, and dynamics of the earth’s atmospheric environment. Topics include general weather patterns, climate, and ecological influences on the atmosphere. Upon completion, students should be able to demonstrate an understanding of weather formation, precipitation, storm patterns, and processes of atmospheric pollution. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PHY 110 Conceptual Physics
Prerequisites: None
Corequisites: None
Component: None
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 110A Conceptual Physics Lab
Prerequisites: None
Corequisites: PHY 110
Component: None
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 121A Applied Physics I
Prerequisites: None
Corequisites: None
Component: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Topics include systems of units, problem-solving methods, graphical analyses, vectors, motion, forces, Newton’s laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

PHY 122A Applied Physics II
Prerequisites: None
Corequisites: None
Component: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Emphasis is placed on systems of units, problem-solving methods, graphical analysis, static electricity, AC and DC circuits, magnetism, transformers, AC and DC motors, and generators. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
PHY 125 Health Sciences Physics  03 02 00 04
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces fundamental physical principles as they apply to health technologies. Topics include motion, force, work, power, simple machines, and other topics as required by the students’ area of study. Upon completion, students should be able to demonstrate an understanding of the fundamental principles covered as they relate to practical applications in the health sciences.

PHY 131 Physics-Mechanics  03 02 00 04
Prerequisites:  MAT 121, MAT 161, MAT 171 OR MAT 175
Corequisites:  None
Component:  None
This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton’s laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

PHY 132 Physics-Electricity & Magnetism  03 02 00 04
Prerequisites:  PHY 131
Corequisites:  None
Component:  None
This algebra/trigonometry-based course is a study of fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, waves, electricity, magnetism, circuits, transformers, motors, and generators. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

PHY 151 College Physics I  03 02 00 04
Prerequisites:  MAT 161, MAT 171 OR MAT 175
Corequisites:  None
Component:  None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PHY 152 College Physics II  03 02 00 04
Prerequisites:  PHY 151
Corequisites:  None
Component:  None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 153 Modern Topics in Physics  03 02 00 04
Prerequisites:  PHY 151
Corequisites:  None
Component:  None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include quantum theory, and special relativity. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PHY 251 General Physics I  03 03 00 04
Prerequisites:  MAT 271
Corequisites:  None
Component:  None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 252 General Physics II  03 03 00 04
Prerequisites:  MAT 272 and PHY 251
Corequisites:  None
Component:  None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

PHY 253 Modern Physics  03 03 00 04
Prerequisites:  PHY 251
Corequisites:  None
Component:  None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include atomic structure, nuclear processes, and artificial radioactivity, basic quantum theory, and special relativity. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PLU 110 Modern Plumbing  04 15 00 09
Prerequisites:  None
Corequisites:  None
Component:  PLU 110AA, PLU 110BB
This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements. Requirements.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
PLU 120 Plumbing Applications
Prerequisites: None
Corequisites: None
Component: None
This course covers general plumbing layout, fixtures, and water heaters. Topics include drainage, waste and vent pipes, water service and distribution, fixture installation, water heaters, and other related topics. Upon completion, students should be able to safely install common fixtures and systems in compliance with state and local building codes.

PLU 130 Plumbing Systems
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance and repair of plumbing lines and fixtures. Emphasis is placed on identifying and diagnosing problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system.

PLU 140 Introduction to Plumbing Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements for plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes.

PLU 150 Plumbing Diagrams
Prerequisites: PLU 110
Corequisites: None
Component: None
This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

POL 110 Introduction to Political Science
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

POL 120 American Government
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

POL 130 State & Local Government
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

POL 210 Comparative Government
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country’s historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations’ governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

POL 220 International Relations
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nations. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

POR 111 Elementary Portuguese I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Portuguese language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to understand basic Portuguese and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

POR 112 Elementary Portuguese II
Prerequisites: POR 111
Corequisites: None
Component: None
This course is a continuation of POR 111 focusing on the fundamental elements of the Portuguese language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Portuguese and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course covers the history and organization of the US Postal Service. Topics include postal service history, policies, philosophies, regulations, rules, and organization. Upon completion, students should be able to explain the history and organization of the US Postal Service.

This course covers in-plant support and customer services operations programs support. Topics include quality improvement, address management systems, transportation and networks, delivery services, mail processing, bar coding, and automation sort plans. Upon completion, students should be able to explain postal mechanization, machine distribution, operational planning, budgeting, and functional coordination with customer services.

This course covers information and procedures necessary to administer financial control of post offices. Topics include protecting funds and accountable paper, recording receipts and disbursements, verifying accountability, postal service reports, and controlling receipts and receipt forms. Upon completion, students should be able to explain postal revenue receipt and control, budgeting, financial accounting/reporting, time keeping, travel regulations, and administrative services.
PSY 118 Interpersonal Psychology
Prerequisites: None
Component: None
This course introduces concepts and guidelines of instructing exercise classes. Topics include program designs, working with special populations, and principles of teaching and monitoring physical activity. Upon completion, students should be able to demonstrate basic skills in instructing an exercise class and monitoring workout intensity.

PSY 210 Personal Training
Prerequisites: Take PSY 110 and PSY 111
Corequisites: None
Component: None
This course introduces the student to the aspects of personal (one-on-one) training. Topics include training systems, marketing, and program development. Upon completion, students should be able to demonstrate personal training techniques and competencies of same.

PSY 212 Exercise Programming
Prerequisites: Take PSY 110
Corequisites: None
Component: None
This course provides information about organizing, scheduling, and implementation of physical fitness programs. Topics include programming for various age groups, competitive activities and special events, and evaluating programs. Upon completion, students should be able to organize and implement exercise activities in a competent manner.

PSY 218 Lifestyle Chng & Wellness
Prerequisites: None
Corequisites: None
Component: None
This course introduces health risk appraisals and their application to lifestyle changes. Topics include nutrition, weight control, stress management, and the principles of exercise. Upon completion, students should be able to conduct health risk appraisals and apply behavior modification techniques in a fitness setting.

PSY 101 Applied Psychology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of psychology as they apply to daily life. Topics include perception, emotions, motivation, adjustment, behavior management, communication, and related topics that promote growth and development on the job and in one’s personal life. Upon completion, students should be able to apply the principles learned in this class to everyday living. This course is intended for certificate and diploma programs.

PSY 110 Life Span Development
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

PSY 118 Interpersonal Psychology
Prerequisites: None

Corequisites: None
Component: None
This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

PSY 141 Psychology of Death and Dying
Prerequisites: None
Corequisites: None
Component: None
This course presents psychological perspectives on death and dying. Topics include the culturally diverse aspects of death and the grieving process, adjustment mechanisms, interventions, and the psychological and ethical dimensions of death and dying. Upon completion, students should be able to demonstrate an understanding of the psychosocial aspects of death and dying.

PSY 150 General Psychology
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 211 Psychology of Adjustment
Prerequisites: PSY 150
Corequisites: None
Component: None
This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

PSY 231 Forensic Psychology
Prerequisites: PSY-150
Corequisites: None
Component: None
This course introduces students to concepts which unite psychology and the legal system. Topics include defining competency, insanity, involuntary commitment, as well as introducing forensic assessment techniques, such as interviewing process, specialized assessments, and collecting collateral information. Upon completion, students should be able to demonstrate knowledge in areas of forensic psychology: risk assessment, criminal competencies, insanity, psychopathology, and mentally disordered offenders. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 265 Behavioral Modification
Prerequisites: PSY 150
Corequisites: None
Component: None
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.

PSY 271 Sports Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 275 Health Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course covers the biopsychosocial dynamics of stress and the maintenance of good health. Topics include enhancing health and well-being, stress management, lifestyle choices and attitudes, the mind-body relationship, nutrition, exercise, and fitness. Upon completion, students should be able to demonstrate an understanding of the psychological factors related to health and well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 281 Abnormal Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PTA 110 Introduction to Physical Therapy
Prerequisites: Departmental Approval
Corequisites: PHY 125 and PTA 130
Component: None
This course introduces the field of physical therapy including the history and standards of practice for the physical therapist assistant and basic treatment techniques. Emphasis is placed on ethical and legal considerations, universal precautions, vital signs, documentation, basic patient preparation and treatment skills, and architectural barrier screening. Upon completion, students should be able to explain the role of the physical therapist assistant and demonstrate competence in basic techniques of patient care.

PTA 120 Functional Anatomy
Prerequisites: PTA 110
Corequisites: PTA 140 and PTA 150
Component: None
This course provides an organized study of anatomy and kinesiology. Emphasis is placed on the integration of structure and function of the skeletal, articular, muscular, nervous, and circulatory systems to include gait analysis. Upon completion, students should be able to describe the components and demonstrate function of these systems as applied to physical therapy.

PTA 130 Physical Therapy Procedures I
Prerequisites: None
Corequisites: PHY 125 and PTA 110
Component: None
This course includes concepts of injury and repair and documentation methods. Emphasis is placed on physiological effects, indications, contraindications, and skilled applications of selected therapeutic modalities. Upon completion, students should be able to safely, correctly, and effectively apply the emphasized techniques and procedures with understanding of correct documentation.

PTA 140 Therapeutic Exercise
Prerequisites: PTA 120 and PTA 150
Corequisites: None
This course covers muscle physiology, exercise concepts, testing, and applications to the spine and extremities. Topics include strength, endurance, flexibility, and exercise protocols and progressions. Upon completion, students should be able to demonstrate skill in applying therapeutic exercise principles for non-neurological conditions in a safe and appropriate manner.

PTA 150 Physical Therapy Procedures II
Prerequisites: PTA 130
Corequisites: PTA 120 and PTA 140
Component: None
This course is designed to include the theory and practice of additional therapeutic interventions. Topics include but are not limited to electrotherapy, burn and wound care, biofeedback, and selected data collection methods. Upon completion, students should be able to apply these modalities and treatment techniques effectively and safely and demonstrate knowledge of physiological principles involved.

PTA 160 Physical Therapy Procedures III
Prerequisites: PTA 150
Corequisites: PTA 170 and PTA 180AA
Component: None
This course introduces treatment and measurement techniques and discusses treatment programs for selected neuromusculoskeletal dysfunction and injuries. Topics include soft tissue and joint dysfunction, selected assessment techniques, and various exercise programs. Upon completion, students should be able to demonstrate the application of selected data collection methods and functional interventions.

PTA 170 Pathophysiology
Prerequisites: None
Corequisites: PTA 160 and PTA 180AA
Component: None
This course is a survey of basic pathology with emphasis on conditions most frequently observed and treated in physical therapy. Topics include etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain repair processes, categorize diseases, define pathology, identify organ/body systems involved, and discuss treatment and prognosis.

RAD 161 RAD Clinical Ed II  
00 00 15 05
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: RAD 112 and RAD 121
Component: None
This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 171 RAD Clinical Ed III  
00 00 12 04
Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161
Corequisites: RAD 122 and RAD 131
Component: None
This course provides experience in patient management specific to fluoroscopic and advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of gastrointestinal and urological studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 211 RAD Procedures III  
02 03 00 03
Prerequisites: RAD 122
Corequisites: All courses required: RAD 231, RAD 241 and RAD 251
Component: None
This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, sectional anatomy, and advanced imaging. Upon completion, students should be able to demonstrate an understanding of these areas.

RAD 231 Radiographic Physics II  
01 03 00 02
Prerequisites: RAD 171 or RAD 131
Corequisites: None
Component: None
This course provides advanced principles of radiation characteristics and production including digital imaging and Computed Tomography (CT). Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate an understanding of radiation characteristics and production.

RAD 241 Radiation Protection  
02 00 00 02
Prerequisites: All courses required: RAD 122, RAD 131 and RAD 171
Corequisites: All courses required: RAD 211, RAD 231 and RAD 251
Component: None
This course covers the principles of radiation protection and radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology.

RAD 245 Radiographic Analysis  
01 03 00 02
Prerequisites: RAD 211, RAD 231, RAD 241, and RAD 251
Corequisites: RAD 261
Component: None
This course provides an overview of image analysis and introduces methods of quality management. Topics include image evaluation, pathology, quality control, and quality assurance. Upon completion, students should be able to demonstrate a basic knowledge of image analysis and quality management.

RAD 251 RAD Clinical Ed IV  
00 00 21 07
Prerequisites: All courses required: AD 122, RAD 131, RAD 171
Corequisites: All courses required: RAD 211, RAD 231, RAD 241
Component: None
This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 261 RAD Clinical Ed V  
00 00 21 07
Prerequisites: RAD 251
Corequisites: All courses required: RAD 245, RAD 281
Component: None
This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 271 Radiography Capstone  
00 03 00 01
Prerequisites: RAD 211, RAD 231, RAD 241, RAD 251
Corequisites: RAD 245, RAD 261
Component: None
This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of any entry-level radiographer.

RAD 281 RAD Clinical Elective  
00 00 03 01
Prerequisites: Department Approval
Corequisites: All courses required: RAD 245, RAD 261
Component: None
This course provides advanced knowledge of clinical applications. Emphasis is placed on enhancing clinical skills. Upon completion, students should be able to successfully complete the clinical course objectives.

RCP 110 Introduction to Respiratory Care  
03 03 00 04
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces the respiratory care profession. Topics include the role of the respiratory care practitioner, medical gas administration, basic patient assessment, infection control, and medical terminology. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 111 Therapeutics/Diagnosics  
04 03 00 05
Prerequisites: RCP 110
Corequisites: None
Component: None
This course is a continuation of RCP 110. Emphasis is placed on entry-level therapeutic and diagnostic procedures used in respiratory care. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 113 RCP Pharmacology  
02 00 00 02
Prerequisites: None
Corequisites: RCP 110
Component: None
This course covers the drugs used in the treatment of cardiopulmonary diseases. Emphasis is placed on the uses, actions, indications, administration, and hazards of pharmacological agents. Upon completion, students should be able to demonstrate competence though written evaluations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

**RED 070 Essential Reading Skills**
Prerequisites: Placement
Corequisites: None
Component: None
This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.

**RED 080 Introduction to College Reading**
Prerequisites: RED 070 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context.

**RED 090 Improved College Reading**
Prerequisites: RED 080 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author’s purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material.

**REL 110 World Religions**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the world’s major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**REL 111 Eastern Religions**
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**RUS 111 Elementary Russian I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 211 Intermediate Russian I
Prerequisites: RUS 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 212 Intermediate Russian II
Prerequisites: RUS 211
Corequisites: None
Component: None
This course provides a continuation of RUS 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 221 Russian Conversation
Prerequisites: RUS 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken Russian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, to express ideas and opinions clearly, and to engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 281 Russian Lab 3
Prerequisites: RUS 182
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Russian language. Emphasis is placed on the progressive development of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 282 Russian Lab 4
Prerequisites: RUS 281
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Russian language. Emphasis is placed on the progressive development of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SEC 110 Security Concepts
Prerequisites: Take DMA 040 and RED 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SEC 150 Secure Communications
Prerequisites: Take SEC 110 and NET 110 or NET 125. Take DMA 040 and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPsec. Upon completion, students should be able to implement secure data transmission technologies.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
### SEC 160 Secure Admin I

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>02</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: Take SEC 110 and NET 110 or NET 125. Take DMA 040 and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent

Corequisites: None

Component: None

This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

### SEC 191 Selected Topics in Security

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>00</td>
<td>02</td>
<td>00</td>
<td>01</td>
</tr>
</tbody>
</table>

Prerequisites: None

Corequisites: None

Component: None

This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

### SEC 210 Intrusion Detection

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>02</td>
<td>00</td>

</tbody>
</table>

Prerequisites: SEC 160

Corequisites: None

Component: None

This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems.

### SEC 220 Defense-In-Depth

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>02</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: None

Corequisites: SEC 160

Component: None

This course introduces students to the concepts of defense in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

### SEC 240 Wireless Security

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>02</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: Take SEC 110, NET 175, DMA 040, and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent

Corequisites: None

Component: None

This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.

### SEC 289 Security Capstone Project

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>04</td>

</tr>
</tbody>
</table>

Prerequisites: Take SEC 220, DMA 040, and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent

Corequisites: None

Component: None

This course provides the student the opportunity to put into practice all the skills learned to this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

### SGD 111 Introduction to SGD

<table>
<thead>
<tr>

<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>03</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: Take DMA 040 or MAT 070

Corequisites: None

Component: None

This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

### SGD 112 SGD Design

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>03</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent

Corequisites: SGD 111

Component: None

This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

### SGD 113 SGD Programming

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>03</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

### SGD 114 3D Modeling

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>03</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: None

Corequisites: None

Component: None

This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

### SGD 116 Graphic Design Tools

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>02</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: None

Corequisites: None

Component: None

This course introduces students to computer-based graphic design tools and their use within the context of simulation and game design. Topics include texture creation, map creation, and introduction to advanced level graphic design techniques. Upon completion, students should be able to competently use and explain industry-standard graphic design software.

### SGD 122 SG Database Programming

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clinic</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>02</td>
<td>03</td>
<td>00</td>
<td>03</td>
</tr>
</tbody>
</table>

Prerequisites: None

Corequisites: None

Component: None

This course covers the creation and application of databases for simulation and game development. Emphasis is placed on various database and software development kits. Upon completion, students should be able to apply their knowledge of databases to the creation of simulations and games.

---

SGD 125 SG Artificial Intellig
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces the artificial intelligence concepts related to simulation and game development. Emphasis is placed on expert systems. Upon completion, students should be able to describe the basic concepts and procedures related to the development of artificial intelligence systems used in simulations and games.

SGD 158 SGD Business Management
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developer relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 159 SGD Production Management
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces the techniques and methods used in interactive game production and how to manage a project. Emphasis is placed on scheduling, production plans, marketing and budgeting. Upon completion, students should be able to manage a team, track production, and understand the process of project management.

SGD 161 SG Animation
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces the fundamental principles of animation used in simulation and game development. Emphasis is placed on a historical survey of animation, aspects of the animation process and animation techniques. Upon completion, students should be able to produce character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 162 SG 3D Animation
Prerequisites:  SGD 114
Corequisites:  None
Component:  None
This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on a historical survey of 3D animation, aspects of the 3D animation process and 3D animation techniques. Upon completion, students should be able to produce 3D character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 163 SG Documentation
Prerequisites:  None
Corequisites:  SGD 212
Component:  None
This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

SGD 164 SG Audio/Video
Prerequisites:  None
Corequisites:  None
This course introduces the methods used to produce documents for any simulation or game. Upon completion, students should be able to produce and edit audio and video for simulations and games.

SGD 168 Mobile SG Programming I
Prerequisites:  SGD 113
Corequisites:  None
Component:  None
This course introduces the mobile simulation and game programming process. Topics include mobile simulation/game programming, performance tuning, animation, sound effects, music, and mobile networks. Upon completion, students should be able to apply simulation/game programming concepts to the creation of mobile simulations and games.

SGD 171 Flash SG Programming
Prerequisites:  SGD 113
Corequisites:  None
Component:  None
This course introduces the Flash programming environment for use in simulation and game development. Topics include timeline effects, extensibility layers, alias text, globalization tools, ActionScript and lingo programming. Upon completion, students should be able to create a simple simulation or game using Flash.

SGD 172 Virtual SG Environments
Prerequisites:  SGD 114 and CSC134, CSC151, CSC153 or SGD113
Component:  None
This course covers the use of virtual reality tools and techniques in simulation and game development. Emphasis is placed on acquiring the skills necessary to create scalable virtual characters and environments for use in simulations and games. Upon completion, students should be able to create a simple game or simulation in a virtual environment.

SGD 174 SG Level Design
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces the tools used to create levels for real-time simulations and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

SGD 181 Machinima
Prerequisites:  None
Corequisites:  None
Component:  None
This course covers machinima techniques in the simulation and game industry. Emphasis is placed on developing movies and animations within industry-standard game engines for simulations and games. Upon completion, students should be able to demonstrate a basic understanding of in-game cinematic creation.

SGD 210 3D Data Capture
Prerequisites:  SGD 114
Corequisites:  None
Component:  None
This course introduces students to the tools used to capture data in a 3D environment. Emphasis is placed on capturing data from motion capture and/or 3D scanning devices for use in 3D models and animations. Upon completion, students should be able to capture data from a 3D environment and import for use in 3D models, simulations, and animations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
SGD 212 SGD Design II
Prerequisites: SGD 112
Corequisites: None
Component: None
The course covers the advanced principles of simulation and game design. Topics include advanced design concepts in simulation and game development. Upon completion, students should be able to design an advanced simulation or game.

SGD 213 SGD Programming II
Prerequisites: SGD 113, CSC-134, CSC-151, or CSC-153
Corequisites: None
Component: None
The course covers advanced programming concepts used to create simulations and games. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to program an advanced simulation or game.

SGD 214 3D Modeling II
Prerequisites: SGD-114
Corequisites: None
Component: None
This course introduces the tools used to create and animate advanced 3 dimensional models. Emphasis is placed on identifying and utilizing the tools required to create and animate advanced 3D models. Upon completion, students should be able to create and animate advanced 3D models using 3D modeling tools.

SGD 268 Mobile SG Programming II
Prerequisites: SGD-168
Corequisites: None
Component: None
This course introduces advanced mobile simulation and game programming processes. Topics include advanced mobile simulation/game platforms, performance tuning, animation, sound effects, music, and mobile networks. Upon completion, students should be able to apply advanced simulation/game programming concepts to the creation of mobile simulations and games.

SGD 271 Adv Flash Programming
Prerequisites: SGD 171
Corequisites: None
Component: None
This course is designed to expand students’ previous knowledge of the Flash programming environment. Emphasis is placed on learning advanced Flash techniques for use in the simulation and game industry. Upon completion, students should be able to create industry-quality simulations or games using Flash.

SGD 274 SG Level Design II
Prerequisites: SGD 174
Corequisites: None
Component: None
This course introduces the advanced tools used to create levels for real-time simulations and games. Topics include advanced level design and architecture theory, concepts related to “critical path” and “flow,” game balancing, playtesting and storytelling. Upon completion, students should be able to design complex levels using industry standard tools.

SGD 289 SGD Project
Prerequisites: SGD 212, SGD 213, SGD 214, or SGD 285
Corequisites: None
Component: None
This course provides students with the opportunity to create a functional simulation or game with minimal instructor support. Emphasis is placed upon verbal and written communication, skill documentation, professional presentation and user training. Upon completion, students should be able to create and professionally present a fully functional simulation or game.

SLP 111 Ethics and Standards for SLPA's
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an overview of the theory, practice, and philosophy of speech-language pathology assisting. Topics include legal and ethical issues, scope of practice, multiculturalism, and diversity. Upon completion, students should be able to describe characteristics of the profession and identify components of safe and ethical practice.

SLP 112 SLP Anatomy & Physiology
Prerequisites: Departmental approval and a set of courses is required:BIO 163 or BIO 169
Corequisites: SLP 130 and SLP 140
Component: None
This course introduces the International Phonetic Alphabet and the categories of speech sounds, including voice, place, and manner of production. Emphasis is placed on the accurate transcription of normal and abnormal speech samples using the IPA and on the production of effective natural speech. Upon completion, students should be able to identify and transcribe speech sounds and produce natural speech using appropriate breathing, articulation, and pronunciation.

SLP 120 SLPA Administrative Procedures and Management
Prerequisites: None
Corequisites: None
Component: None
This course covers organizational and functional skills appropriate to the speech-language pathology workplace. Emphasis is placed on scheduling, office etiquette, operation of office equipment, time management, and quality issues. Upon completion, students should be able to demonstrate correct operation of office equipment and work cooperatively and effectively within the speech-language pathology professional environment.

SLP 130 Phonetics/Speech Patterns
Prerequisites: Departmental Approval
Corequisites: SLP 112 and SLP 140
Component: None
This course introduces the International Phonetic Alphabet and the categories of speech sounds, including voice, place, and manner of production. Emphasis is placed on the accurate transcription of normal and abnormal speech samples using the IPA and on the production of effective natural speech. Upon completion, students should be able to transcribe and categorize speech sounds and produce natural speech using appropriate breathing, articulation, and pronunciation.

SLP 140 Normal Communication
Prerequisites: None
Corequisites: None
Component: None
This course introduces normal verbal and non-verbal communications across the life span, including appropriate social interaction with diverse populations. Topics include normal speech, language, and hearing in a multicultural society and an introduction to screening for normality and abnormality. Upon completion, students should be able to identify normal speech, language, and hearing patterns.

SLP 211 Developmental Disorders
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140
Corequisites: All courses required: ASL 111, SLP 120 and SLP 212
Component: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course covers screening for speech, language, and hearing disorders; use of observational checklists; and administration of therapeutic protocols. Emphasis is placed on conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of developmental speech, language, and hearing disorders.

**SLP 212 Acquired Disorders**

**Prerequisites:** SLP 111, SLP 112, SLP 130, and SLP 140

**Corequisites:** SLP 120 and ASL 111

**Component:** None

This course is a continuation of SLP 211 and includes an introduction to clinical settings. Emphasis is placed on acquired conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of acquired speech, language, and hearing disorders.

**SLP 220 Assistive Technology**

**Prerequisites:** All courses required: SLP 111, SLP 130 and SLP 140

**Corequisites:** SLP 211 and SLP 212

**Component:** None

This course introduces the preparation, use, and maintenance of selected communication equipment in the treatment of respective disorders. Emphasis is placed on the collaborative use of assistive equipment for speech, language, and hearing disorders. Upon completion, students should be able to instruct the patient and caregiver in the use and maintenance of assistive communication equipment.

**SLP 230 SLP Fieldwork**

**Prerequisites:** SLP 211 and SLP 212

**Corequisites:** SLP 231

**Component:** None

This course provides supervised fieldwork experience in speech-language pathology assisting in a minimum of two diverse sites. Emphasis is placed on the use of written protocols in providing patient care. Upon completion, students should be able to integrate ethical concepts into safe and effective clinical practice.

**SLP 231 SLP Fieldwork Seminar**

**Prerequisites:** SLP 211 and SLP 212

**Corequisites:** SLP 230

**Component:** None

This course provides an opportunity to discuss fieldwork experiences with peers and faculty. Emphasis is placed on management of clinical problems, conflict resolution, and job seeking and retention skills. Upon completion, students should be able to meet entry-level requirements for speech-language pathology assistants.

**SOC 210 Introduction to Sociology**

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.

**Corequisites:** None

**Component:** None

This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**SOC 213 Sociology of the Family**

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.

**Corequisites:** None

This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**SOC 215 Group Processes**

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent

**Corequisites:** None

**Component:** None

This course introduces group processes and dynamics. Emphasis is placed on small group experiences, roles and relationships within groups, communication, cooperation and conflict resolution, and managing diversity within and among groups. Upon completion, students should be able to demonstrate the knowledge and skills essential to analyze group interaction and to work effectively in a group context. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**SOC 220 Social Problems**

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.

**Corequisites:** None

**Component:** None

This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

**SOC 225 Social Diversity**

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.

**Corequisites:** None

**Component:** None

This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**SOC 230 Race and Ethnic Relations**

**Prerequisites:** Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.

**Corequisites:** None

**Component:** None

This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

SOC 244 Sociology of Death & Dying 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

SOC 250 Sociology of Religion 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines religion from a sociological perspective as part and product of human society. Topics include the origins, development, and functions of belief systems; religious organizations; conversion; and interactions with politics, the economy, science, and the class system. Upon completion, students should be able to describe and analyze religious systems. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

SOC 252 Sociology of Work 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an understanding of the work experience in terms of rewards, satisfaction, exploitation, alienation, and institutional function and structure. Topics include an examination of industrial, professional, office, and executive work settings in relation to technology, management, and career opportunities. Upon completion, students should be able to understand work in its changing roles, institutions, and economic impact. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

SPA 111 Elementary Spanish I 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 112 Elementary Spanish II 03 00 00 03
Prerequisites: SPA 111
Corequisites: None
Component: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
SPA 141 Culture and Civilization  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 161 Cultural Immersion  
Prerequisites: SPA 111  
Corequisites: None  
Component: None  
This course explores Hispanic culture through intensive study on campus and field experience in a host country or area. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

SPA 181 Spanish Lab 1  
Prerequisites: SPA 111  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 182 Spanish Lab 2  
Prerequisites: SPA 181  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 211 Intermediate Spanish I  
Prerequisites: SPA 112  
Corequisites: None  
Component: None  
This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 212 Intermediate Spanish II  
Prerequisites: SPA 211  
Corequisites: None  
Component: None  
This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 215 Spanish Phonetics/Structu  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages.

SPA 221 Spanish Conversation  
Prerequisites: SPA 212  
Corequisites: None  
Component: None  
This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 231 Reading and Composition  
Prerequisites: SPA 212  
Corequisites: None  
Component: None  
This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the use of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

SPA 281 Spanish Lab 3  
Prerequisites: SPA 182  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course introduces the field of interpreting, interpretation models, cognitive processes associated with interpretation, professional ethical standards, employment opportunities, and working conditions. Topics include specialized jargon, code of ethics, interpreter assessments/qualifications, and protocol associated with various settings. Upon completion, students should be able to explain the rationale for placement and accurately with increasing complexity and sophistication. This course introduces boundary surveying, land partitioning, and application of legal and ethical standards to a variety of working situations.

This course introduces the theory and practice of plane surveying. Topics include the precise measurement of distances, angles, and elevations; bearing, azimuth and traverse computations; topography and mapping. Upon completion, students should be able to use/sell for surveying equipment, collect field survey data, perform traverse computations and create a contour map.

This course covers topographic, site, and construction surveying. Topics include topographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.

This course introduces the law as related to the practice of surveying. Topics include surveyors’ responsibilities, deed descriptions, title searches, eminent domain, easements, weight of evidence, riparian rights, and other related topics. Upon completion, students should be able to identify and apply the basic legal aspects associated with the practice of land surveying.

This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.

This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, esthetic considerations, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.

This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

STP 101 Intro Sterile Processing 05 02 00 06
Prerequisites: None
Corequisites: STP 102 and STP 103
Component: None
This course is designed to introduce the primary responsibilities of a central sterile technician. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

STP 102 STP Clinical Practice 00 00 09 03
Prerequisites: None
Corequisites: STP 101 and STP 103
Component: None
This course provides supervised experience in sterile processing techniques in a clinical facility. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

STP 103 Prof Success Prep 01 00 00 01
Prerequisites: None
Corequisites: STP 101 and STP 102
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, résumé preparation, and interviewing techniques. Upon completion, students should be able to prepare a résumé, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification. This is a diploma-level course.

SUR 110 Introduction to Surgical Technology 03 00 00 03
Prerequisites: Departmental Approval
Corequisites: SUR 111
Component: None
This course provides a comprehensive study of the operative environment, professional roles, moral/legal/ethical responsibilities, and medical communications used in surgical technology. Topics include: professional behaviors, medical terminology, interdepartmental/peer/relationships, operating room environment/safety, pharmacology, anesthesia, incision sites, physiology of wound healing, and biomedical sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the operative environment.

SUR 111 Periop Patient Care 05 06 00 07
Prerequisites: Department Approval
Corequisites: SUR 110
Component: None
This course provides theoretical knowledge for the application of essential operative skills during the perioperative phase. Topics include surgical asepsis, sterilization/disinfection, and perioperative patient care. Upon completion, students should be able to demonstrate the principles and practices of aseptic technique, sterile attire, basic case preparation, and other relevant skills.

SUR 122 Surgical Procedures I 05 03 00 06
Prerequisites: SUR 110 and SUR 111
Corequisites: SUR 123 or STP 101
Component: None
This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

SUR 123 SUR Clinical Practice I 00 00 21 07
Prerequisites: All courses required: SUR 110, SUR 111
Corequisites: SUR 122
Component: None
This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

SUR 134 Surgical Procedures II 05 00 00 05
Prerequisites: SUR 123 or STP 101
Corequisites: None
Component: None
This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

SUR 135 SUR Clinical Practice II 00 00 12 04
Prerequisites: SUR 123
Corequisites: SUR 134
Component: None
This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.

SUR 137 Prof Success Preparation 01 00 00 01
Prerequisites: SUR 123
Corequisites: SUR 134 and SUR 135
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.

SUR 210 Adanced SUR Clinical Practice 00 00 06 02
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
**SUR 211 Advanced Theoretical Concepts**  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

**TRF 110 Intro Turfgrass Cult & ID**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

**TRN 110 Intro to Transport Tech**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities.

**TRN 120 Basic Transp Electricity**  
Prerequisites: Take DRE 097 or ENG 080 and RED 080  
Corequisites: None  
Component: None  
This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

**TRN 140 Transp Climate Control**  
Prerequisites: Take DRE 097 or ENG 080 and RED 080  
Corequisites: None  
Component: None  
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems.

**TRN 140A Transp Climate Cont Lab**  
Prerequisites: None  
Corequisites: TRN 140  
Component: None  
This course provides experiences for enhancing student skills in the diagnosis and repair of transportation climate control systems. Emphasis is placed on reclaiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safety service climate control systems using appropriate tools, equipment, and service information.

**TRN 170 Pc Skills for Transp**  
Prerequisites: Take DRE 097 or ENG 080 and RED 080  
Corequisites: None  
Component: None  
This course introduces students to personal computer literacy and Internet literacy with an emphasis on the transportation service industry. Topics include service information systems, management systems, computer-based systems, and PC-based diagnostic equipment. Upon completion, students should be able to access information pertaining to transportation technology and perform word processing.

**WEB 110 Internet/Web Fundamentals**  
Prerequisites: Take DMA 040 and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces World Wide Web Consortium (W3C) standard markup language and services of the Internet. Topics include creating web pages, search engines, FTP, and other related topics. Upon completion, students should be able to deploy a hand-coded website created with mark-up language, and effectively use and understand the function of search engines. This course is also available through the Virtual Learning Community (VLC).

**WEB 111 Intro to Web Graphics**  
Prerequisites: Take DMA 040 or MAT 070  
Corequisites: None  
Component: None  
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners buttons, backgrounds, and other graphics for Web pages.

**WEB 115 Web Markup and Scripting**  
Prerequisites: WEB-110  
Corequisites: None  
Component: None  
This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
WEB 120 Intro Internet Multimedia
Prerequisites: WEB-110
Corequisites: None
Component: None
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

WEB 125 Mobile Web Design
Prerequisites: WEB 110
Corequisites: None
Component: None
This course introduces students to web design for mobile devices. Topics include planning an effective mobile Web site, industry standard Mobile Markup Language, CSS3, multimedia, m-commerce, social media, testing and publishing. Upon completion, students should be able to plan, develop, test, and publish Web content designed for mobile devices.

WEB 140 Web Development Tools
Prerequisites: WEB-120
Corequisites: None
Component: None
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 151 Mobile Application Dev I
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

WEB 180 Active Server Pages
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces active server programming. Topics include HTML forms processing and other issues related to developing active web applications. Upon completion, students should be able to create and maintain a dynamic website.

WEB 182 PHP Programming
Prerequisites: CIS 115 and WEB 120
Corequisites: None
Component: None
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 183 Perl Programming
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs.

WEB 191 Selected Topics in Web Tech.
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

WEB 210 Web Design
Prerequisites: WEB-110
Corequisites: None
Component: None
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. This course is also available through the Virtual Learning Community (VLC).

WEB 214 Social Media
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to social media for organizations. Topics include social media, marketing strategy, brand presence, blogging, social media analytics and technical writing. Upon completion, students should be able to utilize popular social media platforms as part of a marketing strategy, and work with social media analytics tools.

WEB 220 Advanced Multimedia
Prerequisites: WEB 120 and WEB 140
Corequisites: None
Component: None
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.

WEB 230 Implementing Web Serv
Prerequisites: NET 110 or NET 125
Corequisites: None
Component: None
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security
Prerequisites: WEB 110 and SEC 110 and CIS 110 or CIS 111
Corequisites: None
Component: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
WEB 250 Database Driven Websites 02 02 00 03
Prerequisites: DBA 110
Corequisites: None
Component: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 251 Mobile Application Dev II 02 02 00 03
Prerequisites: WEB 151
Corequisites: None
Component: None
This course covers advanced applications and custom programming to develop applications for mobile devices. Topics include device capabilities, OS specific Software Development Kits (SDK), scripting for functionality and designing interactivity. Upon completion, students should be able to demonstrate effective programming techniques to develop advanced mobile applications.

WEB 285 Emerging Web Technologies 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course will explore, discuss, and research emerging technologies in the web arena. Emphasis is placed on exposure to up-and-coming technologies relating to the web, providing hands-on experience, and discussion of practical implications of these emerging fields. Upon completion, students should be able to articulate issues relating to these technologies.

WLD 110 Cutting Processes 01 03 00 02
Prerequisites: None
Corequisites: WLD 115
Component: None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112 Basic Welding Processes 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate 02 09 00 05
Prerequisites: None
Corequisites: WLD 110
Component: None
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on welding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe 01 09 00 04
Prerequisites: WLD 115
Corequisites: None
Component: None
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 121 GMAW (MIG) FCAW/Plate 02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131 GTAW (TIG) Plate 02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 132 GTAW (TIG) Plate/Pipe 01 06 00 03
Prerequisites: WLD 131
Corequisites: None
Component: None
This course introduces the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

WLD 141 Symbols & Specifications 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 143 Welding Metallurgy 01 02 00 02
Prerequisites: None
Corequisites: WLD 115
Component: None
This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/areas_of_study/default.asp.
WLD 151 Fabrication I  
Prerequisites: WLD 115, WLD 121, & WLD 131  
Corequisites: None  
Component: None  
This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, cutting, joining techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

WLD 261 Certification Practices  
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131  
Corequisites: None  
Component: None  
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

WLD 262 Inspection & Testing  
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131  
Corequisites: WLD 261  
Component: None  
This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

Barbara Britton
Associate Degree Nursing Instructor
B.A., Coker College
B.S.N., Medical University of South Carolina
M.S.N., Medical University of South Carolina

Ross Brown
Business Administration Instructor
B.A., Campbell University
M.B.A., Campbell University

Sarah Bruton
Program Coordinator/Pre-Curriculum English
B.A., University of North Carolina at Pembroke
M.A., University of North Carolina at Pembroke

Charles Bryan
Computer Information Technology Instructor
B.S., Virginia Military Institute
M.S., University of Washington

Kaira Bullock
College and Career Readiness Instructor
B.S., Fayetteville State University
M.A., Central Michigan University

Lazaris Butler
Health & Physical Education Instructor
B.S., North Carolina Central University
M.A., University of North Carolina at Pembroke

Olga Butorina-Langdon
Biology Instructor
B.S., Kazan V.I. Lenin State University-Russia
Ph.D., Ulyanov-Lenin State University

Krystal Byrd
Developmental Studies Instructor
M.A., Fayetteville State University

Anthony Cameron
Computer Programming Instructor
A.A.S., Fayetteville Technical Community College
B.S., University of North Carolina at Chapel Hill
M.S., East Carolina University

Cheryl Campbell
Program Coordinator, Business Administration/Public Administration
B.S., University of North Carolina at Pembroke
M.B.A., Fayetteville State University

Barbara Carman
College and Career Readiness Instructor
B.A., University of Hawaii at Manoa

Donald Carter
Department Chair, Carpentry/Building Construction Technology
A.A.S., Fayetteville Technical Community College

Jessica Carter
TCAIMS II Instructor
AAS, Fayetteville Technical Community College

Marie Cash
Mathematics Instructor
B.S., Methodist College
M.Ed., Campbell University

Debra Chapa
Developmental English/Reading Instructor
B.A., Tennessee Technological University
M.A., University of Hawaii at Manoa

Peter Chiolo
English Instructor
B.A., Edinboro University
M.A., Slippery Rock University

Tere Chipman
Criminal Justice Technology Instructor
B.A., Eastern Kentucky University
M.A., Webster University

Denise Dedaux
Department Chair, Medical Office Administration
A.A.S., Tomlinson College
