THE PRESIDENT’S MESSAGE

Welcome to Fayetteville Technical Community College!

On behalf of the faculty, staff, and board of trustees, I take pride in welcoming you and in extending thanks to you for choosing Fayetteville Tech to serve your educational needs. We find the reasons vary for our students’ selection of Fayetteville Tech as their college of choice: some are here to prepare for entering the workforce; others use Fayetteville Tech as a firm foundation for obtaining a two-year degree and transfer to a four-year college or university after graduation; some students seek a diploma or certificate program to quickly obtain knowledge and expertise in specialized areas where courses provide transfer credits to other colleges. Whatever your goals are or whatever your personal reasons are for choosing Fayetteville Tech, we want you to know that it is our privilege to serve you.

In addition to offering over 190 programs of study leading to the award of associate degree, certificate, or diploma (with many programs offered 100 percent online), Fayetteville Tech offers extensive support services to help you achieve your academic goals. I encourage you to stay focused, work hard, and take advantage of the many opportunities that await you at Fayetteville Tech.

Fayetteville Tech is honored to serve the men and women who protect our country as service members of our Armed Forces and their families. We invite you to learn more about the unique, flexible learning options available for soldiers by visiting our website and clicking on the heading “Military Programs.”

A good education is the avenue that leads to new hope and fulfillment of dreams through successful careers in the workforce. Many jobs require an associate degree. Fayetteville Tech will help you be on your way to achieving your goals through educational opportunities that can be obtained conveniently, expeditiously, and affordably.

With over fifty years of excellence in serving students, Fayetteville Technical Community College is positioned well to serve you. Thank you for choosing Fayetteville Tech, welcome to our beautiful campus, and always do your best to make the most of your learning journey.

Sincerely,

J. Larry Keen
President

PURPOSE OF THE CATALOG

Fayetteville Technical Community College provides this catalog with information about the College and its programs. Changes subsequent to publication of this catalog are posted to the catalog on our website. For current information, visit our website at www.faytechcc.edu and click on Academics.

The provisions of this catalog are not to be regarded as an irrevocable contract between students and Fayetteville Technical Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes create for students.

Students having questions not answered by this catalog may receive additional information from their Department Chair or academic advisor. Applicants are encouraged to contact the Admissions Office, Fayetteville Technical Community College, PO Box 35236, Fayetteville, NC 28303-0236; telephone (910) 678-8473 or E-mail to: prospect@faytechcc.edu.

NONDISCRIMINATION STATEMENT

The Board of Trustees and the administration of Fayetteville Technical Community College are fully committed to the principles and practice of equal employment and educational opportunities. Accordingly, Fayetteville Technical Community College does not practice or condone discrimination, in any form, against students, employees, or applicants on the grounds of race, color, national origin, religion, sex, age, disability or political affiliation. Fayetteville Technical Community College commits itself to positive action to secure equal opportunity regardless of those characteristics.

Fayetteville Technical Community College supports the protection available to members of its community under all applicable Federal Laws, including Title VI and VII of the Civil Rights Act, Title IX of the Education Amendments, Sections 799A and 845 of the Public Health Service Act, the Equal Pay and Age Discrimination Acts, the Rehabilitation Act, the Americans with Disabilities Act, Executive Order 11375, and their amendments.

For information concerning these provisions, contact: Vice President for Human Resources, Workforce Development and Institutional Effectiveness

THE COLLEGE

GENERAL INFORMATION

Fayetteville Technical Community College, as a comprehensive community college, adheres to an “Open Door” admissions policy. High school graduates, persons achieving a North Carolina equivalency certificate (GED), and adults who show potential for post high school education may be admitted to courses which are appropriate to their educational potential. Successful implementation of an “Open Door” admissions policy requires an emphasis on admissions counseling services. As part of the admissions counseling process, Fayetteville Technical Community College utilizes an initial placement assessment and an evaluation of the applicant’s prior school record to determine potential for success. When the admissions counseling process indicates that an applicant lacks sufficient academic background to pursue credit courses, he or she will be directed to the Developmental Studies program prior to entry into a diploma or degree curriculum. If the applicant lacks a high school diploma, he or she will be given the opportunity to pursue studies to achieve an Adult High School Diploma or a North Carolina equivalency certificate (GED) prior to entering a regular curriculum. Admissions to curricula are open to applicants without regard to race, color, national origin, religion, age, sex, disability, or political affiliation.

A BRIEF HISTORY OF FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

Fayetteville Technical Community College (FTCC) enjoys a rich history that began as a result of a vision shared by concerned business leaders in Cumberland County who recognized the need for a local institution to provide job training for area industries and educational opportunities for high school graduates and adult learners. From that vision and through the perseverance of those leaders, the Fayetteville Area Industrial Education Center (IEC) was established in 1961. In 1963, the North Carolina General Assembly passed a bill creating the statewide Community College System, and from this opportunity in that same year, the Fayetteville Area Industrial Education Center became known as Fayetteville Technical Institute (FTI). In January, 1988, the name of the college changed to Fayetteville Technical Community College to broaden and enhance the public image of technical and vocational postsecondary education.

Fayetteville Tech has enjoyed much success and celebrated its 50th anniversary in 2011 under the leadership of its current President, Dr. J. Larry Keen. From its humble beginnings with two buildings (LaFayette Hall and Horace Sisk) to its current 150-acre Fayetteville campus plus outlying educational centers, Fayetteville Tech has grown not only in numbers of buildings and acreage but also in student enrollment. In addition to the central Fayetteville campus, FTCC offers students the option of being served by the Spring Lake campus, Horticulture Center, and offers military students convenient access to classes through its Fort Bragg Center.

FTCC is a proud partner with the North Carolina Military Business Center, whose headquarters is housed on the Fayetteville campus, and is pleased to have been named for several years as a Military-Friendly School®. As part of its mission to plan and apply all operations with sustainability at the forefront, FTCC was named by Sustainable Sandhills of North Carolina as the first college to be certified as green.

Fayetteville Technical Community College serves approximately 42,000 students annually through its various Curriculum and Continuing Education opportunities. What began as a vision over fifty years ago evolved into what is perceived by many as the pillar of the community in Cumberland County. Through the school’s motto, education for life, Fayetteville Technical Community College offers more than value and a good education; it offers hope to all who seek education in response to the changing demands often experienced throughout life.

FTCC MISSION STATEMENT

“Serve our community as a learning-centered institution to build a globally competitive workforce supporting economic development.”

Approved by the FTCC Board of Trustees February 16, 2009
Reaffirmed: February 17, 2014

FTCC PURPOSE STATEMENT

The purpose of Fayetteville Technical Community College is to provide affordable vocational-technical, business and industry, general education, college transfer, and continuing education programs, which meet the needs and desires of its diverse students and economic development needs for the community. To improve the educational base of society, FTCC encourages life-long learning and strives to prepare students for further workforce and educational experiences.

FTCC identifies the educational needs of applicants and assists students in satisfying these needs at a minimal expense. Each
adult who applies will be admitted to a program appropriate to his/her abilities and interests. The College is in partnership with the public school system through College Technical Education and other programs. Further, agreements with four-year colleges and universities support the educational continuum from high school through the baccalaureate degree. Curricular programs reflect the changing technical, commercial, industrial, and health needs of Fayetteville, Cumberland County, and surrounding areas. Various curricula offer certificates, diplomas, and associate degrees. As a learning-centered college, FTCC offers courses and programs at times and places convenient to students in a variety of delivery modes. Courses are also available for high school graduates who need additional academic preparation before attempting college work.

FTCC provides instruction in the basic life skills needed to contribute effectively to society. Continuing Education programs are designed to meet specific needs in basic educational competencies, high school completion, upgrading occupational skills, and other avocational or practical skills required for the rapidly changing technological advances in the community.

Adopted: April 27, 1992; Approved: FTCC Board of Trustees, February 16, 2009; Reaffirmed: February 17, 2014

INSTITUTIONAL CHARTER AND ACCREDITATIONS

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
Fayetteville Technical Community College is chartered by the North Carolina State Department of Community Colleges, as specified in Chapter 115D of the General Statutes of North Carolina.

NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION
Fayetteville Technical Community College’s High School Diploma Program meets the standards required by the North Carolina Department of Public Instruction for the purpose of awarding high school diplomas.

SERVICEMEMBERS OPPORTUNITY COLLEGES (SOC)
Created in 1972 to provide educational opportunities to servicemembers who, because they frequently moved from place to place, had trouble completing college degrees. SOC functions in cooperation with 13 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. SOC is funded by the Department of Defense (DoD) through a contract with the American Association of State Colleges and Universities (AASCU). The contract is managed for DoD by the Defense Activity for Non-Traditional Education Support (DANTES).

SOC CONSORTIUM
Consists of approximately 1,900 institutional members that enroll hundreds of thousands of servicemembers, their family members, and veterans annually in associate, bachelor’s, and graduate-level degree programs on school campuses, armories, and military installations within the United States and overseas, and through a variety of distance learning methods.

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, telephone 404-679-4500) to award associate degrees, diplomas, and certificates.

UNITED STATES DEPARTMENT OF EDUCATION
Fayetteville Technical Community College is recognized by the U.S. Department of Education as an institution of higher learning and is qualified to receive federal assistance in its higher education programs.

PROGRAM ACCREDITATIONS AND ASSOCIATIONS

AMERICAN BAR ASSOCIATION
Fayetteville Technical Community College’s Paralegal Technology program is approved by the American Bar Association.

AMERICAN BOARD OF FUNERAL SERVICE EDUCATION
The Funeral Service Education program at Fayetteville Technical Community College is accredited by the American Board of Funeral Service Education (ABFSE), 3414 Ashland Avenue, Suite G, St. Joseph, Missouri 64506 (816) 233-3747. Web: www.abfse.org.

AMERICAN DENTAL ASSOCIATION COMMISSION ON ACCREDITATION
The programs in Dental Assisting and Dental Hygiene are accredited by the Commission on Dental Accreditation and have been granted the accreditation of approval. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago IL, 60611-2678.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
The Physical Therapist Assistant Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314, (703) 684-2782 or 1-800-999-2782.

Fayetteville Technical Community College’s Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), 1248 Hardwood Road, Bedford, TX 76021, Phone (817) 283-2835, Fax (817) 354-8519.

The Surgical Technology Program at Fayetteville Technical Community College is accredited by the commission on Accreditation of Allied Health Education Programs (CAAHEP), 1361 Park Street, Clearwater, FL 33756 (727) 210-2350. This accreditation decision was made upon the recommendation of the Accreditation Review Committee on Education for the Surgical Technologist (ARC-ST), 6 West Dry Creek Circle, Suite 110, Littleton, CO 80120 (313) 694-9262, which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

Fayetteville Technical Community College’s Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, (312) 704-5300, E-mail: jrcert@mail.idt.net.

Fayetteville Technical Community College’s Phlebotomy Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Road, Suite 720, Rosemont, IL 60018-5119, (733) 714-8880.

The Early Childhood Education Department of Fayetteville Technical Community College received accreditation from the National Association for the Education of Young Children (NAEYC), 1313 L Street NW, Suite 500, Washington, DC 2005-4101. NAEYC is the world’s largest organization working on behalf of young children with nearly 80,000 members, a national network of more than 300 state and local Affiliates, and a growing global alliance of like-minded organizations. The NAEYC Academy sets and monitors standards for high-quality early childhood education programs and accredits programs that meet these standards.

Fayetteville Technical Community College’s Automotive Systems Technology program is accredited by National Automotive Technicians Education Foundation (NATEF) 101 Blue Seal Drive, Suite 101 • Leesburg, Virginia 20175. NATEF was founded as an independent, non-profit organization with a single mission: To evaluate technician training programs against standards developed by the automotive industry and recommend qualifying programs for certification (accreditation) by ASE, the National Institute for Automotive Service Excellence.

The Associate Degree Nursing Program of Fayetteville Technical Community College is accredited by the National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326. This type of approval is national in scope and voluntary rather than required by law. The standards set by the accrediting body are uniform throughout the United States. The achievement of ACEN accreditation by a program signifies that it has met the national standards of excellence for programs in nursing of its type.

Fayetteville Technical Community College is approved by the Board of Nursing to offer a two-year associate degree program with a major in nursing and a one-year diploma practical nursing program. Both programs qualify the graduates to write the National Council Licensure Examination for the respective levels of preparation. Candidates who successfully complete these examinations are licensed to practice nursing.

The North Carolina Criminal Justice Education and Training Standards Commission, through N.C.G.S. Chapter 17C, establishes minimum employment, training and retention standards for the State’s criminal justice officers. To ensure a consistent level of competency and professionalism among law enforcement officials, the Criminal Justice Standards Division administers the Commission’s mandatory certification and training programs. Those programs cover all sworn
police officers, correctional officers, probation/parole officers, juvenile justice officers and juvenile court counselors. The NC Department of Justice Training Standards Division can be contacted at NC Department of Justice, P.O. Drawer 149, Raleigh, NC 27602-0149 or (919) 716-6470.

NORTH CAROLINA OFFICE OF EMERGENCY MEDICAL SERVICES
Fayetteville Technical Community College’s Emergency Medical Science Program is accredited by the North Carolina Office of Emergency Medical Services, 701 Barbour Drive, Raleigh, North Carolina, 27603-2008, Phone (919) 855-3935, Fax (919) 733-7071.

NORTH CAROLINA STATE BOARD OF FUNERAL SERVICE
Fayetteville Technical Community College’s Funeral Service and NC Funeral Directors programs are approved by the North Carolina Board of Funeral Service.

NORTH CAROLINA STATE BOARD OF CERTIFIED PUBLIC ACCOUNTANT EXAMINERS
Fayetteville Technical Community College is approved by the North Carolina State Board of Certified Public Accountant Examiners for the purpose of mandatory Certified Professional Education credits (Fact Book 2011/Administrative Procedures Manual).
THE NCCCS’ ACCOUNTABILITY MEASURES

End-of-Year Report
NCCCS Critical Success Factors
Performance Measures and Standards (2013)

A. Basic Skills Student Progress: Percentage of students who progress as defined by an educational functioning level.
FTCC exceeded North Carolina Community College System (NCCCS) Baseline.
NCCCS Standard: At least 20.6% (System Baseline) of Basic Skills students will progress by an educational functioning level. (College Mean: 41.0%/System Goal 51.2%)

B. GED Diploma Passing Rate: Percentage of students taking at least one GED test during a program year who receives a GED diploma during the program year.
FTCC exceeded the NCCCS Goal.
NCCCS Standard: Students taking at least one GED test during a program year, 49.3% (System Baseline) will receive a GED diploma during that year. (College Mean: 71.1%/System Goal 82.0%)

C. Developmental Student Success Rate in College-Level English Courses: Percentage of previous developmental English and/or reading students who successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt.
FTCC MET exceeded the NCCCS College Mean.
NCCCS Standard: Forty-five point two percent (45.2%/Baseline) of previous developmental English and/or reading students will successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt. (College Mean: 63.7%/System Goal 74.9%)

D. Developmental Student Success Rate in College-Level Math Courses: Percentage of previous developmental math students who successfully complete a credit math course with a “C” or better upon the first attempt.
FTCC exceeded the NCCCS Baseline, nearing College Mean.
NCCCS Standard: Forty-seven point five percent (47.5%/Baseline) of previous developmental math students will successfully complete a credit math course with a grade of “C” or better upon the first attempt. (College Mean: 64.8%/System Goal 75.4%)

E. First Year Progression: Percentage of first-time fall credential-seeking students attempting at least twelve hours within their first academic year who successfully complete (“P”, “C” or better) at least twelve of those hours.
FTCC exceeded the NCCCS Baseline.
NCCCS Standard: At least 53.2% (Baseline) of first-time fall credential-seeking students who attempt at least twelve

F. Curriculum Completion: Percentage of first-time fall credential-seeking students who graduate, transfer, or are still enrolled with 36 hours after six years.
FTCC exceeded the NCCCS Baseline, nearing NCCCS College Mean.
NCCCS Standard: Twenty-eight point six percent (28.6%/Baseline) of first-time fall credential-seeking students will graduate, transfer, or still be enrolled with 36 hours after six years. (College Mean: 41.6%/System Goal 45.6%)

G. Licensure and Certification Passing Rate: Aggregate institutional passing rate of first time test-takers on licensure and certification exams. Exams included in this measure are state mandated exams which candidates must pass before becoming active practitioners.
FTCC exceeded the NCCCS College Mean, nearing NCCCS Goal.
NCCCS Standard: The aggregate passing rate of first time test-takers on licensure and certification exams will be at least 71.0% (Baseline). (College Mean: 85.0%/System Goal 91.7%)

H. College Transfer Performance: Among community college associate degree completers and those who have completed 30 or more credit hours who transfer to a four-year university or college, the percentage who earn a GPA of 2.00 or better after two consecutive semesters within the academic year at the transfer institution.
FTCC exceeded the NCCCS College Mean.
NCCCS Standard: Seventy-one point two percent (71.2%/Baseline) of associate degree completers and students who have completed 30 or more credit hours and transferred to a four-year university or college will earn a GPA of 2.0 after two consecutive semesters. (College Mean: 86.7%/System Goal 93.6%)

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
ADMISSIONS POLICIES AND PROCEDURES

Fayetteville Technical Community College adheres to an “Open Door” admissions policy. Applicants who are high school graduates or 18 years of age, may take courses as a special credit student providing they meet course pre-requisites. Curriculum degrees, diplomas and certificates may have specific requirements for admission beyond the regular requirements to enter FTCC.

Associate Degree, Diploma, and Certificate Admissions Requirements

1. Applicants must be high school graduates as indicated on an official high school transcript or meet high school requirements as is evidenced by one of the conditions below.
   a. A state equivalency certificate or GED test results which meet North Carolina equivalency standards are acceptable in lieu of a high school diploma.
   b. An official college/university transcript showing the award of associate’s degree or higher from a regionally accredited institution(s). Exception: For applicants who are seeking admission into programs having prerequisites at the high school level and the prerequisite is not met with collegiate courses, an official high school transcript is required.

The College accepts only official transcripts, which are received by the Admissions Office in a sealed unopened envelope and bear the sender’s raised seal or printed imbedded watermarks. Official transcripts verifying secondary school completion must be sent to the:
   Admissions Office
   FTCC
   P.O. Box 35236
   Fayetteville, NC 28303

2. Applicants must submit an application form, including a residency statement.

3. Each applicant is scheduled for the FTCC placement assessment. Previous school records and placement test results will be used in conjunction with the student’s personal aspirations to help plan a workable educational program.

4. Certain programs have prerequisite course requirements. In addition to published program requirements, the College reserves the right to identify and require specific prerequisites before allowing students into certain courses.

5. Students requesting approval for certification of VA Educational Benefits must provide copies of DD/Form(s) 214 for evaluation of military experience.

Current High School Students Admissions Requirements

Current High School students participating in programs that involve curriculum courses must submit an official, yet partial, high school transcript in lieu of the final high school transcript. In some cases test scores are also required. Upon graduation, if the student chooses to enroll in a FTCC degree, diploma or certificate, an official final high school transcript is required. More information can be found on the High School Connections webpage.

Other Reasons for the Submission of Transcripts

Official high school, college/university transcripts are required if an applicant wishes to:
   • Apply for veteran’s benefits
   • Have previous college/university credit(s) evaluated for transfer credit to FTCC.
   • Be exempt from the College’s mathematics, English, and reading placement exam.
   • Apply for a health program
   • Apply for financial aid benefits

Health Division Admissions Requirements

Priority in consideration for admission to Health Programs will be given to individuals completing the following by January 30. Applications and related materials received after this date will be considered based on program space availability.
   • Submit a completed “Application for Admissions” to FTCC online.
   • Submit official transcripts from high school and each college/university from which you plan to transfer potential credit.
   • Submit an application on WebAdvisor by January 30 to the specific Health Program that you wish to enter.
   • Complete all program prerequisites.
   • Complete the entrance assessment with the required minimum scores, or achieve a grade of “C” or better in all recommended pre-curriculum courses. Pre-curriculum courses may be attempted only twice to satisfy the prerequisite requirements. An attempt includes grades of A, B, C, D, F, W, S, R and I and includes courses with similar content even if named differently (for example, MAT 50 and DMA 10, 20, or 30.) Exceptions may be approved by the appropriate health program Dean/Chairperson.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
• Science courses must have been satisfactorily completed with a grade of “C” or better within five years of entry into a health program. These courses may be attempted only twice. (An attempt includes grades of A, B, C, D, F, W, and I.) The appropriate health Dean/Chairperson may approve exceptions.

• A minimum GPA of 2.5 is required on previously completed related classes for degree programs. A minimum GPA of 2.0 is required on previously completed related classes for diploma and certificate programs. Related courses are courses in the program of study that do not have the program prefix.

• A cumulative GPA of 2.0 is required for all health programs.

• Individual programs may have further prerequisites. Prerequisites are noted at the top of each program of study sequencing sheet.

• The Nursing Assistant, Funeral Service Education, and Health and Fitness Science programs do not require separate health admission. Students are accepted on a first come, first served basis.

• Mammography students are accepted on a first come, first served basis after verification of the student having a current American Registry of Radiologic Technologists certification in Radiography.

Selection Criteria

Applicants who meet eligibility requirements will be ranked and selected on a competitive basis.

Grades in designated related courses will be used to determine ranking.

In addition, participation in a departmental information session is required. Sessions will be scheduled by the College. A maximum of 15 additional competitive points may be awarded at that time based on departmental criteria.

Advanced Placement into Health Programs

Certain health programs may accept students who have transfer credit or approved credit for prior learning for program specific courses outside of the published admission cycle on a space available basis and upon Department Chair approval. Students should contact appropriate Department Chairs for specific program requirements.

Licensed Practical Nurses may be granted placement into the Associate Degree Nursing (ADN) program on a space available basis. Criteria for advanced placement include:

a. Have a current unrestricted LPN license and have completed 3,600 hours of work experience as a LPN within the last four (4) years
b. Meet the requirements for admission into the FTCC ADN program
c. Have a minimum overall GPA of 2.0 and a minimum GPA 2.5 on all related courses

d. Have satisfactorily completed any developmental course or related science course in no more than two attempts
e. Have satisfactorily completed related science course within 5 years of entry into the program
f. Have taken the TEAS test and scored at the level required of ADN students admitted at the beginning of the program
g. Have completed all related courses within the ADN Program of Study that are noted on the course sequencing sheet prior to the point of advanced placement

Special Credit (Non-matriculating) Student Admission

Special credit status for (non-matriculating) students: This student status is designed to allow any qualified and interested individual to enroll in college credit courses with appropriate documentation without declaring a major or seeking a degree, diploma, or certificate. The appropriate documentation is required to determine that the course prerequisites have been met. When a student wishes to become a matriculated student, they must follow the current admission requirements for academic program approval.

Special credit students are not eligible for financial aid assistance, i.e., federal financial aid, vocational rehabilitation, veteran services. If you are unsure about aid eligibility and the program you are considering, contact the Financial Aid Office for clarification.

ADMISSION OF INTERNATIONAL STUDENTS

International applicants who apply from outside the United States and have not previously attended an American college or university will be processed as entering freshman. If you are a qualified applicant who wishes to attend the College, please apply by sending your request to:

Admissions Office
Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236 USA

Applicants are responsible for requesting that the school principal or headmaster send official copies of high school (secondary) transcripts directly to FTCC. If applicants have attended an American or Foreign college/university, applicants must have an official transcript sent directly from that college or university.

Student Visa Applicants

International applicants holding an F-1 or M-1 Visa are ONLY admitted to begin their studies for the fall semester. All paper work must be completed no later than March 1 of the year you plan to begin classes at Fayetteville Technical Community College. Applications will not be considered until all of the following items have been received:

(1) FTCC Application
(2) Preliminary Application (Form A)
(3) Completed financial certificate (Form B)
(4) Test of English as a Foreign Language (TOEFL) results (Only official scores sent from Princeton, New Jersey are acceptable.)
(5) Official high school (secondary) transcript  
(6) Official college or university transcripts, if applicable  
(7) Completed Pre-entrance Medical Record

Student Visa (F-1 or M-1)

In order to apply for an F-1 or M-1 (student visa), applicants must first apply and be admitted to a school in the U.S. After admission to Fayetteville Technical Community College (FTCC), a Form I-20, which authorizes the applicant’s study period, will be issued. A $100.00 Student and Exchange Visitor Information System (SEVIS) I-20 fee must be paid. The Form I-20 must be submitted to the U.S. Consulate in the applicant’s country to apply for a visa. To obtain a non-immigrant, student visa, applicants must be able to prove the following:

1. That they have strong ties to their home country demonstrating their intention to return home (In other words, applicants do not plan to immigrate permanently to the U.S.)
2. That they have sufficient funds to pay for their financial needs while studying in the U.S., including tuition, health insurance, housing, travel expenses, etc.
3. That they have legitimate intentions to study full-time and gain education and training which will be useful in their home country. After receiving an F-1 or M-1 Visa from the U.S. consulate, applicants are eligible to come to the U.S. and “apply” for entry. An Immigration Inspector at the border (usually the airport) will decide if applicants may enter by looking for proof of the above criteria once again. Therefore, applicants may be asked to show financial documentation again, or to prove study plans. Applicants must show their I-20.

English Proficiency

Proficiency in the use of the English Language and past academic record will be important factors in the admission decision. The Test of English as a Foreign Language (TOEFL) is required of all foreign applicants. To obtain materials and information regarding the TOEFL, write to:

Test of English as a Foreign Language  
Box 899  
Princeton, New Jersey 08540 USA

Please specify code number 5208 when requesting TOEFL scores to be reported to Fayetteville Technical Community College.

Financial Information

As part of the admission process to Fayetteville Technical Community College and before F-1 or M-1 Visa approval is granted, applicants must show evidence of official financial support (Form B) for each year of study in the United States. The college cannot provide financial aid to students applying from other nations. Applicants must certify their financial support.

Many international students receive financial help from sources outside the United States. Therefore, it is suggested that applicants consult the excellent publications about study abroad, which may be available through local educational institutions or the United States Consulate. Applicants should also investigate financial assistance that may be available through their government or home university.

Fayetteville Technical Community College is tax supported by the people of North Carolina. Legal residents of North Carolina and the United States are given preference in the admission process. Therefore, applications of international students are accepted only on a space availability basis. Unless some exception applies, international students are assessed tuition at the out-of-state rate.

Employment

1. On-campus. F-1 and M-1 students are allowed to work part-time on the campus of the school they are attending (and whose I-20 they have). They may work up to 20 hours per week while attending full-time classes. They can work full-time during summer vacations and between terms, provided they continue at that school the following term.

2. Off-campus. Students holding F-1 or M-1 Visas are not authorized to work except under extraordinary circumstances. There are two ways to get permission for off-campus work: practical training and severe economic hardship. The United States Immigration Services must grant permission.

Period of Authorized Stay

Admission to the U.S. on an F-1 or M-1 Visa is for “duration of status” (D/S). This is the time estimated for program completion. During that time, students are required to make satisfactory progress each term, keep a current passport that is valid for at least six months into the future, and maintain a valid I-20.

Housing

Fayetteville Technical Community College serves an entirely commuting student body. Housing is not available on campus. International students must seek housing in the community and commute daily by public transportation. Arrangements for housing must be made between the landlord and the student.

Transportation

International students must provide their own transportation or use public transportation to travel between the campus and their housing accommodations.
Full-time Requirement

International students holding an F-1 or M-1 Visa must enroll as a full-time student. College students must pass a minimum of 12 credits per term. The student should make satisfactory progress in their approved program each term. Otherwise, the continuation of study on a student visa may be jeopardized and the Form I-20 rescinded.

Non-Student Visa and Resident Alien Applicants

Foreign applicants holding either (a) a visa other than an F-1 or M-1 or (b) a Resident Alien card may be admitted on a rolling basis. Your application will not be considered until all of the following items have been received:

1. FTCC Application
2. Presentation of either a valid Passport & Visa or a Resident Alien Card
3. FTCC Entrance Assessment Results
4. Official high school (secondary) transcript
5. Official college or university transcripts, if applicable

NOTE: People who hold a visitor’s Visa (B-1) are NOT eligible to enroll in FTCC’s college-level classes.

H-1B Visas

Spouse and unmarried children under 21 years of age may seek admission in the H-4 nonimmigrant classification. Family members in the H-4 nonimmigrant classification may not engage in employment in the United States.

ADMISSION OF TRANSFER STUDENTS

Students who have completed course work at other colleges and universities should submit official transcripts of all post-secondary work. Transcripts will be reviewed during the admissions interview and transfer credit awarded according to the following criteria:

1. Prior course work must correspond in instructional hours and content must be substantially similar to FTCC courses required in the degree or diploma being sought.
2. Course work must have been completed at a regionally accredited college (i.e., Southern Association of Colleges and Schools or regional counterpart) OR the student may submit the following documentation to be evaluated and a recommendation made by the related department chair:
   a. Official transcript from the institution attended.
   b. Statement from the institution regarding any professional accreditations or associations.
   c. Statement from the institution regarding scheduling system (i.e., semester or quarters).
   d. Statement from the institution indicating the faculty who taught the course and the academic/professional credentials of that faculty member.
   e. Course description to include number of class, lab, and/or clinical hours, and course content statement.
   f. Course syllabus.
   g. Reference statement indicating the textbook(s).
   h. Course work must have been completed with a grade of “C” or better.
3. Course work must be of a technical/skill content have time limitations in terms of their relevance to the curriculum program and to the occupational field. Courses in the technical or major area taken more than seven years prior to the current semester, either at other institutions or at FTCC, may not be considered for transfer purposes. Some technology-based programs may have stricter limitations on the transfer of grades, depending on changes in technology and competencies required for jobs in the field. Based on the recommendation of the related Department Chairperson, the final decision of the acceptance of transfer credit for major courses will be made by the Associate Vice President for Curriculum Programs.
4. Transfer students must complete a minimum of 25 percent of resident credit at FTCC to be eligible to receive an associate degree. (Note: The American Bar Association requires all paralegal students to complete a minimum of 18 semester hours in legal specialty courses at FTCC.)
5. Official FTCC transcripts will not be provided until the student has completed the first term of enrollment at the college.

TRANSFER CREDIT APPEAL PROCESS

The Evaluation Center provides credit evaluation of coursework based on official transcripts from all institutions a student has attended. Also included in the evaluation process are documents that pertain to Credit for Prior Learning. A student may appeal a course transfer decision and request a re-evaluation of any transfer credit by following these steps:

1. Review all transfer credit awarded by FTCC via WebAdvisor account, or with a counselor or advisor.
2. Complete the online Transfer Credit Appeal Form
3. Obtain a copy of the course syllabus, course description, and any documentation that will support your appeal from the originating institution(s).
4. Submit the completed Transfer Credit Appeal form and all supporting documentation to the Information Desk in GCB. Retain a copy for your records.

The Evaluation Center will reevaluate the requested course(s) for reconsideration through consultation with the appropriate dean, division, or department chair. Once the re-evaluation is complete the decision will be emailed to the student’s FTCC email account within 30 business days of the receipt of the appeal form, excluding holidays and college closures.

If additional documentation is required from the student for the evaluator or the department chair to make the decision, the student has 2 weeks from the date of the request to supply documentation. Further appeals will be forwarded to the Associate Vice President for Curriculum Programs.
INTERCURRICULAR TRANSFER OF CREDITS

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean.

CREDIT FOR NONTRADITIONAL LEARNING

FTCC will evaluate nontraditional educational records for the possible transfer of credits. Full documentation must be provided before an evaluation can be made. Transfer of credit for non-traditional work is limited to no more than 75 percent of the AAS degree or diploma requirements. (See Handbook on FTCC website.)

Advanced Placement Examinations

Applicants to the college may request transfer credit for subjects covered under advanced placement examinations. CLEP and DANTES General Exams and Subject Area Exams are evaluated for transfer credit. Test scores must meet ACE (American Council on Education) recommendations. Advanced credit awarded at prior colleges must be supported by official test score reports to be considered for transfer credit.

Military Service Training

Military service school records may be submitted for transfer credit evaluations. The service member is encouraged to submit a “Request for Evaluation of Military Experience” (form DD295) or the JST Transcripts (Army/ACE Registry System) transcripts for evaluation purposes. Service school diplomas and MOS (Military Occupational Specialty) Evaluation Score Reports are acceptable in lieu of the JST Transcript. Military service experiences are evaluated using ACE Guide recommendations.

Industrial and Professional Training

FTCC will consider the evaluation of credit for documented professional training and certification. Transfer of credits is considered using The National Guide to Educational Credit for Training Programs.

Experiential Learning

FTCC does not consider experiential or life experiences for transfer credit evaluation.

Proficiency Tests

FTCC students who plan to challenge a curriculum-level course must contact the department chairperson of the appropriate department to request a proficiency examination. Proficiency tests may be taken only during the first four class days of the term and are offered only if each of the following conditions are met:

a. Students must pass a preliminary screening test given by the department chairperson.
b. Students must be registered for the course in order to take a proficiency exam.
c. Students who pass a proficiency exam at the “C” grade level or above will be assigned a “P” grade and will not be required to attend further class sessions.
d. Veteran students and other third party recipients may not use courses passed by proficiency for the purposes of educational entitlement. Students who pass a proficiency test are encouraged to add additional curriculum courses in order to maintain full-time status.

*CLEP examinations will be the required proficiency test where available. Students will be referred to area CLEP examination sites for testing when appropriate.

Tech Prep Advanced Placement

Cumberland County high school graduates who participated in the Career Technical Education Program may be awarded proficiency credit based upon the recommendations of the Cumberland County Career Technical Education Curriculum Development Committee.

SOCAD

Fayetteville Technical Community College is a Servicemembers Opportunity College (SOC). SOC functions in cooperation with 13 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. FTCC participates in the SOCAD-2 network with eleven degree programs available. For more information contact the FTCC Ft. Bragg Office at 678-1050.

READMISSION OF FORMER STUDENTS

Any student who withdraws from the College and wishes to return must contact the Admissions Office to reactivate his/her application for admission.

1. A student who withdrew for unavoidable reasons may be eligible for readmission at the beginning of the next term.
2. A student who was dismissed from the College by disciplinary action may re-enter only upon approval by the Program Area Dean.
3. A student who withdraws from the institution and re-enters at a later term, including students who have completed at least one or more terms, will be subject to curricular requirements in effect at the time of reentry.
4. Any student indebted to the College is ineligible to re-enter until all financial obligations to the institution have been satisfied.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
REQUIRED PLACEMENT TEST

ASSESSMENT AND EVALUATION OF STUDENTS
Fayetteville Technical Community College wants each student to be successful in meeting his or her educational goals. To evaluate the level of preparation and to place students in appropriate courses, the College requires assessment in the skill areas of English, reading, and mathematics. To satisfy assessment requirements for most programs, the student needs to take the ACCUPLACER (or other North Carolina Community College System approved assessments) unless eligible for a waiver. Assessment scores will be used for course level placement. Each of the three skill areas of English, reading and mathematics is independent of each other. A student may place at the college level in one or more areas and at the college preparatory level in other areas(s). The College may limit the student to college preparatory courses and any other instruction for which he or she is adequately prepared. Students who need testing accommodations due to a documented disability should contact the Special Populations office at (910) 678-8349.

REQUIREMENTS FOR TAKING ASSESSMENT
Whether the student is seeking full-time or part-time enrollment, unless he or she is qualified for an exception, the student must complete a NC state approved assessment as indicated:
1. Prior to participating in registration if the student is seeking degree.
2. Prior to registration for any course which has a specific assessment score as a prerequisite.

Assessment scores may not be more than three years old from test date.

ASSESSMENT EXEMPTIONS
Students will be exempt from taking the assessment for registration in courses for which they are qualified if they provide an official transcript or other written documentation.

Recent High School Graduates
A recent high school graduate who meets the minimum 2.6 GPA benchmark will be exempt for the assessment and will be eligible to enroll in college-level math and English courses based on the following:

Option 1:
• Official transcript from a high school legally authorized to operate in North Carolina
• Graduation within 5 years of enrollment at FTCC
• Unweighed high school GPA of 2.6 or greater
• Completion of Algebra I, Algebra II, Geometry, and a 4th higher math* and English I, II, III, and IV

Option 2:
A student must obtain the minimum ACT or SAT score to be waived from the ACCUPLACER. ACT/SAT tests completed within the five years of enrollment qualify for a test exemption.
• ACT Reading score of 20 OR ACT English score of 18
• SAT Reading score of 500 OR SAT Writing score of 500
• ACT Math score of 22
• SAT Math score of 500

Transfer Students
Transfer students may be eligible for a placement waiver, if you:
• Are enrolled in another college or university and applied to FTCC as a “special credit” status. Unofficial transcript will be evaluated to substantiate completion of required prerequisite course
• Attended a regionally accredited institution (RAI) in which English was the language of instruction and completed college-level English and/or math with a grad of “C” or
• Holds a Bachelor’s degree or higher from a (RAI) in which English was the language of instruction.

Standardized Exams
A student must complete the exam within five years of test date and obtain the minimum score below:
• ACT score of 20 in math, reading, and/or English
• SAT score of 500 in math, reading, and/or English
• AP score of 3, 4, 5 in math, reading, and/or English
• CLEP score of 420 paper version or 50 computer version in math and/or English
• IB score of 5, 6, 7 in math and/or English
• Excelsior score of “C” in English Composition and/or “C” in Statistics

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
APPROVED ASSESSMENTS

ACCUPLACER: FTCC administers the ACCUPLACER Computerized Placement Tests from the College Board. The assessments are Reading Comprehension, Sentence Skills, Computation/Arithmetic and Elementary Algebra.

There is no charge for the ACCUPLACER. The assessment takes approximately two to two and one-half hours and is available days and evenings. View the assessment schedule at http://www.faytechcc.edu/testing/testing_schedule.aspx.

Other Assessments: Other tests approved by the North Carolina Community College System are the ASSET, COMPASS, North Carolina Diagnostic Assessment and Placement (NCDAP).

Retest Policy: A student who requests to retest on all or parts of the ACCUPLACER, must demonstrate completion of a pre-curriculum course, completion of a practice test, attendance at a Success Center Workshop.

Students may not retest while enrolled in a DMA or DRE course until after the 90% point of the class.

Students who plan to challenge a curriculum level course must contact the Department Chairperson of the appropriate department to request a Proficiency Exam. Proficiency Exams are given under the following conditions:
• Student passes preliminary screening given by the Department Chairperson
• Student registers for the course in order to take the proficiency exam
• Student completes Proficiency Exam within the first four class days of the semester

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
**ACADEMIC INFORMATION**

**CURRICULUM GRADING PROCEDURES**

FTCC grades are based on a 4.0 grading system. Each grade is assigned a “grade-point equivalent” in quality points for each term credit hour scheduled. The grade point average (GPA) is determined by dividing the total of quality points earned by the number of term hours scheduled.

Letter grades are used to indicate the quality of a student’s work.

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
<th>Grade Point Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>93-100</td>
<td>A-Excellent</td>
<td>4 points per credit hour</td>
</tr>
<tr>
<td>85-92</td>
<td>B-Good</td>
<td>3 points per credit hour</td>
</tr>
<tr>
<td>77-84</td>
<td>C-Average</td>
<td>2 points per credit hour</td>
</tr>
<tr>
<td>70-76</td>
<td>D-Below Average</td>
<td>1 point per credit hour</td>
</tr>
<tr>
<td>0-69</td>
<td>F-Failure I-Incomplete After eight (8)weeks for 16 week classes and 4 weeks for 8-week classes, the grade becomes an “F”</td>
<td></td>
</tr>
</tbody>
</table>

AU .... Audit (No Credit) – No effect on grade point average
NS .... No Show – No effect on grade point average
P ....... Proficiency – No effect on grade point average
T ...... Transfer – No effect on grade point average
W ...... Withdrawn from Class(es) - the grade given when a student drops a class after the 10% point in time through the 90% point in time. The grade is not factored into the student’s grade point average.
I (Incomplete) may be given at the discretion of the instructor when all course requirements have not been met. After eight weeks from the beginning of the next term, an incomplete grade in a sixteen-week class becomes an “F.” After four weeks from the beginning of the next term, an incomplete grade in an eight-week class becomes an “F.”

AU (Audit) requests must be made at the first class session. The intent of the AU is to allow students to take courses for no credit. Forms must be obtained from the Registrar’s Office and be signed by both student and instructor during the first two days of the sixteen-week course and the first day of an eight-week course. Developmental classes may not be audited. To receive the AU, the student must meet all course requirements. This grade is permanent and can not be converted to a letter grade.

NS (No Show) is administered when a student registers, but fails to attend face-to-face class(es) or fails to participate in on-line classes by completing an assignment prior to the 10% point of the term.

P (Proficiency) by examination may be given after the student has registered for the course and after a preliminary screening test is given by the department chairperson. The grade equates to a “C” or better. This process must be completed within the first four class days of the term.

T (Transfer) credit is granted for courses completed at other regionally accredited community colleges, colleges, and universities.

Students will receive their grades via Web Advisor.

All final course grades will be letter grades in accordance with the adopted grading system. Grade reports are posted via Web Advisor.

All students must have at least a 2.0 grade point average (major and cumulative GPA) and have passed all curricular subjects as listed in the course outline under which they entered to be eligible for graduation. They must also meet the grade level needed in major subjects required to take licensure examinations.

Health occupations curricula, Funeral Service Education, and Paralegal Technology require course grades of C or better in order to progress to the next course/term. Each department area will issue to the student in written form the necessary information to cover such grading policies. Students who request transfers to other degree curricula are expected to have maintained a 2.0 GPA on all courses completed including prerequisite courses.

**Pre-Curriculum Developmental Course Grading System**

Courses numbered below 100 are pre-curriculum developmental courses and are graded on a ten-point grading scale. The following numerical and letter grades are assigned for pre-curriculum developmental courses:

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>80-100</td>
<td>P - Passing or</td>
</tr>
<tr>
<td>0-79</td>
<td>S - Satisfactory</td>
</tr>
</tbody>
</table>

Pre-curriculum developmental course grades are not counted as credit towards graduation, and they are not calculated into the student’s cumulative Grade Point Average (GPA).
COURSE REPEAT POLICY AND PROCEDURE

Course Repeat

A student may repeat for credit or audit any curriculum course one time in an effort to earn a higher grade and/or to add to his/her mastery of course content. If a student petitions for another attempt through the appropriate Dean for their program, a third and final attempt may be granted based on documented major extenuating circumstances. When a course is repeated, the last grade earned (A, B, C, D, F, or W) will be counted in determining the hours earned and in determining the GPA at the College. However, all grades will be recorded on the student’s official transcript. Grades audit (AU) is not calculated in the GPA, but they will be considered as a repeat grade.

A student’s (GPA) is based on the number of credits earned and the grades received. Cumulative GPA reflects all courses taken; major GPA reflects courses in the major.

Specific program requirements for academic progress are outlined in the College Catalog (i.e., health programs curricula, Funeral Service Education, and Paralegal Technology).

The University of North Carolina System and other colleges or universities require that a student earn a grade of “C” or better in each transfer course completed. A student planning to transfer should realize that receiving institutions do not have consistent policies regarding course repeats. Admissions personnel will review the transcripts of transfer applicants and may recompute grade point averages to include the grade originally assigned, or compute all grades assigned at Fayetteville Technical Community College.

Note to students receiving VA assistance: Two attempts will be the maximum allowed for counting a course as part of a student’s credit hour load for determining eligibility. Veterans who wish to repeat courses, for which a passing grade (D or higher) has been earned, will not receive educational benefits for repeating those courses.

Note to students receiving financial aid: All attempted classes will be counted toward academic progress. (Attempted includes a grade of A, B, C, D, F, W, U, I)

Note to students interested in a health program: Previously completed science courses must have been satisfactorily completed with a grade of “C” or better within five years of entry in a health program. These courses may be attempted only twice. The appropriate health department chairperson through the Dean of Health Programs may approve exceptions.

Course Repeat Procedures

The request for course repeat must be initiated by the student and directed to the Registrar. All requests must be initiated prior to the final term of enrollment (i.e., at the end of fall term if graduating at the end of the spring term). Students applying for health programs must make the request prior to the January 30 deadline. The “Course Repeat Request” form is available online under Forms. Note to students taking Developmental Courses (courses designated less than the 100 level, i.e., DMA 50): Developmental Courses may be attempted only twice.

Grade Forgiveness Procedures

Form G-8, Request for Grade Forgiveness

A student may petition in writing to the Dean of Enrollment Management and Financial Aid to have grades which are at least four years old forgiven. In order for the request to be considered, the course in question must not have been under a previously granted certificate, diploma, or degree. Prior to making this request, it is the student’s responsibility to review the change with a counselor to make sure that there are no potential program conflicts, Financial Aid issues, Veteran’s Aid issues or third party payment issues. The forgiven grade will remain on the student transcript; however, will no longer be counted in the calculation of the GPA. A forgiven grade will still be counted in the calculation of the Financial Aid GPA.

The Vice President for Academic and Student Services must approve exceptions to this policy.

Schedule Adjustments and Withdrawals

Withdrawal from Class(es)

Student Withdrawal from Class after the 10 Percent Date.

• A student may withdraw from a class as late as the 90 percent date of the term without penalty. The transcript will indicate a “W”. A “W” grade does not negatively impact the student’s GPA, but will count as an attempt for purposes of veteran’s benefits or financial aid.

• Failure to withdraw properly may result in a failing grade for the course and may jeopardize a student’s right to reenroll at a later date.

• A student who withdraws or drops from any portion of a course (classroom, lab, clinic or shop) will be dropped from the entire course (class and lab).

• A student who receives Financial Aid or VA Educational benefits should confer with personnel in those offices before dropping classes or withdrawing from the College to determine the impact of a withdrawal on those benefits.

• In order to withdraw from class(es) a student must submit the Student Online Withdrawal Form found under Registration info on the FTCC website. If the student does not complete the withdrawal process, he/she will remain enrolled in the course and will receive
the grade assigned by the Instructor. The instructor will note the last day of contact with the student, which will affect financial aid owed for repayment.

- Faculty will not process withdrawals, except in the case of Administrative Withdrawals described below.

**Administrative Withdrawal by Faculty or Administration**

- For Curriculum Courses (numbered 100 or higher): Students who are absent for more than 20 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- For Developmental Courses (numbered below 100): Students who are absent for more than 10 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- A student who registers for a class and never attends a face-to-face class or fails to participate in an online class by completing an assignment within the first 10% of class meetings is a “No Show.” A “No Show” student will be dropped from the class and a grade of “NS” will be assigned to the student’s record. An “NS” will not count in the student’s GPA or as an attempt for veteran’s benefits or financial aid. Awarded financial aid will be removed from students who withdrew from all classes as a “no show”.

- If a student is suspended from the College during the term, a grade of “W” will be assigned for each class in which the student was enrolled that term.

**Course Prerequisite and Co-requisite Guidelines**

A prerequisite is a course that must be taken prior to another course. A co-requisite is a course that must be taken at the same time as another course or prior to the course to be taken. The college may mandate prerequisites and co-requisites to ensure students are prepared to meet the requirements of the course material. Students who do not have confirmed prior credit, equivalency via placement test scores, or transfer equivalency that satisfies the stated prerequisites and co-requisites may be administratively dropped from the course. Course prerequisites and co-requisites may be found by using WebAdvisor. Academic Deans, Division Chairs, Department Chairs, and Program Coordinators have the authority to waive a prerequisite or co-requisite based upon verified evidence that the student has the necessary prerequisite or co-requisite experience to meet the demands of the higher level course. A Prerequisite Waiver Approval Form will be completed for each waiver granted when the evidence of the prerequisite or co-requisite is not identified in Datatel. *The form is located under the Faculty/Staff link on the homepage and a username and password is required to submit the form.

**TUITION REFUNDS**

1. Before classes begin a 100 percent refund shall be made if the student officially withdraws prior to the first day of class (es) of the academic semester or term as noted in the college calendar. Also, a student is eligible for a 100 percent refund if the class in which the student is officially registered is cancelled due to insufficient enrollment.

2. After classes begin a 75 percent refund shall be made if the student officially withdraws from the class (es) prior to or on the official 10 percent point of the semester.

3. For classes beginning at times other than the first week (seven calendar days) of the semester or term, a 100 percent refund shall be made if the student officially withdraws from the class prior to the first class meeting. A 75 percent refund shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class.

4. To comply with applicable federal regulations regarding refunds, federal regulations supersede the state refund regulations stated in this Rule.

5. Military Students. A full refund of tuition and fees shall be granted to military reserve and National Guard personnel called to active duty or active duty personnel who have received temporary or permanent reassignments as a result of military operations taking place outside the state of North Carolina that make it impossible for them to complete their course requirements.

6. Death of Student. When a student, having paid the required tuition for a semester, dies during that semester, all tuition and fees paid for that semester will be refunded to the deceased student’s estate, when requested by the estate within ninety days after the student’s death.

**Tuition/Fee Refund Appeals**

Students are responsible for charges and payments to their student tuition/fee account.

Appeals for the current and/or immediate prior term only will be considered and reviewed. All other appeals will not be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
• Death of an immediate family member. A copy of the death certificate is required.
• Medical emergency which results in the inability to attend class. Medical documentation is required. Medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor is required.
• Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is required.

For any other mitigating circumstances, documentation and explanation must be submitted with the appeal form.

Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed monthly on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting indicating the decision of the Appeals Committee.

Financial Aid Students: A dropped class will result in a change in enrollment credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office at 910-678-8242 or finaid@faytechcc.edu with any questions regarding your financial aid prior to submitting this form.

FEDERAL RETURN OF TITLE IV FUNDS FOR COMPLETE WITHDRAWALS

Students receiving Title IV funding (Federal Pell Grant, Supplemental Educational Opportunity Grant or William D. Ford Federal Direct Loans) who completely withdraw from classes are required to have earned aid evaluated through a federal formula. Unearned aid is returned to the federal financial aid programs. The amount of federal funds returned to the federal programs will be determined based on the date the withdrawal process begins or the last date of attendance. If the date the withdrawal process begins or last date of attendance is not available or known, the federal refund will be based on the 50 percent point of the semester. Return of Title IV funds will not be computed after the 60 percent point of the semester.

BOOKSTORE REFUNDS

Bookstore refunds are made under the following conditions:

• Students are allowed ten (10) calendar days beginning with the first day of the term to return textbooks for refund or credit.
• Books which have not been used, damaged, or marked in will be accepted for 100 percent refund or credit toward the purchase of additional items. Proof of purchase (cash register receipt) must be shown.
• Bookstore purchases made using a MasterCard or VISA will be refunded back to the same credit card if the book(s) are returned with the original sales receipt and credit card.
• Bookstore purchases made with Personal Check and returned with original sales receipt will be held for 10 business days after date of purchase to ensure the check clears. The refund voucher will be processed by the Office of Business and Finance and the refund will be issued to the student per refund preference submitted via WebAdvisor approximately two weeks later.
• Bookstore purchases made with Cash and returned with original sales receipt will be processed by the Office of Business and Finance and the refund will be issued to the student per refund preference submitted via WebAdvisor approximately two weeks later.
• No cash refunds will be made
• Military Students: The College shall buy back textbooks through the colleges’ bookstore operations to the extent possible. The College will use distance learning technologies and other educational methodologies to help these students, under the guidance of faculty and administrative staff, complete their course requirements.

TUITION WAIVERS

(Subject to change)

(1) High school students enrolled in a community college curriculum course under the Career and College Promise program are exempt from tuition.

High school students in the Career and College Promise program are also exempt from the CAPS fee. In addition, high school students in these programs are exempt from the activity fee and technology fee when the course location is the high school. The activity fee and technology fee is paid by Cumberland County Schools when the student attends high school in the public school system. Private and home school students pay the activity fee and technology fee under the Career and College Promise program.

(2) When an employer, other than the armed services, pays tuition for an employee to attend a community college and when the employee works at a North Carolina business location, the employer is charged the in-state tuition rate.

(3) Certain out-of-state students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the military, for employment may be eligible for tuition payment at the in-state rate.
(4) Out-of-state service members and their dependents stationed at a North Carolina base are eligible to be charged the in-state tuition rate. The waiver is for the academic year. Continuing students may re-apply each fall term.

(5) Members of the armed forces that register through the GoArmyEd website are exempt from the activity fee, technology fee, and CAPS fee based on the agreement between the College and contractual agency.

(6) Students enrolled in Internet courses only (taking no traditional face-to-face courses) may request a waiver of the student activity fee.

(7) Volunteer fireman, local fire department personnel, volunteer rescue and lifesaving department personnel, local rescue and lifesaving department personnel, local law enforcement officers enrolled in training course are exempt from tuition and registration fees.

(8) Students enrolled in Human Resources Development programs are exempt from continuing education registration fees.

(9) Elementary and secondary school employees enrolled in courses in first aid or cardiopulmonary resuscitation (CPR) are exempt from continuing education registration fees.

(10) Law enforcement officers employed by a municipal, county, state agency and trainees that are sponsored by a state, county, or municipal law enforcement agency taking state-mandated Basic Law Enforcement Training Programs are exempt from tuition.

(11) Eligible survivors of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker killed in the line of duty, are exempt from tuition and registration fees.

(12) An eligible spouse or child of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker who is totally and permanently disabled, as a result of an injury sustained in the line of duty, is exempt from tuition and registration fees.

(13) An eligible ward of the state is exempt from tuition and registration fees not covered by other financial aid.

(14) Tuition/fee waivers are not applicable to courses established on a self-supporting basis.

ATTENDANCE POLICY

Because of the nature of the vast majority of the courses at Fayetteville Technical Community College, the administration has established the following policy. The policy has been established for the benefit of the students who are forced, because of reasons beyond their control, to miss classes as well as those who do not miss any classes (both groups of students are involved). Attendance may be taken separately in each portion of a course (i.e., class, lab, clinic, shop). Missing 20% of any portion of a course may result in administrative withdrawal. When enrolled in developmental studies courses missing 10 percent or any portion of the course may result in administrative withdrawal. A student who registers for a class and never attends a face-to-face class or fails to participate in an online class by completing an assignment within the first 10% of class meetings is a “No Show.”

(1) Instructors will make every effort to advise students who have missed more than 10% of a course that their standing in class is in jeopardy. Students who add a course after the first day of the class are responsible for all materials covered from the beginning. Instructors are encouraged to refer students with excessive absences to the Counseling Office.

(2) If absences exceed 20% (10 % for developmental studies courses), at any point during the term, the faculty member may: drop the student from the course, or allow the student to continue in the course under conditions set by the instructor.

(3) Tardy students interrupt the beginning of a class meeting. If a student enters the class after the instructor has started the class, the student shall be recorded as being tardy. Three tardies shall be counted as one absence.

(4) No absence, for any reason, shall excuse a student from an announced test, examination, or other assigned activities. Except in the instance of an excused absence for Religious or solemn observances, make-up of any tests or work missed shall be at the discretion of the faculty member. Students shall be permitted to make-up tests or missed assignments as the result of a religious or solemn observance, so long as notice of the observance was given to the college in writing within two weeks of the first meeting of the class. The make-up of any test or examination shall be scheduled on the earliest possible date after the student returns to class.

(5) Special attendance policies are in effect for the following programs: Associate Degree Nursing, BLET, Dental Assisting, Dental Hygiene, Central Sterile Processing, Early Childhood Education Credential Certificates, Emergency Medical Science, EMT classes, Fire Academy (Continuing Education), Mammography, Nuclear Medicine Technology, Nursing Assistant, Pharmacy Technology, Physical Therapist Assistant, Practical Nursing, Radiography, Respiratory Care, Speech Language Pathology Assistant, and Surgical Technology. No department may impose a different attendance policy unless specifically required for licensure purposes. Requests for a more stringent policy must be submitted in writing to, and approved by, the appropriate Program Area Dean.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
(6) Special permission must be obtained from the Registrar/Curriculum and the faculty member before a friend can sit in on a class. Students are responsible for their guest’s behavior while on campus.

(7) Children are not to be left unattended anywhere on campus. Small children of students are not permitted to sit in classes or labs.

ACADEMIC STANDARDS FOR GRADUATION
The College requires that students maintain a cumulative and major GPA 2.0 or higher in order to meet institutional standards of progress and to be eligible for graduation.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)
To remain eligible for state and federal financial aid programs, students need to make Satisfactory Academic Progress (SAP) toward achieving a degree, diploma, or certificate. Standards of Satisfactory Academic Progress are applied to all students who wish to establish or maintain financial aid eligibility at FTCC, regardless if they have received financial aid funds in the past. The standards are established to encourage students to progress toward an educational objective and complete a degree within a reasonable time frame and with the least amount of loan debt. If the standards are not met, students are not eligible for federal and state financial aid.

ACADEMIC PROGRESS STANDARDS FOR ALL STUDENTS
All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by both the Registrar’s Office (for all students) and by the Financial Aid Office (for student’s receiving financial aid).

Maintain a Minimum Cumulative GPA
• Maintain a cumulative grade point average of at least a 2.0.
• Cumulative GPA is based on all credits attempted since your initial date of attendance at FTCC regardless of program.
• Grade forgiveness and program GPA are not factors in the calculation of cumulative GPA.
• A student’s cumulative grade point average must meet the minimum standards of the institution according to degree intentions. The minimum cumulative and major grade point average for graduation at FTCC is 2.0.

Maintain a Minimum of Completed Credit Hours for Credits Attempted
• Complete a minimum of 67% of cumulative credit hours attempted.

• Attempted credits include courses with grades of “A” through “F”, “W”, I, S, An F, W, or I grade is not considered a completed credit and will count against your attempted credit calculation and GPA.
• All transfer credits accepted by FTCC will count toward the calculation of attempted credits.
• Credit hours taken for a grade of “audit” (AU) do not apply toward an associate degree, diploma, or certificate program. Therefore, credit hours with this designation are not included in determining enrollment status for financial aid disbursements or Satisfactory Academic Progress. Students with changes in grade type of an “audit” (AU) after the disbursement of financial aid will be reviewed for an enrollment status change. This change may result in a reduction of financial aid eligibility and a balance owed to the College.
• Courses with grades of “I” (Incomplete) will be considered as credit hours attempted and not completed. Students who have made arrangements with the instructor to complete required course work are not required to re-register for the same class during a subsequent semester to complete the work. Any course carried forward to the next semester for completion will not be counted as part of the new semester enrollment status. If the “incomplete” grade was instrumental in placing a student on financial aid probation or suspension, once completed, the student may appeal for a re-evaluation of Satisfactory Academic Progress by submitting the Satisfactory Academic Progress Appeal form to the Financial Aid office at FTCC.
• Repeated courses will be counted as hours attempted and also toward maximum credits allowable for each type of program for financial aid.

Complete A Degree, Diploma or Certificate Program in no More Than 150% of the Average Length of the Program:
• Cumulative credit hours attempted are defined as all credit hours attempted at FTCC, and all credit hours transferred to FTCC from other institutions.
• Students will not be eligible to receive financial aid once they have attempted 150 percent of the normal credits required for their approved program of study, i.e., degree, diploma or certificate.
• All attempted credits are counted, including credit for prior learning, and developmental courses; whether or not financial aid was received, or the course work was successfully completed.

STUDENT ACADEMIC STANDING PROCEDURES FOR ALL STUDENTS
All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by the Registrar’s and Records Office. This procedure involves reviewing each student’s cumulative grade point average (GPA) to evaluate his or her academic progress and academic standing.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Students are encouraged to review the online College Catalog for details of how a student’s academic progress may affect his or her continued enrollment. Please keep in mind that Financial Aid and Veterans Services may have more restrictive academic progress and academic standing requirements as conditions of his or her continued funding.

GOOD STANDING
A student is considered to be in good academic standing when he or she earns a cumulative GPA of 2.0 or above.

ACADEMIC WARNING
A student is considered to be on academic warning when his or her cumulative GPA is below 2.0 at the end of the semester. This warning is an indication of potential academic problems and is communicated to the student and the student’s advisor and major department(s). A letter is sent via email encouraging attendance in interactive seminars facilitated by Counseling Services and an orientation of the Success Center.

ACADEMIC PROBATION
A student is considered to be on academic probation when the student is already on academic warning and his or her cumulative GPA is still below 2.0 at the end of a semester. The student is placed on academic probation, and this is noted on the student’s permanent record. A letter is sent via email requiring the student to meet with his or her academic advisor.

HONORS AND ACHIEVEMENTS

President’s List
The President’s List is generated at the end of each semester for students with a perfect grade point average. This honor is reflected on students’ transcripts. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from consideration.

Students must make a final grade of “A” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn a 4.00 GPA on a minimum of 12 credit hours. The formula used to calculate this 4.00 GPA excludes the following grades: AU, P, S, T, W, WP, and W*.

Students are NOT eligible for consideration until all course work is completed for the term.

Dean’s List
The Dean’s List is generated each semester for students with an outstanding grade point average. This honor is reflected on students’ transcripts.

Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.

Students must make a final grade of “A” or “B” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn at least a 3.5 GPA on a minimum of 12 credit hours. The formula used to calculate this minimum 3.5 GPA excludes the following grades: AU, P, S, T, W, WP and W*.

Students are NOT eligible for consideration until all course work is completed for the term.

The President’s Award
The President’s Award is presented to a deserving graduating student at graduation selected by a faculty-staff committee. To be eligible for this award, a student must have a minimum 3.0 GPA and must have been enrolled on a full-time basis during the year of nomination. The student must exhibit and promote good student morale and demonstrate a genuine concern for FTCC and its role in the community.

Ambassadors
Each year, Fayetteville Technical Community College chooses eight outstanding students to serve as Ambassadors. The Ambassadors act as official hosts and hostesses for various campus events. Ambassador candidates must have completed 12 semester hours at FTCC, have a minimum 2.5 GPA, and be recommended by three members of the College community.

Graduating With Honors
Any student who has earned a GPA of 4.0 in his/her program of study at FTCC will be granted a diploma or degree with highest honors. Any student who has earned a GPA of 3.5 to 3.99 in his/her program of study will be granted a diploma or degree with honors. The student’s transcript will be noted to reflect this achievement.

REQUIREMENTS FOR GRADUATION
To be eligible for graduation, the student must:

1. Successfully complete the curricular requirements in effect at the time the student entered the curriculum. Students who enter a curriculum after the fall term are subject to the curricular requirements in effect at the time of reentry. A student who withdraws from the College and reenters at a later semester, including students who have completed at least one or more semesters, will be subject to curricular requirements in effect at the time of reentry. In cases where students reenter at the beginning of fall semester, they are subject to the requirements for the curriculum at the fall semester re-entry.

2. Have met all admissions requirements for the program in which the student will graduate, including receipt of high school transcript/GED and transcripts from all colleges/universities that course credit for the certificate, diploma or degree requirements were derived. Students must complete a minimum of 25% of resident credit at FTCC to be able to receive an associate degree.

3. Have sufficient grade points to average 2.0 major and cumulative GPA.
(4) Have passing grades in all required courses (certain curricula, especially in the health area, require that a student make at least a “C” on major subject areas for the student to be eligible to take state and national examinations for licensure.)

(5) Must have taken care of ALL financial indebtedness to Fayetteville Technical Community College, including a graduation fee.

(6) Applications for degrees or diplomas must be completed by the student and returned no later than the end of the fall semester for the spring graduation and the end of the spring semester for summer graduation from those programs that are completed in sequence during the summer (i.e., Emergency Medical Science, Radiography, and certain vocational curricula). The College assumes no responsibility for making special adjustments for students who fail to file applications by the designated time. A candidate who fails to file an application for graduation or meet graduation requirements by the designated date automatically voids his/her candidacy for that particular graduation.

A WORD OF ADVICE: It is important to review your program requirements and your EVAL two semesters before graduation to be sure you are meeting all requirements. Check with your faculty advisor.

Progress Standards for Select Programs

The following programs require that a student complete the stated course work with a grade of “C” or better in order to progress to the next course/term/graduation:

*Associate Degree Nursing* – A “C” or better in all NUR and science courses and a satisfactory grade in clinical.

*Central Sterile Processing* – A “C” or better in all STP courses.

*Dental Assisting* – A “C” or better in all DEN and science courses and a satisfactory grade in clinical.

*Dental Hygiene* – A “C” or better in all DEN and science courses and a satisfactory grade in clinical.

*Emergency Medical Science* – A “C” or better in all EMS and science courses and a satisfactory grade in clinical.

*Funeral Service Education* – A “C” or better in all FSE courses and ACC 111, BUS 115, and PSY 141.

*Healthcare Management Technology* – A “C” or better in all HMT courses.

*Mammography* – A “C” or better in all MAM courses.

*Nuclear Medicine Technology* – A “C” or better in all NMT and science courses.

*Nursing Assistant* – A “C” or better in all NAS courses.

*Paralegal Technology* – A “C” or better in all LEX courses.

*Pharmacy Technology* – A “C” or better in all PHM and science courses.

*Physical Therapist Assistant* – A “C” or better in all PTA and science courses.

*Practical Nursing* – A “C” or better in all NUR and science courses and a satisfactory grade in clinical.

*Radiography* – A “C” or better in all RAD and science courses.

*Respiratory Therapy* – A “C” or better in all RCP and science courses.

*Speech-Language Pathology Assistant* – A “C” or better in all SLP and science courses.

*Surgical Technology* (Degree or Diploma) – A “C” or better in all SUR and science courses.
Fayetteville Technical Community College is committed to the concern for and protection of students’ rights and privacy of information. The College complies with the provisions of the Federal Family Rights and Privacy Act (FERPA), which is a federal law that governs the maintenance of students’ records. Under law, students have the right to inspect their educational records, correct inaccuracies in the records if warranted, and the records are protected from release of information without written consent. Most student records are open for inspection and review by the student. The parent(s) of a dependent student as defined in Title 26 U.S. C.s152 of the Internal Revenue Code also has this right to inspect records that are maintained by the College on behalf of the student.

The Registrar is responsible for student records. All students are provided rights under the Family Education Rights and Privacy Act (FERPA).

1. After submitting a written request and within two working days, a student may receive an unofficial copy of his or her transcript. Requests received during the registration period will require 5-10 working days. There is a $5.00 fee for each official transcript. Order transcripts online.

2. State of Rights – Operating under the premise that the educational process is a cooperative venture between the student and FTCC, this policy emphasizes the following rights of students:
   a. to inspect and review their educational records
   b. to exercise limited control over other people’s access to their educational records
   c. to seek to correct their educational records in a hearing if necessary
   d. to report violations of FERPA to the Family Education Rights and Privacy Act Office—Department of Education
   e. to be informed about their FERPA rights

3. We cannot provide any contact information for our students, as that information is confidential under FERPA because of a change the Trustees of FTCC made last year. Specifically, the Board’s policy says that directory information is now limited to the following:
   1. Name
   2. Curriculum
   3. Enrollment Status
   4. Dates of Enrollment
   5. Degree Received

Students who object to the release of directory information must notify the Registrar/Curriculum in writing within five (5) school days from the first day of the term of the items that the student does not want disclosed. If no objection is received by that date, the information will be classified as directory information until the beginning of the next school year.

4. Students may petition the Registrar to amend or correct any part of the educational record which the student believes is inaccurate, misleading, or in violation of student rights. This includes the right to a hearing to present evidence that the record should be changed if FTCC decides not to alter it according to the student’s requests.

5. Students may file a complaint with the FERPA Office, Department of Education, 330 Independence Avenue, SW, Washington, DC 20201, if FTCC violates the FERPA laws or this policy.

6. Students may obtain copies of FERPA rights by making a request to the U. S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605, or by accessing the following websites:
   http://www.accessreports.com/statues/FERPA.htm

7. FTCC reserves the right to deny official transcripts or copies of records not required by FERPA in any of the following situations:
   a. The student has any unpaid financial or other obligations to the College, including, without limitation, unresolved parking violations, overdue books, or unpaid library fines
   b. There is unresolved disciplinary action against the student or unresolved litigation between the student and FTCC.

Note: When a student has a name change, the student is responsible for contacting the Registrar’s Office in person, with the necessary documentation, to revise the information (i.e., a social security card). Out-of-town and/or distance learning students may fax or send a copy of the document to the Registrar’s Office.
STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

Student Rights
Students enrolled at FTCC are encouraged to develop the capacity for critical judgment and to engage in both an instructor led and an independent search for knowledge. Free inquiry and free expression are essential to developing these skills; however, students should exercise this academic freedom with responsibility. Students are required to follow all College guidelines, including the Student Code of Conduct, and to obey all laws when on any FTCC campus or when participating in any campus sponsored or supported event.

(1) Every student has the right to a learning environment that is free from unreasonable distractions. If a student’s behavior interferes with the educational process, that student will be directed to end the activity causing the disruption. A student who continues to disrupt can be removed immediately from class and/or campus. Within a reasonable time after being removed, the student will be advised of his/her options, which are more fully described under the section on Disciplinary Action.

(2) Students have the right to be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

(3) Students have the right to freedom of expression, inquiry and assembly so long as it is not disruptive to a learning environment.

(4) Students have the right to inquire about and propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees, and College officers.

(5) Students and former students have the right to review their official records. No records shall be made available to unauthorized personnel or groups outside the College without the written consent of the student involved, except under legal compulsion or in accordance with federal law and the announced policies/procedures of the College. Student rights in this area are more fully described in the following section.

Student Code of Conduct
The following regulations set forth rules of conduct that prohibit certain types of student behavior. Students are expected to act and dress appropriately for a college environment. Neither actions nor dress should distract others from concentrating on their course of study. The College has established the following Code of Conduct to ensure that an appropriate college environment is maintained. Violation of one or more of these regulations may result in disciplinary sanctions. Students are not permitted to engage in any of the following activities while participating in any college course, while on campus, while participating in a College-sponsored event, or while in a College owned vehicle.

(1) Academic dishonesty, including, but not limited to:
   a. Obtaining test information, research papers, notes and other academic material without authorization;
   b. Receiving or giving help on tests, projects, or assignments submitted for a grade unless specifically authorized by the instructor; and,
   c. Plagiarism, which is taking credit for another’s ideas or works as if they were your own.

(2) Theft, vandalism, or misuse of College property wherever it is located.

(3) Possession, use, or distribution of alcohol or any illegal drug. In addition, students shall not be under the influence of any such substance while on campus, at College events, or in College owned vehicles.

(4) Using, recording, or disseminating anything which is lewd, offensive, obscene, profane, or vulgar, including, but not limited to, the use of profane or vulgar language.

(5) Physical violence against another person or threatening physical violence against another person.

(6) Harassment or intimidation of any other person, including but not limited to, sexual harassment or intimidation.

(7) Participation in gatherings or demonstrations that interfere with another’s ability to freely access College facilities or property. Students shall not disrupt or interfere with the College’s educational processes or College functions. Student shall comply with any instruction of a College employee to leave the scene of a disruptive gathering or demonstration.

(8) Violation of any college policy or any state or federal law prohibiting the possession of weapons on any FTCC campus.

(9) Tampering with a fire alarm or other safety equipment belonging to the College.

(10) Gambling.

(11) Smoking or using other forms of tobacco in any unauthorized area including but not limited to classrooms, shops and labs. For areas of the campus where smoking is permitted, refer to the College’s policy on Smoking on Campus which is described more fully later in this section.
Disciplinary Action

Students who violate College regulations are subject to the disciplinary penalties of the College. If the student’s behavior violates both the law and College regulations, the College may take disciplinary action independent of that taken by legal authorities.

1. If an act of misconduct threatens the health or safety of any member of the academic community or seriously disrupts the function and good order of the College, an instructor or administrative officer may direct the student(s) involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. The instructor may suspend the student(s) from the class until further notice. An administrative officer may suspend the student(s) from either the class or the College until a resolution of the matter can be made. Disruptive behavior may include, but is not limited to, obscene and/or disruptive language, threatening actions, and blocking or restricting access to college classes, offices, and programs. The instructor or administrative officer invoking such suspension shall notify the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) in writing of the individual(s) involved and the nature of the infraction as soon as possible but no more than two days following the incident. The Academic Dean or Designee shall resolve the matter in a timely fashion.

2. A violation, or possible violation, of the Weapons on Campus policy shall be reported to campus security immediately by phone, 678-8433, Emergency Call-box, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990. The Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Academic Dean or Designee or Associate Vice President for Continuing Education, the next available Dean/administrator/director/supervisor should be notified.

Upon notification by the Director of Public Safety and Security, the Academic Dean or Designee or the Associate Vice President for Continuing Education shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

Upon completion of the inquiry, the Academic Dean or Designee or the Associate Vice President for Continuing Education shall determine whether a violation of this policy occurred. If the Dean or Designee or Associate Vice President determines a student did violate this policy, the Dean or Designee or Associate Vice President shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

3. Any administrative official, faculty/staff member, or student may file charges with the FTCC Security Office against any student or student organization for violations of
College regulations. The individual(s) making the charge must complete a charge form stating:

a. name(s) of the student(s) involved
b. the alleged violation of the specific Code of Conduct
c. the time, place, and date of the incident
d. name(s) of the person(s) directly involved or witnesses to the infractions
e. any action taken that relates to the matter, and
f. desired solution(s)

The completed charge form should be forwarded directly to the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students).

Within five (5) working days after the charge is filed, Security shall complete a preliminary investigation of the charge, and the Dean or Designee or Associate Vice President shall schedule a meeting with the student. After discussing the alleged infraction with the student, the Dean or Designee or Associate Vice President may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Associate Vice President, or where the student refuses to cooperate, the Dean/Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the decision, and instructions governing the appeal process.

(4) Violations of the Code of Conduct related to academic issues, for example, cheating, plagiarism or classroom disruption will be addressed through the chain of command within the academic area.

The penalty for academic offenses is imposed or recommended by the instructor teaching the course. Ignorance of the rules or carelessness about plagiarism or cheating is no excuse.

Penalties for plagiarism and cheating that may be imposed by the instructor include but are not limited to the following:

- re-writing the assignment
- receiving a “0” on the assignment
- failing the course in which the assignment was submitted

Penalties for plagiarism and cheating that may be recommended include but are not limited to the following:

- academic probation
- academic suspension
- expulsion from the college

When probation, suspension, or expulsion is recommended, the recommendation must be submitted to the appropriate Academic Dean within five (5) working days of the discovery of the incident. Within five (5) working days after the recommendation is made, the appropriate Dean/Associate Vice President shall complete a preliminary investigation of the charge and schedule a meeting with the student. After discussing the alleged infraction with the student, the administrative official may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision of the Dean/Associate Vice President shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Associate Vice President, or where the student refuses to cooperate, the Dean/Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the Dean/Associate Vice President’s decision, and instructions governing the appeal process.

(5) Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student’s prerogative.

Sanctions

The following sanctions are examples of those that may be imposed for discipline:

(1) Reprimand: A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

(2) General Probation: An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.

(3) Restrictive Probation: Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the College community. Generally, the individual will not be eligible

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
for initiation into any local or national organization and may not receive any college award or honorary recognition. The individual may not occupy a position of leadership with any College or student organization or activity. This probation will be in effect for not less than two (2) terms. Any violation of Restrictive Probation may result in immediate SUSPENSION.

(4) Restitution: Paying for the damage, misuse, destruction, or loss of property belonging to the College, College personnel, or students.

(5) Interim Suspension: Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

(6) Loss of Academic Credit or Grade: Imposed as a result of academic dishonesty.

(7) Withholding grade reports, diplomas, or right to register or participate in graduation ceremonies: imposed when financial obligations are not met. (Will not be allowed to register until all financial obligations are met).

(8) Suspension: Exclusion from class (es) and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific written permission from the Vice President for Administrative Services before returning to the campus.

(9) Expulsion: Dismissing a student from campus for an indefinite period losing student status. The student may be readmitted to the College only with the approval of the Vice President for Academic and Student Affairs.

(10) Group Probation: This is given to a College club or other organized group for a specific period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

(11) Group Restriction: Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

(12) Group Charter Revocation: Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Re-charter after that time must be approved by the President.

**Student Dress Code**

The Trustees of Fayetteville Technical Community College recognize the importance of maintaining an education environment which promotes rigorous academic studies, encourages critical thinking, and teaches students skills necessary to be successful in the workplace. The Trustees authorize individual educational programs to implement and enforce dress codes when required to protect the health and safety of students. Additionally, the Trustees hereby determine that all students not in such a program should be encouraged to dress, while on campus, in a manner appropriate for an educational environment.

Effective June 1, 2011

**Appeals and Due Process**

Students subject to administrative decisions affecting their right to attend classes are entitled to due process. Due process includes, but is not limited to, the following considerations:

1. The student must be informed of any charges made against him/her that may result in administrative action.

2. The student must be advised in writing of the administrative action taken.

3. The student will be advised of corrective action required.

4. The student is entitled to an appeal as herein provided. The appeals process described in the following paragraphs must be followed.

5. The student is entitled to appear and present testimony at any committee meeting scheduled to hear an appeal from said student.

**Appeal of Disciplinary Sanction**

The Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) investigates charges of misconduct and determines the action to be taken. The decision of the Dean or Designee or Associate Vice President is presented to the student in writing within five (5) working days after the charge is filed. If the student is notified that a disciplinary sanction will be imposed, he or she may appeal the decision.

1. If a student wished to appeal the decision, he or she must submit the appeal in writing within five (5) working days of receipt of the Dean’s or Vice President’s decision to the Student Appeals Committee through the Director of Counseling.

2. The decisions of the FTCC Student Appeals Committee are referred to the Associate for Student Services as recommendations. The Associate for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting
decision as soon as possible, but no later than three (3) working days from the receipt of the recommendation of the Student Appeals Committee.

(3) If the student wished to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

**Appeal of Attendance Problems**

The instructor, according to guidelines published in the Student Handbook, may drop students who have excessive absences.

(1) Appeals of attendance decisions should be made first to the department chairperson and then to the program area Dean. Further appeals of administrative withdrawal from class for attendance will be made in writing no later than five (5) college days to the FTCC Student Appeals Committee through the Director of Counseling.

(2) The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) College days from the receipt of the recommendation of the Student Appeals Committee.

(3) If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

(4) Students dropped for attendance problems may be allowed to continue attending class until the appeal has been resolved.

**Appeal of Grades**

Grading is the prerogative of the faculty member. Appeals concerning grades given for a course must be directed to the faculty member assigning the grade and must be in writing. The faculty member assigning the grade and the student appealing the grade shall discuss the circumstances and attempt to resolve the appeal. Failing to reach a satisfactory resolution, the student may appeal in accordance with the specific procedures described below. The appeal of a grade must be initiated no later than the last day of the fourth full month after the course grade was assigned.

(1) The student shall present the appeal in writing to the chairperson or coordinator of the department within which the protested grade was earned. The chairperson or coordinator shall, by conferring with the student and the faculty member, seek resolution by mutual agreement. If applicable, the student should continue to attend classes throughout the appeals process.

(2) If the student wishes to appeal the final decision of the chairperson or coordinator, the student must appeal in writing to the appropriate Academic Dean or Director. If, after conferring with the student, the Instructor, and the Department Chairperson, the matter remains unresolved, the Dean shall convene with the Academic Review Committee.

(3) The Academic Review Committee will consist of the convening Dean or Director and four FTCC faculty members, at least one of whom, if possible, shall be qualified to teach the course. The committee will be appointed by the Dean or Director. The faculty member assigning the grade shall not be appointed to the Academic Review Committee. During the appeal process, the appropriate Department Chairperson and/or faculty member will provide all relevant information to the appeal committee. The student’s written appeal will be provided to the committee and, if requested by the student, the student shall be afforded the right to personally appear and provide testimony to the committee and to ask questions of anyone providing evidence to the committee. Upon receiving all relevant evidence presented, the committee shall determine whether the grade assigned by the instructor shall be upheld. If the grade is not upheld, the committee shall make a decision as to how a grade shall be assigned to the student. The Dean will notify, in writing, the faculty member, the student, and the Department Chairperson of the committee’s decision within five working days. The resulting grade must be submitted within College guidelines and may not be further appealed.

**Appeal of Financial Obligations**

Initial telephone contacts and certified letters of advisement from the Business Office at FTCC regarding delinquent loans and returned checks are mailed to the student. Unpaid indebtedness to the College will result in suspension from the class (es). A student will not be allowed to register for the next term until the debt is cleared with the Business Office.

For returned checks, students are given 5 days from the date of the certified letter to clear the debt with FTCC. If after 15 days the debt is not cleared, the debt is submitted to the Cumberland County District Attorney’s Office Worthless Check Program and the North Carolina Debt Set-Off Program for collection.

For student loans, the promissory note states that payment in full becomes due immediately upon default of any installment or termination of at least half-time study. If payment is not made, the student’s unpaid account is submitted to an outside collection agency. Monthly, any unpaid student accounts are...
submitted to the North Carolina Debt Set-Off Program for collection.

The Debt Collection Act entitles FTCC to claim a part or all of the student’s income tax refund to apply against the debt.

Financial indebtedness to FTCC can only be appealed through the Business Office until the matter is submitted to local and state legal authorities.

**Appeal of Student Tuition/Fees**

Students are **responsible** for charges and payments to their student tuition/fee account.

A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting a drop for a class or withdrawal from all classes.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

- Death of an **immediate** family member. A copy of the death certificate is **required**.
- Medical emergency which results in the inability to attend class. Medical documentation is **required**. Please attach medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor.
- Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is **required**.

For mitigating circumstances, students should complete and submit the Student Tuition/Fee Appeal form with all supporting documentation. Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting.

Appeals for the current and/or immediate prior term only will be considered and reviewed. No other appeals will be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

**Admissions Decisions**

Initial decisions to approve a student or potential student to enter a program or a student re-entering a program are made by the counselor conducting the admissions interview. Appeals of admissions decisions are referred to the Director of Admissions. Decisions of the Director of Admissions may be initially appealed in writing no later than ten (10) College days after the date of the Director of Admissions’ letter to the Associate Vice President for Student Services. The Associate Vice President for Student Services will confer with the Department Chairperson and respond to the student within five (5) working days. Decisions of the Associate Vice President for Student Services are final.

**Financial Aid Students**

A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting a drop for a class or withdrawal from all classes.

**Dismissal**

Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student’s prerogative.

**Student Grievance Policy and Procedure**

Fayetteville Technical Community College encourages the prompt and fair settlement of grievances. A student may present a grievance without fear of coercion, restraint, interference, penalty, or reprisal.

The purpose of the student grievance policy and procedure is to provide a system to resolve student complaints against faculty, staff, or other students concerning alleged discrimination on the basis of age, sex, race, disability, or other conditions.

**Academic Appeals**

Appeal of admissions decisions, individual grades, academic probation and/or suspensions, attendance problems, disciplinary sanctions, and dismissal shall not be considered under this policy, unless illegal discrimination is alleged. Such appeals shall be considered according to the guidelines set forth in the Catalog.

**Sexual Harassment Complaints**

Sexual harassment complaints shall be directed to the Associate Vice President for Student Services, unless the alleged harasser is the Associate Vice President. In that case, the complaint shall be directed to the Vice President for Academic and Student Services or to the President. Upon receiving the complaint, the Associate Vice President for Student Services shall refer the sexual harassment complaint to the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, who will investigate the complaint following the procedures outlined in the College’s Sexual Harassment Policy and Procedures.

If the student is not satisfied with the outcome of the investigation, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Grievance Procedure
This procedure applies to all students of FTCC.

Step 1:
The student is encouraged to go to the instructor or staff member where the alleged problem originated. An attempt will be made to resolve the matter equitably and informally at this level. The conference must take place within five (5) working days of the incident which generated the complaint.

Step 2:
If the grievance is not resolved, the student may file a written grievance. The student must present the written grievance to the appropriate Associate Vice President within thirty (30) days of the incident giving rise to the grievance. The student and the Associate Vice President will meet within three (3) working days following the presentation of the grievance to discuss the grievance fully, and to attempt informal resolution. The Associate Vice President will investigate the grievance and will ask the employee against whom the grievance was filed to respond in writing to the allegation. The Associate Vice President will provide a written decision on the grievance not later than ten (10) working days following this meeting.

Step 3:
If the student is not satisfied with the decision, he or she may, within five (5) working days, file the grievance in writing with the Vice President for Academic and Student Services. The Vice President for Academic and Student Services will notify the President. Depending on the nature of the allegation, the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, may be asked to investigate. After reviewing the facts of the case, the Vice President for Academic and Student Services and/or the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, will make a recommendation to the President. The student will receive written notification within ten (10) working days of filing the complaint with the Vice President.

Further Appeal Procedure
If the student is not satisfied with the decision, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final. There is an expanding reliance on electronic communication among students, faculty, staff, and administration at Fayetteville Technical Community College (FTCC). This is motivated by the convenience, speed, cost-effectiveness, and environmental advantages of using Email rather than printed communication. Because of this increasing reliance and acceptance of electronic communication, Email is considered an official form of communication between the College and its applicants and students. Students should maintain the confidentiality of their email account as the college sends confidential information to students by email. Implementation of these procedures ensures that students have access to this critical form of communication. All applicants or students are assigned an Email account hosted by Google.

WEAPONS ON CAMPUS POLICY

Possession of Weapons on Campus
Illegal possession of weapons on campus or at any FTCC class, site, activity, or program is a violation of College policy.

1. It shall be a violation of college policy for any person to illegally possess, whether openly or concealed, any of the following items while on FTCC campus or at the site of any FTCC class, activity or program:
   a. Any gun or firearm, including, but not limited to a rifle, pistol, BB gun, air pistol, or air rifle;
   b. Any powerful explosive device, including, but not limited to, dynamite cartridge, bomb, grenade, or mine;
   c. Any knife or other sharp-pointed or edged instrument, such as, but not limited to, a bowie knife, dirk, dagger, switchblade knife, razor, or razor blade; or
   d. Any slingshot, leaded cane, blackjack, or metallic knuckles.

2. The possession of any item listed above shall not be in violation of College policy if the possession is permitted by law. Current law permits those who have valid concealed weapon permits and those exempt from obtaining such permits to have handguns secured, as described by law, in their vehicles. The law also permits weapons on campus solely for uses associated with approved educational programs.

3. Instructional supplies, unaltered nail files and clips and tools used solely for preparation of food, instruction, and maintenance on campus are exempted from this policy.

4. Any person, other than an FTCC student, found to violate this policy shall be removed from campus and shall not be permitted to return to campus for 120 calendar days.

5. Students in violation of this policy shall be suspended for a minimum of 120 days and shall not be permitted on any property owned or used by the College. A student is identified as any person currently enrolled in continuing education class(es) or curriculum class(es), whether the person is an adult or minor.

6. Students in violation of this policy may be placed on a permanent expulsion when one of the following occurs:
   a. Illegal possession of a firearm on campus;
   b. Repeat offense on campus or any FTCC class site, activity or program;
   c. Subsequent conviction of a violation of the law; or,
   d. Use of weapon to harm or threaten another individual.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Procedures
A violation of this policy or possible violations shall be reported to campus security immediately by phone, 678-8433, Emergency Callbox, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990.

1. The appropriate Associate Vice President or Dean shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Associate Vice President or Dean, the next available Dean/administrator/director/supervisor should be notified.

2. Upon notification by the Director of Public Safety and Security, the Associate Vice President or Dean shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

3. Upon completion of the inquiry, the Associate Vice President or Dean shall determine whether a violation of this policy occurred. If the Associate Vice President or Dean determines a student did violate this policy, the Associate Vice President or Dean shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

Precautions
If a violation is observed, the following actions should be taken:
1. Do not approach the individual. Stay calm.
2. Either notify campus security or have someone else do it.
3. Monitor individual from a safe distance or take cover if necessary.
4. Notify other persons in the area.
5. If possible, get a good description of the individual, vehicle, or weapon.
7. If necessary, get away from the affected area.
8. Do not take chances.

TOBACCO AND NICOTINE VAPOR FREE BUILDINGS

The use of cigarettes, cigars, smokeless tobacco, and electronic (vapor) cigarettes is strictly prohibited inside any FTCC building. In addition, smoking adjacent to buildings will only be permitted at outdoor areas that have been designated by the President as smoking areas. This policy is implemented to reduce secondhand smoke at building entrances. The designated smoking areas are listed below:

STUDENT EMAIL STANDARDS

College Use of Email
Email is an official form of communication within FTCC. Therefore, the College has the right to send communications to applicants and students via Email and the College has a right to expect that those communications will be received and read in a timely manner.

Appropriate Use of Student Email
Students should not use their student Email account for personal use. Student Email is not appropriate for transmitting sensitive or confidential information unless its use for such purposes is matched by an appropriate level of security. Email shall not be the sole method for notification of any legal action.

Redirection of Email
A student may have their Email electronically redirected to another email address. If a student wishes to have Email redirected from their official Address to another Email address (e.g., @aol.com, @hotmail.com, or an address on a departmental server), they may do so, but at their own risk. FTCC will not be responsible for the handling of Email by outside vendors. Having email redirected does not release a student from the responsibilities associated with communications sent to their official email address.

Educational Uses of Email
Faculty may determine how Email will be used in their classes. It is highly recommended that if faculty have Email requirements and expectations, they specify these requirements in their course syllabi. Faculty may expect that student’s official Email addresses are being accessed, and faculty may use Email for their courses accordingly.

GENERAL USAGE GUIDELINES

College-owned or -operated computing resources are for the use of faculty, students, staff, and other authorized individuals. Users must exercise responsible, ethical behavior when using these resources. Responsible behavior should also be exercised when using one’s own personal computing device connected to the FTCC wireless network. The College does not attempt to articulate all required or unacceptable behavior by its users. To assist in such judgment, the following guidelines have been developed:

1. Computing resources and access accounts are to be used only for the purpose for which they are assigned and are not to be used for commercial purposes or non-college related activities.

2. Users of the network are responsible for any actions taken that cause damages or affect other computers or portable computing devices. Users should not engage in activities/actions which damage or disrupt hardware or communications such as virus creation and propagation, and overloading networks with excessive data.

3. Individuals will not use College computer resources to engage in any illegal activities. Users of the FTCC network must comply with all federal, state, and local laws that apply.

4. All computer software is protected by federal copyright law and most is proprietary and protected by legal licensing agreements in addition to the copyright law. The user is responsible for being aware of the licensing restrictions for the software used on any system. Users must respect the legal protection applied to programs, data, photographs, music, written documents and other material as provided by copyright, trademark, patent, licensure and other proprietary rights mechanisms.

5. Users shall not create, display, advocate, or transmit threatening, racist, sexist, pornographic, obscene, offensive, annoying or harassing language and/or material, including broadcasting unsolicited messages, sending unwanted mail, or accessing websites for these purposes.

6. Users shall not use the FTCC network to intentionally gain unauthorized access to any systems or sensitive information. Users will not gain, or attempt to gain, unauthorized access to other’s files, folders, or storage areas of any kind.

7. Use of content management systems (e.g. BlackBoard) should be for the purposes of communicating and documenting class or educational related activities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
8. Users are discouraged from conducting confidential transactions (e.g. online banking) over FTCC network.

9. Individuals are responsible for the proper use of their accounts, including proper password protection and appropriate use of Internet resources. An access account assigned to an individual must not be used by others. Users are responsible for notifying MIS Help Desk (678-8502) if they find that their account login information has been compromised in any way.

10. Users will refrain from monopolizing systems and services, such as overloading resources, putting excessive demands on disk space, printer paper and supplies.

11. The College’s website, www.faytechcc.edu, will serve as the only official website representing FTCC. Users are not permitted to use the College’s name or any association with the College in web sites that are not owned, created, and/or maintained by FTCC.

12. Fayetteville Technical Community College is in no way liable for any damage, undesired resource usage, or detrimental effects that may occur to the user’s computer or any portable computing device while attached to the wireless network.

13. Individuals connecting to the wireless network are responsible for having current operating system updates and up-to-date antivirus software installed on their computer and any portable electronic devices.

Failure to follow the FTCC General Use Guidelines can result in the suspension of access rights and disciplinary action as deemed appropriate by the College.

Management Information Services office reserves the right to make revisions/updates to these guidelines at any time.

MIS has the responsibility to monitor, filter, log, and block network activities and locations, to include email, as required to ensure that all computer resources perform optimally and are safe from technology threats. MIS reserves the right to restrict access to the FTCC network as deemed necessary to protect the integrity of the network infrastructure, systems, and information.
FREE SPEECH AND PUBLIC ASSEMBLY
POLICY AND PROCEDURE

Fayetteville Technical Community College recognizes and supports the rights of free speech. This policy informs members of the College community and the public of the manner in which they may engage in constitutionally protected speech and expression at Fayetteville Technical Community College. It is intended to ensure the primary educational purpose of the College.

The College will protect the rights of freedom of speech, petition, and peaceful assembly. The right to regulate reasonable time, location, and restrictions concerning acts of expression and dissent will be maintained by the College. Any acts that are disruptive to normal operations of the College including but not limited to classes, College business, or invades the rights of others will not be tolerated. Faculty, staff, and students engaging in disruptive activity may be subject to disciplinary action. Any participant in a disruptive activity may face criminal charges.

Guidelines for Speech and Public Assembly

(1) Amplification Systems: Public address and amplification systems may not be used. This includes megaphones and PA systems.

(2) The Right to Dissent: The right to dissent is the complement of the right to speak, but these rights need not occupy the same forum at the same time. The speaker is entitled to communicate his or her message to the audience during their allotted time, and the audience is entitled to hear the message and see the speaker during that time. A dissenter must not substantially interfere with the speaker’s ability to communicate or the audience ability to hear and see the speaker. Likewise the audience must respect the right to dissent.

(3) Picketing and Distribution of Literature: Picketing in an orderly manner or distributing literature within the free speech area is acceptable when approved during the request process as coordinated and approved by the Director of Student Activities. Picketing is not permitted inside College buildings.

(4) Symbolic Protest: During a presentation, displaying a sign, gesturing, wearing symbolic clothing, or otherwise protesting silently is permissible unless it is a disruptive activity or impedes access, such as acts that block the audiences view or prevents the audience from being able to pay attention.

(5) Marches: Campus marches are permitted on campus only with the approval of the Director of Student Activities per Requests for Free Speech.

In order to ensure the safety of participants and bystanders and to minimize the disruption upon College classes and daily operations, this request must specify the desired march route and total/maximum number of participants.

Pickets/marchers must march in single file, not abreast, and may not march closer together than 15 feet, except in passing one another. Pickets not marching shall remain at least 15 feet apart. Minor children, six years of age or younger, may walk abreast or be carried by their parent or guardian.

Pickets shall be restricted to the use of the outermost half of the sidewalk or other public way nearest the street and shall not at any time nor in any way obstruct, interfere with, or block persons entering or existing vehicles; persons crossing streets or otherwise using the public way; the entrance or exit to any building or access to property abutting the street or sidewalk; or pedestrian or vehicular traffic.

Registration and Use of Designated Free Speech Area

A. Requests for Free Speech. Individuals or groups wishing to exercise their free speech should submit a written request to the Director of Student Activities at least three working days prior to the desired date. The following information must be included in this written request.

• Name of the person or organization submitting the request
• Purpose of speech requested
• Date and times requested
• List of planned activities
  (i.e., speech, signs, distribution of literature)
• Anticipated number of participants and attendance

Approvals are for one day only for a maximum of three continuous hours, between 8:00 a.m. and 10:00 p.m.

B. Designated Free Speech Area. College designated areas for free speech are listed below:
  Main Campus - Student Center Gazebo
  Spring Lake Campus - TBA
  Horticulture Education Center - TBA

College sponsored events have first priority on the use of campus facilities. Requests for the Gazebo will be assigned to the person or organization that requests the area first. The College reserves the right to relocate any assembly to ensure that the activity does not interfere with the normal operation of the College or interfere with the rights of others.
Conduct and Manner
(1) Those who exercise free speech as a part of this policy must not
   – Threaten passers-by
   – Interfere with, impede, or cause blockage of the flow of vehicular or pedestrian traffic.
   – Interfere with or disrupt any other lawful activity in the same general location at the same time.
   – Commit any act likely to create an imminent safety or health hazard.
   – Post materials on any walls, windows, doors, sidewalks, trees, light poles, etc., or any other College equipment except as approved by the Director of Student Activities.
   – Carry signs or placards that exceed two feet by two feet promoting the objective of the activity. They must not contain profane language or words that would tend to incite violence.

(2) Public speech or activities that are likely to incite or produce imminent lawless action or that is, under current legal standards, either defamatory or obscene is prohibited. Violations of the FTCC Student Code of Conduct are prohibited.

(3) Participants in College free speech activities cannot refuse to identify him or herself to College officials when such activities are on College property. A person may identify him/herself by presenting a student/faculty/or staff ID card, driver’s license, or some other form of government issued identification.

(4) Individuals who damage or destroy College property shall be held responsible for such damage or destruction. This includes lawns, shrubs, trees, etc.

(5) A request for use of free speech areas may be denied if determined that the proposed speech/activity will constitute a clear and present danger to the orderly operation of the College.

(6) All applicable College regulations, state, and federal laws and municipal ordinances apply when engaging in activities on College property. Failure to do so may result in immediate removal from College property and other appropriate action by College officials and/or police.

Interference with Free Speech or Public Assembly
Persons shall not physically interfere in the use of the sidewalk or address profane, indecent, abusive, or threatening language to or at individuals to provoke them or lead to a breach of the peace.

Whenever free passage is obstructed by a crowd, the persons composing such crowd shall disperse or move on when directed by College officials, security, police. Failure to do so may result in disciplinary action.

Intellectual Property Rights
“Intellectual Property” includes all inventions, improvements, copyright eligible works, and tangible research materials produced by employees and/or students of FTCC.

(1) All employees and/or students who produce or who anticipate producing Intellectual Property have a duty to promptly disclose their discoveries or invention to the President or his designee in order to prevent the development of a conflict of interest or a conflict of commitment.

(2) The President may appoint an Intellectual Property Committee to process, investigate, and make recommendations to the President when Intellectual Property notifications occur or issues arise.

(3) The College shall own all Intellectual Property that is made, discovered, or created by an employee who is specifically hired or commissioned by the College for that purpose and who receives compensation for those specific services from the College.

(4) The College shall own any Intellectual Property that is made, discovered, or created by an employee within the scope of his or her employment by the College or whose position description may include such duties, unless otherwise provided by written agreement between the individual and the College.

(5) The College shall own all Intellectual Property that is made, discovered, or created by an employee and/or student who uses College resources and time in the development of the Intellectual Property, unless otherwise provided by written agreement between the individual and the College. “College resources” means institutional facilities, staff, and materials.

(6) Intellectual Property created by an employee and/or student entirely on his or her personal time and not involving the use of College facilities or materials shall be the property of the individual. An individual’s “personal time” shall mean time other than that devoted to normal or assigned functions in teaching or College service. The term “College facilities” shall mean any facility, including equipment and material, available to the
individual as a direct result of the individual’s affiliation with the College, and which would not be available to a non-College individual on the same basis. An employee and/or student who claims that Intellectual Property is made on personal time has the responsibility to demonstrate that the Property so claimed is created on personal time.

(7) An employee and/or student who anticipates or has already produced Intellectual Property using both his or her own resources and time and the resources and time of the College, will meet with the College President or his Designee to discuss his or her efforts and to agree on a possible division of the value of the rights produced.

(8) The College may release its rights of ownership of Intellectual Property to the individual, if the institution is convinced that no College facilities, time, or materials were used in the development of the Intellectual Property and that it was made on personal time.

(9) The College retains the rights to all Intellectual Property, which would be owned by the College under this policy created by employees who leave employment with the College. The College may grant the individual non-exclusive use of the Intellectual Property for a specified period of time at another nonprofit educational institution.

(10) Prior to entering any consulting agreement involving Intellectual Property Rights with any third party, where any College time, facilities, materials or other resources are involved, College employees and/or students, must present the proposed agreement to the College President or his designee for review and approval.

(11) The College owns all rights to its logo, seal, and other related materials.

(12) Exceptions to the above policies are authorized if approved by the President of the College following a favorable review and recommendation by the Intellectual Property Committee.

DRUG AND ALCOHOL POLICY

Drug and Alcohol Prevention Program
The use and abuse of drugs and alcohol are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users and/or abusers of drugs or alcohol may impair the well-being of all employees, students, the public at large, and result in damage to College property. Therefore, in compliance with the Federal Drug-Free Workplace and Drug-Free Schools and Campuses Regulations, it is the policy of this College that the unlawful use, possession, manufacture, distribution, or dispensation of a controlled substance or alcohol, is prohibited while in the College workplace, on College premises, or as part of any college-sponsored activities. Any employee or student violating this policy will be subject to disciplinary action up to and including termination or expulsion and referral for prosecution. The specifics of this policy are as follows:

I-27.1 FTCC does not differentiate among unlawful users, pushers or sellers of drugs or alcohol. Any employee or student who unlawfully possesses, uses, sells, gives or transfers a controlled substance or alcoholic beverage to another person while in the College workplace, on College premises, or as part of any college-sponsored activity, will be subject to disciplinary action up to and including termination or expulsion, and referral for prosecution.

I-27.2 The term “controlled substance” means any drug listed in 21 CFR part 1308 and other federal regulations, as well as those listed in Article V, Chapter 90 of North Carolina General Statutes. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to: heroin, PCP, cocaine, “crack”, and marijuana. They also include “legal drugs” which are not prescribed by a licensed physician. The term alcoholic beverage includes beer, wine, whiskey and any other beverage listed in Chapter 18B of the General Statutes of North Carolina.

I-27.3 If any employee or student is convicted of violating any criminal drug or alcoholic beverage control statute while in the College workplace, on college premises, or as part of any college-sponsored activity, he or she will be subject to disciplinary action up to and including termination or expulsion. Specifically, any such person who is convicted of a felony, or of a misdemeanor which results in an active prison sentence will, if a student, be expelled, or if an employee, be terminated from employment (subject to existing disciplinary policies applicable to employees and State or Federal law which may apply). Other misdemeanor convictions will be evaluated on a case-by-case basis, and the penalties to be imposed may range from written warnings or mandatory counseling or rehabilitation to expulsion from enrollment or discharge from employment. Any such person charged with a violation of these policies concerning illegal drugs may be suspended from enrollment or employment before initiation or completion of disciplinary proceedings if the Office of Human Resources determines that the continued presence of such person within the College community would constitute a clear and immediate danger to the health or welfare of other members of the community after an appropriate predetermination inquiry. All employees and students of the College are currently eligible and are encouraged to participate without cost in an employee assistance program which offers among its many services, drug and alcohol abuse counseling.

I-27.4 Each employee or student is required to inform the Office of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, at the College, in writing, within five (5) days after he or she is convicted of violation of any federal, state, or local criminal drug or alcoholic beverage control statute where such violation occurred while in the College workplace, on College premises, or as part of any College-sponsored activity. A conviction means a plea of or a finding of guilt (including a plea of nolo contendere) and the imposition of a judgment by a judge sitting with or without a jury in any federal or state court. As a condition of further employment on any federal government grant, the law requires all employees to abide by this policy.

I-27.5 The Office of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, must notify the U.S. governmental agency from which a grant was made within ten (10) days after receiving notice from the grant employee or otherwise receiving actual notice of a drug conviction. Disciplinary action against the convicted employee must be undertaken by the College within 30 days.

I-27.6 A description of applicable state sanctions and the health risks associated with the use of both illicit drugs and alcohol is available in the offices of the Vice President for Human Resources, Workforce Development and Institutional Effectiveness, and the Vice President for Legal Services and Risk Management.

(Excerpt taken from FTCC Administrative Procedures Manual, February 16, 2009)

*Schedule I and II drugs have a high potential for abuse. They require greater storage security and have a quota on manufacturing, among other restrictions. Schedule I drugs are available for research only and have no approved medical use; Schedule II drugs are available only by prescription (unrefillable) and require a form for ordering; Schedule III and IV drugs are available by prescription, may have five refills in 6 months, and may be ordered orally. Some Schedule V drugs are available over the counter.

**Some of the health risks are directly related to the route of drug administration. For example, injection drug use can increase the risk of infection through needle contamination with staphylococci, HIV, hepatitis, and other organisms.

***Associated with sexual assaults.

Reference: National Institute on Drug Abuse, March 2011

Signs of Addiction

Signs that you or someone you know may have a drug or alcohol addiction include:

**Psychological signals**
- Use of drugs or alcohol as a way to forget problems or to relax
- Withdrawal or keeping secrets from family and friends
- Loss of interest in activities that used to be important
- Problems with schoolwork, such as slipping grades or absences
- Changes in friendships, such as hanging out only with friends who use drugs
- Spending a lot of time figuring out how to get drugs
- Stealing or selling belongings to be able to afford drugs
- Failed attempts to stop taking drugs or drinking
- Anxiety, anger, or depression
- Mood swings

**Physical signals**
- Changes in sleeping habits
- Feeling shaky or sick when trying to stop
- Needing to take more of the substance to get the same effect
- Changes in eating habits, including weight loss or gain

ACCOUNTING

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Awards

**Associate Degree:** Accounting (A25100)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma, 2 units of Algebra, Placement Test Equivalent

**Diploma:** Not Applicable
**Length of Program:**
**Prerequisite:**

**Certificate:** Payroll Accounting Certificate (C25100C1)
**Length of Program:** 3 Semesters
**Prerequisite:** Placement Test Equivalent

**Certificate:** Tax Preparer Certificate (C25100C2)
**Length of Program:** 2 Semesters
**Prerequisite:** Placement Test Equivalent

**Certificate:** Computerized Accounting Certificate (C25100C3)
**Length of Program:** 3 Semesters
**Prerequisite:** Placement Test Equivalent

**Certificate:** Small Business/Entrepreneur Certificate (C25100C4)
**Length of Program:** 3 Semesters
**Prerequisite:** Placement Test Equivalent

**Certificate:** Cost/Managerial Accounting Certificate (C25100C5)
**Length of Program:** 4 Semesters
**Prerequisite:** Placement Test Equivalent

**Certificate:** Accounting Foundations Certificate (C25100H1)
**Length of Program:** 2 Semesters
**Prerequisite:** Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Ron O’Brien
Telephone Number: (910) 678-8512

**TOTAL REQUIRED CREDITS.... 65**

**Work Based Learning Option:** Qualified students may elect to take up to three (3) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

### A/C, HEATING AND REFRIGERATION TECHNOLOGY A35100

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

**Awards**

**Associate Degree:** A/C, Heating & Refrigeration Technology (A35100)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** A/C, Heating & Refrigeration Technology (D35100)

**Length of Program:** 6 semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Air Conditioning, Heating & Refrigeration (C35100)

**Length of Program:** 4 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Air Conditioning, Heating & Refrigeration (C35100H1)

**Length of Program:** 4 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

A/C, HEATING & REFRIGERATION (D35100)
Evening/Weekend Program
Effective: Fall 2014
Revised Date: 02/20/14

This two-year evening diploma program is designed to prepare individuals for entry-level positions in the air conditioning, heating, and refrigeration field. Courses include basic hands-on training in the installation, maintenance, and repair of residential heating and air conditioning equipment.

Numerous opportunities for employment as A/C, Heating and Refrigeration assistants exist throughout the area.

Length: 6 Semesters

**ARCHITECTURAL TECHNOLOGY A40100**

A program that prepares individuals to assist architects, engineers, and construction professionals in developing plans and related documentation for residential and commercial projects in both the private and public sectors. Includes instruction in architectural drafting, computer-assisted drafting, construction materials and methods, environmental systems, codes and standards, structural principles, cost estimation, planning, graphics, and presentation.

This curriculum is designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

**Awards**

**Associate Degree:** Architectural Technology (A40100)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Not Applicable

**ASSOCIATE DEGREE NURSING (A45110)**

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

**Awards**

**Associate Degree:** Associate Degree Nursing (A45110)

**Length of Program:** 5 Semesters
**Prerequisite:** Must meet College Admission Criteria, current,
unrestricted, and on North Carolina Registry CNA I (program must require a combination of clinical/classroom/laboratory hours) and/or LPN, TEAS Test score proficient or higher. In addition for Advanced Placement, current unrestricted LPN license with 3600 hours of work experience as an LPN within the past four years. 1 Unit of Biology, Algebra & Chemistry.

Diploma: Not Applicable
Length of Program:
Prerequisite:

Certificate: Not Applicable
Length of Program:
Prerequisite:

Work Based Learning Requirements/Opportunities: For work based learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-RN), which is required to practice as a Registered Nurse.

Programmatic Accreditation: Accredited by: Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, Ph# (404) 975-5000

Approved by: North Carolina Board of Nursing, P.O. Box 2129, Raleigh, NC 27602 Ph# (919) 782-3211

ASSOCIATE IN ARTS A10100

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

### ASSOCIATE IN GENERAL EDUCATION  A10300

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural science and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

**Awards**

**Associate Degree:** Associate in General Education (A10300)

**Length of Program:** 4 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**

TOTAL REQUIRED CREDITS.... 64

Work Based Learning Option: Qualified students may elect to take one (1) credit hour of Work Based Learning under Major Other Required Courses provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Division Chairperson.

Note: A maximum of seven (7) credits between health and physical education may be included as other required hours. No more than one (1) hour may be taken from WBL. Courses selected must be numbered 110 or higher.

ASSOCIATE IN SCIENCE A10400

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes literature, humanities, mathematics, and the sciences. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program.

Upon completion of the program, the student will receive an associate in science degree.

Awards

AUTOMOTIVE SYSTEMS TECHNOLOGY A60160

The Automotive Systems Technology program prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenge associated with this fast and ever-changing field. Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

After completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

**Awards**

**Associate Degree:** Automotive Systems Technology (A60160)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Not Applicable

**Note**: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### AUTOMOTIVE SYSTEMS TECHNOLOGY/ AUTOMOTIVE SUSPENSION, BRAKES, AND HEATING/AIR CONDITIONING CERTIFICATE (C60160C1)

**Effective**: Fall 2013  
**Revised**: 02/20/13

This evening certificate program is designed to prepare moderately experienced automotive mechanics to take ASE certification exams in four areas. The certification areas include: A4-Suspension and Steering; A5-Brakes; and A7-Heating and Air Conditioning. The courses focus on the certificate-related competencies.

Courses in this program can be transferred directly into the Automotive Systems Technology associate degree curriculum.

BASIC LAW ENFORCEMENT TRAINING  C55120

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for employment as a law enforcement officer with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcoholic beverage laws, investigative, patrol, custody, and court procedures, emergency responses, ethics and community relations.

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission.

Awards

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission. Successful graduates will also receive credit for the following curriculum courses: CJC-131, CJC-132, CJC-221, CJC-225, and CJC-231.

BUILDING CONSTRUCTION TECHNOLOGY A35140

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

Building Construction Technology:
A program that prepares individuals to apply technical knowledge
and skills to residential and commercial building construction and remodeling. Includes instruction in construction equipment and safety; site preparation and layout; construction estimating; print reading; building codes; framing; masonry; heating, ventilation, and air conditioning; electrical and mechanical systems; interior and exterior finishing; and plumbing.

**Awards**

BUSINESS ADMINISTRATION A25120
The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today’s global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small businesses or industries.

BUSINESS ADMINISTRATION/HUMAN RESOURCES MANAGEMENT (A2512C)

Human Resources Management is a concentration under the curriculum title of Business Administration. The curriculum is designed to meet the demands of business and service agencies. The objective is the development of generalists and specialists in the administration, training, and management of human resources.

Course work includes studies in management, interviewing, placement, needs assessment, planning, compensation and benefits, and training techniques. Also included are topics such as people skills, learning approaches, skills building, and development of instructional and training materials.

Graduates from this program will have a sound business educational base for life-long learning. Students will be prepared for employment opportunities in personnel, training, and other human resources development areas.

### BUSINESS ADMINISTRATION/ HUMAN RESOURCES MANAGEMENT/ EQUAL OPPORTUNITY AND EMPLOYEE RELATIONS CERTIFICATE (C2512CC1)

**Effective:** Fall 2014  
**Revised:** 02/28/14

This certificate is designed to provide individuals with the basics of employment law and regulations for both public and private sector employee relations positions. In addition, individuals will acquire knowledge which will enable them to employ ethical practices in their interactions with employees.

The certificate covers the basics of business and employment law, diversity in management, and general human resources management practices. Also included in the program are the foundations of organizations behavior.

Upon completion of the certificate, students should be able to research and analyze data in the areas of contract and employment law and apply this information in the workplace in an employee relations position. Students should be able to transfer the course credits to the Business Administration/Human Resources Management program for an Associate of Applied Science degree.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### BUSINESS ADMINISTRATION/ HUMAN RESOURCES MANAGEMENT/ TRAINING AND DEVELOPMENT SPECIALIST CERTIFICATE (C2512CC3)

Effective: Fall 2014  
Revised: 02/28/14

This certificate is designed to provide individuals with the skills necessary to provide support for the day-to-day operations of a human resources office. The duties of an HR Assistant will include supporting the administration of policies, procedures, and programs. An HR Assistant will handle such responsibilities as employee, departmental, and organizational development.

This certificate program covers the basics of HR office management: legal and regulatory concerns, diversity issues, recruitment and selection, compensation and benefits, and employee training and development. Also included are personnel planning activities.

Upon completion of the certificate, students should be able to effectively assist with the management of a Human Resources office. Students should be able to transfer the course credits to the Business Administration/Human Resources Management program for an Associate of Applied Science degree.

Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

Effective: Fall 2014
Revised: 02/28/14

This certificate is designed to provide individuals with the skills necessary to execute HR responsibilities in the contemporary workplace. Individuals in this position will develop plans to facilitate organizational change. They will manage human talent.

The certificate program covers the basics of HR leadership and includes basic management principles, concepts of organizational behavior, staffing functions, personnel planning, performance management, and diversity issues. In addition, the program provides problem-solving skills for use in addressing organizational HR challenges.

Upon completion of the certificate, students should be able to provide an organization with effective HR leadership. Students should be able to transfer the course credits to the Business Administration/Human Resources Management program for an Associate of Applied Science degree.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

BUSINESS ADMINISTRATION/ PUBLIC ADMINISTRATION  A2512H

Public Administration is a concentration under the curriculum title of Business Administration. This curriculum prepares students for entry into management positions in state/local governments and not-for-profit organizations, provides education for current employees, and informs citizens of governmental functions.

Course work includes study and practical application to personnel administration, decision-making, ethics, organizational theories, and budgetary, and other governmental issues. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator’s role.

Through acquisition of knowledge and skills, individuals should be able to perform governmental activities. By developing personal competencies and qualities, graduates will be eligible for employment in the public administration profession.

**Work Based Learning Option:**  
Qualified students may elect to take up to three (3) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

*Note:* Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### BUSINESS ADMINISTRATION/PUBLIC ADMINISTRATION/COMMUNITY LEADERSHIP CERTIFICATE (C2512HC1)

**Effective:** Fall 2014  
**Revised:** 02/28/14

The Community Leadership certificate is designed to prepare individuals to understand the fundamental skills needed to actively participate in local governmental leadership activities.

This certificate program covers coursework in oral communication, urban planning, public finance and budgeting, organizational behavior, and ethics.

Upon completion of this program, students should be prepared to work with and hold leadership positions in local government to include, but not limited to, community committees, task forces, commissions, and elected public office.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### BUSINESS ADMINISTRATION/PUBLIC ADMINISTRATION/GOVERNMENT PROCUREMENT AND CONTRACTING CERTIFICATE (C2512HC2)

**Effective:** Fall 2014  
**Revised:** 02/28/14

The Government Procurement and Contracting certificate is designed to provide individuals with the fundamental skills needed to actively participate in government purchasing and contracting.

This certificate program covers coursework in procurement and contract administration, budgeting, legal and ethical issues related to government procurement and contracting.

Upon completion of this program, students should be prepared with a working knowledge and skill set to actively participate in government purchasing and contracting.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### BUSINESS ADMINISTRATION/PUBLIC ADMINISTRATION/ NONPROFIT MANAGEMENT CERTIFICATE (C2512HC3)

**Effective:** Fall 2014  
**Revised:** 02/28/14

The Nonprofit Management Certificate is designed to provide individuals with the fundamental principles of nonprofit management.

This certificate program covers coursework in fundraising/stewardship, governance, leadership, marketing and legal/ethical issues related to nonprofit organizations.

Upon completion of this program, students should have a mastery of the skill sets necessary to take a lead position in a nonprofit organization.

**CARPENTRY (D35180)**

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

Carpentry:
A program that prepares individuals to apply technical knowledge and skills to lay out, cut, fabricate, erect, install, and repair wooden structures and fixtures, using hand and power tools. Includes instruction in technical mathematics, framing, construction materials and selection, job estimating, print reading, foundations and roughing-in, finish carpentry techniques, and applicable codes and standards.

**Awards**

- **Diploma**: Carpentry (D35180)
- **Length of Programs**: 3 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: General Contractor’s License Preparation (C35180C1)

- **Length of Program**: 2 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**CENTRAL STERILE PROCESSING - C45180**

The Central Sterile Processing curriculum is designed to prepare individuals for the field of Sterile Processing and Central Service Supply.

Students will develop skills necessary to properly disinfect, prepare process, store, and issue both sterile and nonsterile supplies and equipment for patient care. Also, students will learn to operate sterilizing units and monitor effectiveness of the sterilization process.

Graduates will receive a certificate and may be eligible to apply to take the National Institute for Certification of Healthcare Sterile Processing and Distribution Personnel Examination (CBSPD). Employment opportunities include surgery centers, dialysis facilities, and central processing units in hospitals.

**Awards**

- **Associate Degree:** N/A
- **Length of Program:**
- **Prerequisite:**
- **Diploma:** N/A
- **Length of Program:**
- **Prerequisite:**
- **Certificate:** Central Sterile Processing (C45180)
- **Length of Program:** 1 Semester
- **Prerequisite:** High School Diploma or GED

**Work Based Learning Requirements/Opportunities:** For work based learning requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

**Certification Information:** Graduates will be eligible to sit for the SPD Technician certification examination of the Certification Board for Sterile Processing and Distribution (CBSPD).

COLLISION REPAIR AND REFINISHING TECHNOLOGY A60130

The Collision Repair and Refinishing Technology program prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in structure analysis, damage repair, non-structural analysis, mechanical and electrical components, plastics and adhesives, painting and refinishing techniques, and damage analysis and estimating.

Curriculums in the Mobile Equipment Maintenance and Repair pathway prepare individuals for employment as entry-level transportation service technicians. The program provides an introduction to the transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

Course work may include transportation systems theory, braking systems, climate control, design parameters, drive trains, electrical/electronic systems, engine repair, engine performance, environmental regulations, materials, product finish, safety, steering/suspension, transmission/transaxles, and sustainable transportation, depending on the program major area chosen.

Graduates of the Collision Repair and Refinishing Technology program should be qualified to take National Institute for Automotive Service Excellence (ASE) certification examinations and also for entry-level employment in automotive dealerships, independent repair shops, or through self-employment, as collision repair and refinishing technicians.

**Awards**

**Associate Degree:** Collision Repair and Refinishing Technology (A60130)

**Length of Program:** 5 semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Collision Repair and Refinishing Technology (D60130)

**Length of Program:** 3 semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Collision Repair and Refinishing Technology Certificate (C60130C1)

**Length of Program:** 2 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Collision Repair and Refinishing Technology Certificate (C60130H1)

**Length of Program:** 4 Semesters

**Prerequisite:** Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For work based learning requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

**Associate Degree Program Contact:**
Admissions Counselor: Theodore Thomas
Telephone Number: (910) 678-8375
Office Location: General Classroom Building, Room 115
Email: thomasth@faytechcc.edu

Program Content/ICAR Information Contact: Mickey Tyson
Telephone: (919) 210-0202

BASIC COLLISION REPAIR AND REFINISHING TECHNOLOGY CERTIFICATE (C60130C1)
Evening/Weekend Program
Effective: Fall 2014
Revised: 05/28/14

This evening certificate program is designed to prepare individuals for entry-level positions as helpers in the auto body repair industry. Instruction will include hands-on repairs in the areas of non-structural and structural repairs, plastics and adhesives, refinishing.

Completers will be prepared for employment as entry-level helpers in the auto body repair industry.

Courses in this program can be transferred directly into the Collision Repair and Refinishing diploma curriculum.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

COMPUTER INFORMATION TECHNOLOGY A25260

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student’s ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

Awards

- **Associate Degree**: Computer Information Technology (A25260)
- **Length of Program**: 5 Semesters
- **Prerequisite**: 2 Units of Algebra, Placement Test Equivalent

- **Diploma**: Not Applicable
- **Length of Program**: Not Applicable
- **Prerequisite**: Not Applicable

- **Certificate**:
  - Computer Technologies (C25260C1)
  - **Length of Program**: 2 Semesters
  - **Prerequisite**: High School Diploma, Placement Test Equivalent

COMPUTER INFORMATION TECHNOLOGY/COMPUTER TECHNOLOGIES CERTIFICATE (C25260C1)
Effective: Fall 2014
Revised: 02/28/14

The Computer Technologies Certificate will expose the student to a general overview of the computer area. Students will study computers, networks, operating systems and programming. Graduates from this are prepared to work as a Computer Technician, or to apply these classes to any other degree in the computer division.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

**COMPUTER- INTEGRATED MACHINING**

A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

**Awards**

**Associate Degree:** Computer-Integrated Machining (A50210)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Manual Machining (D50210)
**Length of Program:** 3 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Computer-Integrated Machining Certificate (C50210C1)
**Length of Program:** 4 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Manual Machining Certificate (C50210C2)
**Length of Program:** 2 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Computer-Integrated Machining Certificate (C50210H1)
**Length of Program:** 4 Semesters
**Prerequisite:** Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Program Coordinator: Gary Smith
Telephone Number: (910) 678-8427
Office Location: Lafayette Hall, Room 137C
Email: smithga@faytechcc.edu
Department Office: Lafayette Hall, Room 120
Telephone: (910) 678-8383
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 01/16/13

**COMPUTER-INTEGRATED MACHINING (A50210)**

Effective: Fall 2013

## COMPUTER-INTEGRATED MACHINING TECHNOLOGY/BASIC COMPUTER-INTEGRATED MACHINING CERTIFICATE (C50210C1)

### Even Day/Weekend Program

Effective: Fall 2013

Revised: 01/16/13

This evening certificate program is designed to develop fundamental skills in the operation of machine tools including drilling, turning, milling, and grinding. Training in basic measuring, layout, and blueprint reading is also provided.

Completers will be prepared for employment as entry-level machine operators or machinist apprentices in area manufacturing firms.

Courses in this program can be transferred directly into the Machining Technology associate degree curriculum.

Length: 4 Semesters

Prerequisite: High School Diploma, Placement Test Equivalent

Award: Certificate
TOTAL REQUIRED CREDITS... 16

Work Based Learning Option: N/A

COMPUTER-INTEGRATED MACHINING TECHNOLOGY/ MANUAL MACHINING CERTIFICATE (C50210C2)

COMPUTER PROGRAMMING A25130

The Computer Programming curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, software developers, computer operators, systems technicians, database specialist, computer specialist, software specialist, or information systems managers.

Awards

Associate Degree: Computer Programming (A25130)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: Prerequisite:

Certificate: Visual Basic Programming Certificate (C25130C4)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: JAVA Programming Certificate (C25130C5)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Database Programming Certificate (C25130C6)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: C# Programming Certificate (C25130C7)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Mobile Application Development Certificate (C25130C8)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**COMPUTER PROGRAMMING/ C# PROGRAMMING (Certificate) (C25130C7)**

The C# Programming certificate is designed to prepare individuals for employment programmers in C# through study and applications in computer concepts, logic, and programming procedures using the C# programming language.

Students will solve business computer problems through programming techniques and procedures using the C# language.

Upon completion of this program, a student will have the necessary C# skills for an entry-level programming position in business, industry, and government organizations.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

COSMETOLOGY
A55140

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

Awards

CRIMINAL JUSTICE TECHNOLOGY A55180

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial process, corrections, and security services. The criminal justice system’s role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Awards

Associate Degree: Associate in Applied Science Criminal Justice Technology (A55180)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Diploma: Not Applicable

CRIMINAL JUSTICE TECHNOLOGY/ LATENT EVIDENCE CONCENTRATION  A5518A

Latent Evidence is a concentration under the curriculum of Criminal Justice Technology. This curriculum is designed to provide knowledge of latent evidence systems and operations. Study will focus on local, state and federal law enforcement, evidence processing and procedures.

Students will learn both theory and hands-on analysis of latent evidence. They will learn fingerprint classification, identification, and chemical development. Students will record, cast and recognize footwear and tire-tracks; and process crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations especially in local, state, and federal law enforcement, and correctional agencies.

Awards

Associate Degree: Associate in Applied Science Criminal Justice Technology/Latent Evidence Concentration (A5518A)

Students with a felony conviction may have limited Criminal Justice employment opportunities.

### CULINARY ARTS  

**A55150**

This curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

**Awards**

**Associate Degree:** Culinary Arts (A55150)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma & 1 Unit of Algebra, Placement Test Equivalent

**Certificate:** Pantry Chef (C55150C1)  
**Length of Program:** 2 Semester  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Baking (C55150C2)  
**Length of Program:** 2 Semester  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Demi-Chef (C55150C3)  
**Length of Program:** 2 Semester  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Demi-Chef (C55150H1)  
**Length of Program:** 2 Semester  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

CULINARY ARTS/
PANTRY CHEF CERTIFICATE (GARDE MANGER) 
(C55150C1)

Effective: Fall 2014
Revised: 03/05/14

The Pantry Chef Certificate (Garde Manger) is designed to prepare students who would like to be employed in the banquet, catering, cold foods and display professions or for those with some culinary experience who want to further their knowledge in this specialized area.

Students will learn to prepare salads, dressings, cold sauces, garnishes, pâtés, terrines, ice carvings, canapes, hor d’oeuvres and other related topics.

The program will enhance the student’s cold food preparation, presentation and display skills.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

**Work Based Learning Option:** Students are required to take one (1) credit hour of Work Based Learning. Students must acquire approval from the Department Chairperson to determine which work based learning to take in order to receive credit for this certificate.

### CULINARY ARTS/BAKING CERTIFICATE (C55150C2)

**Effective:** Fall 2014  
**Revised:** 03/05/14

The Baking Certificate is designed to prepare students who would like to be employed as a baking professional.

Students will learn fundamentals of bakeshop operations and will prepare various bread products, pastries, cakes, cookies, classical desserts, sugar works, and confections.

The program will enhance the students’ cake decorating and dessert preparation skills.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

### CULINARY ARTS/DEMI-CHEF CERTIFICATE (C55150C3)

**Effective:** Fall 2014  
**Revised:** 03/05/14

The Demi-Chef Certificate is designed to prepare students for an entry-level position in the culinary field. The program will give the students the basic culinary skills necessary to be an assistant to a chef otherwise known in the Classical Brigade as a Demi-Chef. Students will learn to prepare both hot and cold foods including but not limited to salads, dressings, canapés, hor d’oeuvres, cold and hot sauces, garnishes, vegetables, meats, and other food items using a variety of cooking methods. Students will learn to operate commercial kitchen equipment, use correct sanitation and safety procedures in the kitchen, and correct purchasing procedures.

The program will enhance the student’s food preparation, presentation and display skills.

**Length:** 2 Semesters  
**Other Requirements:** 2 Chef Uniforms, Textbook  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Award:** Certificate

DENTAL ASSISTING  

D45240  

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair side and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

As a Dental Assistant II, defined by the Dental Law of North Carolina, graduates work in dental offices and other related areas.

Awards

Associate Degree: Not Applicable
Length of Program: 
Prerequisite:

Diploma: Dental Assisting (D45240)
Length of Program: 3 Semesters
Prerequisite: Mat-060, 1 Unit Biology, Placement Test Credit Equivalent

Certificate: Not Applicable
Length of Program: 
Prerequisite:

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None required.

Program Information Contact:
Department Chair: Sandra Walker

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: See Child Care

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DENTAL HYGIENE

The Dental Hygiene curriculum prepares individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure, which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

Awards

- **Associate Degree**: Dental Hygiene (A45260)
- **Length of Program**: 5 Semesters
- **Prerequisite**: 1 Unit Biology, 1 Unit Algebra, 1 Unit Chemistry, Placement Test Credit Equivalent, TEAS test score proficient or higher

- **Diploma**: Not Applicable
- **Length of Program**: Not Applicable
- **Prerequisite**: Not Applicable

Work Based Learning Education Requirements/Opportunities:
For work based learning education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Students are eligible to sit for both the National Dental Hygiene Board and the NC State Dental Hygiene Board or applicable state or regional boards.

**TOTAL REQUIRED CREDITS... 75**

**Work Based Learning Option**: NA

Students with a felony conviction may have limited licensure and employment opportunities.

*Note*: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

Dental hygiene students will not discriminate against patients on the grounds of race, color, national origin, religion, sex, age, disability, or political affiliation. No student will be allowed to deliver patient services in any setting until s/he has been instructed in infection control (as per OSHA guidelines) and has mastered material on safety/universal precautions with satisfactory accuracy. Following mastery of infection control skills and under faculty supervision, each student will be expected to provide services for Patients with health deviations, including patients with HIV/HBV and other blood borne/infectious diseases, as part of routine Clinical/lab curriculum experiences.

### EARLY CHILDHOOD ASSOCIATE

**A55220**

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs to children; care and guidance of children; and communications skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

**Awards**

**Associate Degree**: Associate in Applied Science Early Childhood (A55220)

**Length of Program**: 5 Semesters

**Prerequisite**: High School Diploma, Placement Test Equivalent

**Diploma**: Not Applicable

**Length of Program**: Not Applicable

**Prerequisite**: None

**Certificate**: Certificate in Child Care Administration (C55220C1)

**Length of Program**: 2 Semesters

**Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: Certificate in Child Care Development (C55220C2)

**Length of Program**: 2 Semesters

**Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: Certificate in Child Care Professional (C55220C3)

**Length of Program**: 2 Semesters

**Prerequisite**: Bachelor Degree, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities**: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information**: None Required

**Program Information Contact**: Curriculum Chairperson: Belva Hawley-Demendoza
Telephone Number: (910) 678-8425
Office Location: Early Childhood Center, Room 203
Email: demendob@faytechcc.edu
Department Office: Early Childhood Center, Room 202
Telephone: (910) 678-8566
FTCC Web Site: www.faytechcc.edu

**Application Deadlines**: None

**Scholarship/Title IV Financial Aid/VA Services**: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126, Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information**: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

EARLY CHILDHOOD ASSOCIATE/
CERTIFICATE IN CHILD CARE ADMINISTRATION
(C55220C1)
Effective: Fall 2014
Revised: 03/21/14

This certificate will provide courses needed by the child care professional to obtain the North Carolina Early Childhood Administration Certificate (NCECA). The courses offered in this program prepare the child care professional to be successful as an administrator in a child care setting. Students will learn skills such as program development, rules and regulations for the state of North Carolina, staff and organizational management, public relations and community outreach, financial management, and leadership. This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

**ELECTRICAL SYSTEMS TECHNOLOGY**
A35130

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code,
and other subjects as local needs require. Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

**Awards**

**Associate Degree:** Electrical Systems Technology (A35130)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma & 1 Unit of Algebra, Placement Test Equivalent

**Diploma:** Electrical Systems Technology (D35130)
**Length of Program:** 3 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130C1)
**Length of Program:** 2 Semesters
**Prerequisite:** Placement Test Equivalent

*Work Based Learning Requirements/Opportunities:* For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: John Philligin
Telephone Number: (910) 678-8326
Office Location: Cumberland Hall Room 334
Email: philligj@faytechcc.edu

**Work Based Learning Option**: Qualified students may elect to take up to three (3) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

*ENG-101 will not transfer to Associate Degree program. Accuplacer testing is required to take ENG-111.

### ELECTRICAL SYSTEMS TECHNOLOGY BASIC ELECTRICITY, MOTORS AND CONTROLS, and PLC CERTIFICATE (C35130C1)
**Effective**: Fall 2014  
**Revised**: 02/21/14

This certificate curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential and industrial facilities. Course work, most of which is hands-on, will include such topics as DC/AC theory, basic wiring practices, industrial motor controls, and programmable logic controllers. Graduates of this certificate should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice.

Courses in this certificate can be transferred directly into the Electrical Systems Technology degree or diploma.

**Length**: 2 Semesters  
**Prerequisite**: Placement Test Equivalent  
**Award**: Certificate

### ELECTRONICS ENGINEERING TECHNOLOGY (A40200)
A course of study that prepares the students to apply basic engineering principles and technical skills to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems. Includes instruction in mathematics, basic electricity, solid-state fundamentals, digital concepts, and microprocessors or programmable logic controllers. Graduates should qualify for employment as electronics engineering technician, field service technician, instrumentation technician,
maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

### Awards

**Associate Degree:** Electronics Engineering Technology (A40200)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Electronics Engineering Technology (D40200)

**Length of Program:** 3 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Electronics Engineering Technology Certificate (C40200C1)

**Length of Program:** 2 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Beymer Bevill, Jr.
Telephone Number: (910) 678-8216
Office Location: Advanced Technology Center, Room 220D
Email: bevillb@faytechcc.edu
Department Office: Advanced Technology Center, Room 244
Telephone: (910) 678-8458
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 01/16/13

### ELECTRONICS ENGINEERING TECHNOLOGY (A40200)

**Effective:** Fall 2013

**Length:** 5 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

EMERGENCY MANAGEMENT A55460

The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

Awards

Associate Degree: Emergency Management (A55460)
Length of Program: 5 Semesters
Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent

Diploma: Not Applicable
Length of Program:
Prerequisite:

Certificate: Emergency Management Certificate (C55460C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Emergency Management Certificate (C55460H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For work based learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

EMERGENCY MEDICAL SCIENCE  A45340

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Student progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and governmental agencies.

**Awards**

**Associate Degree:** Emergency Medical Science (A45340)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma or GED, DMA-030 & 1 Unit of Biology, Placement Test Equivalent

**Diploma:** Not Applicable

**Length of Program:**

**Prerequisite:**

- **Certificate:** Emergency Medical Science (C45340)
  - **Length of Program:** 1 Semester
  - **Prerequisite:** High School Diploma, GED, or Placement Test score of DRE-098

- **Certificate:** Emergency Medical Science (C45340H1)
  - **Length of Program:** 1 Semester
  - **Prerequisite:** High School Diploma, GED, or Placement Test score of DRE-098

- **EMS Bridge:** Emergency Medical Science (A45340B)
  - **Length of Program:** 2 Semesters
  - **Prerequisite:** DMA-030 & 1 Unit Biology; Current North Carolina or National Registry EMT-Paramedic; Current Healthcare Provider Level CPR; Current Advanced Cardiac Life Support Provider; Current Pediatric Advanced Life Support; Current Basic Trauma Life Support or Pre-Hospital Trauma Life Support; Two Thousand (2000) documented hours of Paramedic Level Work Experience; Two Letters of Recommendation: One from the Medical Director; One from the Training Officer or Supervisor

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** Student completing the first semester of the Associate Degree Program or entering the Diploma Program should pass the North Carolina State or National Registry EMT-Basic Examination.

**Program Information Contact:**
- Curriculum Chairperson: Rick Criste
- Telephone Number: (910) 678-8515
- Office Location: Health Technology Center, Room 169M
- Email: crister@faytechcc.edu
- Department Office: Health Technology Center, Room 169
- Telephone: (910) 678-8264
- FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Students with a felony conviction may have limited certification and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### EMERGENCY MEDICAL SCIENCE (A45340B)

**Effective:** Fall 2014

**Revised:** 03/11/14

Length: 3 Semesters

**Prerequisites:** MAT-030 & 1 Unit of Biology, Placement Test Equivalent, Current North Carolina or National Registry EMT-Paramedic, Current Healthcare Provider Level CPR Card, Current Advanced Cardiac Life Support Current Pediatric Advanced Life Support, Current Basic Trauma Life Support or Pre-Hospital Trauma Life Support, Two Thousand (2000) documented hours of Paramedic Level Work Experience, Two Letters of Recommendation: One from the Medical Director and One from the Training Officer or Supervisor

**Award:** Associate in Applied Science

Passing the National Registry or North Carolina Certification Exam will give you credit for the following courses:

- EMS-110 EMT 8
- EMS-220 Cardiology II 3
- EMS-250 Medical Emergencies 4
- EMS-122 EMS Clinical Practicum I 1
- EMS-221 EMS Clinic Pract II 2
- EMS-260 Trauma Emergencies 2
- EMS-130 Pharmacology 4
- EMS-231 EMS Clinic Pract III 3
- EMS-270 Life Span Emergencies 3
- EMS-131 Advanced Airway Mgt 2
- EMS-240 Patients w/Spec Chall 2
- HSC-120 CPR 1
- EMS-160 Cardiology I 2
- EMS-241 EMS Clinic Pract IV 4
- MED-120 Survey of Med Term 2

**Total Transfer Hours:** 43

In addition the following courses are required:

FIRE PROTECTION TECHNOLOGY A55240

The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

Awards

Associate Degree: Fire Protection Technology (A55240)

### TOTAL REQUIRED CREDITS.... 65

**Work Based Learning Option:** NA

**FUNERAL SERVICE EDUCATION**  
**A55260**

The Funeral Service Education curriculum provides students with the opportunity to become proficient in basic funeral service skills.

In addition to the general education courses offered in the curriculum, technical courses such as human anatomy, embalming theory and practice, embalming chemistry, restorative arts, funeral law, and funeral home operations are taught.

Graduates of the curriculum, upon passing the state or national exam and completing an internship in a funeral home, will be qualified for employment as embalmers and/or funeral directors.

The specific aims and purposes of the Department of Funeral Service Education are:

1. To give students the knowledge, principles, techniques and skills which are the basis of the funeral service profession.
2. To provide for education and professional advancement of student whether they choose to follow the funeral service profession or whether they decide to use their specialized education in other general or technical fields.
3. To educate and prepare individuals to contribute to the service and welfare of the community.
4. To become a major provider of continuing education programs meeting mandatory re-licensure requirements for the licensed funeral service personnel in the state, and to encourage research in the field of funeral service.

**Awards**

**Associate Degree:** Associate in Applied Science Funeral Service Education (A55260)  
**Length of Program:** 6 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** N. C. Funeral Director (D55260)  
**Length of Program:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Not Applicable  
**Length of Program:**  
**Prerequisite:**

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

Note: Work Based Learning not available in diploma program.

License or Certification Information for Associate Degree: Students who complete the AAS degree program are required to take the National Board Exam for Funeral Service as a condition for graduation.

License or Certification Information for N.C. Funeral Director Diploma: Graduates are eligible to take the North Carolina State Board Exam for Funeral Directing. This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education. Students graduating from this program are not eligible to take the National Board Examination or any State board examination for which graduation from an ABFSE program is required.

**Work Based Learning Option:** NA

*The NC Board of Funeral Service may refuse to issue license to an individual with a conviction of a felony or a crime involving fraud or moral turpitude.*

This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education owing to the fact that it does not include instruction in the following areas: Anatomy, Chemistry, Embalming, Microbiology, and Restorative Arts. Students graduating from this program are not eligible to take the National Board Examination or any state board examination for which graduation from an ABFSE accredited program is required.

**GENERAL OCCUPATIONAL TECHNOLOGY A55280**

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from the associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

**TOTAL REQUIRED CREDITS... 65**

**Work Based Learning Option:** Qualified students may elect to take up to eight (8) credit hours of Work Based Learning Education provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

**Note:** ACA 118 is for Developmental students only.

---

**GEOMATICS TECHNOLOGY A40420**

A course of study that prepares students to use mathematical and scientific principles for the delineation, determination, planning and positioning of land tracts, boundaries, contours and features applying principles of route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other kinds of property description and measurement to create related maps, charts and reports. Includes instruction in applied geodesy, computer graphics, photointerpretation, plane and geodetic surveying, mensuration, traversing, survey equipment operation and maintenance, instrument calibration, and basic cartography.

Grades should qualify for jobs as survey party chief, instrument person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.

HEALTHCARE MANAGEMENT TECHNOLOGY  A25200

The Healthcare Management Technology curriculum is designed to prepare students for employment in healthcare business and financial operations. Students will gain a comprehensive understanding of the application of management principles in the healthcare environment.

The curriculum places emphasis on planning, organizing, directing, and controlling tasks related to healthcare organizational objectives including the legal and ethical environment. Emphasis is placed on the development of effective communication, managerial, and supervisory skills.

Graduates may find employment in healthcare settings including hospitals, medical offices, clinics, long-term care facilities, and insurance companies. Graduates are eligible to sit for the Certified Patient Account Manager (CPAM) and the Certified Manager of Patient Accounts (CMPA) examinations.

Work Based Learning Option: One (1) hour of Work Based Learning is mandatory. Work Based Learning can be taken during the Fall and Spring semester.

HORTICULTURE TECHNOLOGY (A15240)

These curricula are designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator’s Examination and/or the North Carolina Certified Plant Professional Examination.

Horticulture Technology is a program that focuses on the general production and management of cultivated plants, shrubs, flowers, foliage, trees, groundcovers, and related plant materials; the management of technical and business operations connected with horticultural services; and the basic scientific principles needed to understand plants and their management and care.

Awards

Associate Degree: Horticulture Technology (A15240)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Landscape Maintenance (C15240C1)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Horticulture Science Certificate (C15240C2)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Horticulture Certificate (C15240H1)
Length of Program: 3 Semesters
Prerequisite: Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

HOSPITALITY MANAGEMENT

This curriculum prepares individuals to understand and apply the administrative and practical skills needed for supervisory and managerial positions in hotels, motels, resorts, inns, restaurants, institutions, and clubs.

Course work includes guest services, leadership, management, restaurant operations, lodging operations, marketing, sanitation, food preparation, food and beverage management and other critical areas.

Graduates should qualify for management or entry-level supervisory positions in food and lodging operations, including restaurants, foodservice, beverage service, catering, front office, reservations and housekeeping. Opportunities are also available in product services, and technology support and sales.

### HOSPITALITY MANAGEMENT/  
EVENT PLANNING CERTIFICATE (C25110C2)

*Effective: Fall 2014  
Revised: 03/05/14*

The Event Planning certificate is designed to prepare students with a basic knowledge of the event planning process.

This certificate program covers basic business operations, understanding hospitality and business etiquette, tourism law, and planning and executing meetings and conventions.

Upon completion of this program, students should be prepared for entry-level management positions with event planning firms or transfer the course credits to the Hospitality Management program for an Associate of Applied Science degree.

Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

**INFANT/TODDLER CARE**

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development; physical/ nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design an implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

**Length of Program:**  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

**INFEANT/TODDLER CARE CERTIFICATE (C55290)**  
Effective: Fall 2014  
Revised: 03/03/14

INFORMATION SYSTEMS SECURITY  A25270

Information Systems Security covers a broad expanse of technology concepts. This curriculum provides individuals with the skills required to implement effective and comprehensive information security controls.

Course work includes networking technologies, operating systems administration, information policy, intrusion detection, security administration, attack methodology, and industry best practices to protect data communications.

Graduates should be prepared for employment as security administrators. Additionally, they will acquire the skills that allow them to pursue security certifications.

Awards

Associate Degree: Information Systems Security (A25270)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, 2 Units of Algebra, Placement Test Equivalent

Diploma: Not Applicable

NETWORKING TECHNOLOGY A25340

The Networking Technology curriculum prepares students to install and support networks and develops strong analytical skills and extensive computer knowledge.

Course work includes extensive hands-on experience with networks. Classes cover media types, topologies, and protocols with installation and support of hardware and software, troubleshooting network and computer problems, and administrative responsibilities.

Graduates should qualify for positions such as: LAN/PC administrator, microcomputer support specialist, networks control operator, communications technician/analyst, network/computer consultant, and information systems specialist. Graduates should be prepared to sit for certification exams, which can result in industry-recognized credentials.

Awards

Associate Degree: Networking Technology (A25340)
Length of Program: 5 Semesters
Prerequisite: 2 Units of Algebra, Placement Test Equivalent
Diploma: Not Applicable
Length of Program: Prerequisite:

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Certificate: Cisco Networking (C25340C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Cisco Networking (C25340H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

TOTAL REQUIRED CREDITS... 65

Work Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

* First 8 weeks    ** Second 8 weeks

** NETWORKING TECHNOLOGY/ CISCO NETWORKING CERTIFICATE (C25340C3) **

Effective: Fall 2014
Revised: 03/06/14

The Cisco Networking Certificate will expose the student to fundamentals of networking and will give them the tools to deploy, operate, and troubleshoot Cisco products and solutions. This program will also cover the core exam objectives of the Cisco Certified Network Administrator (CCNA) exam. Students are prepared to work in the field as network technicians supporting Cisco products.

Courses in this program can be transferred directly into Networking Technology for an Associate in Applied Science degree.

NURSING ASSISTANT (Certificate) (C45480)

The Nursing Assistant curriculum prepares individuals to work under the supervision of licensed health care professionals in performing nursing care and services for persons of all ages.

Course work emphasizes personal care, vital signs, communication, nutrition, medical asepsis, safety, catheterization, tracheostomy care, dressing changes, oxygen therapy, and legal scope of practice for the Nursing Assistants.

Graduates of this curriculum may be eligible to be listed on the registry as a Nursing Assistant I and Nursing Assistant II. They may be employed in home health agencies, hospitals, clinics, nursing homes, extended care facilities, and doctors’ offices.

Awards

Certificate: Nursing Assistant (C45480)
Length of Program: 2 Semesters
Prerequisite: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class

Certificate: Nursing Assistant (C45480H1)
Length of Program: 2 Semesters
Prerequisite: CPR Certification, TB Screening, and Vaccinations required 2 weeks prior to first day of class

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Students completing NAS 101 successfully are eligible for certification through the N.C. Division of Facility Services as a Nursing Assistant I. Those completing NAS 102 are eligible for Nursing Assistant II Certification through the North Carolina Board of Nursing.

Work Based Learning Option: NA

Note: To progress to NAS-102 students must successfully complete NA I course and listing on the NA I registry with no substantial findings.

Students with a felony conviction may have limited certification and employment opportunities.

OFFICE ADMINISTRATION A25370

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communications, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on nontechnical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisory to middle management positions.

**PARALEGAL TECHNOLOGY**

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

**Awards**

- **Associate Degree:** Paralegal Technology (A25380)
- **Length of Program:** 5 Semesters
- **Prerequisite:** High School Diploma

- **Diploma:** Paralegal Technology (D25380)

PLUMBING D35300

The Plumbing curriculum is designed to give individuals the opportunity to acquire basic skills to assist with the installation and repair of plumbing systems in residential and small buildings.

Course work includes sketching diagrams, interpretation of blueprints, and practices in plumbing assembly. Students will gain knowledge of state codes and requirements.

Graduates should qualify for employment at parts supply houses, maintenance companies, and plumbing contractors to assist with various plumbing applications.

Awards

Diploma: Plumbing (D35300)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Plumbing Certificate (C35300C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Certificate: Basic Plumbing Certificate (C35300H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

RESPIRATORY THERAPY A45720

The Respiratory Therapy curriculum prepares individuals to function as Respiratory Care Technicians and/or Respiratory Care Therapists. In these roles, individuals perform diagnostic testing, treatment, and management of patients with heart and lung diseases.

Students will master skills in patient assessment and treatment of cardiopulmonary diseases. These skills include life support, monitoring, drug administration, and treatment of patients of all ages in a variety of settings.

Graduates of accredited programs may be eligible to take entry-level examinations from the National Board of Respiratory Care. Therapy graduates may also take the Advanced Practitioner Examination.

Graduates may be employed in hospitals, clinics, nursing homes, education, industry, and home care.

Awards

Associate Degree: Respiratory Therapy (A45720)
Length of Program: 5 Semesters
Prerequisites: 1 Unit Algebra, 1 Unit Biology, 1 Unit Chemistry and score Proficient or better on the TEAS V Test. For the advanced placement option, a student must have military training as A respiratory specialist or have a current unrestricted CRT certification with evidence of 3600 hours of clinical experience as a CRT within the past 4 years.

Diploma: Not Applicable
Length of Program: N/A
Prerequisite: Not Applicable

**Work Based Learning Option:** NA

Students with a felony conviction may have limited certification and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### SCHOOL-AGE EDUCATION

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs, before/after-school programs, paraprofessional positions in public/private schools, recreational centers, and other programs that work with school-age populations.

**Awards**

- **Associate Degree:** School-Age Education (A55440)
- **Length of Program:** 5 Semesters
- **Prerequisite:** High School Diploma & Algebra I, Placement Test Equivalent

- **Diploma:** School-Age Education Diploma (D55440)
- **Length of Program:** 5 Semesters, **Prerequisite:** High School Diploma & Algebra I, Placement Test Equivalent

**Certificate:** Not Applicable

**Length of Program:**

**Prerequisite:**

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**

- Curriculum Chairperson: Belva Hawley-Demendoza
- Telephone Number: (910) 678-8425
- Office Location: Early Childhood Center, Room 203
- Email: demendob@faytechcc.edu
- Department Office: Early Childhood Center, Room 202
- Telephone: (910) 678-8566
- FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** None

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 03/05/14
SCHOOL-AGE EDUCATION (A55440)
Effective: Fall 2014
Revised: 03/05/14

Length: 5 Semesters
Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent
Award: Associate in Applied Science

Work Based Learning Option: NA

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Prospective childcare providers must furnish criminal record history, a health card, and physical examination prior to employment in childcare.

Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

SIMULATION AND GAME DEVELOPMENT A25450

The Simulation and Game Development Curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management.

Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games.

Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

Awards

Associate Degree: Simulation and Game Development (A25450)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Simulation Modeling Technician Diploma (D25450)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: SG Design and Development Diploma (D25450D2)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Simulation Programming Technician Diploma (D25450D3)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Algebra I, Placement Test Equivalent

Certificate: SGD Basics Certificate (C25450C1)
Length of Program: 1 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Interactive 3D Certificate (C25450C2)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: SG Programming Certificate (C25450C3)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: SG Design Fundamentals Certificate (C25450C4)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: SGD Basics Certificate (C25450H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**TOTAL REQUIRED CREDITS... 48**

**Work Based Learning Option**: Qualified students may elect to take up to two (2) credit hours of Work Based Learning in lieu of a Major elective provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.

### SIMULATION AND GAME DEVELOPMENT/
SGD BASICS CERTIFICATE (C25450C1)

*Effective: Fall 2014
Revised: 03/06/14*

Students learn the basics of simulation and game development. They are introduced to programming, 3D modeling, and game design. They are introduced to the history of game development as well as possible jobs in the industry.

**Length**: 1 Semester  
**Prerequisite**: High School Diploma, Placement Test  
**Equivalent Award**: Certificate

### SIMULATION AND GAME DEVELOPMENT/
INTERACTIVE 3D CERTIFICATE (C25450C2)

*Effective: Fall 2014
Revised: 03/06/14*

Students learn the basics Interactive 3d. They are taught the principles of 3d modeling, Drafting, and programming. They are introduced to 2d and 3d editing software, and programming tools.

**Length**: 3 Semesters  
**Prerequisite**: High School Diploma, Placement Test  
**Equivalent Award**: Certificate

### SIMULATION AND GAME DEVELOPMENT/SG PROGRAMMING CERTIFICATE (C25450C3)

**Effective:** Fall 2014  
**Revised:** 03/06/14

Students learn the basics of simulation programming. They are taught the principles of script languages, databases, and object-oriented programming. They are also introduced to Mobile or PC Game App programming.

- **Length:** 3 Semesters
- **Prerequisite:** High School Diploma, Placement Test Equivalent  
- **Award:** Certificate

### SPEECH-LANGUAGE PATHOLOGY ASSISTANT

**A45730**

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnosis, and treats individuals with various communication disorders.

- Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Supervised field experience includes working with patients of various ages and various disorders.

- Graduates may be eligible for registration with the North Carolina Board of Examiners for Speech-Language Pathologist and Audiologist and must be supervised by a licensed Speech-Language Pathologist. They may be employed in healthcare or education settings.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
**Awards**

**Associate Degree:** Speech-Language Pathology Assistant (A45730)

**Length of Program:** 5 Semesters

**Prerequisite:** Algebra I & 1 Unit of Biology, Placement Test Equivalent

**Diplomas:** Not Applicable

**Length of Program:**

**Prerequisite:**

---

**Certificate:** Not Applicable

**Length of Program:**

**Prerequisite:**

---

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Charisse Gainey  
Telephone Number: (910) 678-8492  
Office Location: Early Childhood Center, Room 208  
Email: gaineyc@faytechcc.edu  
Department Office: Health Technology Center, Room 169  
Telephone: (910) 678-8264  
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

Revised: 10/31/13

**SPEECH LANGUAGE PATHOLOGY ASSISTANT (A45730)**

Effective: Fall 2013

Revised: 12/14/12

Length: 5 Semesters

Prerequisites: Algebra I & Biology, Placement Test Equivalent

Award: Associate in Applied Science

Students with a felony conviction may have limited licensure and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.*
SURGICAL TECHNOLOGY

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.

Awards

Associate Degree: Associate in Applied Science (A45740)

Length of Program: 5 Semesters

Prerequisite: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

Diploma: Surgical Technology (D45740)

Length of Program: 3 Semesters

Prerequisite: 1 Unit of Biology and 1 Unit Algebra, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

Programmatic Accreditation: Accredited by:

Commission on Accreditation of Allied Health, Education Programs (CAAHEP), 1361 Park Street, Clearwater, FL 33756, (727) 210-2350, www.caahep.org

**TOTAL REQUIRED CREDITS... 71**

**Work Based Learning Option:** NA

*Student Completed Accredited Surgical Technology Program.*

**Certified Surgical Technologist may be given credit for these courses.**

Students with a felony conviction may have limited certification and employment opportunities.

**Note:** The Advanced SUR courses are individually tailored for surgical/special areas of concentration. Completion of this advanced clinical degree is recommended for advanced placement in the surgical arena. These considerations are for this program only.

*Note:* Students **may not** take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### SURGICAL TECHNOLOGY (D45740)

**Effective:** Fall 2014  
**Revised:** 02/21/14

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

Length: 3 Semesters
Prerequisite: 1 Unit Biology and 1 Unit Algebra, Placement Test Equivalent
Award: Diploma

**TOTAL REQUIRED CREDITS... 48**

**Work Based Learning Option:** NA

Students with a felony conviction may have limited certification and employment opportunities.

It is strongly recommended that students take the ACA 111 College Student Success course either before starting the program or as an excess elective course. ACA 111 is required for the AAS in Surgical Technology.

### SURGICAL TECHNOLOGY AAD BRIDGE PROGRAM

(D45740B)

**Effective:** Fall 2014  
**Revised:** 02/21/14

The Accelerated Alternate Delivery (AAD) Program was developed to assist non-certified currently practicing Surgical Technologists obtain the educational background required to sit for the Certification Examination with the NBSTSA (National Board of Surgical Technology and Surgical Assisting).

Surgical Technologists interested in this program must fit into one of the following categories:

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
1. On the job trained Surgical Technologists.
2. Formerly trained Surgical Technologists who completed their education from a non-Commission on Accreditation of the Allied Health Programs (CAAHEP) accredited program in Surgical Technology.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.

Length: 2 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit of Algebra, Placement Test Equivalent, Current Surgical Technologist, Documented 1000 hours working experience as a Surgical Technologist, Documentation of having independently scrubbed on 120 surgical cases, 2 Letters of Recommendation from former and/or current supervisors
Award: Diploma

TOTAL REQUIRED CREDITS.... 48

Work Based Learning Option: NA

**All surgical courses (SUR) are taught online.

**Must be a working Surgical Technologist with 1000 hours or more of work experience. Documented scrub on 120 surgical cases.

Note: Need two letters of recommendation from former and/or current supervisor.

*Work experience will be applied for lab/clinical experience. (SUR123, SUR 135, and SUR 137)

Students with a felony conviction may have limited certification and employment opportunities.

WEB TECHNOLOGIES A25290

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web.

Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, websites, web services, and related areas of distributed computing.

Awards

Associate Degree: Web Technologies (A25290)
Length of Program: 5 Semesters
Prerequisite: High School Diploma and Algebra I, Placement Test Equivalent

Diploma: Not applicable
Length of Program:
Prerequisite:

Certificate: Web Basics Certificate (C25290C1)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Web Programming Certificate (C25290C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma and Algebra I, Placement Test Equivalent

Certificate: Web Management Certificate (C25290C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma and Algebra I, Placement Test Equivalent

Certificate: Web Back-Office Certificate (C25290C4)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Server Side Web Programming Certificate (C25290C5)
Length of Program: 3 Semesters
Prerequisite: High School Diploma and Algebra I, Placement Test Equivalent

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Certificate: Web Database Certificate (C25290C6)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Social Media Certificate (C25290C9)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Web Design Certificate (C25290C10)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Social Media Certificate (C25290H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Web Programming Certificate (C25290H2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma and Algebra I, Placement Test Equivalent

Certificate: Web Design Certificate (C25290H3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work Based Learning Requirements/Opportunities: For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Kenneth R. Kleiner
Telephone Number: (910) 678-8572
Office Location: ATC 113
Email: kleinerk@faytechcc.edu
Department Office: Advanced Technology Center, Room 113
Telephone: (910) 678-8347
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 126; Telephone (910) 678-8242. Veterans Services, Student Center, Room 119, (910) 678-8395.

Child Care Financial Assistance Information: Child Care Associate, Student Center, Room 142, Telephone: (910) 678-8486

### WELDING TECHNOLOGY  D50420

The Welding Technology curriculum provides students with a sound understanding of the science, technology and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provide the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

**Awards**

**Associate Degree:** Not Applicable  
**Length of Program:** Not Applicable  
**Prerequisite:** Not Applicable

**Diploma:** Welding Technology (D50420)  
**Length of Program:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Welding Technology Certificate (C50420C1)  
**Length of Program:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Welding Technology Certificate (C50420H1)  
**Length of Program:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work Based Learning Requirements/Opportunities:** For Work Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**WELDING TECHNOLOGY/BASIC WELDING TECHNOLOGY CERTIFICATE (C50420C1)**

**Evening/Weekend Program**

Effective: Fall 2013
Revised: 02/19/13

This evening certificate program is designed to give individuals the opportunity to acquire fundamental skills in welding. Coursework includes electrode welding and cutting processes and welding symbols and specifications.

Excellent employment opportunities as entry-level welding apprentices in industry, manufacturing and construction exist throughout the region. Courses in this program can be transferred directly into the Welding Technology diploma program.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
COURSE DESCRIPTIONS

ACA 111 College Student Success

Prerequisites: None  
Corequisites: None  
Component: None

This course introduces the college’s physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

ACA 115 Success & Study Skills

Prerequisites: None  
Corequisites: None  
Component: None

This course provides an orientation to the campus resources and academic skills necessary to achieve educational objectives. Emphasis is placed on an exploration of facilities and services, study skills, library skills, self-assessment, wellness, goal-setting, and critical thinking. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

ACA 118 College Study Skills

Prerequisites: None  
Corequisites: None  
Component: None

This course covers skills and strategies designed to improve study behaviors. Topics include time management, note taking, test taking, memory techniques, active reading strategies, critical thinking, communication skills, learning styles, and other strategies for effective learning. Upon completion, students should be able to apply appropriate study strategies and techniques to the development of an effective study plan. This course is highly recommended for developmental (I.P.A.S.S.) students and should be taken their 1st semester.

ACA 120 Career Assessment

Prerequisites: None  
Corequisites: None  
Component: None

This course provides the information and strategies necessary to develop clear personal, academic, and professional goals. Topics include personality styles, goal setting, various college curricula, career choices, and campus leadership development. Upon completion, students should be able to clearly state their personal, academic, and professional goals and have a feasible plan of action to achieve those goals.

ACA 122 College Transfer Success

Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None

This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college policies and culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ACA 111 Financial Accounting

Prerequisites: Take DRE-097 and DMA-050 or ENG 080, RED 080, and MAT 070 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None

This course introduces the basic framework of accounting. Emphasis is placed on the accounting cycle and financial statement preparation and analysis. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACA 120 Prin of Financial Acct

Prerequisites: Take ACC 120 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: ACC 120AA, ACC 120BB

This course introduces business decision-making accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ACA 121 Prin of Managerial Acct

Prerequisites: Take ACC 120 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: ACC 121AA, ACC 121BB

This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ACA 129 Individual Income Taxes

Prerequisites: Take DMA-030 or MAT-060 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None

This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms. This course is also available through the Virtual Learning Community (VLC).

ACC 130 Business Income Taxes

Prerequisites: ACC-111 or ACC-120  
Corequisites: None  
Component: None

This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course is a continuation of ACC 220. Emphasis is placed on special accounting, including the application of financial standards. This course is designed to analyze special accounting issues, which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 225 Cost Accounting 03 00 00 03
Prerequisites: Take ACC 121 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 226 Adv Managerial Acct 03 00 00 03
Prerequisites: Take ACC 121 and ACC 225. Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to develop an appreciation for the uses of cost information in the administration and control of business organizations. Emphasis is placed on how accounting data can be interpreted and used by management in planning and controlling business activities. Upon completion, students should be able to analyze and interpret cost information and present this information in a form that is usable by management.

ACC 227 Practices in Accounting 03 00 00 03
Prerequisites: ACC 220
Corequisites: None
Component: None
This course provides an advanced in-depth study of selected topics in accounting using case studies and individual and group problem solving. Topics include cash flow, financial statement analysis, individual and group problem solving, practical approaches to dealing with clients, ethics, and critical thinking. Upon completion, students should be able to demonstrate competent analytical skills and effective communication of their analysis in written and/or oral presentations.

ACC 240 Governmental & Not-for-Profit Accounting 03 00 00 03
Prerequisites: Take ACC 121 and DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 250 Advanced Accounting 03 00 00 03
Prerequisites: ACC 220
Corequisites: None
Component: None
This course is designed to analyze special accounting issues, which may include business combinations, partnerships, international accounting, estates, and trusts. Emphasis is placed on analyzing transactions and preparing working papers and financial statements. Upon completion, students should be able to solve a wide variety of problems by advanced application of accounting principles and procedures.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ACC 269 Audit & Assurance Serves
Prerequisites: Take ACC 220 and DRE-097 and DRE-097 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces selected topics pertaining to the objectives, theory and practices in engagements providing auditing and other assurance services. Topics will include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.

AHR 110 Intro to Refrigeration
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111 HVACR Electricity
Prerequisites: None
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology
Prerequisites: Take AHR 110
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 113 Comfort Cooling
Prerequisites: None
Corequisites: None
Component: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychrometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology
Prerequisites: Take AHR 110 and AHR 113
Corequisites: None
Component: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 115 Refrigeration Systems
Prerequisites: Take AHR 110, AHR 112, AHR-114, and AHR 130
Corequisites: None
Component: None
This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to install and test refrigeration systems and perform simple repairs.

AHR 120 HVACR Maintenance
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.

AHR 130 HVAC Controls
Prerequisites: Take AHR 110, AHR 111, and AHR 113
Corequisites: None
Component: None
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.

AHR 133 HVAC Servicing
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
The course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.

AHR 151 HVAC Duct Systems I
Prerequisites: Take AHR 112, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces the techniques used to lay out and fabricate duct work commonly found in HVAC systems. Emphasis is placed on the skills required to fabricate duct work. Upon completion, students should be able to lay out and fabricate simple duct work.

AHR 160 Refrigerant Certification
Prerequisites: None
Corequisites: None
Component: None
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

AHR 180 HVACR Customer Relations
Prerequisites: AHR 114
Corequisites: None
Component: None
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
AHR 210 Residential Building Code 01 02 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, AHR 130 and AHR 151
Corequisites: None
Component: None
This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

AHR 211 Residential System Design 02 02 00 03
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

AHR 212 Advanced Comfort Systems 02 06 00 04
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

AHR 213 HVACR Building Code 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the North Carolina codes that are applicable to the design and installation of HVACR systems. Topics include current North Carolina codes as applied to HVACR design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of North Carolina codes that apply to specific areas of the HVACR trade.

AHR 215 Commercial HVAC Controls 01 03 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

AHR 240 Hydronic Heating 01 03 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course covers the accepted procedures for proper design, installation, and balance of hydronic heating systems for residential or commercial buildings. Topics include heating equipment; pump, terminal unit, and accessory selection; piping system selection and design; and pipe sizing and troubleshooting. Upon completion, students should be able to assist with the proper design, installation, and balance of typical hydronic systems.

AHR 245 Chiller Systems 01 03 00 02
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces the fundamentals of liquid chilling equipment. Topics include characteristics of water, principles of water chilling, the chiller, the refrigerant, water and piping circuits, freeze prevention, purging, and equipment flexibility. Upon completion, students should be able to describe the components, controls, and overall operation of liquid chilling equipment and perform basic maintenance tasks.

AHR 250 HVAC System Diagnostics 00 04 00 02
Prerequisites: AHR 112
Corequisites: AHR 212
Component: None
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers’ specifications.

ANT 220 Cultural Anthropology 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 221 Comparative Cultures 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
 ANT 230 Physical Anthropology
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the scientific study of human evolution and adaptation. Emphasis is placed on evolutionary theory, population genetics, biocultural adaptation and human variation, as well as non-human primate evolution, morphology, and behavior. Upon completion, students should be able to demonstrate an understanding of the biological and cultural processes which have resulted in the formation of the human species. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

 ANT 240 Archaeology
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

 ARA 181 Arabic Lab I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the modern standard Arabic language. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Arabic and to demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement

 ARA 182 Arabic Lab II
Prerequisites: Take ARA-181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the modern standard Arabic language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Arabic and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

 ARC 111 Introduction to Architectural Technology
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards.

 ARC 112 Constr Matls & Methods
Prerequisites: None
Corequisites: None
Component: None
This course introduces construction materials and methodologies. Topics include construction terminology, traditional and alternative materials and their properties, manufacturing processes, construction techniques, and other related topics. Upon completion, students should be able to detail construction assemblies and identify construction materials and properties.

 ARC 113 Residential Architectural Tech
Prerequisites: ARC 111
Corequisites: ARC 112
Component: None
This course covers intermediate residential working drawings. Topics include residential plans, elevations, sections, details, schedules, and other related topics. Upon completion, students should be able to prepare a set of residential working drawings that are within accepted architectural standards.

 ARC 114 Architectural CAD
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic architectural CAD techniques. Topics include basic commands and system hardware and software. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

 ARC 114A Architectural CAD Lab
Prerequisites: None
Corequisites: ARC 114
Component: None
This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot scaled architectural drawings.

 ARC 131 Building Codes
Prerequisites: ARC 112 or CAR 111
Corequisites: None
Component: None
This course covers the methods of researching building codes for specific projects. Topics include residential and commercial building codes. Upon completion, students should be able to determine the code constraints governing residential and commercial projects.

 ARC 132 Specifications & Contracts
Prerequisites: ARC 112
Corequisites: None
Component: None
This course covers the development of written specifications and the implications of different contractual arrangements. Topics include specification development, contracts, bidding material research, and agency responsibilities. Upon completion, students should be able to write a specification section and demonstrate the ability to interpret contractual responsibilities.

 ARC 210 Intro to Sustain Design
Prerequisites: ARC 111
Corequisites: None
Component: None
This course introduces concepts and principles related to sustainable site development and architectural design. Topics include low impact and sustainable site development, water efficiency, energy efficiency, material and resource management, indoor environmental quality, and return on investment. Upon completion, students should be able to articulate and integrate sustainable design principles into site and architectural design.
**Course Descriptions**

**ARC 211 Light Construction Technology**
- Prerequisites: ARC 111
- Corequisites: ARC 112
- Component: None
- This course covers working drawings for light construction. Topics include plans, elevations, sections, and details; schedules; and other related topics. Upon completion, students should be able to prepare a set of working drawings which are within accepted architectural standards.

**ARC 213 Design Project**
- Prerequisites: All courses required: ARC 111, ARC 112 and ARC 114
- Corequisites: None
- Component: None
- This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents.

**ARC 220 Advanced Architect CAD**
- Prerequisites: ARC 114
- Corequisites: None
- Component: None
- This course provides file management, productivity, and CAD customization skills. Emphasis is placed on developing advanced proficiency techniques. Upon completion, students should be able to create prototype drawings and symbol libraries, compose sheets with multiple details, and use advanced drawing and editing commands.

**ARC 230 Environmental Systems**
- Prerequisites: ARC 111 and MAT 121 or MAT 171
- Corequisites: None
- Component: None
- This course introduces plumbing, mechanical (HVAC), and electrical systems for the architectural environment. Topics include basic plumbing, mechanical, and electrical systems for residential and/or commercial buildings with an introduction to selected code requirements. Upon completion, students should be able to develop schematic drawings for plumbing, mechanical, and electrical systems and perform related calculations.

**ART 111 Art Appreciation**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ART 114 Art History Survey I
Prerequisites: None
Corequisites: None
Component: None
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ART 115 Art History Survey II
Prerequisites: None
Corequisites: None
Component: None
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ART 116 Survey of American Art
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ART 117 Non-Western Art History
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ART 118 Art by Women
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 121 Two-Dimensional Design
Prerequisites: None
Corequisites: None
Component: None
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 122 Three-Dimensional Design
Prerequisites: ART 121
Corequisites: None
Component: None
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 131 Drawing I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the language of drawing and the use of various materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate increased competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 132 Drawing II
Prerequisites: ART 131
Corequisites: None
Component: None
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 135 Figure Drawing I
Prerequisites: ART 131
Corequisites: None
Component: None
This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competence in drawing the human figure. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the use of the computer as a tool for solving visual problems. Emphasis is placed on fundamentals of computer literacy and design through bit-mapped image manipulation. Upon completion, students should be able to demonstrate an understanding of paint programs, printers, and scanners to capture, manipulate, and output images. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 212 Gallery Assistantship I
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 240 Painting I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 241 Painting II
Prerequisites: ART 240
Corequisites: None
Component: None
This course provides a continuing investigation of the materials, processes, and exhibition expertise. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 242 Landscape Painting
Prerequisites: ART 240
Corequisites: None
Component: None
This course introduces and practices the skills and techniques of open-air painting. Emphasis is placed on techniques of painting summer foliage, skies, and mountains, and the elements of aerial perspective. Upon completion, students should be able to complete an open-air landscape painting employing brush, knife, scumbling, and glazing techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 243 Printmaking II
Prerequisites: ART 231
Corequisites: None
Component: None
This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 244 Printmaking III
Prerequisites: ART 232
Corequisites: None
Component: None
This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 245 Figure Drawing II
Prerequisites: ART 135
Corequisites: None
Component: None
This course extends the study and rendering of the draped and undraped human figure. Emphasis is placed on the exploration of materials and approaches to drawing. Upon completion, students should be able to demonstrate creativity in the representation of the figure. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 246 Figure Drawing III
Prerequisites: ART 245
Corequisites: None
Component: None
This course extends the study and rendering of the draped and undraped human figure. Emphasis is placed on the exploration of materials and approaches to drawing. Upon completion, students should be able to demonstrate creativity in the representation of the figure. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 247 Drawing and Design
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 248 Drawing and Design II
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 249 Drawing and Design III
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 250 Drawing and Design IV
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 251 Drawing and Design V
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 252 Drawing and Design VI
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 253 Drawing and Design VII
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

ART 254 Drawing and Design VIII
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

| ART 245 Metals I | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 |
| Prerequisites: None | Corequisites: None | Component: None | This course introduces basic metal design in traditional and contemporary art forms using brass, copper, and silver. Emphasis is placed on designing and fabricating jewelry, small sculptures, and utilitarian objects. Upon completion, students should be able to design and produce small art objects. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement. |

| ART 246 Metals II | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 |
| Prerequisites: ART 245 | Corequisites: None | Component: None | This course provides a continuation of metal design utilizing basic methods of casting and other processes. Emphasis is placed on individualized design. Upon completion, students should be able to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement. |

| ART 247 Jewelry I | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 |
| Prerequisites: None | Corequisites: None | Component: None | This course introduces a basic understanding of the design and production of jewelry. Emphasis is placed on concepts and techniques using metals and other materials. Upon completion, students should be able to demonstrate an ability to use appropriate methods to create unique jewelry. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. |

| ART 248 Jewelry II | 03 00 00 03 | 03 00 00 03 | 03 00 00 03 | 03 00 00 03 |
| Prerequisites: ART 247 | Corequisites: None | Component: None | This course is a continuation of the skills learned in ART 247. Emphasis is placed on the creation of individual designs that utilize a variety of techniques such as casting, cloisonne, and plique-a-jour. Upon completion, students should be able to create jewelry which demonstrates originality. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. |

| ART 250 Surface Design: Textiles | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 | 00 06 00 03 |
| Prerequisites: None | Corequisites: None | Component: None | This course introduces the basic principles and elements of art as applied to textile surfaces. Emphasis is placed on direct, top-dyed processes that utilize both synthetic and natural dyes, and techniques such as batiking, stenciling, and stamping. Upon completion, students should be able to demonstrate a basic understanding of appropriate materials and techniques as they apply to original design on a variety of textile surfaces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ART 264 Digital Photography I
Prerequisites: None
Corequisites: None
Component: None
This course introduces digital photographic equipment, theory and processes. Emphasis is placed on camera operation, composition, computer photo manipulation and creative expression. Upon completion, students should be able to successfully expose, digitally manipulate, and print a well-conceived composition. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

 ART 265 Digital Photography II
Prerequisites: ART 264
Corequisites: None
Component: None
This course provides exploration of the concepts and processes of photo manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 266 Videography I
Prerequisites: None
Corequisites: None
Component: None
This course introduces various aspects of basic video production including concept development, scripting, camera operation, and post-production. Emphasis is placed on creative expression, camera handling, story boarding, and editing. Upon completion, students should be able to demonstrate a basic understanding of video camera operation and production techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 267 Videography II
Prerequisites: ART 266
Corequisites: None
Component: None
This course is designed to provide a framework for the production of a long-term video project. Emphasis is placed on realization of the unique creative vision. Upon completion, students should be able to produce a thematically coherent, edited video with sound and titling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 271 Computer Art II
Prerequisites: ART-171
Corequisites: None
Component: None
This course includes advanced computer imaging techniques. Emphasis is placed on creative applications of digital technology. Upon completion, students should be able to demonstrate command of computer systems and applications to express their personal vision. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 275 Intro to Commercial Art
Prerequisites: None
Corequisites: None
Component: None
This course introduces the materials and techniques used in creative layout design for publication. Emphasis is placed on design for advertising in a variety of techniques and media including computer graphics. Upon completion, students should be able to demonstrate competence in manual camera-ready layout design and computer graphics literacy. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 281 Sculpture I
Prerequisites: None
Corequisites: None
Component: None
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 282 Sculpture II
Prerequisites: ART 281
Corequisites: None
Component: None
This course builds on the visual and technical skills learned in ART 281. Emphasis is placed on developing original solutions to sculptural problems in a variety of media. Upon completion, students should be able to express individual ideas using the techniques and materials of sculpture. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 283 Ceramics I
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 284 Ceramics II
Prerequisites: ART 283
Corequisites: None
Component: None
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 285 Ceramics III
Prerequisites: ART 284
Corequisites: None
Component: None
This course provides the opportunity for advanced self-determined work in sculptural and functional ceramics. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing procedures necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ART 286 Ceramics IV
Prerequisites: ASL 181
Corequisites: ART 285
Component: None
This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of glaze materials, glaze formulation, and firing techniques necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 288 Studio
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity for advanced self-determined work beyond the limits of regular studio course sequences. Emphasis is placed on creative self-expression and in-depth exploration of techniques and materials. Upon completion, students should be able to create original projects specific to media, materials, and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ASL 111 Elementary ASL I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 112 Elementary ASL II
Prerequisites: ASL 111
Corequisites: None
Component: None
This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language in a cultural context. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 211 Intermediate ASL I
Prerequisites: ASL 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of American Sign Language. Emphasis is placed on the continuing development of expressive and receptive skills study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively using American Sign Language about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 212 Intermediate ASL II
Prerequisites: ASL 211
Corequisites: None
Component: None
This course provides a continuation of ASL 211. Emphasis is placed on the continuing development of expressive and receptive skills study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ASL 281 ASL Lab 3
Prerequisites: ASL 182
Corequisites: None
Component: None
This course provides the opportunity to enhance the review and the expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ASL 282 ASL Lab 4
Prerequisites: ASL 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and the expansion of the essential skills of American Sign Language. Emphasis is placed on the continuing development of expressive and receptive skills study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 111 Descriptive Astronomy
Prerequisites: None
Corequisites: None
Component: None
This course introduces an overall view of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 111A Descriptive Astronomy Lab
Prerequisites: None
Corequisites: AST 111
Component: None
The course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151 General Astronomy I
Prerequisites: None
Corequisites: AST 151A
Component: None
This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets, and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151A General Astronomy I Lab
Prerequisites: None
Corequisites: AST 151
Component: None
The course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 152 General Astronomy II
Prerequisites: AST 151
Corequisites: AST 152A
Component: None
This course is a continuation of AST 151 with primary emphasis beyond the solar system. Topics include the sun, stars, galaxies, and the larger universe, including cosmology. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 152A General Astronomy II Lab
Prerequisites: AST 151
Corequisites: AST 152
Component: None
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 111 Descriptive Astronomy
Prerequisites: None
Corequisites: None
Component: None
This course introduces an overall view of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 111A Descriptive Astronomy Lab
Prerequisites: None
Corequisites: AST 111
Component: None
The course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151 General Astronomy I
Prerequisites: None
Corequisites: AST 151A
Component: None
This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets, and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151A General Astronomy I Lab
Prerequisites: None
Corequisites: AST 151
Component: None
The course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 152 General Astronomy II
Prerequisites: AST 151
Corequisites: AST 152A
Component: None
This course is a continuation of AST 151 with primary emphasis beyond the solar system. Topics include the sun, stars, galaxies, and the larger universe, including cosmology. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 152A General Astronomy II Lab
Prerequisites: AST 151
Corequisites: AST 152
Component: None
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AUB 111 Painting & Refinishing I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

AUB 112 Painting & Refinishing II
Prerequisites: AUB 111
Corequisites: None
Component: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

ATT 140 Emerging Transp Tech
Prerequisites: None
Corequisites: None
Component: None
This course covers emerging technologies in the automotive industry and diagnostic procedures associated with those technologies. Topics include exploring new technologies, diagnostic tools, methods and repairs. Upon completion, students should be able to demonstrate practical skills applicable to emerging automotive technologies.

ATT 212 Industrial Robots
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of industrial robots. Topics include the classification of robots, activators, grippers, work envelopes, computer interfaces, overlapping work envelopes, installation, and programming. Upon completion, students should be able to install, program, and troubleshoot industrial robots.

ATR 212 Industrial Robots
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of industrial robots. Topics include the classification of robots, activators, grippers, work envelopes, computer interfaces, overlapping work envelopes, installation, and programming. Upon completion, students should be able to install, program, and troubleshoot industrial robots.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
AUT 115 Engine Fundamentals
Prerequisites: None
Corequisites: AUT 116
Component: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis/repair of automotive engines using appropriate tools, equipment, procedures, and service information. This course will become obsolete effective Fall 2008.

AUT 116 Engine Repair
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT-116A
Component: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 116A Engine Repair Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT 116
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 141 Suspension & Steering Systems
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT 141A
Component: None
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 141A Suspension & Steering Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT 141
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 151 Brake Systems
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT 151A
Component: None
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 151A Brakes Systems Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: AUT 151
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 152 Brake Systems Lab
Prerequisites: None
Corequisites: AUT 151
Component: None
This course provides a laboratory setting to enhance brake system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 151. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 151. This course will become obsolete effective Fall 2008.

AUT 161 Basic Auto Electricity
Prerequisites: None
Corequisites: One course required: AUT 163, COE 111 or COE 212
Component: None
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

AUT 162 Chassis Electrical & Electronics
Prerequisites: None
Corequisites: One course required: AUT 163, COE 111 or COE 212
Component: None
This course covers electrical/electronic diagnosis/repair, including wiring diagrams, instrumentation, and electronic/computer-controlled devices and accessories. Topics include interpreting wiring diagrams and diagnosis and repair of chassis electrical and electronic systems. Upon completion, students should be able to read and interpret wiring diagrams and determine/perform needed repairs on chassis electrical and electronic systems. This course will become obsolete effective Fall 2008.

AUT 163 Adv Auto Electricity
Prerequisites: Take TRN 120
Corequisites: Take AUT 163A
Component: None
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### AUT 163A Adv Auto Electricity Lab
**Prerequisites:** Take TRN 120
**Corequisites:** None
**Component:** None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**
---|---|---|---
00 | 03 | 00 | 01

### AUT 171 Auto Climate Control
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
**Corequisites:** None
**Component:** None
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**
---|---|---|---
02 | 04 | 00 | 04

### AUT 181 Engine Performance 1
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
**Corequisites:** AUT 181A
**Component:** None
This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**
---|---|---|---
02 | 03 | 00 | 03

### AUT 181A Engine Performance 1 Lab
**Prerequisites:** Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
**Corequisites:** AUT 181
**Component:** None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**
---|---|---|---
00 | 03 | 00 | 01

### AUT 183 Engine Performance 2
**Prerequisites:** AUT 181
**Corequisites:** None
**Component:** None
This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**
---|---|---|---
02 | 06 | 00 | 04

### AUT 211 Automotive Machining
**Prerequisites:** AUT 116 and AUT 116A
**Corequisites:** None
**Component:** None
This course covers engine machining processes for remanufacturing automotive engines. Emphasis is placed on cylinder head service, machining block surfaces, reconditioning connecting rod assemblies, camshafts, flywheels, and precision measurement. Upon completion, students should be able to explain the operation and proper use of automotive machining equipment.

**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**

BAF 110 Principles of Banking
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositories, the payment functions, bank loans and accounting, regulations, and examinations. Upon completion, students should be able to demonstrate an understanding of the business of banking from a broad perspective.

BAF 111 Teller Training
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of banking teller operations, bank security, and customer relations in preparation for work as a bank teller. Topics include bank profitability, cash and cash handling, checks and other transactions, balancing and setting, and security threats and their detection. Upon completion, students should be able to discuss the components of teller performance and perform effectively as a teller after minimal on-the-job training.

BAF 131 Fund of Bank Lending
Prerequisites: ACC 120
Corequisites: None
Component: None
This course introduces the basic knowledge and skills needed to be an effective lender. Topics include the functions of the loan interview and credit investigation, the “C”’s of credit, elements of loan documentation, and warning signs of problem loans. Upon completion, students should be able to demonstrate an understanding of the credit functions and regulatory issues affecting this key banking function. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 141 Law & Banking: Principles
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the legal aspects of banking and the legal framework within which banks function. Topics include the court system, consumer protection, tangible and intangible property ownership, and the legalities and regulations of bank transactions. Upon completion, students should be able to discuss the non-technical aspects of the legal system and how these affect the bank’s organization and operation. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 143 Financial Planning
Prerequisites: None
Corequisites: None
Component: None
This course covers the perspectives, principles, and practices of financial planning. Topics include investment, retirement, tax, and estate planning. Upon completion, students should be able to understand the process that looks at a customer’s financial picture and recommend strategies to achieve the customer’s objectives.

BAF 222 Money and Banking
Prerequisites: Take DRE-096 or ENG-070 AND RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a fundamental treatment of how money and banks function in the US and world economies. Topics include the roles of money in the US economy, the functions of the Federal Reserve Board, and the workings of monetary and fiscal policies. Upon completion, students should be able to explain how the monetary economy functions, how banks are creators of money, and the impact of the Federal Reserve. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 232 Consumer Lending
Prerequisites: Take DRE-096 or ENG-070 AND RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course details the many types of credit arrangements in which a finance charge is paid for the privilege of repaying debt in delayed payments. Topics include consumer credit policy, the loan process, servicing and collecting loans, consumer compliance, and evaluating credit risks. Upon completion, students should be able to identify collection policies and procedures, explain principles of credit evaluation, define open-end credit, and describe indirect lending.

BAF 234 Residential Mortgage Lending
Prerequisites: Take DRE-096 or ENG-070 AND RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the field of mortgage lending and the various financial markets for real estate mortgages. Topics include conventional and government related mortgages, contracts, financial markets, and qualifying prospective loan customers. Upon completion, students should be able to demonstrate an understanding of mortgage loan origination and processing, government regulations, and compliance issues.

BAF 235 Analyzing Financial Statements
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides practice in constructing and analyzing long-range, multiple-year forecasts of income statements and balance sheets, and cash budgets. Topics include trend, ratio, common size, comparative analysis, programs, projections, and cash budgets. Upon completion, students should be able to analyze income statements, balance sheets, and pro forma statements.

BIO 090 Foundations of Biology
Prerequisites: None
Corequisites: RED 090
Component: None
This course introduces basic biological concepts. Topics include basic biochemistry, cell structure and function, interrelationships among organisms, scientific methodology, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.

BIO 092 Basics of Cell Biology
Prerequisites: None
Corequisites: RED 090 or Placement Test Credit Equivalent
Component: None
This course covers basic cell biology. Emphasis is placed on biological chemistry, cell structure and function, cellular metabolism, genetics, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.

BIO 094 Concepts of Human Biology
Prerequisites: None
Corequisites: RED 090 or Placement Test Credit Equivalent
Component: None
This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, body systems, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level anatomy and physiology courses.
BIO 106 Introduction to Anat/Phys/Micro 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease. This course is intended for certificate and diploma programs.

BIO 110 Principles of Biology 03 03 00 04
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090
Corequisites: None
Component: None
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the CAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 111 General Biology I 03 03 00 04
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090
Corequisites: None
Component: None
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, molecular and cellular biology, metabolism and energy transformation, genetics, evolution, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 112 General Biology II 03 03 00 04
Prerequisites: BIO 111
Corequisites: None
Component: None
This course is a continuation of BIO 111. Emphasis is placed on organisms, evolution, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 120 Introductory Botany 03 03 00 04
Prerequisites: BIO 110 or BIO 111
Corequisites: None
Component: None
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 130 Introductory Zoology 03 03 00 04
Prerequisites: BIO 110 or BIO 111
Corequisites: None
Component: None
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 140 Environmental Biology 03 00 00 03
Prerequisites: None
Corequisites: BIO 140A
Component: None
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics. This course is also available through the Virtual Learning Community (VLC).

BIO 140A Environmental Biology Lab 00 03 00 01
Prerequisites: None
Corequisites: BIO 140
Component: None
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 143 Field Biology Minicourse 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 145 Ecology 03 03 00 04
Prerequisites: Take One: BIO-110 or BIO-111
Corequisites: None
Component: None
This course provides an introduction to ecological concepts using an ecosystems approach. Topics include energy flow, nutrient cycling, succession, population dynamics, community structure, and other related topics. Upon completion, students should be able to demonstrate comprehension of basic ecosystem structure and dynamics. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### BIO 180 Biological Chemistry
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None
- This course provides an introduction to basic biochemical processes in living systems. Topics include properties of carbohydrates, lipids, proteins, nucleic acids, vitamins, and buffers, with emphasis on biosynthesis, degradation, function, and equilibrium. Upon completion, students should be able to demonstrate an understanding of fundamental biochemical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

### BIO 230 Entomology
- **Prerequisites:** BIO 112
- **Corequisites:** None
- **Component:** None
- This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology. This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.

### BIO 243 Marine Biology
- **Prerequisites:** BIO-110 or BIO-111
- **Corequisites:** None
- **Component:** None
- This course covers the physical and biological components of the marine environment. Topics include major habitats, the diversity of organisms, their biology and ecology, marine productivity, and the use of marine resources by humans. Upon completion, students should be able to identify various marine habitats and organisms and to demonstrate a knowledge of their biology and ecology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### BIO 250 Genetics
- **Prerequisites:** BIO 112
- **Corequisites:** None
- **Component:** None
- This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### BIO 275 Microbiology
- **Prerequisites:** One course required: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168
- **Corequisites:** None
- **Component:** None
- This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### BPR 130 Blueprint Reading-Construction
- **Prerequisites:** None
- This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in budgeting, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.
BUS 135 Principles of Supervision
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place. This course is also available through the Virtual Learning Community (VLC).

BUS 175 Contract Negotiations
Prerequisites: Take DRE-097 or ENG-080 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers theory, strategies, techniques and tactics for negotiating contracts, and principles and practices of negotiations for government, corporate or institutional procurements. Topics include preparation and conduct of negotiations and methods of dealing with situations under different types of negotiations. Upon completion, students should be able to effectively negotiate contracts.

BUS 217 Employment Law and Regulations
Prerequisites: BUS 115 and DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. This course is also available through the Virtual Learning Community (VLC).

BUS 137 Principles of Management
Prerequisites: Take DRE-097 or ENG-080 RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

BUS 139 Entrepreneurship I
Prerequisites: BUS-110 and DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to the principles of entrepreneurship. Topics include self-analysis of entrepreneurship readiness, the role of entrepreneur in economic development, legal problems, organizational structure, sources of financing, budgeting, and cash flow. Upon completion, students should have an understanding of the entrepreneurial process and issues faced by entrepreneurs.

BUS 153 Human Resource Management
Prerequisites: None
Corequisites: None
Component: None
This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

BUS 171 Government Contracts
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to the procurement process, concepts, policies and procedures associated with government contracting. Topics include procurement requirements, work specifications, procurement requests, and acquisition work planning. Upon completion, students should be able to demonstrate an understanding of the acquisition and contract management functions.

BUS 173 Procurement Management
Prerequisites: Take DRE-098 and DMA-050 or ENG-090, RED-090 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course examines purchasing and materials management including function, organization, quality and quantity considerations, pricing policies, supplier selection, and ethical and legal implications. Topics include purchasing procedures, value analysis, inventory control, logistics, capital equipment, budgets, and institutional and governmental purchasing practices. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques of purchasing and materials management.

BUS 225 Business Finance
Prerequisites: ACC 120 and CIS-110, CIS-111, or OST-137
Corequisites: None
Component: None
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 228 Business Statistics
Prerequisites: Take CIS-110 or CIS-111 and DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BUS 230 Small Business Management
Prerequisites: Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

| This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor laws and unfair labor practices, the role of the NLRB, organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists. This course is also available through the Virtual Learning Community (VLC). |

| **BUS 253 Leadership and Management Skills**      | 03        | 00      | 00         | 03         |
| Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness. |

| **BUS 255 Org Behavior in Business**              | 03        | 00      | 00         | 03         |
| Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course covers the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Topics include a discussion of formal and informal organizations, group dynamics, motivation, and managing conflict and change. Upon completion, students should be able to analyze different types of interpersonal situations and determine an appropriate course of action. |

| **BUS 256 Recruit Select & Personnel Planning**   | 03        | 00      | 00         | 03         |
| Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records; and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC). |

| **BUS 258 Compensation and Benefits**             | 03        | 00      | 00         | 03         |
| Prerequisites: Take DRE-098 OR ENG-090 and RED-090 or Placement Test Credit Equivalent |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course is designed to study the basic concepts of pay and its role in rewarding performance. Topics include wage and salary surveys, job analysis, job evaluation techniques, benefits, and pay-for-performance programs. Upon completion, students should be able to develop and manage a basic compensation system to attract, motivate, and retain employees. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC). |

| **BUS 259 HRM Applications**                      | 03        | 00      | 00         | 03         |
| Prerequisites: All courses required: BUS 217, BUS 234, BUS 256, BUS 258 |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC). |

| **BUS 260 Business Communication**                | 03        | 00      | 00         | 03         |
| Prerequisites: ENG 111 and CIS 110, CIS 111, CIS 113, or OST 137 |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place. |

| **BUS 261 Diversity in Management**               | 03        | 00      | 00         | 03         |
| Prerequisites: None                                |           |         |            |            |
| Corequisites: None                                |           |         |            |            |
| Component: None                                   |           |         |            |            |
| This course is designed to help managers recognize the need to incorporate diversity into all phases of organizational management. Topics include self-evaluation, management, sexual harassment, workforce diversity, dual careers, role conflict, and communication issues. Upon completion, students should be able to implement solutions that minimize policies, attitudes, and stereotypical behaviors that block effective team building. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
and perform basic framing skills with supervision. Related topics. Upon completion, students should be able to safely lay out and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to apply the principles of managing contracts.

This course covers the applicable technological laws dealing with the regulation of cyber security and criminal activity. Topics include an examination of state, federal and international laws regarding cyber crime with an emphasis on both general and North Carolina statutes. Upon completion, students should be able to identify the elements of cyber crime activity and discuss the trends of evolving laws.
### CEG 240 Data Recovery Techniques
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes. Topics include hardware and software issues, recovering erased files, overcoming encryption, advanced imaging, transient data, Internet issues and testimony considerations. Upon completion, students should be able to recover digital evidence, extract information for criminal investigation and legally seize criminal evidence.

### CEG 111 Intro to Gis and Gnss
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course introduces the methods and techniques used in the Geographic Information Systems (GIS) and Global Navigation Satellite Systems (GNSS) professions. Emphasis is placed on data collection and mapping using GIS software. Upon completion, students should be able to use GNSS technologies to collect field data and create GIS maps.

### CEG 210 Construction Mtls & Methods
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the behavior and properties of Portland cement, asphaltic concretes, and other construction materials, including construction methods and equipment. Topics include cementing agents, aggregates, water and admixture materials with their proportions, production, placement, consolidation, curing; and their inspection. Upon completion, students should be able to proportion Portland concrete mixes to attain predetermined strengths, perform standard control tests on Portland cement concrete, identify inspection criteria for concretes, identify construction equipment and applications.

### CEG 211 Hydrology & Erosion Control
**Prerequisites:** Take MAT-121, MAT-171 or DMA-080  
**Corequisites:** None  
**Component:** None  
This course introduces basic engineering principles and characteristics of hydrology, erosion and sediment control. Topics include stormwater runoff, gravity pipe flow, open channel flow, low impact development (LID), erosion control devices and practices. Upon completion, students should be able to analyze and design gravitational drainage structures, identify LID and erosion control elements, and prepare a stormwater drainage plan.

### CEG 212 Intro to Environmental Tech
**Prerequisites:** CEG-211 and EGR-250  
**Corequisites:** None  
**Component:** None  
This course introduces basic engineering principles of hydraulics, and water and wastewater technologies. Topics include fluid statics, fluid dynamics, flow measurement, the collection, treatment, and distribution of water and wastewater. Upon completion, students should be able to identify water and wastewater system elements, describe water and wastewater system processes and perform basic hydraulics and treatment computations.

**Prerequisites:** Take CEG 211 and CEG 151, DFT 151, or EGR 120, and SRV 111 or CIV 215  
**Corequisites:** None  
**Component:** None  
This course covers the planning and design concepts related to subdivisions including analysis of development standards, engineering, and the creation of CAD drawings. Topics include applicable codes, lot creation, roadway system layout, stormwater drainage, low impact development (LID) concepts, and related topics. Upon completion, students should be able to prepare a set of subdivision plans.

### CHI 181 Chinese Lab I
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the Chinese language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Chinese and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

### CHM 081 Basic Chemistry I
**Prerequisites:** None  
**Corequisites:** DMA 050  
**Component:** None  
This course covers basic fundamental principles and laws of chemistry. Topics include matter, energy, atomic structure, periodic classification, nomenclature, bonding, molecular geometry, measurement, chemical reactions, stoichiometry, and gas laws. Upon completion, students should be able to explain and apply the chemical concepts and laboratory skills as needed in CHM 082.

CHM 151 General Chemistry I  
Prerequisites: MAT 161  
Corequisites: None  
Component: None  
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

CHM 152 General Chemistry II  
Prerequisites: CHM 151  
Corequisites: None  
Component: None  
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

CHM 251 Organic Chemistry I  
Prerequisites: CHM 152  
Corequisites: None  
Component: None  
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 252 Organic Chemistry II  
Prerequisites: CHM 251  
Corequisites: None  
Component: None  
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 263 Analytical Chemistry  
Prerequisites: Take One: CHM 132 or CHM 152  
Corequisites: None  
Component: None  
This course covers the knowledge and laboratory skills needed to perform chemical analysis. Emphasis is placed on developing laboratory techniques used in the separation, identification, and quantification of selected substances. Upon completion, students should be able to perform laboratory techniques employed in substance identification and volumetric analysis and interpret the results. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement.

CIS 070 Fundamentals of Computing  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.

CIS 110 Introduction to Computers  
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

CIS 111 Basic PC Literacy  
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. This course is also available through the Virtual Learning Community (VLC).

CIS 113 Computer Basics  
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications. This course is also available through the Virtual Learning Community (VLC).

CIS 115 Intro to Prog & Logic  
Prerequisites: Take DMA-040, MAT-121 or MAT-171 and DRE-096 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CIS 162 Multimedia Presentation Software 02 02 00 03  
Prerequisites: Take CIS 110 or CIS 111. Take DRE-096 and DMA-010 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course is designed to integrate visual and audio resources using presentation software in a simple interactive multimedia project. Emphasis is placed upon design and audience considerations, general prototyping, and handling of media resources. Upon completion, students should be able to demonstrate an original interactive multimedia presentation implementing all of these resources in a professional manner.

CIV 110 Statics/Strength of Materials 02 06 00 04  
Prerequisites: MAT 121, MAT 161, MAT 171, or MAT 175  
Corequisites: None  
Component: None  
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.

CIV 111 Soils and Foundations 02 04 00 04  
Prerequisites: Take 1 course: EGR 250, EGR 251 or MEC 210  
Corequisites: None  
Component: None  
This course presents an overview of soil as a construction material using both analysis and testing procedures. Topics include index properties, classification, stress analysis, compressibility, compaction, dewatering, excavation, stabilization, settlement, and foundations. Upon completion, students should be able to perform basic soil tests and analyze engineering properties of soil.

CIV 125 Civil/Surveying CAD 01 06 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces civil/surveying computer-aided drafting (CAD) software. Topics include drawing, editing, and dimensioning commands; plotting; and other related civil/surveying topics. Upon completion, students should be able to produce civil/surveying drawings using CAD software.

CIV 210 Engineering Materials 01 03 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the behavior and properties of Portland cement and asphaltic concretes and laboratory and field testing. Topics include cementing agents and aggregates; water and admixtures; proportioning, production, placing, consolidation, and curing; and inspection methods. Upon completion, students should be able to proportion concrete mixes to attain predetermined strengths and other properties and perform standard control tests.

CIV 211 Hydraulics and Hydrology 02 03 00 03  
Prerequisites: CIV 110 or MEC 250  
Corequisites: None  
Component: None  
This course introduces the basic engineering principles and characteristics of hydraulics and hydrology. Topics include precipitation and runoff, fluid statics and dynamics, flow measurement, and pipe and open channel flow. Upon completion, students should be able to analyze and size drainage structures.

CIV 212 Environmental Planning 02 03 00 03  
Prerequisites: CIV 211  
Corequisites: None  
Component: None  
This course covers water and wastewater technology, erosion and sedimentation control, and other related topics. Topics include collection, treatment, and distribution of water and wastewater and erosion and sedimentation control law. Upon completion, students should be able to demonstrate knowledge of water and wastewater systems and prepare erosion and sedimentation control plans.

CIV 215 Highway Technology 02 03 00 03  
Prerequisites: Take CEG 115 or EGR 115 and MAT 121 or MAT 171  
Corequisites: None  
Component: None  
This course introduces the essential elements of roadway components and design. Topics include subgrade and pavement construction, roadway drawings and details, traffic analysis, geometric design and other related topics. Upon completion, students should be able to interpret roadway details and specifications, and produce street and highway construction drawings.

CIV 221 Steel and Timber Design 02 03 00 03  
Prerequisites: Take EGR-250, EGR-251, or MEC-210  
Corequisites: None  
Component: None  
This course introduces the basic elements of steel and timber structures. Topics include strength of materials applications, the analysis and design of steel and timber beams, columns, and connections and concepts of structural detailing. Upon completion, students should be able to analyze, design, and draw simple plans using Computer Aided Drafting and Design software (CADD).

CIV 222 Reinforced Concrete 02 03 00 03  
Prerequisites: Take EGR 250, EGR 251, or MEC 210  
Corequisites: None  
Component: None  
This course introduces the basic elements of reinforced concrete structures. Topics include analysis and design of reinforced concrete beams, slabs, columns, footings, and retaining walls. Upon completion, students should be able to analyze and design components of a structure using reinforced concrete and draw simple plans using Computer Aided Drafting and Design software (CADD).

CIV 230 Construction Estimating 02 03 00 03  
Prerequisites: One course required: CIS 110, CIS 111 or EGR 115  
Corequisites: None  
Component: None  
This course covers quantity take-offs of labor, materials, and equipment and calculation of direct and overhead costs for a construction project. Topics include the interpretation of working drawings and specifications, types of contracts and estimates, building codes, bidding techniques and procedures, and estimating software. Upon completion, students should be able to prepare a detailed cost estimate and bid documents for a construction project.

CIV 240 Project Management 02 03 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces construction planning and scheduling techniques and project management software. Topics include construction safety, operation analysis, construction scheduling, construction control systems, claims and dispute resolutions, project records, and documentation. Upon completion, students should be able to demonstrate an understanding of the roles of construction project participants, maintain construction records, and prepare construction schedules.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CIV 250 Civil Eng Technology Project
Prerequisites: Departmental approval
Corequisites: None
Component: None
This course includes an integrated team approach to civil engineering technology projects. Emphasis is placed on project proposal, site selection, analysis/design of structures, construction material selection, time and cost estimating, planning, and management of a project. Upon completion, students should be able to apply team concepts, prepare estimates, submit bid proposals, and manage projects.

CJC 100 Basic Law Enforcement Training 09 30 00 19
Prerequisites: None
Corequisites: None
Component: None
This course covers the skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in topics and areas required for the state comprehensive certification examination. This is a certificate-level course.

CJC 111 Introduction to Criminal Justice 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 112 Criminology 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 Juvenile Justice 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court procedures functions, jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. This course is also available through the Virtual Learning Community (VLC).

CJC 114 Investigative Photography 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations.

CJC 116 Introduction to Information Security 03 00 00 03
Prerequisites: CIS 110 or CIS 111
Corequisites: None
Component: None
This course introduces the students to undercover techniques necessary to identify information security breaches and establish, maintain and monitor information security systems. Emphasis will be placed on the investigative tools used to collect evidence in cases of illegal activity. Upon completion students should be able to evaluate information systems, identify security problems and provide procedures to guard against security breaches. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 120 Interviews/Interrogations 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims.

CJC 121 Law Enforcement Operations 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 122 Community Policing 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the relationship between the government of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.

CJC 131 Criminal Law 03 00 00 03
Prerequisites: Take DRE-098 or ENG 090, ENG 090A, and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CJC 141 Corrections 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 144 Crime Scene Processing 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theories and practices of crime scene processing and investigating. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, the student should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. This course is also available through the Virtual Learning Community (VLC).

CJC 145 Crime Scene CAD 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the student to CAD software for crime scenes. Topics include drawing, editing, file management and drafting theory and practices. Upon completion, students should be able to produce and plot a crime scene drawing.

CJC 146 Trace Evidence 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory.

CJC 151 Introduction to Loss Prevention 03 00 00 03
Prerequisites: None
Component: None
This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 160 Terrorism: Underlying Issues 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, students should be able to identify and discuss the methods used in terrorists' activities and complete a threat assessment for terrorists' incidents.

CJC 161 Intro Homeland Security 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the historical, organizational and practical aspects of Homeland Security. Topics include a historic overview, definitions and concepts, organizational structure, communications, technology, mitigation, prevention and preparedness, response and recovery, and the future of Homeland Security. Upon completion, students should be able to explain essential characteristics of terrorism and Homeland Security, and define roles, functions and interdependency between agencies.

CJC 162 Intel Analysis & Sec Mgmt 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course examines intelligence analysis and its relationship to the security management of terrorist attacks and other threats to national security of the United States. Topics include a historic overview, definitions and concepts, intelligence evolution-politicization-operations-strategies, surveillance, analysis perspectives, covert action, and ethics. Upon completion, students should be able to outline intelligence policies, evaluate source information, implement intelligence techniques and analysis, identify threats, and apply ethical behaviors.

CJC 163 Trans and Border Security 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth view of modern border and transportation security including the technologies used for detecting potential threats from terrorists and weapons. Topics include an overview of security challenges, detection devices and equipment, transportation systems, facilities, threats and counter-measures, and security procedures, policies and agencies. Upon completion, students should be able to describe border security, the technologies used to enforce it, and the considerations and strategies of border security agencies.

CJC 170 Critical Incident Mgmt Pub Saf 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course prepares the student to specialize in the direct response, operations, and management of critical incidents. Emphasis is placed upon the theoretical and applied models to understand and manage disasters, terrorism, and school/work place violence. Upon completion, the student should be able to identify and discuss managerial techniques legal issues, and response procedures to critical incidents.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course is also available through the Virtual Learning Community (VLC).

This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

This course enables students to apply the investigative skills they have learned to operating systems and networks. Topics will include security technologies for multiple platforms, encryption techniques and authentication and key distribution systems. Upon completion, students will be able to contrast competing schemes and describe mistakes made in design, which could lead to criminal activity. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation. This course is also available through the Virtual Learning Community (VLC).

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

This course enables students to apply the investigative skills they have learned to operating systems and networks. Topics will include security technologies for multiple platforms, encryption techniques and authentication and key distribution systems. Upon completion, students will be able to contrast competing schemes and describe mistakes made in design, which could lead to criminal activity. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 256 Forensic Surveying
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the requisite understanding and skills necessary to employ surveying equipment to position and map a crime or traffic homicide scene. Topics include triangulation and rectangular coordinate grids, polar coordinates, establishing datum points, Global Positioning Systems and total station positioning and mapping. Upon completion, students should be able to accurately use a total station system for the purpose of positioning and mapping crime or traffic homicide scenes.

CJC 256 Forensic Surveying
02 03 00 03

CJC 260 Threat Assessment
Prerequisites: None
Corequisites: None
Component: None
This course prepares students to perform extensive security audits for private corporations and for local and state government, identifying weaknesses in their overall security programs. Emphasis will be placed on risk analysis studies that examine the methods, procedures, and systems for security gaps and vulnerabilities. Upon completion, students should be able to evaluate all facets of a protective program from corporate disaster response planning to security teams guarding local/state officials.

CJC 260 Threat Assessment
01 02 00 02

CJC 262 High-Risk Event Planning
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to the principles of high-risk executive protection and the planning associated with security during visits from government officials and other dignitaries. Emphasis will be placed on conducting advance surveys, residential security, restaurant and banquet security, surveillance detection, and counter surveillance operations. Upon completion, students should be able to demonstrate the ability to write security plans for high-risk events.

CJC 262 High-Risk Event Planning
01 02 00 02

CMT 120 Codes and Inspections
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

CMT 120 Codes and Inspections
03 00 00 03

CMT 120 Codes and Inspections
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

CMT 120 Codes and Inspections
03 00 00 03

COM 120 Intro Interpersonal Com
Prerequisites: None
Corequisites: None
Component: None
This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

COM 120 Intro Interpersonal Com
03 00 00 03

COM 231 Public Speaking
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

COM 231 Public Speaking
03 00 00 03

COM 251 Debate I
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the principles of debate. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to use research skills and logic in the presentation of ideas within the context of formal debate. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

COM 251 Debate I
03 00 00 03

COS 111 Cosmetology Concepts I
Prerequisites: None
Corequisites: COS 112
Component: None
This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

COS 111 Cosmetology Concepts I
04 00 00 04

COS 112 Salon I
Prerequisites: None
Corequisites: COS 111
Component: None
This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

COS 112 Salon I
00 24 00 08

COS 113 Cosmetology Concepts II
Prerequisites: COS 111 COS 112
Corequisites: COS 114
Component: None
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 113 Cosmetology Concepts II
04 00 00 04

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
COS 114 Salon II
Prerequisites: COS 111, COS 112
Corequisites: COS 113
Component: COS 114AA and COS 114BB
This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 115 Cosmetology Concepts III
Prerequisites: COS 111, COS 112
Corequisites: COS 116
Component: COS 115AA, COS 115BB
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, and superfluous hair removal, and other related topics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

COS 116 Salon III
Prerequisites: COS 111, COS 112
Corequisites: COS 116
Component: COS 116AA, COS 116BB
This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 117 Cosmetology Concepts IV
Prerequisites: COS 111, COS 112, COS 113, COS 114
Corequisites: COS 118
Component: None
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

COS 118 Salon IV
Prerequisites: COS 114
Corequisites: COS 117
Component: None
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

COS 119 Esthetics Concepts I
Prerequisites: None
Corequisites: COS 120
Component: None
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

COS 120 Esthetics Salon I
Prerequisites: None
Corequisites: COS 119
Component: None
This course covers the techniques of esthetics in a comprehensive experience in a simulated salon setting. Topics include client consultation, facials, body treatments, hair removal, make-up applications, and color analysis. Upon completion, students should be able to safely and competently demonstrate esthetic services on clients in a salon setting.

COS 121 Manicure/Nail Technology I
Prerequisites: None
Corequisites: None
Component: None
This course covers techniques of nail technology, hand and arm massage, and recognition of nail diseases and disorders. Topics include OSHA/safety, sanitation, bacteriology, product knowledge, salesmanship, manicures, artificial applications, pedicures, massage, and other related topics. Upon completion, students should be able to safely and competently perform nail care, including manicures, pedicures, massage, decorating, and artificial applications in a salon setting.

COS 125 Esthetics Concepts II
Prerequisites: Take COS 119 and COS 120
Corequisites: COS 126
Component: None
This course covers more comprehensive esthetics concepts. Topics include nutrition, business management, make-up, and color analysis. Upon completion students should be able to demonstrate understanding of the advanced esthetics concepts and meet course requirements.

COS 126 Esthetics Salon II
Prerequisites: Take COS 119 and COS 120
Corequisites: COS 125
Component: None
This course provides experience in a simulated esthetics setting. Topics include machine facials, aroma therapy, massage therapy, electricity, and apparatus. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology licensing examination for Estheticians.

COS 222 Manicure/Nail Technology II
Prerequisites: COS 121
Corequisites: None
Component: None
This course covers advanced techniques of nail technology and hand and arm massage. Topics include OSHA/safety, product knowledge, customer service, salesmanship, artificial applications, nail art, and other related topics. Upon completion, students should be able to demonstrate competence necessary for the licensing examination, including advanced nail care, artificial enhancements, and decorations.

COS 223 Contemp Hair Coloring
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client's color needs and safely and competently perform color applications and correct problems.

COS 224 Trichology & Chemistry
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
COS 225 Adv Contemporary Hair Coloring 01 03 00 02
Prerequisites: Take COS-223
Corequisites: None
Component: None
This course covers advanced techniques in coloring applications and problem solving situations. Topics include removing unwanted color, replacing pigment and re-coloring, removing coatings, covering grey and white hair, avoiding color fading, and poor tint results. Upon completion, students should be able to apply problem solving techniques in hair coloring situations.

COS 240 Contemporary Design 01 03 00 02
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design.

COS 250 Computerized Salon Ops 01 03 00 01
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course introduces computer and salon software. Emphasis is placed on various computer and salon software applications. Upon completion, students should be able to utilize computer skills and software applications in the salon setting.

COS 260 Design Applications 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the design concepts used in cosmetology. Topics include the application of art principles and elements to artistically design hair, nails, and make-up and other related topics. Upon completion, students should be able to demonstrate knowledge and techniques associated with design concepts.

CSC 133 C Programming 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programming using the C programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 134 C++ Programming 02 03 00 03
Prerequisites: Take CIS 115 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC).

CSC 135 COBOL Programming 02 03 00 03
Prerequisites: Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming using the COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 139 Visual BASIC Prog 02 03 00 03
Prerequisites: Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC).

CSC 141 Visual C++ Prog 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programming using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at a beginning level.

CSC 151 JAVA Programming 02 03 00 03
Prerequisites: Take CIS 115 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

CSC 153 C# Programming 02 03 00 03
Prerequisites: Take CIS-115 or CSC-133. Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level.

CSC 191S Selected Topics in Computer Programming 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CSC 234 Advanced C++
Prerequisites: Take CSC-134 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Advanced COBOL
Prerequisites: Take CSC-135 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 135 using the COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Advanced Visual BASIC
Prerequisites: CSC 139
Corequisites: None
Component: None
This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

CSC 251 Advanced JAVA Programming
Prerequisites: CSC 151
Corequisites: None
Component: None
This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 253 Advanced C# Programming
Prerequisites: Take CSC-153 and DRE-098 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a continuation of CSC 153 using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 258 JAVA Enterprise Programs
Prerequisites: Take CSC-151 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a continuation to CSC 151 using the Java Enterprise Edition (JEE) programming architecture. Topics include distributed network applications, database connectivity, Enterprise Java Beans, servlets, collection frameworks, JNDI, RMI, JSP, multithreading XML and multimedia development. Upon completion, students should be able to program a client/server enterprise application using the JEE framework.

CSC 289 Programming Capstone Proj
Prerequisites: Take CTS 285 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation.

CST 131 OSHA/Safety/Certification
Prerequisites: None
Corequisites: None
Component: None
This course covers the concepts of work site safety. Topics include OSHA regulations, tool safety, and certifications which relate to the construction industry. Upon completion, students should be able to identify and maintain a safe working environment based on OSHA regulations and maintain proper records and certifications.

CST 211 Construction Surveying
Prerequisites: Take 1 course: MAT 121 or MAT 171
Corequisites: None
Component: None
This course covers field surveying applications for residential and commercial construction. Topics include building layout and leveling, linear measurement and turning angles, plumbing vertical members, and topographic and utilities surveys. Upon completion, students should be able to properly and accurately use surveying equipment to lay out residential and commercial buildings.

CST 221 Statics/Structures
Prerequisites: Take ARC 112, CAR 112, or CST 112 and MAT 121 or MAT 171
Corequisites: None
Component: None
This course covers the principles of statics and strength of materials as applied to structural building components. Topics include forces on columns, beams, girders, and footings and connection points when timber, steel, and concrete members are used. Upon completion, students should be able to accurately analyze load conditions present in structural members.

CST 241 Planning/Estimating I
Prerequisites: Take one: BPR 130, MAT 121 or MAT 171
Corequisites: None
Component: None
This course covers the procedures involved in planning and estimating a construction/building project. Topics include performing quantity take-offs of materials necessary for a building project. Upon completion, students should be able to accurately complete a take-off of materials and equipment needs involved in a construction project.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CTS 115 Info Sys Business Concept
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the ‘hybrid business manager’ and the potential offered by new technology and systems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

CTS 120 Hardware/Software Support
Prerequisites: Take CIS 110
Corequisites: None
Component: None
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 130 Spreadsheet
Prerequisites: Take CIS-110 or CIS-111 or OST-137. Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 191S Selected Topics in Information Systems
Prerequisites: Enrollment in Program
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

CTS 220 Adv Hard/Software Support
Prerequisites: Take CTS-120 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on: configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

CTS 230 Advanced Spreadsheet
Prerequisites: Take CTS-130 and DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CTS 271 Desktop Support: Operating System
Prerequisites: Take NOS-110 and CIS-110 or CIS-111. Take DRE-098 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to prepare students for a foundation in desktop support certifications in an operating system. Emphasis is placed on developing proficiency in the end-user support skills, processes, and procedures necessary to correctly support an operating system. Upon completion, students should be able to prepare for industry-level certifications and utilize advanced support tools to resolve operating system end-user problems.

CTS 272 Desktop Support: Applications
Prerequisites: Take CIS-110 or CIS-111. Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to prepare students for a foundation in Desktop Support certification in office productivity applications. Emphasis is placed on developing proficiency in the end-user support skills, processes, and procedures necessary to correctly support office productivity products. Upon completion, students should be able to prepare for industry-level certification and utilize advanced support tools toward resolving office productivity end-user problems.

CTS 285 Systems Analysis & Design
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/ OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 289 System Support Project
Prerequisites: Take CTS-285 and DRE-098 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.

CUL 110 Sanitation & Safety
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the basic principles of sanitation and safety relative to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of a nationally recognized food/safety/sanitation exam.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### CUL 110A Sanitation & Safety Lab

**Prerequisites:** None  
**Corequisites:** CUL 110  
**Component:** None  

This course provides a laboratory experience for enhancing student skills in the basic principles of sanitation and safety. Emphasis is placed on personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate practical applications of sanitation and safety procedures in the hospitality industry.

### CUL 111 Success in Hosp Studies

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course provides an orientation to the resources available and academic skills necessary to achieve success in a hospitality program. Emphasis is placed on technical and interpersonal skills, study skills, ethics, professionalism and time management as they relate to a hospitality field. Upon completion, students should be able to manage their learning experiences to successfully meet their educational goals.

### CUL 112 Nutrition for Foodservice

**Prerequisites:** Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit equivalent  
**Corequisites:** None  
**Component:** None  

This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/ menus, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

**Prerequisites:** Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit equivalent  
**Corequisites:** CUL 120  
**Component:** None  

This course provides a laboratory experience for enhancing student skills in purchasing for foodservice operations. Emphasis is placed on practical experiences in yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to demonstrate practical applications of purchasing within the hospitality industry.

**Prerequisites:** Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  

This course introduces hospitality and food service information systems. Topics include planning, cost controls, forecasting, inventory control, recipe control, production control, and nutritional analysis. Upon completion, students should be able to demonstrate competence in utilizing contemporary information application systems in a hospitality setting.

**Prerequisites:** Take DRE-097 and DMA-030 or ENG-080, RED-080 and MAT-060, RED-070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  

This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers and trends. Upon completion, students should be able to design, create and produce menus for a variety of foodservice settings.

### CUL 135 Food & Beverage Service

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to design, create and produce menus for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages.

### CUL 140 Basic Culinary Skills

**Prerequisites:** Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent  
**Corequisites:** CUL 110  
**Component:** None  

This course introduces the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the foodservice industry.

This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Emphasis is placed on practical application of heat transfer and its effect on color/flavor/texture, emulsification, protein coagulation, leavening agents, viscosity, and gel formation. Upon completion, students should be able to demonstrate an understanding of these principles as they apply to food preparation in an experimental setting.

CUL 160 Baking I
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: CUL 110
Component: None
This course covers basic ingredients, techniques, weights and measures, baking terminology and formula calculations. Topics include yeast/chemically leavened products, laminated/doughs, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products.

CUL 160A Baking I Lab
Prerequisites: None
Corequisites: CUL 110 and CUL 160
Component: None
This course provides a laboratory experience for enhancing student skills in basic baking. Emphasis is placed on the practical experiences of yeast/chemically leavened products, laminated/pantry dough, batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate a basic proficiency in bakeshop applications.

CUL 170 Garde Manger I
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: CUL 110
Component: None
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 170A Garde Manger I Lab
Prerequisites: None
Corequisites: CUL 110 and CUL 170
Component: None
This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on the practical experiences that include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to demonstrate proficiency in the design of a cold food display.

CUL 180 International & American Reg Cuisine
Prerequisites: CUL 140
Corequisites: None
Component: None
This course provides practical experience in the planning, preparation, and service of representative foods from different countries and regions of America. Emphasis is placed on eating habits, indigenous foods and customs, nutritional concerns, and traditional equipment. Upon completion, students should be able to research and execute international and domestic menus.

CUL 185 Nutritional Cuisine
Prerequisites: CUL 110 CUL 140
Corequisites: None
Component: None
This course introduces students to a healthful approach to food preparation by choosing techniques, ingredients, and portion sizes that have positive health benefits. Topics include food allergens, and preparation of quality ingredients incorporating plant based foods and flavor enhancers to preserve flavor, texture, appearance and nutritional value. Upon completion, students should be able to demonstrate the integration of culinary tradition and nutritional science for healthful cooking.

CUL 214 Wine Appreciation
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to information about wine from all the major wine producing regions. Emphasis is placed on the history of wine, production, characteristics, wine list development, laws, purchasing and storing requirements. Upon completion, students should be able to evaluate varietal wines and basic food pairings.

CUL 230 Global Cuisines
Prerequisites: CUL 110 and CUL 140
Corequisites: None
Component: None
This course provides practical experience in the planning, preparation, and presentation of representative foods from a variety of world cuisines. Emphasis is placed on indigenous ingredients and customs, nutritional concerns, and cooking techniques. Upon completion, students should be able to research and execute a variety of international and domestic menus.

CUL 230A Global Cuisines Lab
Prerequisites: CUL 110 and CUL 140
Corequisites: CUL 230
Component: None
This course provides a laboratory experience for enhancing student skills in cuisines from around the world. Emphasis is placed on production of global cuisines based on historical and geographical influences, ingredients, customs, and cooking techniques. Upon completion, students should be able to exhibit an understanding of the culinary practices and techniques of specific countries.

CUL 240 Advanced Culinary Skills
Prerequisites: CUL 110 and CUL 140
Corequisites: None
Component: None
This course is designed to further students' knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

CUL 250 Classical Cuisine
Prerequisites: CUL 110, CUL 140 and CUL 240
Corequisites: None
Component: None
This course is designed to reinforce the classical culinary kitchen. Topics include the working Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides a laboratory experience for enhancing student skills in the classical kitchen. Emphasis is placed on practical experiences with the Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to exhibit culinary skills and techniques as they pertain to a classical/upscale restaurant or banquet settings.

**Prerequisites:** CUL 110, CUL 140 and CUL 240

**Component:** None

**CUL 260A Classical Cuisine Lab**

This course provides a laboratory experience for enhancing student skills in classical desserts, laminated pastry dough, cake and torte decorating. Topics include practical experiences with classic desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to demonstrate pastry preparation, plating, and dessert buffet production skills.

**Prerequisites:** CUL 110 and CUL 160

**Component:** None

**CUL 260B Baking II Lab**

This course provides a laboratory experience for enhancing student skills in practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering/event display to include a cold buffet with appropriate showpieces.

**Prerequisites:** CUL 110 and CUL 160

**Component:** None

**CUL 270 Garde Manager II Lab**

This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events.

**Prerequisites:** CUL 110, CUL 140 and CUL 170

**Component:** None

**CUL 270A Garde Manger II Lab**

This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to design and produce centerpieces and showpieces.

**Prerequisites:** CUL 110, CUL 140 and CUL 170

**Component:** None

**CUL 273 Career Development**

This course introduces students to career planning/management practices that serve as a foundation for success in the hospitality industry. Emphasis is placed on self assessment, goal/career pathway development and employment strategies such as résumé preparation, interviewing techniques, and developing/utilizing the portfolio as a credential. Upon completion, students should be able to develop a career path leading to an effective job search.

**Prerequisites:** Take DRE-097 or ENG 080 and RED 080 or Placement Test Credit Equivalent

**Component:** None

**DAN 110 Dance Appreciation**

This course for non-dance majors surveys diverse dance forms and the religious and cultural values that shape them. Topics include dances from Europe, Africa, Asia, and America. Upon completion, students should be able to demonstrate an understanding of the diverse forms and values that dance embraces. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**Prerequisites:** None

**Component:** None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DAN 121 Tap Dance I
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of elementary tap dance technique. Emphasis is placed on sounds, rhythms, terminology, and body placement. Upon completion, students should be able to demonstrate significant progress in elementary tap skills.

DAN 211 Dance History I
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth study of world dance from pre-history to 1800. Emphasis is placed on examining the dance and dancers of diverse cultures including Africa, Asia, and Europe. Upon completion, students should be able to analyze the common need to dance and the forms, religions, and cultural values it embodies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DAN 212 Dance History II
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth study of world dance from 1800 to the present. Emphasis is placed on Western theatrical dance (ballet, modern dance, tap, and jazz) and the personalities that shaped it. Upon completion, students should be able to analyze culturally diverse dance forms and their cross-pollination which have produced the “pan-world dance of today”. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DBA 110 Database Concepts
Prerequisites: Take CIS 110 or CIS 111. Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Test Equivalent
Corequisites: None
Component: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 120 Database Programming I
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Programming II
Prerequisites: Take DBA 120 and DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

DEN 100 Basic Orofacial Anatomy
Prerequisites: None

DEN 101 Preclinical Procedures
Prerequisites: Department Approval
Corequisites: DEN 102 and DEN 111
Component: None
This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. This course is intended for certificate and diploma programs.

DEN 102 Dental Materials
Prerequisites: Department Approval
Corequisites: DEN 101
Component: None
This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. This course is intended for certificate and diploma programs.

DEN 103 Dental Sciences
Prerequisites: None
Corequisites: None
Component: None
This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies. This course is intended for certificate and diploma programs.

DEN 104 Dental Health Education
Prerequisites: A set of courses is required: DEN 101 and DEN 111
Corequisites: DEN 106
Component: None
This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings. This course is intended for certificate and diploma programs.

DEN 105 Practice Management
Prerequisites: None
Corequisites: DEN 106
Component: None
This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. This course is intended for certificate and diploma programs.

DEN 140 Dental Hygiene Theory II  01 00 00 01
Prerequisites: Enrollment in Dental Hygiene and DEN 130
Corequisites: DEN 141
Component: None
This course provides a continuation of the development, theory, and practice of patient care. Topics include modification of treatment for special needs patients, advanced radiographic interpretation, and ergonomics. Upon completion, students should be able to differentiate necessary treatment modifications, effective ergonomic principles, and radiographic abnormalities.

DEN 141 Dental Hygiene Clinic II  00 00 06 02
Prerequisites: Enrollment in Dental Hygiene and DEN 131
Corequisites: DEN 140
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 220 Dental Hygiene Theory III  02 00 00 02
Prerequisites: Enrollment in Dental Hygiene and DEN 140
Corequisites: DEN 221
Component: None
This course provides a continuation in developing the theories and practices of patient care. Topics include periodontal debridement, pain control, subgingival irrigation, air polishing, and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised patients.

DEN 221 Dental Hygiene Clinic III  00 00 12 04
Prerequisites: Enrollment in Dental Hygiene Program and DEN 141
Corequisites: DEN 220
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 222 General & Oral Pathology  02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program and BIO 163 or BIO 163C and BIO 163L
Corequisites: DEN 130
Component: None
This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

DEN 223 Dental Pharmacology  02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220 and BIO 163
Component: None
This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient’s general health or drug usage may require modification of the treatment procedures.

DEN 224 Materials and Procedures  01 03 00 02
Prerequisites: Enrollment in Dental Hygiene Program and DEN 111
Corequisites: DEN 231
Component: None
This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.

DEN 230 Dental Hygiene Theory IV  01 00 00 01
Prerequisites: Enrollment in Dental Hygiene Program and DEN 220
Corequisites: DEN 231
Component: None
This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties and completion of a case presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry and principles of case presentations.

DEN 231 Dental Hygiene Clinic IV  00 00 12 04
Prerequisites: Enrollment in Dental Hygiene Program and DEN 221
Corequisites: DEN 230
Component: None
This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program.

DEN 232 Community Dental Health  02 00 03 03
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220
Component: None
This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

DEN 233 Professional Development  02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 230
Component: None
This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

DFT 119 Basic CAD  01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings.

DFT 151 CAD I  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.

DMA 070 Rational Express/Equation  
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 060 or DMA 060, MAT 060 and MAT 070
Corequisites: None
Component: None
This course provides a conceptual study of problems involving graphic and algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications.

DMA 080 Radical Express/Equations  
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060 and DMA 070 or DMA 060, DMA 070, MAT 060 and MAT 070
Corequisites: None
Component: None
This course provides a conceptual study of the manipulation of radicals and the application of radical equations to real-world problems. Topics include simplifying and performing operations with radical expressions and rational exponents, solving equations, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.

DMS 001 Developmental Math Shell 1  
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be one DMA module appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

DMS 002 Developmental Math Shell 2  
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be two DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

DMS 003 Developmental Math Shell 3  
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be three DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

DMS 004 Developmental Math Shell 4  
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be four DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DRA 111 Theater Appreciation
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the art, craft, and business of the theater. Emphasis is placed on the audiences appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theater terms and to recognize the contributions of various theater artists. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 112 Literature of the Theater
Prerequisites: None
Corequisites: None
Component: None
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 115 Theater Criticism
Prerequisites: DRA 111
Corequisites: None
Component: None
This course is designed to develop a critical appreciation of the theater from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theater performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 120 Voice for Performance
Prerequisites: None
Corequisites: None
Component: None
This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 122 Oral Interpretation
Prerequisites: None
Corequisites: None
Component: None
This course introduces the dramatistic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 124 Readers Theatre
Prerequisites: None
Corequisites: None
Component: None
This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 126 Storytelling
Prerequisites: None
Corequisites: None
Component: None
This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 128 Children’s Theatre
Prerequisites: None
Corequisites: None
Component: None
This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 130 Acting I
Prerequisites: DRA 130
Corequisites: None
Component: None
This course provides an applied study of the actor’s craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 131 Acting II
Prerequisites: DRA 130
Corequisites: None
Component: None
This course provides additional hands-on practice in the actor’s craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 132 Stage Movement
Prerequisites: None
Corequisites: DRA 111
Component: None
This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, choreography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform mimes, fight, clown, juggle, and waltz. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
DRA 135 Acting for the Camera I  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an applied study of the camera actor’s craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 136 Acting for the Camera II  
**Prerequisites:** DRA 135  
**Corequisites:** None  
**Component:** None  
This course provides additional hands-on study of the camera actor’s craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 140 Stagecraft I  
**Prerequisites:** DRA 140  
**Corequisites:** None  
**Component:** None  
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 141 Stagecraft II  
**Prerequisites:** DRA 140  
**Corequisites:** None  
**Component:** None  
This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 142 Costuming  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the techniques of costume construction and crafts processes. Emphasis is placed on learning costuming techniques, using equipment and materials, and finishing production-appropriate costumes. Upon completion, students should be able to demonstrate an understanding of pattern drafting, construction techniques, and costume fitting procedures. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 145 Stage Make-up  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 170 Play Production I  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 171 Play Production II  
**Prerequisites:** DRA 170  
**Corequisites:** None  
**Component:** None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 175 Teleplay Production I  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course provides an applied laboratory study of the processes involved in production of a dramatic television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing dramatic television programming. Upon completion, students should be able to participate in an assigned position with a college dramatic television production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 211 Theatre History I  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the development of theater from its origin to the closing of the British theater in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 212 Theatre History II  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the development of theater from 1660 through the diverse influences which shaped the theater of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academic_services/index.aspx](http://www.faytechcc.edu/academic_services/index.aspx).
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 960 to 1115. Upon completion, students should be able to apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence.

DRE 098 Integrated Reading Writing III  2.5  1  00  03
Prerequisites:  Take DRE 097
Component:  None

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 1070 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence.

ECM 210 Intro. to E-Commerce  02  02  00  03
Prerequisites:  Take DRE-097 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Component:  None

This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site. This course is also available through the Virtual Learning Community (VLC).

ECM 220 E-Commerce Plan. & Implem.  02  02  00  03
Prerequisites:  Take DRE-098 or ENG-090, ENG-090A, and RED-090, or Placement Test Credit Equivalent and must be an E-Commerce major.
Component:  None

This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechncc.edu/academic_services/index.aspx.
ECM 230 Capstone Project
Prerequisites: Take ECM 220, DRE-098 and CIS 110, CIS 111 or WEB 110 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

ECO 151 Survey of Economics
Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ECO 251 Principles of Microeconomics
Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

ECO 252 Principles of Macroeconomics
Prerequisites: Take DRE-097 and DMA-050 or ENG-080, RED-080 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

EDU 118 Princ & Prac of Inst Asst
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers the instructional assistant’s role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optimal learning environment. Upon completion, students should be able to describe the supporting role of the instructional assistant, demonstrate positive communication skills, and discuss educational philosophy.

EDU 119 Intro to Early Childhood Education
Prerequisites: None
Corequisites: None
Component: None
This course covers the foundations of the early childhood education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. This course is also available through the Virtual Learning Community (VLC).

EDU 131 Child, Family, & Communities
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. This course is also available through the Virtual Learning Community (VLC).

EDU 144 Child Development I
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from concept through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

EDU 145 Child Development II
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

EDU 147 Behavior Disorders
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 148 Learning Disabilities
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 151 Creative Activities
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers planning, creation and adaptation of developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences and environments. This course is also available through the Virtual Learning Community (VLC).

EDU 151A Creative Activities Lab
Prerequisites: Take DRE-097
Corequisites: EDU 151
Component: None
This course provides a laboratory component to complement EDU 151. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate creative activities.
EDU 186 Reading & Writing Methods  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences.

This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program. This course is also available through the Virtual Learning Community (VLC).

EDU 188 Issues in Early Childhood Education  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education.

EDU 216 Foundations of Education  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. This course is also available through the Virtual Learning Community (VLC).

EDU 220 Prog Poli in Early Interv  
Prerequisites: Take EDU-144 and DRE-098  
Corequisites: None  
Component: None  
This course covers program policies, issues, legislation, and service delivery models included in early intervention. Emphasis is placed on trends and policies in early intervention relating to programs for infants and young children with disabilities, family roles, and research outcomes. Upon completion, students should be able to identify roles and responsibilities, describe the referral and placement options and explain the different service delivery models.

EDU 221 Children with Exceptional  
Prerequisites: Take EDU 144, EDU 145, and DRE 098  
Corequisites: None  
Component: None  
This course introduces children with exceptionalities, their families, support services, inclusive/diverse settings, and educational/family plans based on the foundations of child development. Emphasis is placed on the characteristics of exceptionalities, observation and assessment of children, strategies for adapting the learning environment, and identification of community resources. Upon completion, students should be able to recognize diverse abilities, describe the referral process, and depict collaboration with families/professionals to plan/implement, and promote best practice. This course is also available through the Virtual Learning Community (VLC).

EDU 222 Learn w/ Behav Disord  
Prerequisites: Take EDU-144, EDU-145 and DRE-098  
Corequisites: None  
Component: None  
This course provides a comprehensive study of learners with behavioral disorders encompassing characteristics, assessments, placement alternatives, inclusion and family interventions. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize positive behavior support systems.

EDU 223 Specific Learning Disab  
Prerequisites: Take EDU-144, EDU-145, and DRE-098  
Corequisites: None  
Component: None  
This course provides a comprehensive study of characteristics, alternative assessments, teaching strategies, placement options, inclusion, and family intervention for children with specific learning disabilities. Topics include causes, assessment instruments, learning strategies, and collaborative/inclusion methods for children with specific learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with specific learning disabilities and their families.

EDU 234 Infants, Toddlers, & Twos  
Prerequisites: Take EDU-119 and DRE-098  
Corequisites: None  
Component: None  
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. This course is also available through the Virtual Learning Community (VLC).

EDU 234A Infants/Toddlers/Twos Lab  
Prerequisites: Take DRE 098  
Corequisites: Take EDU 234  
Component: None  
This course focuses on practical applications that support the healthy development of very young children by applying principles of quality inclusive early care and education. Emphasis is placed on recognizing the interrelated factors that impact children’s development through planning, evaluating and adapting quality environments, including activities and adult/child interactions. Upon completion, students should be able to demonstrate the ability to engage in respectful, responsive care that meets the unique needs of individual children/families.

EDU 235 School-Age Development & Program  
Prerequisites: Take DRE 098  
Corequisites: None  
Component: None  
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
EDU 243 Learning Theory  
Prerequisites: Take DRE 098  
Corequisites: None  
Component: None  
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

EDU 245 Policies and Procedures  
Prerequisites: Take DRE 098  
Corequisites: None  
Component: None  
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.

EDU 247 Sensory & Physical Disab  
Prerequisites: Take EDU-144, EDU-145 and DRE 098  
Corequisites: None  
Component: None  
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities.

EDU 248 Developmental Delays  
Prerequisites: Take EDU-144, EDU-145 and DRE 098  
Corequisites: None  
Component: None  
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families.

EDU 250 PRAXIS I Preparation  
Prerequisites: Take DRE 098  
Corequisites: None  
Component: None  
This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

EDU 256 Inst Strat/Math  
Prerequisites: Take DRE-098 and DMA-030  
Corequisites: None  
Component: None  
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking and numerical concepts. Upon completion, students should be able to assess, plan, implement and evaluate developmentally appropriate math experiences relating to the NC Standard Course of Study.

EDU 258 Inst Strategies/Science  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course covers objectives, content, materials, and instructional approaches to natural sciences for elementary through middle grades. Topics include classroom and laboratory science experiences, research/study techniques, and critical thinking. Upon completion, students should be able to assess/plan/implement/evaluate developmentally appropriate learning experiences in science as related to the North Carolina Standard Course of Study.

EDU 259 Curriculum Planning  
Prerequisites: Take EDU-119 and DRE-098  
Corequisites: None  
Component: None  
This course is designed to focus on curriculum planning for three to five year olds. Topics include philosophy, curriculum models, indoor and outdoor environments, scheduling, authentic assessment, and planning developmentally appropriate experiences. Upon completion, students should be able to evaluate children’s development, critique curriculum, plan for individual and group needs, and assess and create quality environments.

EDU 261 Early Childhood Administration I  
Prerequisites: Take DRE-098  
Corequisites: EDU 119  
Component: None  
This course introduces principles of basic programming and staffing, budgeting/financial management and marketing, and rules and regulations of diverse early childhood programs. Topics include program structure and philosophy, standards of NC child care programs, finance, funding resources, and staff and organizational management. Upon completion, students should be able to develop components of program/personnel handbooks, a program budget, and demonstrate knowledge of fundamental marketing strategies and NC standards. This course is also available through the Virtual Learning Community (VLC).

EDU 262 Early Childhood Administration II  
Prerequisites: Take EDU-261 and DRE-098  
Corequisites: EDU 119  
Component: None  
This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/Academic_Services/index.aspx.
EDU 263 School-Age Program Admin  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program.

EDU 271 Educational Technology  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. This course is also available through the Virtual Learning Community (VLC).

EDU 275 Effective Teacher Training  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students’ time-on-task.

EDU 280 Language & Literacy Exp  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course is designed to expand students’ understanding of children’s language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences. This course is also available through the Virtual Learning Community (VLC).

EDU 281 Instruc Strat/Read & Writ  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course covers concepts, resources, and methods for teaching reading and writing to elementary middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study. This course is also available through the Virtual Learning Community (VLC).

EDU 282 Early Childhood Literature  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children’s literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.

EDU 284 Early Child Capstone Prac  
Prerequisites: Take EDU 119, EDU 144, EDU 145, EDU 146, EDU 151 and DRE-098  
Corequisites: None  
Component: None  
This course is designed to allow students to apply skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 285 Internship Exp-School Age  
Prerequisites: Take EDU-118, EDU-144, EDU-145, EDU-163 and DRE-098  
Corequisites: None  
Component: None  
This course is designed to allow students to apply skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 289 Adv Issues/School Age  
Prerequisites: Take DRE-098  
Corequisites: None  
Component: None  
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.

EFL 083 Grammar III  
Prerequisites: EFL 082  
Corequisites: None  
Component: None  
This course is designed to provide high-intermediate non-native speakers of English with a knowledge of grammatical structures that improves academic communication. Emphasis is placed on using high-intermediate grammatical structures in meaningful contexts through exercised integrating the use of newly acquired structures with previously learned structures. Upon completion, students should be able to demonstrate improved proficiency, comprehension, and grammatical accuracy.
EGR 115 Introduction to Technology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.

EFL 084 Grammar IV  
Prerequisites: EFL 083  
Corequisites: None  
Component: None  
This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.

EFL 091 Composition I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic sentence structure and writing paragraphs. Emphasis is placed on word order, verb tense-aspect system, auxiliaries, word forms, and simple organization and basic transitions in writing paragraphs. Upon completion, students should be able to demonstrate a basic understanding of grammar and ability to write English paragraphs using appropriate vocabulary, organization, and transitions.

EFL 092 Composition II  
Prerequisites: EFL 091  
Corequisites: None  
Component: None  
This course provides preparation in low-intermediate academic and general-purpose writing. Emphasis is placed on writing as a process, paragraph development, and basic essay organization. Upon completion, students should be able to write and independently edit and understand the major elements of the writing process, sentence, paragraph, and essay.

EFL 093 Composition III  
Prerequisites: EFL 092  
Corequisites: None  
Component: None  
This course covers intermediate-level academic and general-purpose writing. Emphasis is placed on the writing process, content, organization, and language use in formal academic compositions in differing rhetorical modes. Upon completion, students should be able to effectively use the writing process in a variety of rhetorical modes.

EFL 094 Composition IV  
Prerequisites: EFL 093  
Corequisites: None  
Component: None  
This course prepares low-advanced non-native speakers of English to determine the purpose of their writing and to write paragraphs and essays to fulfill that purpose. Emphasis is placed on unity, coherence, completeness, audience, and the writing process; and the grammatical forms and punctuation appropriate for each kind of writing. Upon completion, students should be able to write unified, coherent, and complete paragraphs and essays which are grammatical and appropriate for the intended audience.

EFL 095 Composition V  
Prerequisites: EFL 094  
Corequisites: None  
Component: None  
This course is designed to prepare advanced non-native speakers of English for college-level composition courses. Emphasis is placed on the study and process of writing formal essays and research papers and the analysis of literary, expository, and descriptive writings. Upon completion, students should be able to write and analyze professional and peer compositions and apply basic research principles.

EGR 120 Eng and Design Graphics  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the graphical tools for engineering and design communications. Emphasis is placed upon selecting the appropriate methods and tools and conveying ideas using sketches, orthographic views and projections, and computer graphics applications. Upon completion, students should be able to communicate essential features or two-dimensional and three-dimensional objects using the proper tools and methods.

EGR 131 Intro to Electronics Tech  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.

EGR 150 Intro to Engineering  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EGR 210 Intro to Elec/Comp Eng Lab  
Prerequisites: MAT 271 and PHY 251  
Corequisites: None  
Component: None  
This course provides an overview of electrical and computer engineering, through a lecture and laboratory setting. Topics include fundamental concepts, electronic circuits, digital circuits, communication systems, and signal processing. Upon completion, students should be able to discuss the wide range of fields available to the electrical or computer engineer. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an introduction to theory, analysis, and design of electric circuits. Topics include voltage, current, power, resistance, capacitance, inductance, Kirchhoff’s laws, nodal and mesh analysis, Thuevenin’s theorem, Norton’s theorem, steady state and transient analysis, and operational amplifiers. Upon completion, students should be able to explain voltage, current, and power; to analyze electric circuits; and to design circuits using operational amplifiers. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EGR 250 Statics/Strength of Mater
Prerequisites: MAT-121 or MAT-171
Corequisites: None
Component: None
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.

ELC 112 DC/AC Electricity
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

ELC 113 Residential Wiring
Prerequisites: None
Corequisites: None
Component: None
This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC; electrical safety; and electrical print reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with residential electrical installations.

ELC 114 Commercial Wiring
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction in the application of electrical tools, materials, and test equipment associated with commercial electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with commercial electrical installations.

ELC 117 Motors and Controls
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 118 National Electrical Code
Prerequisites: None
Corequisites: None
Component: None
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

ELC 119 NEC Calculations
Prerequisites: None
Corequisites: None
Component: None
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

ELC 121 Electrical Estimating
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

ELC 128 Intro to PLC
Prerequisites: None
Corequisites: None
Component: None
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to understand basic PLC systems and create simple programs.

ELC 131 Circuit Analysis I
Prerequisites: Take DMA-080, MAT 080, or MAT 161 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 131A Circuit Analysis I Lab
Prerequisites: None
Corequisites: ELC 131
Component: None
This course provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.
ELC 220 Photovoltaic Sys Tech
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications.

ELC 221 Adv PV Sys Designs
Prerequisites: Take ELC-220
Corequisites: None
Component: None
This course introduces specific elements in photovoltaic (pv) systems technologies including efficiency, modules, inverters, charge controllers, batteries, and system installation. Topics include National Electrical Code (NEC), electrical specifications, photovoltaic system components, array design and power integration requirements that combine to form a unified structure. Upon completion, students should be able to demonstrate an understanding of various photovoltaic designs and proper installation of NEC compliant solar electric power systems.

ELC 229 Applications Project
Prerequisites: None
Corequisites: None
Component: None
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

ELC 230 Wind & Hydro Power Sys
Prerequisites: CSC 133, ELC 231, and ELC 260
Corequisites: None
Component: None
This course introduces concepts, designs, tools, techniques, and material requirements for systems that convert wind and water into usable energy. Topics include the analysis, measurement, and estimation of potential energy of wind and water systems. Upon completion, students should be able to demonstrate an understanding of the technologies associated with converting wind and water into a viable energy source.

ELC 231 Electric Power Systems
Prerequisites: ELC 131 and ELC 133
Corequisites: None
Component: None
This course covers the basic principles of electric power systems, including transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis is placed on line diagrams and per unit calculations for circuit performance analysis in regards to voltage regulation, power factor, and protection devices. Upon completion, students should be able to analyze simple distribution subsystems, calculate fault current, and determine the size and type of circuit protection devices.

ELN 131 Analog Electronics I
Prerequisites: ELC 131
Corequisites: None
Component: None
This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog circuits using appropriate techniques and test equipment.

ELN 132 Linear IC Applications
Prerequisites: ELC 131
Corequisites: None
Component: None
This course covers the application and design of microprocessor control systems. Topics include control and interfacing of systems using AD/DA, serial/parallel I/O, communication protocols, and other related applications. Upon completion, students should be able to design, construct, program, verify, analyze, and troubleshoot fundamental microprocessor interface and control circuits using related equipment.

ELN 133 Digital Electronics
Prerequisites: ELC 131
Corequisites: None
Component: None
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large scale integration (LSI) circuits, analog to digital (AD) and digital to analog (DA) conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.

ELN 150 CAD for Electronics
Prerequisites: ELC 231 and ELC 260
Corequisites: None
Component: None
This course covers the application and design of microprocessor control systems. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large scale integration (LSI) circuits, analog to digital (AD) and digital to analog (DA) conversion, and other related topics. Upon completion, students should be able to prepare electronic drawings with CAD software.

ELN 232 Intro to Microprocessors
Prerequisites: ELC 231 and ELC 260
Corequisites: None
Component: None
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret schematics and demonstrate an understanding of electromechanical and electronic control of rotating machinery.

ELN 233 Microprocessor Systems
Prerequisites: ELC 232
Corequisites: None
Component: None
This course covers the application and design of microprocessor control systems. Topics include control and interfacing of systems using AD/DA, serial/parallel I/O, communication protocols, and other related applications. Upon completion, students should be able to design, construct, program, verify, analyze, and troubleshoot fundamental microprocessor interface and control circuits using related equipment.
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

This course provides a detailed study of PLC applications, with a focus on digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.

This course covers the core processes and applications associated with digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.

This course introduces basic emergency medical care. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers' specifications.

This course is designed to provide tactics that can be used for self-protection in dangerous and violent situations. Emphasis is placed on prediction, recognition, and response to dangerous and violent situations. Upon completion, students should be able to recognize potentially hostile situations and protect themselves during a confrontation.

This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competence with fundamental paramedic level skills.

This course covers the core processes and applications associated with digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.

This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

This course introduces advanced airway management techniques and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and basic rhythm interpretation in the monitoring leads. Upon completion, students should be able to recognize and interpret basic rhythms.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ENG 101 Applied Communications I
Prerequisites: None
Corequisites: None
Component: None
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This course is intended for certificate and diploma programs.

ENG 111 Writing and Inquiry
Prerequisites: Take DRE-098 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education core course.

ENG 112 Writing/Research in the Disc
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 113 Literature-Based Research
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 114 Professional Research & Reporting
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 125 Creative Writing I
Prerequisites: ENG 111
Corequisites: None
Component: None
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 126 Creative Writing II
Prerequisites: ENG 115
Corequisites: None
Component: None
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 131 Introduction to Literature
Prerequisites: ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 132 Introduction to Drama
Prerequisites: ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 134 Introduction to Poetry
Prerequisites: ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course provides intensive study of the poem as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of poetry. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of poetry. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 231 American Literature I
Prerequisites: One course required: ENG 112, ENG 113, or ENG 114
Corequisites: None
Component: None
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ENG 232 American Literature II 03 00 00 03
Prerequisites: Take one: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ENG 233 Major American Writers 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 241 British Literature I 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 242 British Literature II 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 243 Major British Writers 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 251 Western World Literature I 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 252 Western World Literature II 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 253 The Bible as Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 261 World Literature I 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 262 World Literature II 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 271 Contemporary Literature 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ENG 272 Southern Literature
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 273 African-American Literature
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ENG 274 Literature by Women
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 275 Science Fiction
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

EPT 120 Sociology of Disaster
Prerequisites: None
Corequisites: None
Component: None
This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long term disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

EPT 124 EM Services Law & Ethics
Prerequisites: None
Corequisites: None
Component: None
This course covers federal and state laws that affect emergency service personnel in the event of a natural disaster or terrorist incident. Topics include initial response and long-term management strategies, with an emphasis on legal and ethical considerations and coordination between local, state, and federal agencies. Upon completion, students should have an understanding of the role of private industry, government agencies, public policies, and federal/state declarations of disasters in emergency situations.

EPT 130 Mitigation & Preparedness
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of disaster and terrorism planning. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion, students should be able to develop a mitigation and preparedness plan.

EPT 150 EMS Incident Management
Prerequisites: None
Corequisites: None
Component: None
This course covers the fully integrated incident management system for EMS response to high impact incidents. Topics include mass casualty incidents, terrorist events, communications, training, triage, law and fire incident command. Upon completion, students should be able to implement and operate within the National Incident Management System.

EPT 210 Response & Recovery
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts, operational procedures, and authorities involved in response and recovery efforts to major disasters. Topics include federal, state, and local roles and responsibilities in major disaster response and recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster response plan and assess the needs of those involved in a major disaster.

EPT 220 Terrorism and Emer. Mgt.
Prerequisites: None
Corequisites: None
Component: None
This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topic include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

EPT 275 Emergency OPS Center Mgt
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

ETR 220 Innovation and Creativity
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include that innovation needs to be applied to products, services, and processes to increase competitive advantages and add value to businesses. Upon completion, students should be able to apply innovation and creativity principles in the workplace.

Refer to the FTCC website for the most current information. Go to www.faytechcc.eduacademic_services/index.aspx.
ETR 240 Funding for Entrepreneurs
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO’s, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture.

FIP 120 Intro to Fire Protection
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the development, methods, systems and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and related subjects. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Prevention & Public Ed
Prerequisites: None
Corequisites: None
Component: None
This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to work, research, develop, and present a fire safety program to a citizens or industrial group.

FIP 128 Detection & Investigation
Prerequisites: None
Corequisites: None
Component: None
This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent. This course is also available through the Virtual Learning Community (VLC).

FIP 132 Building Construction
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and practices referenced in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resisting aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction and their positive or negative aspects as related to fire conditions.

FIP 136 Inspections & Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

ETR 240 Funding for Entrepreneurs
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO’s, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture.

FIP 120 Intro to Fire Protection
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the development, methods, systems and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and related subjects. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Prevention & Public Ed
Prerequisites: None
Corequisites: None
Component: None
This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to work, research, develop, and present a fire safety program to a citizens or industrial group.

FIP 128 Detection & Investigation
Prerequisites: None
Corequisites: None
Component: None
This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent. This course is also available through the Virtual Learning Community (VLC).

FIP 132 Building Construction
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and practices referenced in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resisting aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction and their positive or negative aspects as related to fire conditions.

FIP 136 Inspections & Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

FIP 140 Industrial Fire Protect
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection systems in industrial facilities referenced in NFPA standard 1. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon completion, students should be able to plan and evaluation an industrial facility’s fire protection program.

FIP 152 Fire Protection Law
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection law as referenced in NFPA standard 1. Topics include legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection.

FIP 164 OSHA Standards
Prerequisites: None
Corequisites: None
Component: None
This course covers public and private sector OSHA work site requirements referenced in NFPA standard 1250. Emphasis is placed on accident prevention and reporting, personal safety, machine operations, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

FIP 180 Wildland Fire Behavior
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles of wildland fire behavior and meteorology referenced in NFPA standard 1143. Emphasis is placed on fire calculations, fuels, and related weather effects. Upon completion, students should be able to demonstrate and apply fire behavior theories through written and performance evaluations.

FIP 184 Wildland Fire Safety
Prerequisites: None
Corequisites: None
Component: None
This course covers safety principles used when working in the wildland fire environment referenced in NFPA standard 1143. Emphasis is placed on personal safety and working with equipment, aircraft, and fire-ground operations. Upon completion, students should be able to understand and demonstrate fire safety procedures through written and performance evaluations.

FIP 220 Fire Fighting Strategies
Prerequisites: None
Corequisites: None
Component: None
This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector referenced in NFPA standards 1561, 1710, and 1720. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system as it relates to operations involving various emergencies in fire and non-fire situations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
CLASS HRS LAB HRS CLINIC HRS CREDIT HRS
FIP 221 Adv Fire Fighting Strat 03 00 00 03
Prerequisites: FIP 220
Corequisites: None
Component: None
This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced use of the Incident Command System (ICS), advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

FIP 224 Instructional Methodology 04 00 00 04
Prerequisites: None
Corequisites: None
Component: None
This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet the requirements of the Fire Instructor I and II objectives from National Fire Protection Association (NFPA) 1041.

FIP 228 Local Govt Finance 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operations of a department.

FIP 229 Fire Dynamics and Combust 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled referenced in NFPA standard 1001. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

FIP 230 Chem of Hazardous Mat I 05 00 00 05
Prerequisites: None
Corequisites: None
Component: None
This course covers the evaluation of hazardous materials referenced in NFPA standard 1072. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

FIP 232 Hydraulics & Water Dist 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the flow of fluids through fire hoses, nozzles, appliances, pumps, standpipes, water mains, and other devices referenced in NFPA standard 25. Emphasis is placed on supply and delivery systems, fire flow testing, hydraulic calculations, and other related topics. Upon completion, students should be able to perform hydraulic calculations, conduct water availability tests, and demonstrate knowledge of water distribution systems.

FIP 236 Emergency Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor’s job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of effective fire service supervision, meeting elements of NFPA 1021.

FIP 248 Fire Svc Personnel Adm 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers supervisory skills and practices in the fire protection field. Topics include budget preparation and justification, revenue policies, statutory requirements, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operations of a department.

FIP 256 Munic Public Relations 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a general survey of municipal public relations and their effect on the governmental process referenced in NFPA standard 1035. Topics include principles of public relations, press releases, press conferences, public information officers, image surveys, and the effects of perceived service on fire protection delivery. Upon completion, students should be able to manage public relations functions of organizations which meet elements of NFPA 1021 for Fire Officer I and II.

FIP 276 Managing Fire Services 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of fire department operative services referenced in NFPA standard 1021. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to manage public relations functions of organizations which meet elements of NFPA 1021 for Fire Officer I and II.

FIP 277 Fire and Social Behavior 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers fire-related aspects of human behavior, with an emphasis on research and a systems approach to human-behavior analysis. Topics include identification of populations and structures at high risk, evaluation of systems models, and use of computer models to predict human behavior during fires. Upon completion, students should be able to identify and anticipate human behavior in response to various residential, commercial, board-and-care facility, and wildland/rural fire events.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
be able to communicate effectively, accurately, and creatively about the representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 212 Intermediate French II
Prerequisites: FRE 211
Corequisites: None
Component: None
This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 221 French Conversation
Prerequisites: FRE 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken French. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FSE 112 Principles of Funeral Service
Prerequisites: Take DMA 050 and DRE 098 or ENG 090 and RED 090
Corequisites: None
Component: None
This course covers the principles of funeral service and various religious and cultural customs of funeral service in the US. Emphasis is placed on Protestant, Catholic, Jewish, and other religious groups and the professional and ethical obligations of the profession. Upon completion, students should be able to demonstrate an understanding of religious and cultural traditions and how various funeral services are conducted.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to utilize sanitary and disinfection procedures correctly and properly prepare embalming laboratory. Upon completion, students should be able to utilize various embalming chemicals and mix embalming solutions for laboratory use.

This course covers fundamentals of mortuary law and ethical considerations relevant to the funeral profession. Emphasis is placed on North Carolina Mortuary Law, OSHA requirements, anatomical donations, vital statistics, and general law relative to mortuary law. Upon completion, students should be able to demonstrate an understanding of the legal and ethical aspects of funeral service.

This course covers the general anatomy needed in funeral service. Emphasis is placed on medical terminology and the normal structure and function of the human body with special consideration of the circulatory system. Upon completion, students should be able to understand the normal structure and function of the human body and how it relates to the embalming process.

This course is a survey of the basic principles of microbiology and related funeral service considerations. Emphasis is placed on sanitation, disinfection, public health, and embalming practices as it relates to various microorganisms. Upon completion, students should be able to characterize various microbial agents and discuss topical, chemical, and biological methods of control.

This course introduces various embalming procedures and the purpose, history, and need for embalming. Emphasis is placed on laboratory equipment, post mortem changes, and the proper use of embalming chemicals. Upon completion, students should be able to identify various instruments and relate theoretical case analysis to embalming procedures used in the funeral home.

This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to utilize sanitation and disinfection procedures correctly and properly prepare human remains for burial.

This course is a continuation of FSE 210 and covers more detailed embalming procedures. Topics include anatomical consideration for embalming, case analysis, positioning features, arterial injection, cavity treatment, autopsies, and other post mortem conditions. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.

This course provides hands-on experience in more advanced embalming skills. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to determine the proper techniques to be utilized in each particular embalming situation.

This course is a general survey of the disease process. Topics include pathological terminology, basic body functions, trauma, disease process, and etiology. Upon completion, students should be able to recognize medical terminology used in completing death certificates and understand the disease process.

This course covers funeral home operations, including business techniques and effective counseling skills. Topics include establishing a funeral home, choosing and financing a location, building, merchandising, caskets, vaults, planning, and counseling techniques and philosophies. Upon completion, students should be able to understand the proper procedures for operating a funeral home and relate more effectively to those experiencing grief.

This course covers the terminology used and pathological conditions observed during the restoration process. Topics include basic restoration, anatomical modeling, expression, use of photographs, legal aspects, pathological discoloration, cosmetics, and solvents. Upon completion, students should be able to utilize materials and techniques in the restoration of human remains.

This course provides an overview of funeral service practices and procedures, including computer software used in the funeral service profession. Emphasis is placed on utilizing funeral service software and on topics required for licensure. Upon completion, students should be able to enter information, generate documents, and demonstrate knowledge of the topics covered on state or national licensure exams.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
GEL 111 Geology
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluviatile processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluviatile processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

GEL 130 General Physical Geography
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

GEO 110 Introduction to Geography
Prerequisites: None
Corequisites: None
Component: None
This course introduces map reading skills and the physical and cultural features of different areas of the earth. Topics include spatial association, the importance of location, physical characteristics of the earth, and the impact of humans on the environment. Upon completion, students should be able to demonstrate an ability to read a map and describe physical and cultural features of different regions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

GIS 111 Introduction to GIS  
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the hardware and software components of a Geographic Information System and reviews GIS applications. Topics include data structures and basic functions, methods of data capture and sources of data, and the nature and characteristics of spatial data and objects. Upon completion, students should be able to identify GIS hardware components, typical operations, products/applications, and differences between database models and between raster and vector systems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

GIS 112 Introduction to GPS  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an overview of Global Positioning Systems (GPS). Topics include the theory, implementation, and operations of GPS, as well as alternate data source remote sensing. Upon completion, students should be able to demonstrate an understanding of the fundamentals of GPS.

GIS 161 Intro to Comp/BASIC & C++  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the electronic computer and includes a general description of computer design and operation, associated vocabulary, and most widely used applications. Emphasis is placed on hands-on experience with software. Upon completion, students should be able to utilize and depict calculations, decision-making and branching and looping functions processing, and top-down programming methodology.

GRD 110 Typography I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

GRD 117 Design Career Exploration  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers opportunities in the graphic design field and employment requirements. Topics include evaluation of career choices, operations, structure of advertising and graphic design businesses, and related business issues. Upon completion, students should be able to demonstrate an understanding of the graphic design field and consider an appropriate personal direction of career specialization.

GRD 121 Drawing Fundamentals I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.

GRD 131 Illustration I  
Prerequisites: ART 131, DES 125, or GRD 121  
Corequisites: None  
Component: None  
This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

GRD 132 Illustration II  
Prerequisites: GRD 131  
Corequisites: None  
Component: None  
This course is a continuation of GRD 131. Topics include editorial, product, fashion, and advertising illustrations. Upon completion, students should be able to demonstrate increased proficiency in creating quality illustrations from conceptualization through finished artwork.

GRD 141 Graphic Design I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

GRD 142 Graphic Design II  
Prerequisites: ART 121 or GRD 141, and GRD 110, GRD 151  
Corequisites: None  
Component: None  
This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.

GRD 151 Computer Design Basics  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on the creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

GRD 152 Computer Design Tech I  
Prerequisites: GRD 151  
Corequisites: None  
Component: None  
This course covers complex design problems utilizing various design and drawing software applications. Topics include the expressive use of typography, image, and organization to communicate a message. Upon completion, students should be able to use appropriate computer software to professionally present their work.

GRD 153 Computer Design Tech II  
Prerequisites: GRD 152  
Corequisites: None  
Component: None  
This course covers advanced theories and practices in the field of computer design. Emphasis is placed on advanced use of color palettes, layers, and paths. Upon completion, students should be able to creatively produce designs and articulate their rationale.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
### GRD 167 Photographic Imaging I

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces basic camera operations and photographic production. Topics include subject composition, depth of field, shutter control, light control, color, photo-finishing, and digital imaging, correction and output. Upon completion, students should be able to produce traditional and/or digital photographic prints with acceptable technical and compositional quality.

### GRD 168 Photographic Imaging II

**Prerequisites:** GRD 167  
**Corequisites:** None  
**Component:** None  

This course introduces advanced camera operations and photographic production. Topics include lighting, specialized equipment, digital image correction and output, and other methods and materials. Upon completion, students should be able to demonstrate proficiency in producing high quality photographic prints.

### GRD 220 Calligraphy

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers calligraphy as a design element. Emphasis is placed on the history, methods, materials, tools, and techniques of hand lettering. Upon completion, students should be able to use a variety of pens, brushes, inks, paint, and surfaces to produce several finished calligraphic works.

### GRD 241 Graphic Design III

**Prerequisites:** GRD 142 and GRD 152  
**Corequisites:** None  
**Component:** None  

This course is an advanced exploration of various techniques and media for advertising and graphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

### GRD 242 Graphic Design IV

**Prerequisites:** GRD 241 and GRD 153  
**Corequisites:** None  
**Component:** None  

This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

### GRD 247 Design Applications IV

**Prerequisites:** GRD 242  
**Corequisites:** None  
**Component:** None  

This course is designed to provide additional hands-on training in graphic design. Emphasis is placed on producing sophisticated design projects utilizing concepts and techniques covered in GRD 242. Upon completion, students should be able to solve complex design problems by producing projects to meet client specifications for reproduction.

### GRD 263 Illustrative Imaging

**Prerequisites:** GRD 151 and GRD 152  
**Corequisites:** None  
**Component:** None  

This course covers the creative manipulation of images utilizing digital techniques of masking, layering, airbrushing, and painting. Topics include the aesthetic analysis of visual imagery as well as the legalities of manipulating images. Upon completion, students should be able to utilize software applications to creatively manipulate and illustratively build digital images which accomplish design objectives.

### GRD 265 Digital Print Production

**Prerequisites:** GRD 151 or GRA 151  
**Corequisites:** None  
**Component:** None  

This course covers preparation of digital files for output and reproducion. Emphasis is placed on output options, separations, color proofing, and cost and design considerations. Upon completion, students should be able to prepare files and select appropriate output methods for design solutions.

### GRD 271 Multimedia Design I

**Prerequisites:** GRD 151 and GRD 152  
**Corequisites:** None  
**Component:** None  

This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboard, scripting, simple animation, graphics, digital audio/video, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

### GRD 272 Multimedia Design II

**Prerequisites:** GRD 271  
**Corequisites:** None  
**Component:** None  

This course is a continuation of GRD 271. Emphasis is placed on advanced animation, specialized software, quality control, and cross-platform delivery, as well as problems associated with delivery media and interactivity. Upon completion, students should be able to design and produce multimedia presentations and determine and adapt to technical specifications for delivery.

### GRD 280 Portfolio Design

**Prerequisites:** COM 231 or ENG 115, and GRD 142, GRD 153, GRD 241, and GRD 152 or GRA 152  
**Corequisites:** None  
**Component:** None  

This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

### GRD 282 Advertising Copywriting

**Prerequisites:** ENG 111  
**Corequisites:** None  
**Component:** None  

This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of advertising. Upon completion, students should be able to write and articulate advertising proposals and understand the ethical and regulatory environment for advertising.

### GRD 285 Client/Media Relations

**Prerequisites:** ENG 111, GRD 142, and GRA 121 or GRA 152 or GRD 152  
**Corequisites:** None  
**Component:** None  

This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients' advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships.

HEA 110 Personal Health/Wellness
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HEA 120 Community Health
Prerequisites: None
Corequisites: None
Component: None
This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today’s community health problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HET 115 Electronic Engines
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of electronically controlled diesel engines. Emphasis is placed on testing and adjusting diesel engines in accordance with manufacturers’ specifications. Upon completion, students should be able to diagnose, test, and calibrate electronically controlled diesel engines.

HET 125 Preventive Maintenance
Prerequisites: None
Corequisites: None
Component: None
This course introduces preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Topics include preventive maintenance schedules, services, DOT rules and regulations, and roadability. Upon completion, students should be able to set up and follow a preventive maintenance schedule as directed by manufacturers.

HET 126 Prevent Maintenance Lab
Prerequisites: None
Corequisites: HET 125
Component: None
This course provides a laboratory setting to enhance preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Emphasis is placed on practical experiences that enhance the topics presented in HET 125. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 125.

HET 231 Med/Heavy Duty Brake Sys
Prerequisites: None
Corequisites: None
Component: None
This course covers the theory and repair of braking systems used in medium and heavy duty vehicles. Topics include air, hydraulic, and ABS system diagnosis and repair. Upon completion, students should be able to troubleshoot, adjust, and repair braking systems on medium and heavy duty vehicles.

HET 232 Med/Hvy Duty Brake Sys Lab
Prerequisites: None
Corequisites: None
Component: HET 231
This course provides a laboratory setting to enhance the skills for troubleshooting, adjusting, and repairing brake systems on medium and heavy duty vehicles. Emphasis is placed on practical experiences that enhance the topics presented in HET 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 231.

Upon completion, students should be able to administer state and national hospice, skilled nursing facilities, and other long-term care services. Emphasis is placed on nursing home care, home health care, and professional issues in healthcare management. Upon completion, students should be able to identify current health care issues and their impact on healthcare management.

This course covers ICD-9-CM diagnostic and procedural coding according to the guidelines of the Cooperating Parties. Emphasis is placed on coding conventions and rules, methodology and sequencing, data sets, documentation requirements, data retrieval, quality control, and use of coding resources. Upon completion, students should be able to apply coding principles to correctly assign ICD-9-CM diagnostic and surgical codes.

This course covers application of principles and guidelines of CPT/HCPCS coding. Topics include clinical classification/nomenclature systems such as SNOMED, DSM, ICD-O and the use of encoders. Upon completion, students should be able to apply coding principles to correctly assign CPT/HCPCS codes. This course will concentrate more specifically in the area of inpatient coding.

This course covers reimbursement methodologies used in all healthcare settings as they relate to national billing, compliance, and reporting requirements. Topics include prospective payment systems, billing process and procedures, chargemaster maintenance, regulatory guidelines, reimbursement monitoring, and compliance strategies and reporting. Upon completion, students should be able to perform data quality reviews to validate code assignment and comply with reimbursement and reporting requirements. In addition, a review of the hospital coding exam will be administered in preparation to sit for the AAPC CPC-H certification exam.

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material and commercial sites. Emphasis is placed on drafting, site analysis, and topographical lines. Upon completion, students should be able to draw a site analysis drawing with topographical guidelines.

HOR 116 Landscape Management I
Prerequisites: None
Corequisites: None
Component: None
This course covers information and skills necessary to analyze a property and develop a management schedule. Emphasis is placed on property measurement, plant condition, analysis of client needs, and plant culture needs. Upon completion, students should be able to analyze a property, develop management schedules, and implement practices based on client needs.

HOR 118 Equipment Operation & Maintenance
Prerequisites: None
Corequisites: None
Component: None
This course covers the proper operation and maintenance of selected equipment used in horticulture. Emphasis is placed on the maintenance, minor repairs, safety devices, and actual operation of selected equipment. Upon completion, students should be able to design a maintenance schedule, service equipment, and demonstrate safe operation of selected equipment.

HOR 134 Greenhouse Operations
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops.

HOR 142 Fruit & Vegetable Production
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles and techniques of growing fruits and field-grown vegetables. Topics include site selection, proper varietal selection, nutritional values, cultural techniques, harvesting and marketing, and insect and disease control. Upon completion, students should be able to demonstrate an understanding of the principles related to the production of selected fruits and vegetables.

HOR 150 Introduction to Horticulture
Prerequisites: None
Corequisites: None
Component: None
This course covers the history, development, and basic techniques of horticulture. Topics include propagation techniques, planting procedures, watering and fertility, plant growth, pest and disease control, and garden design and history. Upon completion, students should be able to demonstrate an understanding of the basic principles of horticulture.

HOR 152 Horticultural Practices
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance of ornamental plantings and production areas. Topics include maintenance of flower beds, vegetable gardens, greenhouses, and container and field nursery stock using sound horticultural practices. Upon completion, students should be able to apply the principles and practices of maintaining ornamental landscape plantings.

HOR 160 Plant Materials I
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance of ornamental landscape plantings. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials. This course is also available through the Virtual Learning Community (VLC).

HOR 162 Applied Plant Science
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

HOR 164 Horticultural Pest Management
Prerequisites: None
Corequisites: None
Component: None
This course covers the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulations, safety, and pesticide application. Upon completion, students should be able to meet the requirements for North Carolina Commercial Pesticide Ground Applicators license.

HOR 166 Soils & Fertilizers
Prerequisites: None
Corequisites: None
Component: None
This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation, classification, physical and chemical properties, testing, fertilizer application, and other amendments. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media.

HOR 168 Plant Propagation
Prerequisites: None
Corequisites: None
Component: None
This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

HOR 170 Horticultural Computer Apps
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programs as they apply to the horticulture industry. Emphasis is placed on applications of software for plant identification, design, and irrigation. Upon completion, students should be able to use computer programs in horticultural situations.

HOR 213 Landscape Design II
Prerequisites: HOR-112
Corequisites: None
Component: None
This course covers residential and commercial landscape design, cost analysis, and installation. Emphasis is placed on job cost estimates, installation of the landscape design, and maintenance techniques. Upon completion, students should be able to read landscape design blueprints, develop cost estimates, and implement the design.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
HOR 215 Landscape Irrigation  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic irrigation design, layout, and installation. Topics include site analysis, components of irrigation systems, safety, types of irrigation systems, and installation techniques. Upon completion, students should be able to design and install basic landscape irrigation systems.

HOR 251 Insects & Diseases  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces insects and diseases of economic importance to horticultural crops. Topics include insect life cycles and identifying characteristics; plant diseases, including their signs and symptoms; control methods; and insect scouting for IPM. Upon completion, students should be able to demonstrate an understanding of insect and disease identification, collection, and control.

HOR 253 Horticulture Turfgrass  
Prerequisites: HOR 162 or HOR 166  
Corequisites: None  
Component: None  
This course covers information and skill development necessary to establish and manage landscape turfgrasses. Topics include grass identification, establishment, cultural requirements, application of control products, fertilization, and overseeding techniques. Upon completion, students should be able to analyze a landscape site and determine those cultural and physical activities needed to establish or manage a quality turf.

HOR 255 Interiorscapes  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers plant selection, design, and management for interior settings. Topics include tropical plant identification, cultural requirements, insect and disease identification and control, and design and management requirements for interior plants. Upon completion, students should be able to design, install, and manage plants in interior settings.

HOR 257 Arboriculture Practices  
Prerequisites: HOR 160 or LSG 111  
Corequisites: None  
Component: None  
This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices.

HOR 260 Plant Materials II  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is a continuation of HOR 160 and covers additional plants. Emphasis is placed on reinforcement of skills and the introduction of additional plants. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials.

HOR 265 Advanced Plant Materials  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers important landscape plants. Emphasis is placed on identification, plant nomenclature, growth characteristics, cultural requirements, and landscape uses. Upon completion, students should be able to correctly select plants for specific landscape uses.

HOR 275 Horticulture Production Management  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces starting and/or managing a horticulture production operation. Emphasis is placed on types of horticulture production businesses, production management practices and skills, and appropriate safety measures for equipment, personnel, and facilities. Upon completion, students should be able to identify various types of production businesses, prepare appropriate schedules and inventories, and manage personnel/facilities for safe crop production.

HOR 277 Horticulture Sales & Services

HRM 145 Hospitality Supervision
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers principles of supervision as they apply to the hospitality industry. Topics include recruitment, selection, orientation, training, evaluation, and leadership skills. Upon completion, students should be able to understand and apply basic supervisory skills unique to the hospitality and service industry. supervisory skills unique to the hospitality and service industry.

HRM 200 Cost Control-Food & Bev
Prerequisites: Take DMA-050 and DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operational troubleshooting and problem solving.

HRM 200A Food & Beverage Controls Lab 00 00 00 00
Prerequisites: Take MAT-115, MAT-140, OR MAT-161 AND CIS-110 OR CIS-111
Corequisites: HRM 220
Component: None
This course is a laboratory to accompany HRM 220. Emphasis is placed on practical computer applications of food and beverage control procedures. Upon completion, students should be able to demonstrate proficiency in computer-based control applications.

HRM 210 Meetings & Event Planning
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces principles of managing a hospitality operation in a resort or club setting. Topics include operational efficiencies, resort and club marketing, recreational and sport activity management, and retail management. Upon completion, students should be able to demonstrate an understanding of the specialized skills involved in resort and club management.

HRM 220 Cost Control-Food & Bev
Prerequisites: Take DMA-050 and DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operational troubleshooting and problem solving.

HRM 230 Club & Resort Management
Prerequisites: Take DRE-096 and DMA-030 or ENG-070, RED-070, and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces specific principles of managing a hospitality operation in a resort or club setting. Topics include operational efficiencies, resort and club marketing, recreational and sport activity management, and retail management. Upon completion, students should be able to demonstrate an understanding of the specialized skills involved in resort and club management.

HRM 240 Marketing for Hospitality
Prerequisites: Take DRE-096 or ENG-070 and RED 070 or Placement Test Credit Equivalent

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
ITA 111 Elementary Italian I  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ITA 112 Elementary Italian II  03 00 00 03
Prerequisites: ITA 111
Corequisites: None
Component: None
This course is a continuation of ITA 111 focusing on the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ITA 181 Italian Lab 1  00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ITA 182 Italian Lab 2  00 02 00 01
Prerequisites: ITA 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ITA 211 Intermediate Italian I  03 00 00 03
Prerequisites: ITA 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ITA 212 Intermediate Italian II  03 00 00 03
Prerequisites: ITA 211
Corequisites: None
Component: None
This course provides a continuation of ITA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ITA 221 Italian Conversation  03 00 00 03
Prerequisites: ITA 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken Italian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ITA 281 Italian Lab 3  00 02 00 01
Prerequisites: ITA 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ITA 282 Italian Lab 4  00 02 00 01
Prerequisites: ITA 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Italian language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ITN 150 Internet Protocols  02 02 00 03
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the student to the application protocols used on the Internet. Topics include HTTP, Secure HTTP, TCP/IP, and related applications such as FTP, TELNET, and PING. Upon completion, students should be able to use the protocols as they pertain to the Internet, as well as, setup and maintain these protocols. This course is also available through the Virtual Learning Community (VLC).

Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissent, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts. This course is also available through the Virtual Learning Community (VLC).

LEX 260 Bankruptcy & Collections 03 00 00 03
Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270 Law Office Management/Technology 01 02 00 02
Prerequisites: Take DRE-098 or ENG-090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the administration of law offices. Topics include organization and management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 283 Investigation 01 02 00 02
Prerequisites: Take DRE-098 or ENG 090 and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers various aspects of civil and criminal investigation. Topics include locating witnesses, interviewing techniques, obtaining records, sketching and photographing accident scenes, collecting and preserving evidence, and preparation of exhibits for trial. Upon completion, students should be able to locate witnesses, prepare questionnaires, interview witnesses, obtain criminal/motor vehicle/medical/accident records, sketch scenes, and prepare exhibits.

LEX 285 Workers’ Comp Law 02 00 00 02
Prerequisites: Take DRE-098 and DMA-030 or ENG-090, RED-090 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the process of initiating and handling workers’ compensation claims. Emphasis is placed on reviewing and drafting relevant Industrial Commission forms. Upon completion, students should be able to interview clients, gather information, and draft documents related to workers’ compensation claims.

LOG 110 Introduction to Logistics 03 00 00 03
Prerequisites: Take DRE-098 and DMA-050 or ENG-090, RED-090 and MAT 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 112 Machining Technology II  02 12 00 06
Prerequisites: MAC 111
Corequisites: None
Component: None
This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 113 Machining Technology III  02 12 00 06
Prerequisites: MAC 241
Corequisites: None
Component: None
This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

MAC 114 Introduction to Metrology  02 00 00 02
Prerequisites: None
Corequisites: MAC 111
Component: None
This course introduces the care and use of precision measuring instruments. Emphasis is placed on the inspection of machine parts and use of a wide variety of measuring instruments. Upon completion, students should be able to demonstrate the correct use of measuring instruments.

MAC 121 Introduction to CNC  02 00 00 02
Prerequisites: MAC 112, MAC 132, and MAC 152
Corequisites: None
Component: None
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

MAC 122 CNC Turning  01 03 00 02
Prerequisites: MAC 228
Corequisites: None
Component: None
This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

MAC 124 CNC Milling  01 03 00 02
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.
MAC 131 Blueprint Reading/Mach I
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches.

MAC 132 Blueprint Reading/Mach II
Prerequisites: None
Corequisites: None
Component: None
This course introduces more complex industrial blueprints. Emphasis is placed on auxiliary views, section views, violations of true projection, special views, applications of GD & T, and interpretation of complex parts. Upon completion, students should be able to read and interpret complex industrial blueprints.

MAC 151 Machining Calculations
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 152 Adv Machining Calc
Prerequisites: MAC 151
Corequisites: None
Component: None
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems.

MAC 224 Advanced CNC Milling
Prerequisites: MAC 124
Corequisites: None
Component: None
This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers.

MAC 226 CNC EDM Machining
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the programming, setup, and operation of CNC electrical discharge machines. Topics include programming formats, control functions, program editing, production of parts, and inspection. Upon completion, students should be able to manufacture simple parts using CNC electrical discharge machines.

MAC 228 Advanced CNC Processes
Prerequisites: MAC 121
Corequisites: None
Component: None
This course covers advanced programming, setup, and operation of CNC turning centers and CNC milling centers. Topics include advanced programming formats, control functions, program editing, and part production and inspection. Upon completion, students should be able to manufacture complex parts using CNC turning and milling centers.

MAC 233 Appl in CNC Machining
Prerequisites: MAC 228
Corequisites: None
Component: None
This capstone course provides students the opportunity to apply skills learned throughout the curriculum. Emphasis is placed on production of parts and assemblies using modern CNC machine tools. Upon completion, students should be able to manufacture complex parts using a variety of CNC machine tools.

MAC 241 Jigs & Fixtures I
Prerequisites: MAC 112, MAC 132, and MAC 152
Corequisites: None
Component: None
This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

MAC 243 Die Making I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles and applications of die making. Topics include types, construction, and application of dies. Upon completion, students should be able to design and build simple dies.

MAM 101 Mam Proc & Image Analysis
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of mammography positioning, patient care, and image analysis. Topics include breast anatomy/physiology, pathology and treatment of breast disease, patient preparation/education, mammographic procedures, and interventional procedures. Upon completion, students should be able to demonstrate competence in these areas.

MAM 102 Mam Instrumentation & Qa
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of digital mammography. Topics include system components, imaging principles, and guidelines for selecting exposure factors. Upon completion, students should be able to demonstrate an understanding of mammographic equipment, quality assurance, and quality control.

MAM 103 Digital Mammography
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity to apply knowledge gained from classroom instruction to the mammography clinical setting. Emphasis is placed on patient care and positioning, mammographic procedures, interventional/special examinations, image analysis, and quality control testing. Upon completion, students should be able to demonstrate successful completion of clinical objectives.
Students should be able to solve applied problems both independently and with technology to solve problems at a level found in non-mathematics-intensive programs. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

MAT 101 Applied Mathematics I 02 02 00 03
Prerequisites: Take One Set:
Set 1: DMA-010, DMA-020, and DMA-030
Set 2: MAT-060
Set 3: MAT-070
Set 4: MAT-080
Set 5: MAT-090
Set 6: MAT-095 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of mammographic topics as practiced in the didactic and clinical settings. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the comprehensive knowledge required of an entry-level mammographer.

MAT 110 Math Measurement & Literacy 02 02 00 03
Prerequisites: Take All: DMA-010, DMA-020, and DMA-030 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for diploma programs.

MAT 115 Mathematical Models 02 02 00 03
Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include application to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their graphs, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results.

MAT 120 Geometry and Trigonometry 02 02 00 03
Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the concepts of plane trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, right triangle trigonometry, and oblique triangles. Upon completion, students should be able to solve applied problems both independently and collaboratively using technology.

MAT 121 Algebra/Trigonometry I 02 02 00 03
Prerequisites: Take All: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DMA-060 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course develops an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

MAT 122 Algebra/Trigonometry II 02 02 00 03
Prerequisites: Take MAT121
Corequisites: None
Component: None
This course is designed to cover concepts in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, transformations of functions, Law of Sines, Law of Cosines, vectors, and statistics. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 140 Survey of Mathematics 03 00 00 03
Prerequisites: One Course Required: MAT 070 or DMA 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 143 Quantitative Literacy 02 02 00 03
Prerequisites: Take All One Set:
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DRE-098
Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-095*
Set 3: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-090* and RED-090* or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationships, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This is a Universal General Education Transfer Component (UGETC) course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Test Credit Equivalent.
Prerequisites: One course required: MAT 080 or DMA 080 or Placement

MAT 161 College Algebra  03 00 00 03
requirement in natural sciences/mathematics (Quantitative Option).
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

MAT 161A College Algebra Lab  00 02 00 01
Prerequisites: One course required: MAT 080 or DMA 080 or Placement Test Equivalent.
Component: None
This course is a laboratory for MAT 161. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 162 College Trigonometry  03 00 00 03
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Component: None
This course provides an integrated technological approach to trigonometric applications used in problem solving. Emphasis is placed on applications involving trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree.

MAT 162A College Trig Lab  00 02 00 01
Prerequisites: MAT 161
Component: None
This course is a laboratory for MAT 162. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 165 Finite Mathematics  03 00 00 03
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Component: None
This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability, mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts of finite mathematics and the ability to solve related problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 165A Finite Math Lab  00 02 00 01
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Component: None
This course is a laboratory for MAT 165. Emphasis is placed on experiences

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 167 Discrete Mathematics
Prerequisites: Take MAT 121 or MAT 171
Corequisites: None
Component: None
This course is designed to develop problem-solving and reasoning skills using an algorithmic approach. Topics include sets, number theory, numeration systems, linear programming, traditional and propositional logic, truth tables, Venn diagrams, elementary proofs, and Boolean algebra. Upon completion, students should be able to apply logic and other mathematical concepts to solve a variety of problems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 171 Precalculus Algebra
Prerequisites: Take One Set:
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060, DMA-070, and DMA-080
Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DMA-065
Set 3: MAT-121or Placement Test Equivalent
Corequisites:
Component: None
This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This course is a Universal General Education Transfer Component (UGETC) course.

MAT 172 Precalculus Trigonometry
Prerequisites: Take MAT 171
Corequisites:
Component: None
This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This course is a Universal General Education Transfer Component (UGETC) course.

MAT 263 Brief Calculus
Prerequisites: Take MAT 171
Corequisites: None
Component: None
This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 271 Calculus I
Prerequisites: Take MAT 172
Corequisites: None
Component: None
This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 272 Calculus II
Prerequisites: Take MAT 271
Corequisites: None
Component: None
This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics.

MAT 273 Calculus III
Prerequisites: Take MAT 272
Corequisites: None
Component: None
This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics.

MAT 280 Linear Algebra
Prerequisites: Take MAT 271
Corequisites: None
Component: None
This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
MAT 285 Differential Equations
Prerequisites: Take MAT 272
Corequisites: None
Component: None
This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and Laplace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

MEC 142 Physical Metallurgy
Prerequisites: MAC 112
Component: None
This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.

MED 116 Introduction to A & P
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Component: None
This course introduces basic anatomy and physiology. Emphasis is placed on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care.

MED 120 Survey of Med Terminology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the vocabulary, abbreviations, and symbols used in the language of medicine. Emphasis is placed on building medical terms using prefixes, suffixes, and word roots. Upon completion, students should be able to pronounce, spell, and define accepted medical terms.

MKT 120 Principles of Marketing
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Component: None
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 121 Retailing
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Component: None
This course examines the role of retailing in the economy. Topics include the development of present retail structure, functions performed, effective operations, and managerial problems resulting from current economic and social trends. Upon completion, students should be able to demonstrate an understanding of the basic principles of retailing.

MKT 122 Visual Merchandising
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Component: None
This course introduces basic layout design and commercial display in retail and service organizations. Topics include an analysis of display as a visual merchandising medium and an examination of the principles and applications of display and design. Upon completion, students should be able to plan, build, and evaluate designs and displays. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 123 Fundamentals of Selling
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.

MKT 220 Advertising and Sales Promotion
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

MKT 221 Consumer Behavior
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer.

MKT 223 Customer Service
Prerequisites: Take DRE-096 or ENG-070 and RED-070 or Placement Test
Credit Equivalent
Corequisites: None
Component: None
This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations. This course is also available through the Virtual Learning Community (VLC).

MKT 225 Marketing Research
Prerequisites: Take MKT 120 and DRE-098 and DMA-050 or ENG 090, RED-090 and MAT-070 Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides information for decision making by providing guidance in developing, analyzing, and using data. Emphasis is placed on marketing research as a tool in decision making. Upon completion, students should be able to design and conduct a marketing research project and interpret the results. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course extends the study of diverse marketing strategies. Emphasis is placed on case studies and small-group projects involving research or planning. Upon completion, students should be able to effectively participate in the formulation a marketing study. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 230 Public Relations 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces public relations as it affects communications, strategic planning, and management of the organization. Topics include basic principles and functions of management that guide public relations activities as applied to businesses, services, institutions, and associations. Upon completion, students should be able to perform the communications, evaluation, planning, and research activities of the public relations professional.

MKT 231 Health Care Marketing 03 00 00 03
Prerequisites: Take MKT-120
Corequisites: None
Component: None
This course is designed to help students gain an understanding of how the principles of marketing are used in a health care setting. Topics include market development, market segmentation, market research, advertising and promotion, and service development for health care marketing. Upon completion, students should be able to plan, develop, and implement a basic marketing plan for an institution within the health care industry.

MKT 232 Social Media Marketing 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course is designed to build students’ social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses.

MUS 110 Music Appreciation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

MUS 112 Introduction to Jazz 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idioms. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

MUS 113 American Music 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a basic survey of the music of the Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 114 Non-Western Music 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 115 Orchestral Music 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers representational orchestral and chamber works from the Baroque period to the present. Emphasis is placed on the characteristics of important orchestral forms and styles. Upon completion, students should be able to demonstrate skills in listening to and analyzing orchestral music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 121 Music Theory I 03 02 00 04
Prerequisites: MUS 121
Corequisites: None
Component: None
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 122 Music Theory II 03 02 00 04
Prerequisites: MUS 121
Corequisites: None
Component: None
This course is a continuation of studies begun in MUS 121. Emphasis is placed on advanced melodic, rhythmic, and harmonic analysis and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
MUS 123 Music Composition
Prerequisites: Take One: MUS-111 or MUS-121
Corequisites: None
Component: None
This course provides a study of elementary forms and traditional approaches to the organization of melody, harmony, rhythm, etc. in musical composition. Emphasis is placed on using musical notation to create new musical works. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 131 Chorus I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 132 Chorus II
Prerequisites: MUS-131
Corequisites: None
Component: None
This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 133 Band I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity for those who play a band instrument to gain experience playing in an ensemble. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 134 Band II
Prerequisites: MUS 133
Corequisites: None
Component: None
This course is a continuation of MUS 133. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

MUS 135 Jazz Ensemble I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity for those who play an appropriate instrument to gain experience playing in a jazz ensemble. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 136 Jazz Ensemble II
Prerequisites: MUS 135
Corequisites: None
Component: None
This course is a continuation of MUS 135. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 137 Orchestra I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of orchestra and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 138 Orchestra II
Prerequisites: MUS 137
Corequisites: None
Component: None
This course is a continuation of MUS 137. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 141 Ensemble I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MUS 142 Ensemble II
Prerequisites: MUS-141
Corequisites: None
Component: None
This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.
performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 151 Class Music I**

<table>

**MUS 210 History of Rock Music**

<table>
<thead>
<tr>
<th>Prerequisites: None</th>
<th>Corequisites: None</th>
<th>Component: None</th>
</tr>
</thead>
</table>
This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

**MUS 211 History of Country Music**

<table>
<thead>
<tr>
<th>Prerequisites: None</th>
<th>Corequisites: None</th>
<th>Component: None</th>
</tr>
</thead>
</table>
This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)
MUS 212 American Musical Theatre
Prerequisites: None
Corequisites: None
Component: None
This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 213 Opera and Musical Theatre
Prerequisites: None
Corequisites: None
Component: None
This course covers the origins and development of opera and musical theater from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals effect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

MUS 217 Elementary Conducting
Prerequisites: Take MUS-111
Corequisites: None
Component: None
This course introduces the basic patterns and skills for conducting instrumental and vocal groups. Emphasis is placed on conducting beat patterns, expressive gestures, fermatas, accents, tempos, and rehearsal techniques. Upon completion, students should be able to demonstrate the above skills by conducting vocal and/or instrumental groups. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 221 Music Theory III
Prerequisites: MUS 122
Corequisites: None
Component: None
This course is a continuation of MUS 122. Emphasis is placed on altered and chromatic harmony, common practice era compositional techniques and forms, and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 222 Music Theory IV
Prerequisites: MUS 221
Corequisites: None
Component: None
This course is a continuation of studies begun in MUS 221. Emphasis is placed on continued study of common practice era compositional techniques and forms, 20th century practices, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 231 Chorus III
Prerequisites: MUS 132
Corequisites: None
Component: None
This course is a continuation of MUS 132. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 232 Chorus IV
Prerequisites: MUS 231
Corequisites: None
Component: None
This course is a continuation of MUS 231. Emphasis is placed on vocal techniques and the study of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 233 Band III
Prerequisites: MUS 134
Corequisites: None
Component: None
This course is a continuation of MUS 134. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 234 Band IV
Prerequisites: MUS 233
Corequisites: None
Component: None
This course is a continuation of MUS 233. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 235 Jazz Ensemble III
Prerequisites: MUS 136
Corequisites: None
Component: None
This course is a continuation of MUS 136. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 236 Jazz Ensemble IV
Prerequisites: MUS 235
Corequisites: None
Component: None
This course is a continuation of MUS 235. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.
MUS 237 Orchestra III
Prerequisites: MUS 138
Corequisites: None
Component: None
This course is a continuation of MUS 138. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 238 Orchestra IV
Prerequisites: MUS 237
Corequisites: None
Component: None
This course is a continuation of MUS 237. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 241 Ensemble III
Prerequisites: MUS 142
Corequisites: None
Component: None
This course is a continuation of MUS 142. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 242 Ensemble IV
Prerequisites: MUS 241
Corequisites: None
Component: None
This course is a continuation of MUS 241. Emphasis is placed on the development of performance skills and the study of styles of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 253 Big Band
Prerequisites: None
Corequisites: None
Component: None
This course includes the Big Band instrumentation of five saxes, four trumpets, four trombones, and four-piece rhythm section (bass, piano, drums, and guitar). Emphasis is placed on learning the repertoire specifically written for Big Band instrumentation. Upon completion, students should be able to demonstrate skills needed to participate in performance of Big Band music. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 261 Applied Music III
Prerequisites: MUS 162
Corequisites: None
Component: None
This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be capable of demonstrating proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

NET 110 Networking Concepts
Prerequisites: Take DRE-096 and DMA-020 or ENG-070, RED-070 and MAT-060 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetwork, and TCP/IP Protocols. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

clinically useful radiopharmaceuticals. Upon completion, students should be able to discuss the appropriate use and disposition of radiopharmaceuticals currently used in clinical nuclear medicine.

NMT 211 NMT Clinical Practice I
Prerequisites: NMT 132
Component: None
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radiopharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclides. Upon completion, students should be able to demonstrate performance of the procedures covered in the course.

NMT 212 Proc for Nuclear Med I
Prerequisites: NMT 132
Component: None
This course begins the in-depth study of clinical procedures performed by nuclear medicine technologists. Emphasis is placed on dose administration, use of instrumentation, computer applications, and normal and abnormal presentation. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures presented in the course.

NMT 215 Non-Imaging Instrumentation
Prerequisites: NMT 132
Component: None
This course covers the proper operation of various types of non-imaging equipment used in nuclear medicine. Emphasis is placed on principles of radiation detection, quality control procedures, various counting problems, and machine-specific operating procedures. Upon completion, students should be able to demonstrate the proper use of the devices discussed in the course.

NMT 217 Radiobiology and Protection
Prerequisites: NMT 132
Component: None
This course covers the principles of radiation biology. Emphasis is placed on the effects of ionizing radiation on body tissues, uses of radiation in medicine, and protective measures. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in nuclear medicine.

NMT 221 NMT Clinical Practice II
Prerequisites: NMT 132
Component: None
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radiopharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclides. Upon completion, students should be able to demonstrate performance of the procedures covered in this course.

NMT 222 Proc for Nuclear Med II
Prerequisites: NMT 132
Component: None
This course concludes the in-depth study of clinical procedures performed in nuclear medicine. Topics include method of dose administration, data acquisition parameters, computer use, and data patterns consistent with normal and described pathological states. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures discussed in the course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course will introduce students to the Novel network operating system. Topics include installing and using NetWare, managing printing, storage space, implementing internet services, and managing security. Upon completion, students should have basic knowledge about implementing NetWare and using its management tools.

This course provides an overview of the nonprofit sector and its role in society. Topics include growth and development, organizational structure, and working with diverse communities. Upon completion, students should be able to demonstrate an understanding of the nonprofit sector and its impact on communities.

This course introduces the principles, strategies, and practice of fundraising and stewardship in nonprofit organizations. Topics include board interactions with staff, shared governance, and stewardship. Upon completion, students should be able to identify and assess the leader’s role in bringing about significant organizational and societal changes through non-profit organizations.

This course focuses on the use of nursing-related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on reproductive diseases, mental health disorders and parenteral medication administration which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

This course introduces leadership roles and their relation to governance issues in nonprofit organizations. Topics include board interactions with staff, shared governance, and stewardship. Upon completion, students should be able to identify and assess the leader’s role in bringing about significant organizational and societal changes through non-profit organizations.

This course focuses on the use of nursing-related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. This course introduces concepts basic to beginning nursing practice. Emphasis is placed on introducing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations in health.

This course introduces concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain which must be completed satisfactorily to progress to Nursing 102B and Nursing 103A. This course is intended for certificate and diploma programs.
domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 112 Health-Illness Concepts**

Prerequisites: NUR 111  
Corequisites: BIO-169 and PSY-241  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 113 Family Health Concepts**

Prerequisites: NUR 111, NUR-112, & NUR-114  
Corequisites: CIS 110 or CIS 113  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 114 Holistic Health Concepts**

Prerequisites: NUR 111  
Corequisites: BIO-169 and PSY-241  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 120 Nursing II**

Prerequisites: NUR 110  
Corequisites: BIO 169 and PSY 241  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on developing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to participate in the delivery of nursing care for individuals with common alterations in health. The focus will be on reproductve health, intrapartal, newborn, and postpartal nursing.

**NUR 130 Nursing III**

Prerequisites: NUR 120  
Corequisites: CIS 113  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on expanding the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to deliver nursing care to individuals with common alterations in health. The focus will be on reproductive health, intrapartal, newborn, and postpartal nursing.

**NUR 189 Nursing Transition**

Prerequisites: Departmental Approval  
Corequisites: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on expanding the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to deliver nursing care to individuals with common alterations in health. The focus will be on reproductve health, intrapartal, newborn, and postpartal nursing.

Component: None  
This course is designed to assist the licensed practical nurse in transition to the role of the associate degree nurse. Topics include the role of the registered nurse, nursing process, homeostasis, and validation of selected nursing skills and physical assessment. Upon completion, students should be able to articulate into the ADN program at the level of the generic student.

**NUR 210 Nursing IV**

Prerequisites: NUR 130  
Corequisites: BIO 275 and ENG 111  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on using collaboration as a provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to modify nursing care for individuals with common alterations in health. The focus will be on psychiatric concepts, community based approaches, renal, cardiovascular, and respiratory functioning.

**NUR 211 Health Care Concepts**

Prerequisites: NUR-111, NUR-112, NUR-113 and NUR-114  
Corequisites: None  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 212 Health System Concepts**

Prerequisites: NUR-111  
Corequisites: NUR-211  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 213 Complex Health Concepts**

Prerequisites: NUR 111, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212  
Corequisites: COM-231 or ENG-115  
Component: None  
This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

**NUR 214 Nsg Transition Concepts**

Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces keyboarding concepts. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding.

This course covers the principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. This course is also available through the Virtual Learning Community (VLC).

This course presents the processes behind problem solving for groups and individuals. Emphasis is placed on building constructive relationships, confronting issues, winning support, and the basic processes of problem solving. Upon completion, students should be able to enhance relationships with others and apply a systematic approach to problem solving.

This course covers the basic principles of materials management. Emphasis is placed on the planning, procurement, movement, and storage of materials. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques related to materials management.

This course provides skills for motivation and evaluation of individuals in a workplace setting. Topics include flow diagrams, process and operations charts, network scheduling, Gantt charts, and PERT and Critical Path Methods as tools in project management. Upon completion, students should be able to understand and apply project management tools and methods.

This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on the nurse’s role as an independent provider and manager of care for a group of individuals and member of a multi-disciplinary team. Upon completion, students should be able to provide comprehensive nursing care to a group of individuals with common complex health alterations. The focus will be on neurologic and neurosensory functioning, mental health, multisystem trauma and leadership skills.

This course is designed for the LPN to ADN student to explore the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of safety, perfusion, inflammation, oxygenation, mood/affect, behavior, development, family, health-wellness-illness, sensory perception, stress/coping, cognition, self, violence, and professional behaviors. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

This course introduces the concepts of fluid/electrolytes, metabolism, thermoregulation, oxygenation, tissue integrity, infection, perfusion, mobility, reproduction, sexuality, health-wellness-illness, professional behaviors, accountability, advocacy, and collaboration. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

This course covers the basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. This course is also available through the Virtual Learning Community (VLC).

This course introduces an overview of the operations management field. Topics include production and operations planning, materials management, environmental health and safety, and quality management. Upon completion, students should be able to demonstrate an understanding of the operations management functions.

This course introduces the keypad and the touch method using the electronic keypad. Emphasis is placed on the planning, procurement, movement, and storage of materials. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques related to materials management.

This course covers the basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. This course is also available through the Virtual Learning Community (VLC).

This course provides an overview of the operations management field. Topics include production and operations planning, materials management, environmental health and safety, and quality management. Upon completion, students should be able to demonstrate an understanding of the operations management functions.

OST 130 Comprehensive Keyboarding  02 02 00 03
Prerequisites: None
Component: None
This course is designed to develop keyboarding skills and introductory document formatting. Emphasis is placed on keyboarding techniques and formatting basic business documents. Upon completion, students should be able to create documents in an ever-changing workplace.

OST 131 Keyboarding  01 02 00 02
Prerequisites: None
Component: None
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.

OST 132 Keyboard Skill Building  01 02 00 02
Prerequisites: Take OST 130 or OST 131
Component: None
This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

OST 133 Advanced Keyboard Skill Building  01 02 00 02
Prerequisites: OST 132 and OST 134
Component: None
This course is designed to increase speed and improve accuracy to meet employment tests and job requirements. Emphasis is placed on individualized diagnostic and prescriptive drills. Upon completion, students should be able to keyboard with greater speed and accuracy as measured by five-minute timed writings and skill-development paragraphs.

OST 134 Text Entry & Formatting  02 02 00 03
Prerequisites: OST 132 and OST 136
Component: None
This course is designed to provide skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability. This course is also available through the Virtual Learning Community (VLC).

OST 135 Advanced Text Entry & Formatting  03 02 00 04
Prerequisites: Take OST 134, OST 164 and OST 236
Component: None
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on advanced document production. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.

OST 136 Word Processing  02 02 00 03
Prerequisites: Take OST 130 or OST 131 and DRE 096 or ENG 070 and RED 070, or Placement Test Credit Equivalent
Component: None
This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment. This course is also available through the Virtual Learning Community (VLC).

OST 137 Office Software Applications  02 02 00 03
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Component: None
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment. This course is also available through the Virtual Learning Community (VLC).

OST 138 Advanced Software Appl  02 02 00 03
Prerequisites: OST 137 or CIS 111 or CIS 110
Component: None
This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

OST 141 Medical Terms I-Medical Office  03 00 00 03
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Component: None
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 142 Medical Terms II-Medical Office  03 00 00 03
Prerequisites: Take OST 141 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Component: None
This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 143 Dental Office Terminology  03 00 00 03
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Component: None
This course introduces prefixes, suffixes, and word roots used in the dental office. Topics include dental anatomy and oral structures, tooth origin and formation, examination and prevention, tooth restorations, radiography, pain management and pharmacology. Upon completion, students should be able to pronounce, spell, and define dental terms as related to a dental practice.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
OST 147 Dental Billing and Coding  
Prerequisites: Take OST 143 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces Current Procedural Terminology, International Classification of Diseases, and Healthcare Common Procedural Coding System coding as they apply to dental insurance and billing. Topics include Current Dental Terminology-2 Dental Codes, office collections, American Dental Association Dental Claim Form, and insurance parity. Upon completion, students should be able to describe the steps of the total billing/collections cycle for a dental office.

OST 148 Medical Coding Billing & Insurance  
Prerequisites: Take OST 141 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. This course is also available through the Virtual Learning Community (VLC).

OST 149 Medical Legal Issues  
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. This course is also available through the Virtual Learning Community (VLC).

OST 153 Office Finance Solutions  
Prerequisites: OST 122  
Corequisites: None  
Component: None  
This course introduces basic bookkeeping concepts. Topics include entering data in accounts payable and receivable, keeping petty cash records, maintaining inventory, reconciling bank statements, running payroll, and generating simple financial reports. Upon completion, students should be able to demonstrate competence in the entry and manipulation of data to provide financial solutions for the office.

OST 162 Executive Terminology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to increase and improve proficiency in word usage. Topics include root words, prefixes, suffixes, homonyms, synonyms, and specialized vocabularies. Upon completion, students should be able to use acquired vocabulary skills in the global workplace.

OST 164 Text Editing Applications  
Prerequisites: Take DRE 097  
Corequisites: None  
Component: None  
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. This course is also available through the Virtual Learning Community (VLC).

OST 165 Adv Text Editing Apps  
Prerequisites: Take ENG 111, OST 134 and OST 164  
Corequisites: None  
Component: None  
This course is designed to develop proficiency in advanced editing skills needed in the office environment. Emphasis is placed on the application of creating effective electronic office documents. Upon completion, students should be able to apply advanced editing skills to compose text. This course emphasizes the development of skills in composing and editing business communications that will exemplify the students ability to communicate effectively in an office environment.

OST 181 Introduction to Office Systems  
Prerequisites: OST 130  
Corequisites: None  
Component: None  
This course introduces the skills and abilities needed in today’s office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today’s offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184 Records Management  
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).

OST 223 Admin Office Transcript I  
Prerequisites: OST 164 and OST 134 or OST 136  
Corequisites: None  
Component: None  
This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents.

OST 224 Admin. Ofc Transcript II  
Prerequisites: OST 223  
Corequisites: None  
Component: None  
This course provides instruction and practice in advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents.

OST 233 Office Publications Design  
Prerequisites: Take OST 136 and OST 137  
Corequisites: None  
Component: None  
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

OST 236 Advanced Word/Information Processing  
Prerequisites: OST 136  
Corequisites: None  
Component: None  
Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
OST 241 Medical Office Transcription I 01 02 00 02
Prerequisites: OST 142, OST 164 and MED 121 or OST 141
Corequisites: None
Component: None
This course develops proficiency in the utilization of advanced word/ information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. This course is also available through the Virtual Learning Community (VLC).

OST 242 Medical Office Transcription II 01 02 00 02
Prerequisites: Take OST 241 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course continues building transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.

OST 243 Medical Office Simulation 02 02 00 03
Prerequisites: Take OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: OST 285
Component: None
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.

OST 244 Medical Document Production 01 02 00 02
Prerequisites: Take OST 134, OST 142, OST 164, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides production-level skill development in processing medical documents. Emphasis is placed on producing marketable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.

OST 245 Dental Office Management 02 02 00 03
Prerequisites: Take OST 147 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the organizational structures, professional issues, and major functions of management in a dental office. Topics include communication skills, telephone techniques, patient relations, clinical records, bookkeeping procedures, office equipment, and inventory management. Upon completion, students should be able to apply the concepts of management within a dental office.

OST 246 Dental Office Simulation 02 02 00 03
Prerequisites: Take OST 147 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course develops proficiency in the utilization of advanced word/ information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. This course is also available through the Virtual Learning Community (VLC).

OST 247 Procedure Coding 01 02 00 02
Prerequisites: Take OST 141 AND OST 148 OR HMT 210. Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces dental software systems used to process information in the dental office. Topics include electronic information entering, storing, and retrieving in the dental office billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections in a dental office software system.

OST 248 CPC Certification 03 02 00 04
Prerequisites: Take OST 130, OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides instruction that will prepare students to sit for the American Association of Professional Coders (AAPC) CPC Exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for the AAPC CPC Exam.

OST 281 Emerg Issues in Med Ofc 03 00 00 03
Prerequisites: Take OST 130, OST 142, OST 148, and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a comprehensive discussion of topics familiar to the health care setting. Topics include emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of current medical office procedures and treatments.

OST 284 Emerging Technologies 01 02 00 02
Prerequisites: Take OST 137 and OST 164
Corequisites: None
Component: None
This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional.

OST 285 Adv Emerg Issu in Med Ofc 03 00 00 03
Prerequisites: Take OST 281 and DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an advanced comprehensive discussion of topics familiar to the health care setting. Topics include advanced emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of advanced medical office procedures and treatments.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

Corequisites: None
Component: None
This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course has been approved to satisfy the Comprehensive Articulation Agreement. A series of conditioning timed stations is designed for maximum fitness. Emphasis is placed on circuits training as a means to develop fitness. Students should be able to participate in and design a rhythmic aerobic exercise routine. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 114 Aerobics II**
Prerequisites: PED 113
Corequisites: None
Component: None
This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 115 Step Aerobics I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of step aerobics. Emphasis is placed on basic stepping up and down on an adjustable platform; cardiovascular fitness; and upper body, floor, and abdominal exercises. Upon completion, students should be able to participate in basic step aerobics. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 116 Step Aerobics II**
Prerequisites: PED 115
Corequisites: None
Component: None
This course provides a continuation of step aerobics. Emphasis is placed on a wide variety of choreographed step patterns; cardiovascular fitness; and upper body, abdominal, and floor exercises. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 117 Weight Training I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 118 Weight Training II**
Prerequisites: PED 117
Corequisites: None
Component: None
This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 119 Circuit Training**
Prerequisites: None
Corequisites: None
Component: None
This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 120 Walking for Fitness**
Prerequisites: None
Corequisites: None
Component: None
This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 121 Walk, Jog, Run**
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 122 Yoga I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic discipline of yoga. Topics include proper breathing, relaxation techniques, and correct body positions. Upon completion, students should be able to demonstrate the procedures of yoga. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 123 Yoga II**
Prerequisites: PED 122
Corequisites: None
Component: None
This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 124 Run, Swim, Cycle**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the sport of the triathlon. Topics include the rules, equipment, and skills necessary for the triathlon. Upon completion, students should be able to participate in a triathlon competition. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 125 Self-Defense-Beginning**
Prerequisites: None
Corequisites: None
Component: None
This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Ped 126 Self-Defense-Intermediate
Prerequisites: Ped 125
Corequisites: None
Component: None
This course is designed to aid students in building on the techniques and skills developed in Ped 125. Emphasis is placed on the appropriate psychological and physiological responses to various encounters. Upon completion, students should be able to demonstrate intermediate skills in self-defense stances, blocks, punches, and kick combinations. This course has been approved to satisfy the comprehensive articulated agreement pre-major and/or elective course requirement.

Ped 128 Golf-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. This course has been approved to satisfy the comprehensive articulated agreement pre-major and/or elective course requirement.

Ped 129 Golf-Intermediate
Prerequisites: Ped 128
Corequisites: None
Component: None
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the game such as club selection, trouble shots, and course management. Upon completion, students should be able to demonstrate the knowledge and ability to play a recreational round of golf. This course has been approved to satisfy the comprehensive articulated agreement pre-major and/or elective course requirement.

Ped 130 Tennis-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. This course has been approved to satisfy the comprehensive articulated agreement pre-major and/or elective course requirement.

Ped 131 Tennis-Intermediate
Prerequisites: Ped 130
Corequisites: None
Component: None
This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis. This course has been approved to satisfy the comprehensive articulated agreement pre-major and/or elective course requirement.

Ped 132 Racquetball-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of racquetball. Emphasis is placed on rules, fundamentals, and strategies of beginning racquetball. Upon completion, students should be able to play recreational racquetball. This course has been approved to satisfy the comprehensive articulated agreement pre-major and/or elective course requirement.
Component: None
This course covers more advanced bowling techniques. Emphasis is placed on refining basic skills and performing advanced shots, spins, pace, and strategy. Upon completion, students should be able to participate in competitive bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 143 Volleyball-Beginning 00 02 00 01
Prerequisites: PED 145
Corequisites: None
Component: None
This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 144 Volleyball-Intermediate 00 02 00 01
Prerequisites: PED 143
Corequisites: None
Component: None
This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 145 Basketball-Beginning 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 146 Basketball-Intermediate 00 02 00 01
Prerequisites: PED 145
Corequisites: None
Component: None
This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 147 Soccer 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of soccer. Emphasis is placed on rules, strategies, and fundamental skills. Upon completion, students should be able to participate in recreational soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 148 Softball 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 149 Flag Football 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals and rules of flag football. Emphasis is placed on proper techniques and strategies for playing in game situations. Upon completion, students should be able to participate in recreational flag football. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 150 Baseball/Beginning 00 03 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of baseball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 151 Baseball/Intermediate 00 03 00 01
Prerequisites: PED 150
Corequisites: None
Component: None
This course covers more advanced baseball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play baseball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 152 Swimming-Beginning 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
PED 153 Swimming-Intermediate
Prerequisites: PED 152
Corequisites: None
Component: None
This course is designed for those who have mastered basic swimming skills. Emphasis is placed on refining basic skills and learning new swim strokes. Upon completion, students should be able to demonstrate the four basic strokes, the scissor kick, the underwater swim, and other related skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 154 Swimming for Fitness
Prerequisites: PED 152
Corequisites: None
Component: None
This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 155 Water Aerobics
Prerequisites: None
Corequisites: None
Component: None
This course introduces rhythmic aerobic activities performed in water. Emphasis is placed on increasing cardiovascular fitness levels, muscular strength, muscular endurance, and flexibility. Upon completion, students should be able to participate in an individually-paced exercise program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 156 Scuba Diving
Prerequisites: PED 153
Corequisites: None
Component: None
This course provides basic instruction in fundamental skills and safety procedures for scuba diving. Emphasis is placed on the history, theory, and principles of diving; development of diving skills; safety; and care and maintenance of equipment. Upon completion, students should be able to demonstrate skills, knowledge, and techniques of scuba diving in preparation for diver certification. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 157 Whitewater Rafting
Prerequisites: PED 152
Corequisites: None
Component: None
This course covers the skills necessary to safely participate in whitewater rafting. Topics include raft guiding, paddling skills, scouting rapids, and rigging boats. Upon completion, students should be able to successfully complete a whitewater rafting experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 158 Canoeing-Basic
Prerequisites: PED 152
Corequisites: None
Component: None
This course provides basic instruction for the beginning canoeist. Emphasis is placed on safe and correct handling of the canoe and rescue skills. Upon completion, students should be able to demonstrate basic canoeing, safety-handling, and self-rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 159 Canoeing-Rivers
Prerequisites: PED 160
Corequisites: None
Component: None
This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 160 Kayaking-Basic
Prerequisites: PED 163
Corequisites: None
Component: None
This course is designed to teach the basic skills of kayaking. Topics include forward and reverse strokes, sweeps, Eskimo roll, and self-rescue skills. Upon completion, students should be able to maneuver and demonstrate safe kayaking practices. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 161 Kayaking-Whitewater
Prerequisites: PED 156
Corequisites: None
Component: None
This course covers the skills necessary to safely negotiate Class II and some Class III rapids. Topics include execution of a river roll, maneuvering, rescuing and retrieving kayaker and equipment. Upon completion, students should be able to safely negotiate Class II and some Class III rapids and perform all rescue skills. Some Class III rapids and perform all rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 162 Sport Science as a Career
Prerequisites: Take DRE-097 or ENG 090 and RED 090 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides students with foundational knowledge about the study of physical activity and career opportunities within the discipline. Emphasis will be placed on the role of physical activity, the subdisciplines of the field, and possible career choices. Upon completion, students should have an understanding of the subdisciplines and employment opportunities within an Exercise and Sport Science program. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 163 Orienteering
Prerequisites: None
Corequisites: None
Component: None
This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 164 Orienteering
Prerequisites: None
Corequisites: None
Component: None
This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 165 Backpacking
Prerequisites: None
Corequisites: None
Component: None
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing
and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 171 Nature Hiking**

Prerequisites: None  
Component: None  
Corequisites: None  

This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 172 Outdoor Living**

Prerequisites: None  
Component: None  
Corequisites: None  

This course is designed to acquaint the beginning camper with outdoor skills. Topics include camping techniques such as cooking and preserving food, safety, and setting up camp. Upon completion, students should be able to set up camp sites in field experiences using proper procedures. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 173 Rock Climbing**

Prerequisites: None  
Component: None  
Corequisites: None  

This course teaches the fundamental skills and safety of rock climbing. Topics include rock climbing, bouldering, rappelling, the correct method of belaying for climbing and rappelling, and knowledge of equipment. Upon completion, students should be able to demonstrate strong and skillful techniques in climbing and rappelling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 175 Horseback Riding I**

Prerequisites: None  
Component: None  
Corequisites: None  

This course introduces beginning and non-riders to recreational horseback riding. Topics include riding skills, equipment, handling of horses, mounting, care of the horse, and coordinated horse-rider balance. Upon completion, students should be able to demonstrate riding, safety, and horse management skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 176 Horseback Riding II**

Prerequisites: PED 175  
Component: None  
Corequisites: None  

This course is designed to give advanced riding experiences in a variety of specialized situations. Emphasis is placed on the development of skills such as jumping, rodeo games, and trail riding. Upon completion, students should be able to demonstrate control and management of the horse and perform various riding techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 181 Snow Skiing-Beginning**

Prerequisites: None  
Component: None  
Corequisites: None  

This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 182 Snow Skiing Intermediate**

Prerequisites: PED 181  
Component: None  
Corequisites: None  

This course is designed to further develop snow skiing skills. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 183 Folk Dancing**

Prerequisites: None  
Component: None  
Corequisites: None  

This course teaches the fundamental folk dance movements along with cultural traditions from various countries. Emphasis is placed on the history and traditions of the folk dance as well as the movements and the dances themselves. Upon completion, students should be able to demonstrate folk dances as well as knowledge of their origins and cultural traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 184 Square Dancing I**

Prerequisites: None  
Component: None  
Corequisites: None  

This course introduces the terminology and skills necessary to perform square dancing. Topics include working from squared sets-squared circles to squared throughs, right and left throughs, and Dixie Chains. Upon completion, students should be able to perform square dance routines and recognize the calls made for all formations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 185 Square Dancing II**

Prerequisites: PED 184  
Component: None  
Corequisites: None  

This course includes additional variations and forms of square dancing. Topics include such routines as turns, grand swing, triple trades, wheel and deal, T-cup chain, and arky change. Upon completion, students should be able to demonstrate and perform country and western square dance routines. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 186 Dancing for Fitness**

Prerequisites: None  
Component: None  
Corequisites: None  

This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the fundamentals of popular social dances. Emphasis is placed on basic social dance techniques, dances, and a brief history of social dance. Upon completion, students should be able to demonstrate specific dance skills and perform some dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 188 Social Dance-Intermediate
Prerequisites: PED 187
Corequisites: None
Component: None
This course covers advanced fundamentals of social dancing. Topics include rhythm, appearance, and routine sequence. Upon completion, students should be able to perform more difficult steps and types of dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 210 Team Sports
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 211 New Games
Prerequisites: None
Corequisites: None
Component: None
This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on playing for pleasure rather than for competitive purposes. Upon completion, students should be able to participate and lead others in participating in non-competitive games. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 217 Pilates I
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to the pilates method of body conditioning exercise. Topics include instruction in beginning and intermediate pilates exercises using a mat or equipment, history of the pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body's core muscles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

PED 218 Pilates II
Prerequisites: PED 217
Corequisites: None
Component: None
This course provides continued instruction in the pilates method of body conditioning exercise. Topics include instruction in intermediate and advanced pilates exercises using a mat or equipment, relevant anatomy and physiology, and further discussion of related concepts. Upon completion, students should be able to perform intermediate and advanced exercises, and possess the autonomy to maintain their own personal pilates practice.

PED 240 Advanced PE Skills
Prerequisites: None
Corequisites: None
Component: None
This course provides those who have mastered skills in a particular physical education area the opportunity to assist with instruction. Emphasis is placed on methods of instruction, class organization, and progressive skill development. Upon completion, students should be able to design, develop, and implement a unit lesson plan for a skill they have mastered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 252 Officiating/Baseball/Softball
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 254 Coaching Basketball
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 256 Coaching Baseball
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 259 Prevention & Care of Athletic Injuries
Prerequisites: None
Corequisites: None
Component: None
This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and rehabilitation methods. Upon completion, students should be able to provide basic first aid and emergency care in athletic settings. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PET 110 Introduction to PET
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces the students to the Positron Emission Tomography profession. Topics include the history of the profession and the role of the PET technologist, medical ethics and legal issues, and department organizations. Upon completion, students should be able to demonstrate a basic understanding of the PET profession through computerized exams and projects.

PET 112 PET Procedures
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course covers the procedures of Positron Emission Tomography. Topics include all relevant procedures related to PET imaging with an emphasis placed on oncology, neurology and cardiology. Upon completion, students should be able to demonstrate competence in PET procedures through computerized exams and projects.

PHI 210 History of Philosophy
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

PHI 215 Philosophical Issues
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

PHI 220 Western Philosophy I
Prerequisites: ENG 111
Corequisites: None
Component: None
This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

PHI 221 Western Philosophy II
Prerequisites: ENG 111
Corequisites: None
Component: None
This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

PHI 230 Introduction to Logic
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

PHI 240 Introduction to Ethics
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on moral theories such as consequentialism, deontology, and virtue ethics. Upon completion, students should be able to apply various ethical theories to moral issues such as abortion, capital punishment, poverty, war, terrorism, the treatment of animals, and issues arising from new technologies. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

PHM 110 Introduction to Pharmacy
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces pharmacy practice and the technician’s role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, drug delivery systems, law and ethics, prescription and medication orders, and the health care system. Upon completion, students should be able to explain the role of pharmacy technicians, read and interpret drug orders, describe quality assurance, and utilize pharmacy references.

PHM 111 Pharmacy Practice I
Prerequisites: Departmental Approval
Corequisites: PHM 110 and PHM 115
Component: None
This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, outpatient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
PHM 115 Pharmacy Calculations
Prerequisites: Departmental Approval
Corequisites: None
This course provides an introduction to the metric, avoirdupois, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order.

PHM 115A Pharmacy Calculations Lab
Prerequisites: Department Approval
Corequisites: None
This course provides an opportunity to practice and perform calculations encountered in pharmacy practice. Emphasis is placed on ratio and proportion, dosage calculations, percentage, reduction/enlargement formulas, aliquots, flow rates, and specific gravity/density. Upon completion, students should be able to perform the calculations required to properly prepare a medication order.

PHM 118 Sterile Products
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 120, PHM 136, and PHM 155
Component: None
This course provides an introduction to intravenous admixture preparation and other sterile products, including total parenteral nutrition and chemotherapy. Topics include aseptic techniques; facilities, equipment, and supplies utilized in admixture preparation; incompatibility and stability; laminar flow hoods; immunizations and irrigation solutions; and quality assurance. Upon completion, students should be able to describe and demonstrate the steps involved in preparation of intermittent and continuous infusions, total parenteral nutrition, and chemotherapy.

PHM 120 Pharmacology I
Prerequisites: None
Corequisites: Component: None
This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include nutritional products, blood modifiers, hormones, diuretics, cardiovascular agents, respiratory drugs, and gastrointestinal agents. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

PHM 125 Pharmacology II
Prerequisites: PHM 120
Corequisites: Component: None
This course provides a continuation of the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include autonomic and central nervous system agents, anti-inflammatory agents, and anti-infective drugs. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

PHM 136 Pharmacy Clinical
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 118, PHM 120 and PHM 155
Component: None
This course provides an opportunity to work in pharmacy setting under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

PHM 138 Pharmacy Clinical
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

PHM 140 Trends in Pharmacy
Prerequisites: PHM 136
Corequisites: PHM 125
Component: None
This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

PHM 150 Hospital Pharmacy
Prerequisites: None
Corequisites: PHM-118
Component: None
This course provides an in-depth study of hospital pharmacy practice. Topics include hospital organizational structure, committee functions, utilization of reference works, purchasing and inventory control, drug delivery systems, and intravenous admixture preparation. Upon completion, students should be able to explain hospital organization/committee functions, interpret and enter patient orders, fill unit-dose cassettes, and prepare intravenous admixtures.

PHM 155 Community Pharmacy
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 118, PHM 120, and PHM 136
Component: None
This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

PHM 160 Pharm Dosage Forms
Prerequisites: None
Corequisites: None
Component: None
This course is a study of pharmaceutical dosage forms and considerations in their manufacture. Topics include bioavailability, routes of administration, tablets, capsules, solutions, syrups, suspensions, elixirs, aerosols, transdermals, topicals, ophthalmics, otics, and other dosage forms. Upon completion, students should be able to describe the characteristics of the major dosage forms and explain how these characteristics affect the action of the drug.

PHM 165 Pharmacy Prof Practice
Prerequisites: None
Corequisites: None
Component: None
This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

This course introduces the physical environment with emphasis on the laws and physical concepts that impact the world and universe. Topics include astronomy, geology, meteorology, general chemistry, and general physics. Upon completion, students should be able to describe the forces and composition of the earth and universe. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course is a survey of the forces that impact the earth. Topics include geology, oceanography, and meteorology. Upon completion, students should be able to explain and identify the forces within, on, and around the earth as they influence the earth's dynamics. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Topics include systems of units, problem-solving methods, graphical analysis, static electricity, AC and DC circuits, magnetism, transformers, AC and DC motors, and generators. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

This course introduces the fundamental physical principles as they apply to health technologies. Topics include motion, force, work, power, simple machines, and other topics as required by the students’ area of study. Upon completion, students should be able to demonstrate an understanding of the fundamental principles covered as they relate to practical applications in the health sciences.

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
**PHY 252 General Physics II**
Prerequisites: MAT 272 and PHY 251
Corequisites: None
Component: None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PLU 110 Modern Plumbing**
Prerequisites: None
Corequisites: None
Component: PLU 110AA, PLU 110BB
This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements. requirements.

**PLU 120 Plumbing Applications**
Prerequisites: None
Corequisites: None
Component: None
This course covers general plumbing layout, fixtures, and water heaters. Topics include drainage, waste and vent pipes, water service and distribution, fixture installation, water heaters, and other related topics. Upon completion, students should be able to safely install common fixtures and systems in compliance with state and local building codes.

**PLU 130 Plumbing Systems**
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance and repair of plumbing lines and fixtures. Emphasis is placed on identifying and diagnosing problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system.

**PLU 140 Introduction to Plumbing Codes**
Prerequisites: None
Corequisites: None
Component: None
This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements for plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes.

**PLU 150 Plumbing Diagrams**
Prerequisites: PLU 110
Corequisites: None
Component: None
This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

**POL 110 Introduction to Political Science**
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Corequisites: None
Component: None
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**POL 120 American Government**
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Corequisites: None
Component: None
This course is a study of the origins, development, structure, and functions of American government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy process. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

**POL 130 State & Local Government**
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test
Corequisites: None
Component: None
This course covers general plumbing layout, fixtures, and water heaters. Topics include drainage, waste and vent pipes, water service and distribution, fixture installation, water heaters, and other related topics. Upon completion, students should be able to identify and discuss major international relationships, institutions, and alliances on relations among nation-states. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**POL 210 Comparative Government**
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country’s historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations’ governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**POL 220 International Relations**
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

PSY 211 Psychology of Adjustment
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 211 Psychology of Adjustment
Prerequisites: PSY 150
Corequisites: None
Component: None
This course introduces students to concepts which unite psychology and the legal system. Topics include defining competency, insanity, involuntary commitment, as well as introducing forensic assessment techniques, such as interviewing process, specialized assessments, and collecting collateral information. Upon completion, students should be able to demonstrate knowledge in areas of forensic psychology: risk assessment, criminal competencies, insanity, psychopathology, and mentally disordered offenders. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 231 Forensic Psychology
Prerequisites: PSY-150
Corequisites: None
Component: None

PSY 231 Forensic Psychology
Prerequisites: PSY 150 or SOC 210
Corequisites: None
Component: None
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 237 Social Psychology
Prerequisites: PSY 150 or SOC 210
Corequisites: None
Component: None

PSY 237 Social Psychology
Prerequisites: PSY 150 or SOC 210
Corequisites: None
Component: None
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 239 Psychology of Personality
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 239 Psychology of Personality
Prerequisites: PSY 150
Corequisites: None
Component: None
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.

PSY 241 Developmental Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 241 Developmental Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 243 Child Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 243 Child Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 246 Adolescent Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 246 Adolescent Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 247 Psychology of Adolescence
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 247 Psychology of Adolescence
Prerequisites: PSY 150
Corequisites: None
Component: None
This course examines the major theories and patterns of adult development from young adulthood to late adulthood. Topics include physical, cognitive, and psychosocial changes with an emphasis on relationships, family patterns, work roles, community interactions, and the challenges of each stage of adulthood. Upon completion, students should be able to demonstrate a knowledge of adult development and an ability to apply this knowledge to their own lives. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 249 Psychology of Aging
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 249 Psychology of Aging
Prerequisites: PSY 150
Corequisites: None
Component: None
This course covers the peculiar needs and behaviors of the maturing adult. Emphasis is placed on psychosocial processes; biological and intellectual aspects of aging; adjustments to retirement, dying, bereavement; and the stereotypes and misconceptions concerning the elderly. Upon completion, students should be able to show an understanding of the psychological factors related to the aging process. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 255 Introduction to Exceptionality
Prerequisites: PSY 150
Corequisites: None
Component: None

PSY 255 Introduction to Exceptionality
Prerequisites: PSY 150
Corequisites: None
Component: None
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course covers the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation, contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 263 Educational Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 265 Behavioral Modification
Prerequisites: PSY 150
Corequisites: None
Component: None
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.

PSY 271 Sports Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 275 Health Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course covers the biopsychosocial dynamics of stress and the maintenance of good health. Topics include enhancing health and well-being, stress management, lifestyle choices and attitudes, the mind-body relationship, nutrition, exercise, and fitness. Upon completion, students should be able to demonstrate an understanding of the psychological factors related to health and well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 281 Abnormal Psychology
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PTA 110 Introduction to Physical Therapy
Prerequisites: Departmental Approval
Corequisites: PHY 125 and PTA 130
Component: None
This course introduces the field of physical therapy including the history and standards of practice for the physical therapist assistant and basic treatment techniques. Emphasis is placed on ethical and legal considerations, universal precautions, vital signs, documentation, basic patient preparation and treatment skills, and architectural barrier screening. Upon completion, students should be able to explain the role of the physical therapist assistant and demonstrate competence in basic techniques of patient care.

PTA 120 Functional Anatomy
Prerequisites: PTA 110
Corequisites: PTA 140 and PTA 150
Component: None
This course provides an organized study of anatomy and kinesiology. Emphasis is placed on the integration of structure and function of the skeletal, articular, muscular, nervous, and circulatory systems to include gait analysis. Upon completion, students should be able to describe the components and demonstrate function of these systems as applied to physical therapy.

PTA 130 Physical Therapy Procedures I
Prerequisites: PHY 125 and PTA 110
Corequisites: None
Component: None
This course includes concepts of injury and repair and documentation methods. Emphasis is placed on physiological effects, indications, contraindications, and skilled applications of selected therapeutic modalities. Upon completion, students should be able to safely, correctly, and effectively apply the emphasized techniques and procedures with understanding of correct documentation.

PTA 140 Therapeutic Exercise
Prerequisites: PTA 110
Corequisites: PTA 120 and PTA 150
Component: None
This course covers muscle physiology, exercise concepts, testing, and applications to the spine and extremities. Topics include strength, endurance, flexibility, and exercise protocols and progressions. Upon completion, students should be able to demonstrate skill in applying therapeutic exercise principles for non-neurological conditions in a safe and appropriate manner.

PTA 150 Physical Therapy Procedures II
Prerequisites: PTA 130
Corequisites: PTA 120 and PTA 140
Component: None
This course is designed to include the theory and practice of additional therapeutic interventions. Topics include but are not limited to electrotherapy, burn and wound care, biofeedback, and selected data collection methods. Upon completion, students should be able to apply these modalities and treatment techniques effectively and safely and demonstrate knowledge of physiological principles involved.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
PTA 160 Physical Therapy Procedures III  02 03 00 03
Prerequisites:  PTA 150
Corequisites:  PTA 170 and PTA 180AA
Component:  None
This course introduces treatment and measurement techniques and discusses treatment programs for selected neuromusculoskeletal dysfunction and injuries. Topics include soft tissue and joint dysfunction, selected assessment techniques, and various exercise programs. Upon completion, students should be able to demonstrate the application of selected data collection methods and functional interventions.

PTA 170 Pathophysiology  03 00 00 03
Prerequisites:  None
Corequisites:  PTA 160 and PTA 180AA
Component:  None
This course is a survey of basic pathology with emphasis on conditions most frequently observed and treated in physical therapy. Topics include etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain repair processes, categorize diseases, define pathology, identify organ/body systems involved, and discuss treatment and prognosis.

PTA 180 PTA Clinical Education Introduction  00 00 09 03
Prerequisites:  Departmental Approval
Corequisites:  None
Component:  PTA 180AA, PTA 180BB
This course introduces the physical therapy clinic in planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care and communication. Upon completion, students should be able to demonstrate satisfactory performance in learned patient care skills, communication activities, and professional behaviors. PTA 180A must be completed satisfactorily before registering for PTA 180B.

PTA 212 Health Care/Resources  02 00 00 02
Prerequisites:  PTA 222
Corequisites:  PTA 260
Component:  None
This course provides an overview of various aspects of health care delivery systems and the interrelationships of health care team members. Topics include health agencies and their functions, health care team member roles, management, and other health care issues. Upon completion, students should be able to discuss the functions of health organizations and team members and aspects of health care affecting physical therapy delivery.

PTA 222 Professional Interactions  02 00 00 02
Prerequisites:  PTA 160
Corequisites:  None
Component:  None
This course is designed to assist in the development of effective interpersonal skills in the physical therapist assistant setting. Topics include reactions to disability, the grieving process, methods of communication, motivation, health promotion, disease prevention, and aging. Upon completion, students should be able to discuss and demonstrate methods for achieving effective interaction with patients, families, the public, and other health care providers.

PTA 240 Physical Therapy Procedures IV  03 06 00 05
Prerequisites:  None
Corequisites:  None
Component:  None
This course covers normal development, adult and pediatric/CNS dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations.

PTA 260 Advanced PTA Clinical Education  00 00 30 10
Prerequisites:  PTA 180AA and PTA 180BB
Corequisites:  PTA 212
Component:  None
This course provides full-time clinical affiliations for planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care, communications, and professional behaviors. Upon completion, students should be able to demonstrate satisfactory performance as an entry-level physical therapist assistant and as a member of the physical therapy team.

RAD 110 RAD Introduction & Patient Care  02 03 00 03
Prerequisites:  Departmental Approval
Corequisites:  RAD 111 and RAD 151
Component:  None
This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

RAD 111 RAD Procedures I  03 03 00 04
Prerequisites:  Departmental Approval
Corequisites:  All courses required: RAD 110 and RAD 151
Component:  None
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

RAD 112 RAD Procedures II  03 03 00 04
Prerequisites:  All courses required: RAD 110, RAD 111 and RAD 151
Corequisites:  RAD 121 and RAD 161
Component:  None
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.

RAD 121 Radiographic Imaging I  02 03 00 03
Prerequisites:  All courses required: RAD 110, RAD 111 and RAD 151
Corequisites:  None
Component:  None
This course provides the principles of conventional film-screen radiography. Emphasis is placed on the factors that impact density, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of conventional film-screen radiographic imaging.

RAD 122 Radiographic Imaging II  01 03 00 02
Prerequisites:  All courses required: RAD 112, RAD 121 and RAD 161
Corequisites:  RAD 131 and RAD 171
Component:  None
This course provides advanced principles of imaging including digital radiography. Emphasis is placed on the factors that impact brightness, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of advanced principles of imaging.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces the principles of radiation characteristics and production. Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate a basic understanding of radiation characteristics and production.

**RAD 151 RAD Clinical Ed I**
Prerequisites: Departmental Approval
Corequisites: All courses required: RAD 110 and RAD 111
Component: None
This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 161 RAD Clinical Ed II**
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: RAD 112 and RAD 121
Component: None
This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 171 RAD Clinical Ed III**
Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161
Corequisites: RAD 122 and RAD 131
Component: None
This course provides experience in patient management specific to fluoroscopic and advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of gastrointestinal and urological studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 211 RAD Procedures III**
Prerequisites: RAD 122
Corequisites: All courses required: RAD 231, RAD 241 and RAD 251
Component: None
This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, sectional anatomy, and advanced imaging. Upon completion, students should be able to demonstrate an understanding of these areas.

**RAD 231 Radiographic Physics II**
Prerequisites: RAD 171 or RAD 131
Corequisites: None
Component: None
This course provides advanced principles of radiation characteristics and production including digital imaging and Computed Tomography (CT). Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate an understanding of radiation characteristics and production.

**RAD 241 Radiation Protection**
Prerequisites: All courses required: RAD 122, RAD 131 and RAD 171
Corequisites: All courses required: RAD 211, RAD 231 and RAD 251
Component: None
This course covers the principles of radiation protection and radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology.

**RAD 245 Radiographic Analysis**
Prerequisites: RAD 211, RAD 231, RAD 241, and RAD 251
Corequisites: RAD 261
Component: None
This course provides an overview of image analysis and introduces methods of quality management. Topics include image evaluation, pathology, quality control, and quality assurance. Upon completion, students should be able to demonstrate a basic knowledge of image analysis and quality management.

**RAD 251 RAD Clinical Ed IV**
Prerequisites: All courses required: AD 122, RAD 131, RAD 171
Corequisites: All courses required: RAD 211, RAD 231, RAD 241
Component: None
This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 261 RAD Clinical Ed V**
Prerequisites: RAD 251
Corequisites: All courses required: RAD 245, RAD 281
Component: None
This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RCP 110 Introduction to Respiratory Care**
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces the respiratory care profession. Topics include the role of the respiratory care practitioner, medical gas administration, basic patient assessment, infection control, and medical terminology. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
RCP 111 Therapeutics/Diagnostics
Prerequisites: RCP 110
Corequisites: None
Component: None
This course is a continuation of RCP 110. Emphasis is placed on entry-level therapeutic and diagnostic procedures used in respiratory care. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 113 RCP Pharmacology
Prerequisites: None
Corequisites: RCP 110
Component: None
This course covers the drugs used in the treatment of cardiopulmonary diseases. Emphasis is placed on the uses, actions, indications, administration, and hazards of pharmacological agents. Upon completion, students should be able to demonstrate competence through written evaluations.

RCP 114 C-P Anatomy & Physiology
Prerequisites: None
Corequisites: None
Component: None
This course provides a concentrated study of cardiopulmonary anatomy and physiology essential to the practice of respiratory care. Emphasis is placed on clinical signs and symptoms along with diagnoses, complications, prognoses, and management. Upon completion, students should be able to demonstrate competence in these concepts through written evaluation.

RCP 115 C-P Pathophysiology
Prerequisites: BIO 163
Corequisites: None
Component: None
This course introduces the etiology, pathogenesis, and physiology of cardiopulmonary diseases and disorders. Emphasis is placed on clinical signs and symptoms along with diagnoses, complications, prognoses, and management. Upon completion, students should be able to demonstrate competence in these concepts through written evaluations.

RCP 132 RCP Clinical Practice I
Prerequisites: None
Corequisites: RCP 110
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 143 RCP Clinical Practice II
Prerequisites: RCP 110
Corequisites: RCP 111
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 152 RCP Clinical Practice III
Prerequisites: RCP-111
Corequisites: None
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 153 RCP Clinical Practice III
Prerequisites: RCP 111
Corequisites: None
Component: None
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 210 Critical Care Concepts
Prerequisites: RCP 223
Corequisites: None
Component: None
This course provides further refinement of acute patient care and underlying pathophysiology. Topics include a continuation in the study of mechanical ventilation, underlying pathophysiology, and introduction of critical care monitoring. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 211 Advanced Monitoring/Procedures
Prerequisites: RCP 210
Corequisites: None
Component: None
This course includes advanced information gathering and decision making for the respiratory care professional. Topics include advanced cardiac monitoring and special procedures. Upon completion, students should be able to evaluate, design, and recommend appropriate care plans through written and laboratory evaluations.

RCP 214 Neonatal/Pediatric RC
Prerequisites: RCP 111
Corequisites: None
Component: None
This course provides in-depth coverage of the concepts of neonatal and pediatric respiratory care. Emphasis is placed on neonatal and pediatric pathophysiology and on the special therapeutic needs of neonates and children. Upon completion, students should be able to demonstrate competence in these concepts through written and laboratory evaluations.

RCP 215 Career Prep-Adv Level
Prerequisites: None
Corequisites: None
Component: None
This course provides preparation for employment and the advanced-level practitioner credentialing exam. Emphasis is placed on review of the NBRC Advanced-Level Practitioner Exam and supervision and management. Upon completion, students should be able to successfully complete the appropriate self-assessment examinations and meet the requirements for employment.

RCP 223 Special Practice Lab
Prerequisites: RCP 111
Corequisites: None
Component: None
This course provides additional laboratory learning opportunities in respiratory care. Emphasis is placed on therapeutic procedures and equipment management. Upon completion, students should be able to demonstrate competence in concepts and procedures through laboratory evaluations. This course provides entry level skills in adult mechanical ventilation.

RCP 226 RCP Clinical Practice IV
Prerequisites: RCP-111
Corequisites: RCP-210
Component: None
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
RCP 238 RCP Clinical Practice IV
Prerequisites: RCP 111
Corequisites: RCP 210
Component: None
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 248 RCP Clinical Practice V
Prerequisites: RCP 210
Corequisites: RCP 211
Component: None
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RED 070 Essential Reading Skills
Prerequisites: Placement
Corequisites: None
Component: None
This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.

RED 080 Introduction to College Reading
Prerequisites: RED 070 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context.

RED 090 Improved College Reading
Prerequisites: RED 080 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author’s purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material.

REL 110 World Religions
Prerequisites: None
Corequisites: None
Component: None
This course introduces the world’s major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 111 Eastern Religions
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 121 Introduction to Old Testament
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 212 Introduction to New Testament
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 221 Religion in America
Prerequisites: ENG-111
Corequisites: None
Component: None
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 111 Elementary Russian I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
This course provides an opportunity for intensive communication in spoken Russian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, to express ideas and opinions clearly, and to engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 281 Russian Lab 3
Prerequisites: RUS 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 282 Russian Lab 4
Prerequisites: RUS 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Russian language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SEC 110 Security Concepts
Prerequisites: Take DMA 040 and RED 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SEC 150 Secure Communications
Prerequisites: Take SEC 110 and NET 110 or NET 125.
Corequisites: None
Component: None
This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPSec. Upon completion, students should be able to implement secure data transmission technologies.

SEC 160 Secure Admin I
Prerequisites: Take SEC 110 and NET 110 or NET 125.
Corequisites: None
Component: None
This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

SEC 210 Intrusion Detection
Prerequisites: SEC 160
Corequisites: None
Component: None
This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems.

SEC 220 Defense-In-Depth
Prerequisites: None
Corequisites: SEC 160
Component: None
This course introduces students to the concepts of defense in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

SEC 240 Wireless Security
Prerequisites: Take SEC 110, NET 175, DMA 040, and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.

SEC 289 Security Capstone Project
Prerequisites: Take SEC 220, DMA 040, and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides the student the opportunity to put into practice all the skills learned at this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

SGD 112 SGD Design
Prerequisites: Take DRE 096 or ENG 070 and RED 070 or Placement Test Credit Equivalent
Corequisites: SGD 111
Component: None
This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 113 SGD Programming
Prerequisites: Take DMA 040 or MAT 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

SGD 114 3D Modeling
Prerequisites: None
Corequisites: None
Component: None
This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

SGD 116 Graphic Design Tools
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to computer-based graphic design tools and their use within the context of simulation and game design. Topics include texture creation, map creation, and introduction to advanced level graphic design techniques. Upon completion, students should be able to competently use and explain industry-standard graphic design software.

SGD 122 SG Database Programming
Prerequisites: Take SGD 113
Corequisites: None
Component: None
This course covers the creation and application of databases for simulation and game development. Emphasis is placed on various database and software development kits. Upon completion, students should be able to apply their knowledge of databases to the creation of simulations and games.

SGD 125 SG Artificial Intellig
Prerequisites: CSC 153 and MAT 171
Corequisites: None
Component: None
This course introduces the artificial intelligence concepts related to simulation and game development. Emphasis is placed on expert systems. Upon completion, students should be able to describe the basic concepts and procedures related to the development of artificial intelligence systems used in simulations and games.

SGD 134 SG Quality Assurance
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to software quality assurance as it relates to simulation and game development. Emphasis is placed on designing testing tools, bug databases, and on learning methodologies required for systematic, detail-oriented testing procedures for the simulation and game industry. Upon completion, students should be able to demonstrate the proper skills to obtain a job as a quality assurance tester in the simulation/game industry.
SGD 158 SGD Business Management  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developer relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 159 SGD Production Management  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the techniques and methods used in interactive game production and how to manage a project. Emphasis is placed on scheduling, production plans, marketing and budgeting. Upon completion, students should be able to manage a team, track production, and understand the process of project management.

SGD 161 SG Animation  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the fundamental principles of animation used in simulation and game development. Emphasis is placed on a historical survey of animation, aspects of the animation process and animation techniques. Upon completion, students should be able to produce character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 162 SG 3D Animation  
Prerequisites: SGD 114  
Corequisites: None  
Component: None  
This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on a historical survey of 3D animation, aspects of the 3D animation process and 3D animation techniques. Upon completion, students should be able to produce 3D character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 163 SG Documentation  
Prerequisites: None  
Corequisites: SGD 212  
Component: None  
This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

SGD 164 SG Audio/Video  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces various aspects of audio and video and their application in simulations and games. Topics include techniques for producing and editing audio and video for multiple digital mediums. Upon completion, students should be able to produce and edit audio and video for simulations and games.

SGD 168 Mobile SG Programming I  
Prerequisites: SGD 113  
Corequisites: None  
Component: None  
This course introduces the mobile simulation and game programming process. Topics include mobile simulation/game programming, performance tuning, animation, sound effects, music, and mobile networks. Upon completion, students should be able to apply simulation/game programming concepts to the creation of mobile simulations and games.

SGD 171 Flash SG Programming  
Prerequisites: SGD 113  
Corequisites: None  
Component: None  
This course introduces the Flash programming environment for use in simulation and game development. Topics include timeline effects, extensibility layers, alias text, globalization tools, ActionScript and lingo programming. Upon completion, students should be able to create a simple simulation or game using Flash.

SGD 172 Virtual SG Environments  
Prerequisites: SGD 114 and CSC134, CSC151, CSC153 or SGD113  
Component: None  
This course covers the use of virtual reality tools and techniques in simulation and game development. Emphasis is placed on acquiring the skills necessary to create scalable virtual characters and environments for use in simulations and games. Upon completion, students should be able to create a simple game or simulation in a virtual environment.

SGD 174 SG Level Design  
Prerequisites: Take SGD 111  
Corequisites: None  
Component: None  
This course introduces the tools used to create levels for real-time simulations and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

SGD 181 Machinima  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers machinima techniques in the simulation and game industry. Emphasis is placed on developing movies and animations within industry-standard game engines for simulations and games. Upon completion, students should be able to demonstrate a basic understanding of in-game cinematic creation.

SGD 210 3D Data Capture  
Prerequisites: SGD 114  
Corequisites: None  
Component: None  
This course introduces students to the tools used to capture data in a 3D environment. Emphasis is placed on capturing data from motion capture and/or 3D scanning devices for use in 3D models and animations. Upon completion, students should be able to capture data from a 3D environment and import for use in 3D models, simulations, and animations.

SGD 212 SGD Design II  
Prerequisites: SGD 112  
Corequisites: None  
Component: None  
The course covers the advanced principles of simulation and game design. Topics include advanced design concepts in simulation and game development. Upon completion, students should be able to design an advanced simulation or game.

SGD 213 SGD Programming II  
Prerequisites: SGD 113, CSC-134, CSC-151, or CSC-153  
Corequisites: None  
Component: None  
The course covers advanced programming concepts used to create simulations and games. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to program an advanced simulation or game.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
SLP 220 Assistive Technology 01 02 00 02
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140
Corequisites: SLP 211 and SLP 212
Component: None
This course introduces the preparation, use, and maintenance of selected communication equipment in the treatment of respective disorders. Emphasis is placed on the collaborative use of assistive equipment for speech, language, and hearing disorders. Upon completion, students should be able to instruct the patient and caregiver in the use and maintenance of assistive communication equipment.

SLP 230 SLP Fieldwork 00 00 12 04
Prerequisites: SLP 211 and SLP 212
Corequisites: SLP 231
Component: None
This course provides supervised fieldwork experience in speech-language pathology assisting in a minimum of two diverse sites. Emphasis is placed on the use of written protocols in providing patient care. Upon completion, students should be able to integrate ethical concepts into safe and effective clinical practice.

SOC 210 Introduction to Sociology 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 213 Sociology of the Family 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 215 Group Processes 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces group processes and dynamics. Emphasis is placed on small group experiences, roles and relationships within groups, communication, cooperation and conflict resolution, and managing diversity within and among groups. Upon completion, students should be able to demonstrate the knowledge and skills essential to analyze group interaction and to work effectively in a group context. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SOC 220 Social Problems 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

SOC 221 Social Diversity 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 222 Social Context of Aging 03 00 00 03
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.
This course examines contemporary roles in society with special emphasis on recent changes. Topics include sex role socialization, myths and stereotypes, gender issues related to family, work, and power. Upon completion, students should be able to analyze modern relationships between men and women. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SOC 240 Social Psychology
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 242 Sociology of Deviance
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

SOC 244 Sociology of Death & Dying
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SOC 250 Sociology of Religion
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines religion from a sociological perspective as part and product of human society. Topics include the origins, development, and functions of belief systems; religious organizations; conversion; and interactions with politics, the economy, science, and the class system. Upon completion, students should be able to describe and analyze religious systems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SOC 252 Sociology of Work
Prerequisites: Take DRE-098 or ENG-090 and RED-090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an understanding of the work experience in terms of rewards, satisfaction, exploitation, alienation, and institutional function and structure. Topics include an examination of industrial, professional, office, and executive work settings in relation to technology, management, and career opportunities. Upon completion, students should be able to understand work in its changing roles, institutions, and economic impact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 111 Elementary Spanish I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 112 Elementary Spanish II
Prerequisites: SPA 111
Corequisites: None
Component: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 120 Spanish for the Workplace
Prerequisites: None
Corequisites: None
Component: None
This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.

SPA 141 Culture and Civilization
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
SRV 110 Surveying I  02 06 00 04  
Prerequisites:  None  
Component:  None  
This course introduces the theory and practice of plane surveying. Topics include the precise measurement of distances, angles, and elevations; bearing, azimuth and traverse computations; topography and mapping. Upon completion, students should be able to use/care for surveying equipment, collect field survey data, perform traverse computations and create a contour map.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.

This course introduces boundary surveying, land partitioning, and calculations of areas. Topics include advanced traverses and adjustments; preparation of survey documents, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.

This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, aesthetic considerations, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.

This course covers toposographic, site, and construction surveying. Topics include toposographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare toposhographic maps and site plans and locate and stake out construction projects.

This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/non-renewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts.

This course is designed to introduce the student to sustainable building design and construction principles and practices. Topics include sustainable building rating systems and certifications, energy efficiency, indoor environmental quality, sustainable building materials and water use. Upon completion, students should be able to identify the principles and practices of sustainable building design and construction.

This course is designed to introduce the primary responsibilities of a central sterile technician. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

This course provides supervised experience in sterile processing techniques in a clinical facility. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test taking strategies, résumé preparation, and interviewing techniques. Upon completion, students should be able to prepare a résumé, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification. This is a diploma-level course.

This course provides a comprehensive study of the operative environment, professional roles, moral/legal/ethical responsibilities, and medical communications used in surgical technology. Topics include: professional behaviors, medical terminology, interdepartmental/peer/relationships, operating room environment/safety, pharmacology, anesthesia, incision sites, physiology of wound healing, and biomedical sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the operative environment.

This course provides theoretical knowledge for the application of essential operative skills during the perioperative phase. Topics include surgical asepsis, sterilization/disinfection, and perioperative patient care. Upon completion, students should be able to demonstrate the principles and practices of aseptic technique, sterile attire, basic case preparation, and other relevant skills.
This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

This course provides clinical experience with a variety of perioperative assignments to build upon skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.

This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.

This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

This course covers the theory of refrigeration and heating, electrical/electronics, pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
Students should be able to create Internet multimedia presentations utilizing animation plug-in programs and other related topics. Upon completion, acquisition of digital audio/video, streaming audio/video and graphics topics include Internet multimedia file types, file type conversion, and addressing problems peculiar to WWW display using appropriate software. This course is the first of two courses covering the creation of Internet Multimedia.

Component: None
Prerequisites: WEB-110
WEB 110 Internet/Web Fundamentals 02 02 00 03
Prerequisites: Take DMA 040 and DRE 096 or ENG 070, MAT 070, and RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces World Wide Web Consortium (W3C) standard markup language and services of the Internet. Topics include creating web pages, search engines, FTP, and other related topics. Upon completion, students should be able to deploy a hand-coded website created with mark-up language, and effectively use and understand the function of search engines. This course is also available through the Virtual Learning Community (VLC).

WEB 111 Intro to Web Graphics 02 02 00 03
Prerequisites: Take DMA 040 or MAT 070
Corequisites: None
Component: None
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners, buttons, backgrounds, and other graphics for Web pages.

WEB 115 Web Markup and Scripting 02 02 00 03
Prerequisites: WEB-110
Corequisites: None
Component: None
This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards. This course is also available through the Virtual Learning Community (VLC).

WEB 120 Intro Internet Multimedia 02 02 00 03
Prerequisites: WEB-110
Corequisites: None
Component: None
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

WEB 125 Mobile Web Design 02 02 00 03
Prerequisites: WEB-110
Corequisites: None
Component: None
This course introduces students to web design for mobile devices. Topics include planning an effective mobile Web site, industry standard Mobile Markup Language, CSS3, multimedia, m-commerce, social media, testing, and publishing. Upon completion, students should be able to plan, develop, test, and publish Web content designed for mobile devices.

WEB 140 Web Development Tools 02 02 00 03
Prerequisites: WEB-120
Corequisites: None
Component: None
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 151 Mobile Application Dev I 02 02 00 03
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

WEB 180 Active Server Pages 02 02 00 03
Prerequisites: CIS 115 and WEB 120
Corequisites: None
Component: None
This course introduces active server programming. Topics include HTML forms processing and other issues related to developing active web applications. Upon completion, students should be able to create and maintain a dynamic website.

WEB 182 PHP Programming 02 02 00 03
Prerequisites: CIS 115 and WEB 120
Corequisites: None
Component: None
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 183 Perl Programming 02 02 00 03
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs.

WEB 191S Selected Topics in Web Tech. 01 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
WEB 210 Web Design
Prerequisites: WEB-110
Corequisites: None
Component: None
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. This course is also available through the Virtual Learning Community (VLC).

WEB 214 Social Media
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to social media for organizations. Topics include social media, marketing strategy, brand presence, blogging, social media analytics and technical writing. Upon completion, students should be able to utilize popular social media platforms as part of a marketing strategy, and work with social media analytics tools.

WEB 220 Advanced Multimedia
Prerequisites: WEB 120 and WEB 140
Corequisites: None
Component: None
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.

WEB 230 Implementing Web Serv
Prerequisites: NET 110 or NET 125
Corequisites: None
Component: None
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security
Prerequisites: WEB 110 and SEC 110 and CIS 110 or CIS 111
Corequisites: None
Component: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Websites
Prerequisites: DBA 110
Corequisites: None
Component: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 251 Mobile Application Dev II
Prerequisites: WEB 151
Corequisites: None
Component: None
This course covers advanced applications and custom programming to develop applications for mobile devices. Topics include device capabilities, OS specific Software Development Kits (SDK), scripting for functionality and designing interactivity. Upon completion, students should be able to demonstrate effective programming techniques to develop advanced mobile applications.

WEB 285 Emerging Web Technologies
Prerequisites: WEB-125
Corequisites: None
Component: None
This course will explore, discuss, and research emerging technologies in the web arena. Emphasis is placed on exposure to up-and-coming technologies relating to the web, providing hands-on experience, and discussion of practical implications of these emerging fields. Upon completion, students should be able to articulate issues relating to these technologies.

WLD 110 Cutting Processes
Prerequisites: None
Corequisites: WLD-115
Component: None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112 Basic Welding Processes
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate
Prerequisites: None
Corequisites: WLD 110
Component: None
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe
Prerequisites: WLD 115
Corequisites: None
Component: None
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 121 GMAW (MIG) FCAW/Plate
Prerequisites: None
Corequisites: None
Component: None
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
WLD 131 GTAW (TIG) Plate
Prerequisites: None
Corequisites: None
Component: None
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 132 GTAW (TIG) Plate/Pipe
Prerequisites: WLD 131
Corequisites: None
Component: None
This course is designed to enhance skills with the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

WLD 141 Symbols & Specifications
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 143 Welding Metallurgy
Prerequisites: None
Corequisites: WLD 115
Component: None
This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding.

WLD 151 Fabrication I
Prerequisites: WLD 115, WLD 121, & WLD 131
Corequisites: None
Component: None
This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, cutting, joining techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

WLD 261 Certification Practices
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
Corequisites: None
Component: None
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

WLD 262 Inspection & Testing
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
Corequisites: WLD 261
Component: None
This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academic_services/index.aspx.
